RE: Change in Ownership Water Right No(s): 63-21466,

Dear Interested Parties:

The Idaho Department of Water Resources (Department) received a from you on October 17, 2022 for the above referenced water rights. The Notice could not be processed because a copy of a conveyance document was not provided. The conveyance document must include a legal description of the property or description of the water right if no land is conveyed.

The Department is returning your Notice of Change in Water Right Ownership and the attachments. A refund of \$25 has been requested and will be mailed to you under separate cover from the Idaho State Controller's Office.

If you have any questions regarding this matter, please contact me at (208) 287-4942.

Sincerely,

Jean Hersley  
Technical Records Specialist 2

4. If the water rights and/or adjudication claims were split, how did the division occur?
- ☒ The water rights or claims were divided as specifically identified in a deed, contract, or other conveyance document.
- ☐ The water rights or claims were divided proportionately based on the portion of their place(s) of use acquired by the new owner.
5. Date you acquired the water rights and/or claims listed above: 9/6/2022
6. Do you own the land identified as the water right place of use? Yes ☐ No ☒
- o If no, attach evidence that written notice of the change of water right ownership has been delivered to the landowner of record.
7. This form must be signed and submitted with the following **REQUIRED** items:

- ☐ A copy of the conveyance document – warranty deed, quitclaim deed, court decree, contract of sale, etc. The conveyance document must include a legal description of the property or description of the water right(s) if no land is conveyed.
- ☐ Plat map, survey map or aerial photograph which clearly shows the place of use and point of diversion for each water right and/or claim listed above (if necessary to clarify division of water rights or complex property descriptions).
- ☐ Filing fee (see instructions for further explanation):
- ☒ \$25 per *undivided* water right.
- ☐ \$100 per *split* water right.
- ☐ No fee is required for pending adjudication claims.
- ☐ If water right(s) are leased to the Water Supply Bank AND there are multiple owners, a Lessor Designation form is required.
- ☐ If water right(s) are leased to the Water Supply Bank, the individual owner or designated lessor must complete, sign and submit an IRS Form W-9

1. Potable municipal water may be used for irrigation purposes only if one or more of the following conditions are met. Please mark one of the following:

☐ Irrigation water is not available within 250 feet of new commercial developments with less than 10,000 irrigable square feet, or for single-family residential lots outside of Caldwell Irrigation Lateral District, where irrigation water is not available within 150 feet of the property in question.

☒ The irrigation water system cannot be physically extended as determined by the appropriate irrigation district

☒ The property in question does not have, and has not had for any of the past 3 years, an irrigation water right and cannot obtain one from the irrigation district by which the property is bounded. Said irrigation district must certify to the city that such a right is not available and cannot be provided.

☐ When due to physical health or ability, the operation of the gravity irrigation system has become too difficult to manage, a written letter explaining the hardship case shall be attached to the application for

consideration. Hardship cases are mutually approved on a case by case basis by the public works director/city engineer and water department.

2. Owner, Developer and Engineer please initial the following statements indicating that they have been read and understood and that they will be complied with exactly:

RB

Applications are approved or denied on a case-by-case basis by the City Engineer.

RB

If a property is reliant upon City water for irrigation purposes and opportunity becomes available to connect to a pressurized irrigation system, that connection shall take place.

RB

In the event the above statement occurs, lock out devices approved by the City shall be installed to ensure that City water is no longer used during the irrigation season.

RB

Any connection to the potable water system for irrigation shall be made in compliance with City and Caldwell Municipal Irrigation District standards including the use of an approved backflow prevention device and must be approved by the City Engineer.

RB

Design of the irrigation system shall follow the requirements of Caldwell Municipal Irrigation District.

I understand this application shall not be considered complete until all required information has been submitted. All the information, statements, attachments and exhibits transmitted with this application are true to the best of my knowledge.

#### 04-17-09: WATER CONNECTIONS, CONSTRUCTION REGULATIONS:

(1) **Boundaries:** The city council shall establish by ordinance the boundaries of the city irrigation system, and may, from time to time, contract, extend or enlarge the boundaries of said system by ordinance. A copy of any such ordinance duly certified to be correct by the city clerk shall be recorded in the office of the recorder of Canyon County, state of Idaho.

(2) **Property Connections:** Each property within the duly described boundaries of the city irrigation system may be connected to the irrigation main through a city irrigation service line, upon compliance with the terms of this article and any policies adopted pursuant thereto.

(3) **Application For Service Connection And Permit To Use Water:** An application for city irrigation service shall be made by the owner of the property to the water superintendent or other assigned officer. The application shall contain a full, true and accurate statement of the size of the connection desired, a description of the premises upon which such connection is to be made, the full name of all owners and shall otherwise conform to the rules and regulations provided for the city irrigation system. No water shall be introduced into any connection unless a permit has first been approved by the water superintendent or assigned officer, and all fees set forth in the rate schedule adopted by resolution of the city council have been paid. **The applicant shall have the responsibility of determining and/or providing the appropriate water rights.**

(4) **Private Irrigation Service Line:** All materials and workmanship used in the installation of private water service lines shall conform to city specifications and codes. The furnishing of all labor and materials shall be the sole responsibility of the owner.

(5) **No Connections Outside The City:** Requests for water line connections outside the city limits are governed by the "service connection policy - outside the city limits", which policy shall be adopted by resolution of the city council.

#### (6) Extension Of Irrigation Mains And Irrigation Main Fee:

A. All proposed extensions of the irrigation mains to service undeveloped areas within the boundaries of the city irrigation system shall comply with existing policies, specifications, master plans, or requirements established by the city engineer. The plans for all extensions to the city irrigation mains shall be prepared under the direction of and signed by a registered professional engineer as per the licensing requirements of Idaho law, and three (3) copies of the said plans shall be filed with the city. In approving a plan for extension of irrigation mains, the city reserves the right and discretion to establish other conditions and requirements such as a special permit fee, rights of way limits, sequence of construction, time limits for having existing service disrupted, the filing of a performance bond and other similar measures as may be required to protect the public. No work shall commence on any extension of irrigation mains until the extension project has been included within the boundaries of the city irrigation system and written approval of design plans have been provided by the city engineer. A permit shall not be issued until all applicable fees have been paid.

B. All irrigation main extensions and appurtenances shall be constructed at the expense of the applicant by a qualified contractor in accordance with city specifications and subject to conditions and fees established by the city.

C. The city shall charge an irrigation main extension fee on all new development that will be provided irrigation service by the city irrigation system. The amount of the fee and the methods of derivation shall be in accordance with the rate schedule adopted by resolution of the city council. (Ord. 2504, 7-6-2004)

(7) **Construction Methods And Materials:** The materials and methods used for construction of city irrigation service lines, private irrigation service lines, irrigation mains or city irrigation system appurtenances shall conform to the requirements of all codes and specifications as may be adopted by the city council. The city may reject any materials or workmanship for cause, and upon such order, the rejected materials shall be removed and replaced with approved materials. The "2015 Idaho

RETURNED

Standards For Public Works Construction" as supplemented by the "Caldwell Municipal Irrigation District Supplemental Specifications" dated November 2, 2015, are hereby adopted as the official standards to govern design, construction and testing of pressure irrigation facilities for the Caldwell irrigation utility. The city engineer is hereby directed to publish said standards and make available to the public for a fee adopted by resolution of city council. (Ord. 3020, 11-16-2015)

(8) Illegal Connections:

A. It shall be unlawful for any person to make or cause to be made any connection with the city irrigation system or to introduce or cause to be introduced water from the city irrigation system into any connection made therewith unless a permit has been first duly issued for such purpose by the building inspector in compliance and conformity with the provisions of this article and the rules and regulations of the city that are now or may hereafter be established therefor; or to cause a connection to become noncompliant with the provisions of this article and the rules and regulations of the city that are now or may hereafter be established; or to interfere with or injure any line appurtenance or any portion of the city irrigation system. Violation of this provision shall be a misdemeanor.

B. The city, by and through the building inspector, shall give notice in writing to the owner and/or occupant of any premises connected to and served by the city irrigation system in all cases in which said connections are illegal. Said notice shall state the violation and require that the violations be cured within ten (10) days from notice thereof.

C. In the event that said illegal connection continues beyond the ten (10) day period, the city is authorized to discontinue irrigation service to said premises without further notice and until said illegal connection is remedied and all costs of the city associated therewith and fines have been paid.

D. A violation of this provision is a misdemeanor.

(9) Fees:

A. Service Connection Fees: In addition to any inspection fees, irrigation main extension fees and impact fees, the applicant shall be required to pay a service connection fee. The amount of the service connection fee shall be in accordance with the rate schedule adopted by resolution of the city council. A copy of current service connection fees for various line sizes will be on file in the water superintendent's office.

B. Impact Fees And Base Charges: The city shall have authority to assess the developer and/or landowner fees in addition to the aforementioned fees. These additional fees are termed impact and capital improvement base fees and are for the purpose of providing a more equitable distribution of city irrigation system costs relating to such items as water supply development, storage, transmission lines and other off site improvements and shall be in accordance with the rate schedule approved by resolution of the city council. (Ord. 2504, 7-6-2004)

\* Caldwell City ordinance acts as conveyance requirement.
