3. The Director of the Idaho Department of Water Resources has reviewed the application for compliance with the Water Supply Bank rules and has approved the Lease subject to conditions listed below.

NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. **WATER RIGHTS:** The Lessor shall lease and the Board shall accept into the Bank the Applicant's water rights described as follows:

8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. The use of water for irrigation under this right may begin as early as March 1 and may continue to as late as December 1, provided other elements of the right are not exceeded. The use of water before March 15 under this remark is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date a partial decree is entered for this right.

MEMORANDUM FOR APPLICATION # 2432

To: Water Right No. 63-32985
From: Skyler Cheever, Water Resource Agent
Date: 10/21/2022
Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE:

This application for lease was submitted by Tim Gibson on 8/31/2022 with fee payment received the same day. The application is proposing to lease the entire water right no. 63-32985 into the bank. The water right has been in the water supply bank since 2007 and is set to expire on 12/31/2022. The applicant intends to extend the lease for another five years.

AUTHORITY TO FILE:

The individual listed on the application is the same individual that is listed as the owner the water right in the lease application. Therefore, Tim Gibson has the authority to file this application.

WATER RIGHT VALIDITY:

The water right has been leased into the water supply bank since 2007, current lease contract 703 expires at the end of 2022. There are no concerns with the validity of the right.

INJURY TO OTHER WATER RIGHTS:

Lease of this water right would not cause injury to other water rights.

ENLARGEMENT OF USE:

The applicant indicates irrigation within the place of use continues through the use of shares with Nampa Irrigation District. Also, sibling right 63-32984 authorizes irrigation of 30.5 acres within the NWNW of section 10, township 03N, range 01E. Information in the records for right 63-32985 indicate the place of use for this right is considered to be the paths, building, parking lot, and idled acres. The water right records also indicate surface water delivery to the place of use was used as a primary source of water. The right should not be rented outside of the service area boundary of Nampa Meridian Irrigation District.

LOCAL PUBLIC INTEREST:

Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES:

The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The location of the water right point of diversion is within Basin 63. A comment letter was sent to the Regional Manager on 10/21/2022. No comments have been received. It is assumed regional staff have no concerns with the proposed lease.
