EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

SCANNED
MAR 01 2023

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

> Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:
>
> (a) The petition for reconsideration is disposed of; or
> (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

i. A hearing was held,
ii. The final agency action was taken,
iii. The party seeking review of the order resides, or
iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

TO: Transfer No. 86719
FROM: Aaron Olson
DATE: 2/17/2023
RE: Evaluation of Application

The transfer proposes to add a point of diversion and change the points of diversion for all of the associated rights to include all of the wells in the system.

The site is located in SWNW Township 05N, Range 02W, Section 14, or approximately 2.75 mile Northeast of the intersection between Lansing Lane and Purple Sage Road.

Summary of Information Submitted

Authority to File:
IDWR records show the applicant as the current owner of the involved water rights. The Secretary of State annual report form filed May 27, 2022 lists Arnold Stubblefield as an authorized signer on behalf of Stubblefield Construction Company.

Water Right Validity:
The partial decrees for water rights no(s). 63-3062, 63-7061, and 63-7374 were issued on February 6, 2009. The partial decree for water right no. 63-8807 was issued on April 3, 2009. These rights are presumed to be valid since beneficial use has occurred within the last five years. Beneficial use confirmed by department aerial imagery, landsat images, google earth images, or other evidence. Evidence of beneficial use does not need to be added to the file it is an IDWR product available to other staff.

Injury to Other Water Rights:
Other water rights should not be impacted by the proposed transfer. The quantity of water used for these rights will not change as a result. The proposed transfer was advertised and no protests were received. The new point of diversion is to be used in conjunction with the existing system that has an existing well nearing the end of its lifespan.

Enlargement of Use:
Enlargement does not appear to be an issue. The proposed changes will not result in an increase of diversion rate or number of acres irrigated.

Local Public Interest:
This application proposes a change consistent with the local public interest.

Beneficial Use/Conservation of Water Resources:
This application proposes beneficial use consistent with conservation of water resources in Idaho.

The application is consistent with criteria of I. C. § 42-222 and should be processed.

Summary

Water Right Overlap
Application for Permit no. 63-35190 was submitted in conjunction with this transfer to irrigate acres not covered by existing water rights owned by the applicant. The application proposes to use the same wells and system as the rights involved in this transfer.

Discussion

The initial application declared the total amount of water to be transferred as 5 cfs, to account for the addition of a new well, and as such only $800 was paid for the application. Upon futher review, it was determined that there would be changes to the full 14.3 cfs of all the rights, as all points of diversion were to be consolidated and included on all the rights to properly describe the interconnected system. An additional $800 was paid on 10/20/2022 to civer the full $1620 fee for 14.3 cfs. As such, condition 186 will not be necessary to restrict the rate of new new well.

If approved the following changes should be made to the conditions of all involved water rights:

Add condition R65 to 63-7374 & 63-3062
Add condition 046 because the proposed new POD is a groundwater well
Remove condition X36 and unnumbered condition on 63-3062
Update condition C18 to T19.
Add standard transfer conditions T07 and T08

Assuming protests are not filed and/or other information does not contradict the above analysis, the application can be approved as reflected by the draft approval.
