3. The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use or where the use of surface water was replaced by the use of water diverted in connection with this right before the approval of Transfer 79778. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.

4. Irrigation of large projects such as parks, golf courses, or sports activities fields is not authorized under this right.

5. The daily diversion volume for domestic uses under this municipal right shall not exceed 13,000 gallons per dwelling in accordance with Section 42-111, Idaho Code.

6. Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.

7. After specific notification by the Department, the right holder shall record the quantity of water diverted or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.

8. The diversion and use of water described in Transfer 79778 may be subject to additional conditions and limitations agreed to by the protestant and the right holder under a separate agreement to which the Department is not a party. Because the Department is not a party, the Department is not responsible for enforcement of any aspect of the agreement not specifically addressed in other conditions herein. Enforcement of those portions of the agreement not specifically addressed in other conditions shall be the responsibility of the protestant and the water right holder.

9. This right does not grant any right-of-way or easement across the land of another.

10. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.

11. To the extent necessary for administration between points of diversion for ground water, and between points of diversion for ground water and hydraulically connected surface sources, ground water was first diverted under this right from Meridian Well No.16 located in T03N, R01E, S08, NWNE.

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was held)

The accompanying order is a **Preliminary Order** issued by the Idaho Department of Water Resources (Department) pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and brief as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the hearing officer within fourteen (14) days of the service date of the order as shown on the certificate of service. **Note: the petition must be received by the Department within this fourteen (14) day period.** The hearing officer will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding to the Director. Otherwise, this preliminary order will become a final order of the agency.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have fourteen (14) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Director. The Director retains the right to review the preliminary order on his own motion.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

JAN 31 2023

CERTIFICATE OF SERVICE

All exceptions, briefs, request for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

> Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:
>
> (a) The petition for reconsideration is disposed of; or
> (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

i. A hearing was held,
ii. The final agency action was taken,
iii. The party seeking review of the order resides, or
iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

DATE: 10/27/2022
RE: Evaluation of Application

The purpose of the transfer is to add an additional point of diversion to the City of Meridian's municipal system. With the completion of this transfer the City's 28 municipal water rights will have 35 authorized points of diversion. The new point of diversion is located on Lot 17, Block 1, Tricia's Subdivision No. 4 in NENE T3N, R1W, Sec 4.

The site is approximately 0.7 miles southwest of the intersection of Ustick Road and Black Cat Road.

Summary of Information Submitted

Authority to File:
IDWR records show the applicant is the current owner of the involved water rights. The application was signed by Kyle Radek, Assistant City Engineer of the City of Meridian.

Water Right Validity:
All involved water rights have been decreed or licensed. These rights are presumed to be valid since beneficial use has occurred within the last five years. Beneficial use confirmed by department aerial imagery, landsat images, google earth images, or other evidence.

Injury to Other Water Rights:
Other water rights should not be impacted by the proposed transfer. The quantity of water used for these rights will not change as a result. The proposed transfer was advertised and no protests were received.

Enlargement of Use:
Enlargement does not appear to be an issue. The proposed changes will not result in an increase of diversion rate or annual volume used.

Local Public Interest:
This application proposes a change consistent with the local public interest.

Beneficial Use/Conservation of Water Resources:
The application proposes beneficial use consistent with conservation of water resources in Idaho.

The application is consistent with criteria of I. C. § 42-222 and should be processed.

Discussion

If approved the following changes should be made to the conditions of all involved rights:

Add condition 186 to limit diversion rate from well #34 to 5.6 cfs
Add unnumbered condition that notes addition of well #34 is authorized by this transfer
