ADDITIONAL CONDITIONS OF ACCEPTANCE

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.

Dear Applicant:

The Department of Water Resources has completed its review of your application to lease the above-mentioned water right to the Water Supply Bank. **I have enclosed two original Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The Lease Contract is not considered final until you and the Department have both signed.

The right will automatically be released from the Bank on **December 31, 2027**, unless the right is released earlier by the Board, or upon your request. To release the right from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. To propose a new lease period, submit a new Application to Sell or Lease a Water Right to the Water Supply Bank form along with applicable fees to the Department. These forms are available from any IDWR office or from our public website at <http://www.idwr.idaho.gov>. Please note your right may not be available for immediate release if it has been rented.

Please review the conditions of acceptance listed on the Lease Contract, including #3 which says:

"While a right is in the bank, **the lessor may not use the right** without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

To: Water Rights 63-5094, 63-10700, 63-32958 & 63-32960- Cloud Berry LLC

From: Bob Howe

Date: 01/10/2023

Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE:

The complete application for lease to the water supply bank with applicable fees for water rights 63-5094, 63-10700, 63-32958 & 63-32960 were received on December 29th, 2022. The applicant Cloud Berry issued payment for \$1,000.00 for the 4 water rights, as the water rights are to be purposed for joint lease the applicant only needed to pay a \$500 fee. On January 5th, 2023, a refund request for \$500.00 was issued by IDWR.

AUTHORITY TO FILE:

The application was signed by Justin Martin, the named manager of Cloud Berry LLC according to the current ISOS Annual Report. IDWR records confirm that Cloud Berry LLC is the named owner of all 4 water rights purposed for joint lease. The water rights have parent rights 63-376 and 63-7847. There are no concerns about authority to file the application for joint lease.

WATER RIGHT VALIDITY:

The water rights 63-5094, 63-10700, 63-63958 & 63-32960 are purposed for joint lease to the water supply bank. The water rights purposed for joint lease have parent rights 63-376 and 63-7847. All the water rights purposed for joint lease have been leased to the water supply bank since 2015. No concerns with validity of the water right and portion offered to the bank.

INJURY TO OTHER WATER RIGHTS:

Lease of this water right would not cause injury to other water rights. Proper review to prevent injury if rented.

ENLARGEMENT OF USE:

Water rights 63-32960, 63-32958, and 63-10700 are supplemental to surface water from Drainage District #2, New Dry Creek Ditch Co, and /or Middleton Irrigation District/Middleton Ditch Co. The water rights 63-5094, 63-10700 & 63-32960 have groundwater sources; 63-32958 has a wastewater source. Water rights 63-32960 and 63-5094 have irrigation and stock water beneficial uses; water rights 63-10700 and 63-32958 are for irrigation use. All the water rights on the purposed lease have overlapping places of use.

A condition was added to limit the rentable portion on the purposed lease to the 4.5af per acre headgate limit and to avoid enlargement. Water rights 63-5094, 63-32958 & 63-32960 have a combined limit of 339.7 acres and 1606.0af for irrigation purposes. The entirety of water rights 63-5094, 63-32958 & 63-32960 are limited to 6.63cfs, this limit includes stock water and irrigation. Right 63-32960 has an additional volume for stock water of 20af. Water right 63-10700 is not included in the combined conditions, but completely overlaps the three water rights. Therefore, a combined limit has been placed on the purposed rentable portion to avoid enlargement of the rights if rented.
