SUPPLY BANK CONTRACT 1629, 1630 & 1631**

******TIME SENSITIVE RESPONSE REQUIRED******

Dear Applicant:

The Department of Water Resources has completed its review of your application to lease the above-mentioned water right to the Water Supply Bank. **I have enclosed two of each original Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The Lease Contract is not considered final until you and the Department have both signed.

The right will automatically be released from the Bank on **December 31, 2027**, unless the right is released earlier by the Board, or upon your request. To release the right from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. To propose a new lease period, submit a new Application to Sell or Lease a Water Right to the Water Supply Bank form along with applicable fees to the Department. These forms are available from any IDWR office or from our public website at <http://www.idwr.idaho.gov>. Please note your right may not be available for immediate release if it has been rented.

Please review the conditions of acceptance listed on the Lease Contract, including #3 which says:

"While a right is in the bank, **the lessor may not use the right** without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

If you have questions regarding this matter, please contact this office at bank@idwr.idaho.gov or 208-287-4800.

Narrative: The Department received these applications on December 05, 2022. The applicant wishes to place the entirety of all rights in the Bank. John Wood, manager, signed the applications. These water right were decreed in 2002 and placed in the Bank in 2003 and have been in the Bank since. 65-585- domestic, 65-586- fire protection, 65-587- industrial. There are no combined limits for these rights so they will be on separate leases. These rights were for a sawmill that is no longer in operation. Water right 65-587 is within WD 65, the other rights are ground water rights and are not in a WD at this time. Water right 65-587 will be unrentable due to a condition on the water right, *The total instantaneous diversion of water from all points of diversion under Right 65-587 shall not exceed 19.04 cfs, nor total combined annual volume of 11,912.0 af.* and there are 11 other rights that are diverted through 65-587 POD's. For those rights to be able to get their rate and volume 65-587 will have to be unrentable.
