Total Acres: 3.1

Conditions of Approval

1. This right when combined with all other rights shall provide no more than 4.5 afa per acre at the field headgate for irrigation of the place of use.
2. This right when combined with all other rights shall provide no more than 0.03 cfs per acre nor exceed a combined annual maximum diversion volume of 14.0 af at the field headgate for the place of use.
3. The right holder shall make full beneficial use of all surface water available to the right holder for irrigation of lands within the authorized place of use for this right. The right holder may divert ground water under this right to irrigate land with appurtenant surface water rights when the surface water supply is not reasonably sufficient to irrigate the place of use for this water right or is not available due to drought, curtailment by priority, or the seasonal startup and shutoff or maintenance schedule for canal company or irrigation district deliveries. The right holder shall not divert ground water for irrigation purposes under this right if use of the surface water supply is intentionally discontinued or reduced (for example abandoned, forfeited, sold, disallowed by court decree, or leased to the Water Supply Bank), or is not deliverable due to non-payment of annual assessments, without an approved transfer pursuant to Idaho Code § 42-222 or other Department approval.

4. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.

This license is issued pursuant to the provisions of Idaho Code § 42-219. The water right confirmed by this license is subject to all prior water rights and shall be used in accordance with Idaho law and applicable rules of the Department of Water Resources.

Signed this 24th day of May, 2023.

RE: License No. 65-22632

ISSUANCE OF LICENSE

Dear Water Right Holder(s):

The Department of Water Resources ("Department") has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review all the conditions of approval listed on your license. The conditions may include ongoing requirements, such as maintenance of a measuring device or implementation of mitigation, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district.

The license is a PRELIMINARY ORDER issued by the Department pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Water right forms are available from any office of the Department or on the Department's website at idwr.idaho.gov

If you have any questions concerning the enclosed information, please contact me at (208) 287-4925.

Sincerely,

Phill Hummer
Water Rights Supervisor

CERTIFICATE OF SERVICE

I hereby certify that on June 02, 2023, I served a true and correct copy of Water Right License No. 65-22632 by U.S. Mail, postage prepaid, to the following:

ROBERT E WILSON (Current Owner)
1591 E LOCUST
EMMETT ID 83617

Sidney Palmer
Technical Records Specialist 1

MEMORANDUM

TO: Water Right File 65-22632

FROM: Skyler Cheever- Water Resource Agent

DATE: April 3, 2023

SUBJECT: Licensing Review of Water Right 65-22632

The field exam for permit 65-22632 was performed by Tyler Smith, a Water Resource Agent, on July 22nd, 2021. Mr. Smith recommended a rate of 0.09 cfs for the irrigation of 3.1 acres. The field report is almost finished. This memo is intended to finish Mr. Smith's review in accordance with Idaho Statue and Department policy.

Conditions:

Condition 01M and R61 should remain on the license. Condition 046 should be removed because the permit holder complied with the drilling permit requirements. Conditions 065 and 104 should be replaced with 943 because it is the updated condition. In addition, condition WB7 should be added because instead of limiting this water right to a volume of 14 af it limits this water right and surface water use from Last Chance Ditch Co. to a volume of 14 af. Condition 26A should be removed as standard with licensing. All other conditions should be removed as standard with licensing.

Recommended Amounts

<u>Beneficial Use</u>	<u>Period of Use</u>	<u>Diversion Rate</u>
Irrigation	03/01 to 11/15	0.09 CFS

Totals: 0.09 CFS
