Conditions of Approval

- Domestic use is for 4 RV's.
- The irrigation occurring under this domestic use shall not exceed 1/2 acre.
- Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 65.
- The right holder shall contact the watermaster by June 15 each year for authorization to continue diverting and using water. The right holder shall not divert water after June 15 each year unless the watermaster authorizes continued diversion and use of water under this water right. When the watermaster informs the right holder that water is not available to fill this right, the right holder shall cease diversion, shall rent water from the Payette River Rental Pool, or shall otherwise mitigate for the depletion of water caused by this water use. The department may amend the contact date listed in this administrative provision to more closely coincide with the date when water is not available to fill this water right.
- When ordered by the Director, the right holder shall provide mitigation acceptable to the Director to offset depletion of lower Snake River flows needed for migrating anadromous fish. The amount of water required for mitigation, which is to be released into the Snake River or a tributary for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this right. Any order of the Director issued in accordance with this paragraph shall be in conformance with applicable rules allowing the right holder due process as the need for mitigation and the amount of mitigation are determined.

RE: License No. 65-23740

ISSUANCE OF LICENSE

Dear Water Right Holder(s):

The Department of Water Resources ("Department") has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review all the conditions of approval listed on your license. The conditions may include ongoing requirements, such as maintenance of a measuring device or implementation of mitigation, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district.

The license is a PRELIMINARY ORDER issued by the Department pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Water right forms are available from any office of the Department or on the Department's website at idwr.idaho.gov

If you have any questions concerning the enclosed information, please contact me at (208) 287-4925.

Sincerely,

Jean Hershey

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

D. FLOW MEASUREMENTS

1. Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
N/A						

2. Measurement Comments: The permit holder did not provide a pump horsepower. Therefore, a diversion rate calculation is not possible.

E. FLOW CALCULATIONS

 Additional Computation Sheets Attached

Measured Method: Since the permit holder did not provide a pump horsepower a diversion rate calculation is not possible. According to Administrative Processing Memo #22 the standard diversion rate for a single-family home is 0.04 cfs. The applicants explained in April 2023 4 RV trailers are used on the property. An RV uses on average 6 gallons per day or 24 gallons for 4 RV's or 0.01 cfs rounded. The permit authorizes 0.04 cfs for domestic use. I am recommending a 0.04 cfs diversion rate.

F. VOLUME CALCULATIONS

2. Volume Calculations for Other Uses: According to Administrative Processing Memo #22 the standard diversion volume for a single domestic use is 0.6 af for in-house use and 0.6 af for up to ½ an acre of yard irrigation or 1.2 af. I am recommending a 1.2 af diversion volume.

G. PURPOSE OF USE

Irrigation X Y N # Stock Domestic # of Homes 1

Change in Purpose of Use? Y X NMethod of Determination: GIS, Tax Parcel Data, Valley County Aerial Imagery, and conversation with the permit holder.If Yes: From Use To Use Amount CFS AFA

SCANNED

JUN 22 2023

H. NARRATIVE/REMARKS/COMMENTS

This permit qualifies for an in-office examination. The permit authorizes domestic use, and the irrigation of 3.2 acres. Initially it was difficult to determine how many acres were irrigated. Therefore, a field examination was going to be scheduled. However, after speaking with the applicants in April 2023 it was confirmed the irrigation was not developed. Instead, the permit holders explained they have 4 RV Trailers on the property and irrigate a small patch of huckleberries on the property. The permit holders originally applied for 2021 Valley County Aerial Imagery confirms irrigation occurred. The applicants indicated only domestic use was developed. Since there is likely less than ½ an acre of irrigation domestic use would be more appropriate than decreasing irrigation use.

Since the permit holder did not provide a pump horsepower a diversion rate calculation was not possible. The standards set in Administrative Processing Memo #22 were used to make diversion rate and volume recommendations. All of the conditions have been met and it has been confirmed a beneficial use was developed within what was authorized on the permit. Therefore, I am recommending a 0.04 cfs diversion rate and 1.2 af diversion volume.

Conditions R05 and 185 should remain on the license. Conditions 01J and 01H should be removed because the permit holders provided an email on May 19th, 2023, stating they spoke with the Watermaster from Water District 65, and he told them they could have both conditions waived. The applicants then sent in a request to waive/modify a condition of approval and it was received on June 15th, 2023. The water master provided confirmation over email on the same date. Condition WB5 should be changed to conditions X04 for 4 trailers and 187 because only domestic use was developed. Condition 121 should be changed to 103 as standard with licensing. All other conditions should be removed as standards with licensing.

Have conditions of permit approval been met? J Yes No

I. RECOMMENDATIONS

1. Recommended Amounts:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>DIVERSION RATE</u>	<u>ANNUAL VOLUME</u>
Domestic	01/01-12/31	0.04 CFS	1.2 AF
<u>Totals:</u>		0.04 CFS	1.2 AF

2. Recommended Amendments:

 Change P.D. as reflected above Add P.D. as reflected above X None

 Change P.U. as reflected above Add P.U. as reflected above X None

REQUEST TO WAIVE/MODIFY

CONDITION OF APPROVAL

Permit # 65-23740

I request the condition(s) of approval requiring (select 1 or more):

- ☐ measuring device
- ☒ lockable controlling works
- ☐ annual measuring/reporting, or power records alternative
- ☐ other

be waived or modified because:

The water master at Payette told
us to just do domestic and not the
irrigation. The pump is taken out of the
creek after every use because it is not
weather proof, so no lock is needed.
With domestic we could water up to
1/2 acer and we probably never do.

Hello Mr. Shippy,

I am currently reviewing water permit 65-23740 for in-office licensing. The permit had conditions 01J and 01H requiring the installation of a lockable and measuring device. This was likely due to irrigation being authorized on the permit. However, only domestic use, also authorized on the permit was developed. I contacted the permit holder and informed them they need to contact you regarding waiving the conditions and send in the proper request form. I have received the form, but my supervisor would like confirmation from you, a reply to this email for example, confirming that you recommend 01J and 01H to be be waived. If you have any questions, please let me know.

Best,

Skyler

Hello Virginia and Dennis,

Thank you for letting me know you spoke with the water master. However, it would be better if we had something more formal with your signature. Attached to this email is a copy of the form, I will add your water right number to the top in case you need it. All you need to do is describe in the explanation section what you told me in this email chain basically. Once you fill the form out, print and sign it. Then you can scan and email the form to our file email: file@idwr.idaho.gov or mail it to the state office: IDAHO WATER CENTER, 322 E FRONT ST STE 648, BOISE ID 83702-7371. I also need a formal email or letter from the watermaster letting me know that he agrees that we should waive/modify the lockable device condition on your permit. I will CC the watermaster in this email, so he is informed on the situation. If you have any questions, please let me know.

Best,

Skyler

Hi Skyler,

We did get ahold the water guy in Payette and he said to just drop the irrigation and just keep the domestic. we don't need a lock or a meter on it because it is taken out of the creek and put away after every use anyway.

I could remember if I called you or not. It seems like I did and you were not in the office at the time and I left a message. We are able to get into the property now so if you want to come and check you are welcome to do so.

Thank you for everything.

NOTICE: STATEMENT OF COMPLETION DUE

RE: Permit No. 65-23740

IMPORTANT: A response from you is required to maintain the active status of the referenced water right permit. If no response is received from you, the permit will lapse and your authorization to develop and/or use this water right will be cancelled.

Dear Permit Holder(s):

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before **April 01, 2023**. Please complete and return the enclosed Statement of Completion for Submitting Proof of Beneficial Use (proof) if you have completed the water project authorized by your permit. The proof statement must be accompanied by either the appropriate license examination fee or a field examination report prepared by a certified water right examiner.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been delayed by a government agency or by litigation that brings title to the water in question, an extension of time may be granted if appropriate documentation is provided at the time of filing. An extension request must be accompanied by a \$50.00 filing fee and signed by the appropriate authorized permit holder(s) or authorized representative with a power of attorney.

Either an acceptable proof or an acceptable extension request must be received by this department on or before the above proof due date. If neither is received, the department will send you a lapse notice and the permit will no longer be of any force or effect.

Sincerely,

Debbi Judd
