F. NARRATIVE/REMARKS/COMMENTS

On May 12, 2023 Benny Walker (IDWR employee) and I conducted a field exam for the developed irrigation use of permit number 65-23782. The developed irrigation system uses water from two points of diversion from an unnamed stream that flows through the property.

Permit 65-23782 was approved for 0.05 cfs for the irrigation of 1.6 acres. Note that the permit was approved for irrigation in Section 08 (possibly a typo) but use is actually in Section 18. Therefore, an amendment to correct the place of use was solicited in May and was received in June.

The developed system uses gravity-fed sprinklers to irrigate 1.4 acres of domestic lawn, shrubs, and trees and existing native vegetation throughout the property. Water is diverted from an unnamed stream at two separate locations. Two 2-inch pipes convey water downhill 40-60 vertical feet where it is then distributed to the place of use in one-inch pipe with sprinklers.

Conditions on the permit have been complied with and I recommend licensing Permit 65-23782 for a total diversion rate of 0.04 cfs and 4.2 AF.

Have conditions of permit approval been met? ☒ Yes ☐ No

Dear Water Right Holder(s):

The Department of Water Resources ("Department") has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review all the conditions of approval listed on your license. The conditions may include ongoing requirements, such as maintenance of a measuring device or implementation of mitigation, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district. The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Water Permit No. 65-23782

Dear Permit Holders:

The Department of Water Resources (IDWR) is reviewing the permit referenced above prior to issuing the water right license. By issuing a license, IDWR confirms the extent of development that has been established in compliance with the terms of the permit.

IDWR correspondence dated December 04, 2018 included a Permit Approval Notice and Explanatory Information to Accompany a Preliminary Order. The correspondence confirmed your permit that authorized you to develop and establish a new water right and allowed a 14-day period to review the permit for accuracy.

On May 12, 2023 I visited your property to verify the water use that has been developed. While writing the Beneficial Use Field Report I discovered an incorrect Place of Use (POU) description associated with the permit. The Application lists the irrigation POU description being in the SW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 18, Township 16N, Range 03 East. The Permit was issued describing the irrigation POU as being in Section 08 rather than Section 18. An amendment is needed to correct the POU description that will be on your water right license.

The following elements need to be amended:

☐ Point(s) of Diversion
☒ Place(s) of Use
☐ Other

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when issued. Please review the amendment form carefully. If you concur with the information presented, please sign and return the form with the filing fee of \$100.00 within fourteen (14) days.

If you have any questions please call me at (208) 293-9916.
