CONDITIONS OF APPROVAL

1. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.0 af per acre at the field headgate for irrigation of the place of use.
2. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 65.
3. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).

WATER RIGHT NO. 65-7653D

As Modified by Transfer No. 84994

CONDITIONS OF APPROVAL

4. The right holder shall contact the watermaster by June 15 each year for authorization to continue diverting and using water. The right holder shall not divert water after June 15 each year unless the watermaster authorizes continued diversion and use of water under this water right. When the watermaster informs the right holder that water is not available to fill this right, the right holder shall cease diversion, shall rent water from the Payette River Rental Pool, or shall otherwise mitigate for the depletion of water caused by this water use. The department may amend the contact date listed in this administrative provision to more closely coincide with the date when water is not available to fill this water right.
5. The period of use for the irrigation described in this approval may be extended to a beginning date of 4/15 and an ending date of 10/31 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 6/1 and after 10/1 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date of this approval.
6. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
7. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
8. Pursuant to Idaho Code § 42-1412(6), this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 08/26/2014.

Transfer Approval Notice

Dear Water Right Holder and other Interested Persons:

The Department of Water Resources has issued the enclosed approved Transfer of Water Right(s). Please be sure to thoroughly review the conditions of approval and remarks listed on the approval document.

The Transfer of Water Right(s) is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Department and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

If the transfer approval includes a condition requiring measuring and recording devices, such devices shall comply with specifications established by the Department. Detailed specifications are available on the Department's home page on the Internet, or you can request a copy by contacting any office of the Department. Please be sure to thoroughly review the specifications to avoid unnecessary costs for reinstallation or modification due to non-conforming or improperly installed devices.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at (208) 334-2190.

Sincerely,

Scott Storms

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Subject: Charles and Marietta Thompson Transfer application 84994

Good Afternoon John and Jessica,

I am reaching out today in regard to Application for Transfer No. 84994 (Water Right No. 65-7653D). I had previously discussed with Jessica that a portion of the place of use for this right is on lands owned by Crawford Family Trust and that the Thompson's wished to abandon interest in that portion of the water right to complete the transfer. If there is no objection to the abandonment of interest for that portion of the right it will be excluded from the transfer and an approval for the Thompson's remaining portion will be created.

Please let me know if you have any concerns or if you wish to proceed with the transfer as I have described above.

Hi Aaron,

We removed those acres from the map and are abandoning that portion – please see attached updated POU map and let me know if this corrects the issue. It decreases irrigated acres from 30.3 to 26.4.

Also, I let Charles know the plan for the site visit is currently scheduled for Tuesday next week – as soon as we have a time nailed down, I'm happy to relay to them. Charles' phone number is 208-860-3170.

Sincerely,
Jessica

Subject: Site visit Tues 8/2/2022 and Transfer inquiry

Hi Jessica,

Following up on our conversation from this morning in the office, I would like to let you know we are planning our site visit for the AB West applications Tuesday the second of August. I am waiting to hear back from the Watermaster on if he would like to/if there is time to seeing by the property that day. If he says yes and Charles could meet us out there sometime that day that would be great.

Also as for the transfer I am trying to wrap up, I know we discussed this previously when John came in to our office but I don't seem to recall what the solution was. When looking at the POU for their water right 65-7653D (outlined in red) there is a portion on the western side that the parcel owners (outlined in blue) show up as Crawford Family Trust in the county tax lot data. With this portion of the water right being appurtenant to other property owner's land I do not recall what our discussion was about moving forward on this transfer. Anyways, if John recalls whether they **planned to abandon that portion**, or the other owners were to quitclaim their interest in the right, or any other solution I would be glad to discuss.

Thanks,

MEMORANDUM

TO: Transfer No. 84994
FROM: Aaron Olson
DATE: 5/13/2022
RE: Evaluation of Application

The transfer proposes to add an additional point of diversion to water right 65-7653D. The new point of diversion is downstream of the existing two points on the Payette River and is much closer to the place of use. The existing points of diversion have historically delivered water through a shared ditch to the place of use. The new point of diversion will allow water to be pumped directly from the river into a regulating pond, and from the pond to the place of use.

When submitted, the application initially sought to add the proposed point of diversion to several water rights owned by the applicant that overlap at the place of use but are supplied by multiple different sources at various locations. The application was later amended by the applicant to remove the additional rights that were not sourced from the North Fork Payette River.

Deviations from Transfer Policy Standards

Child right 65-24205 was split from 65-7653D during processing of this transfer. During review it was apparent that a portion of the water right place of use was no longer in possession of the applicants. Through correspondence with the applicants and their representative interest in that portion of the water right was relinquished and a new child right (65-24205) was created to allow approval of the transfer for the portion still owned of the parent right. Since the right was not split through submission of Notice of Change in Ownership associated conveyance documents or fee the current owner for the newly created child right was not changed at the time.

Summary of Information Submitted

Authority to File:

IDWR records show the applicant is the current owner of the involved water rights. Valley County parcel data shows the applicants as the owners of the lands at the place of use and proposed point of diversion.

Water Right Validity:

The partial decree for water right no. 65-7653D was issued on 10/31/2000. The right is presumed to be valid since beneficial use has occurred within the last five years. Beneficial use confirmed by department aerial imagery, landsat images, google earth images, or other evidence.

Injury to Other Water Rights:

Other water rights should not be impacted by the proposed transfer. The quantity of water used for these rights will not change as a result. The proposed transfer was advertised and no protests were received. The application was submitted for review to the Watermaster of Water District 65 who did not oppose approval on the condition that a measuring device is installed and maintained to provide records of diverted water.

SCANNED
FEB 03 2023

Enlargement of Use:

Enlargement does not appear to be an issue. The proposed changes will not result in an increase of diversion rate or number of acres irrigated. Conditions will be added to the right requiring installation and maintenance of a locking device and approved measuring device to provide diversion records to the Watermaster of Water District 65.

Local Public Interest:

This application proposes a change consistent with the local public interest. The application was submitted for review to the Idaho Department of Fish and Game and they did not provide comment opposing the changes to the water right.

Beneficial Use/Conservation of Water Resources:

The application proposes beneficial use consistent with conservation of water resources in Idaho.

The application is consistent with criteria of I. C. § 42-222 and should be processed.

Summary**Water Right Overlap**

Water right 65-7653D has overlap with several rights also owned by the applicants. Water rights 65-2946B, 65-7052B, 65-7576B, and 65-12136A share a common place of use for irrigation from multiple different sources. The existing points of diversion for this right are shared with rights 65-23928, 65-7653E, and 65-7653F which all divert from the North Fork Payette River into a ditch system, however the new point of diversion proposed by this transfer will have no overlap with other water rights.

Discussion

If approved the following changes should be made to the conditions of water right no. 65-7653D:

-Add condition 185 per the request of Watermaster of Water District 65
