To Whom it May Concern,

I am writing to provide an update on Flying H Farms' application for water rights leasing under applications #2928 or #2929 for ground water. Flying H Farms is seeking to rent water rights 61-12310 and 61-2104 from Barry Peterson to secure the necessary water resources for the irrigation of our 31 acres of crop land.

The leasing of these water rights will enable Flying H Farms to access the required volume of water needed.

Flying H Farms has already submitted the necessary applications, either #2928 or #2929, in accordance with the established procedures. We are committed to complying with all regulations and requirements associated with water rights leasing, ensuring transparency and adherence to the guidelines set forth by the relevant authorities.

If you require any additional information or documentation to expedite the processing of Flying H Farms' application, please do not hesitate to contact us. We appreciate your attention to this matter.

Thank you for your time.

Sincerely,

Melissa Green
Chief Financial Officer
Flying H Farms Partnership
