

MEMORANDUM

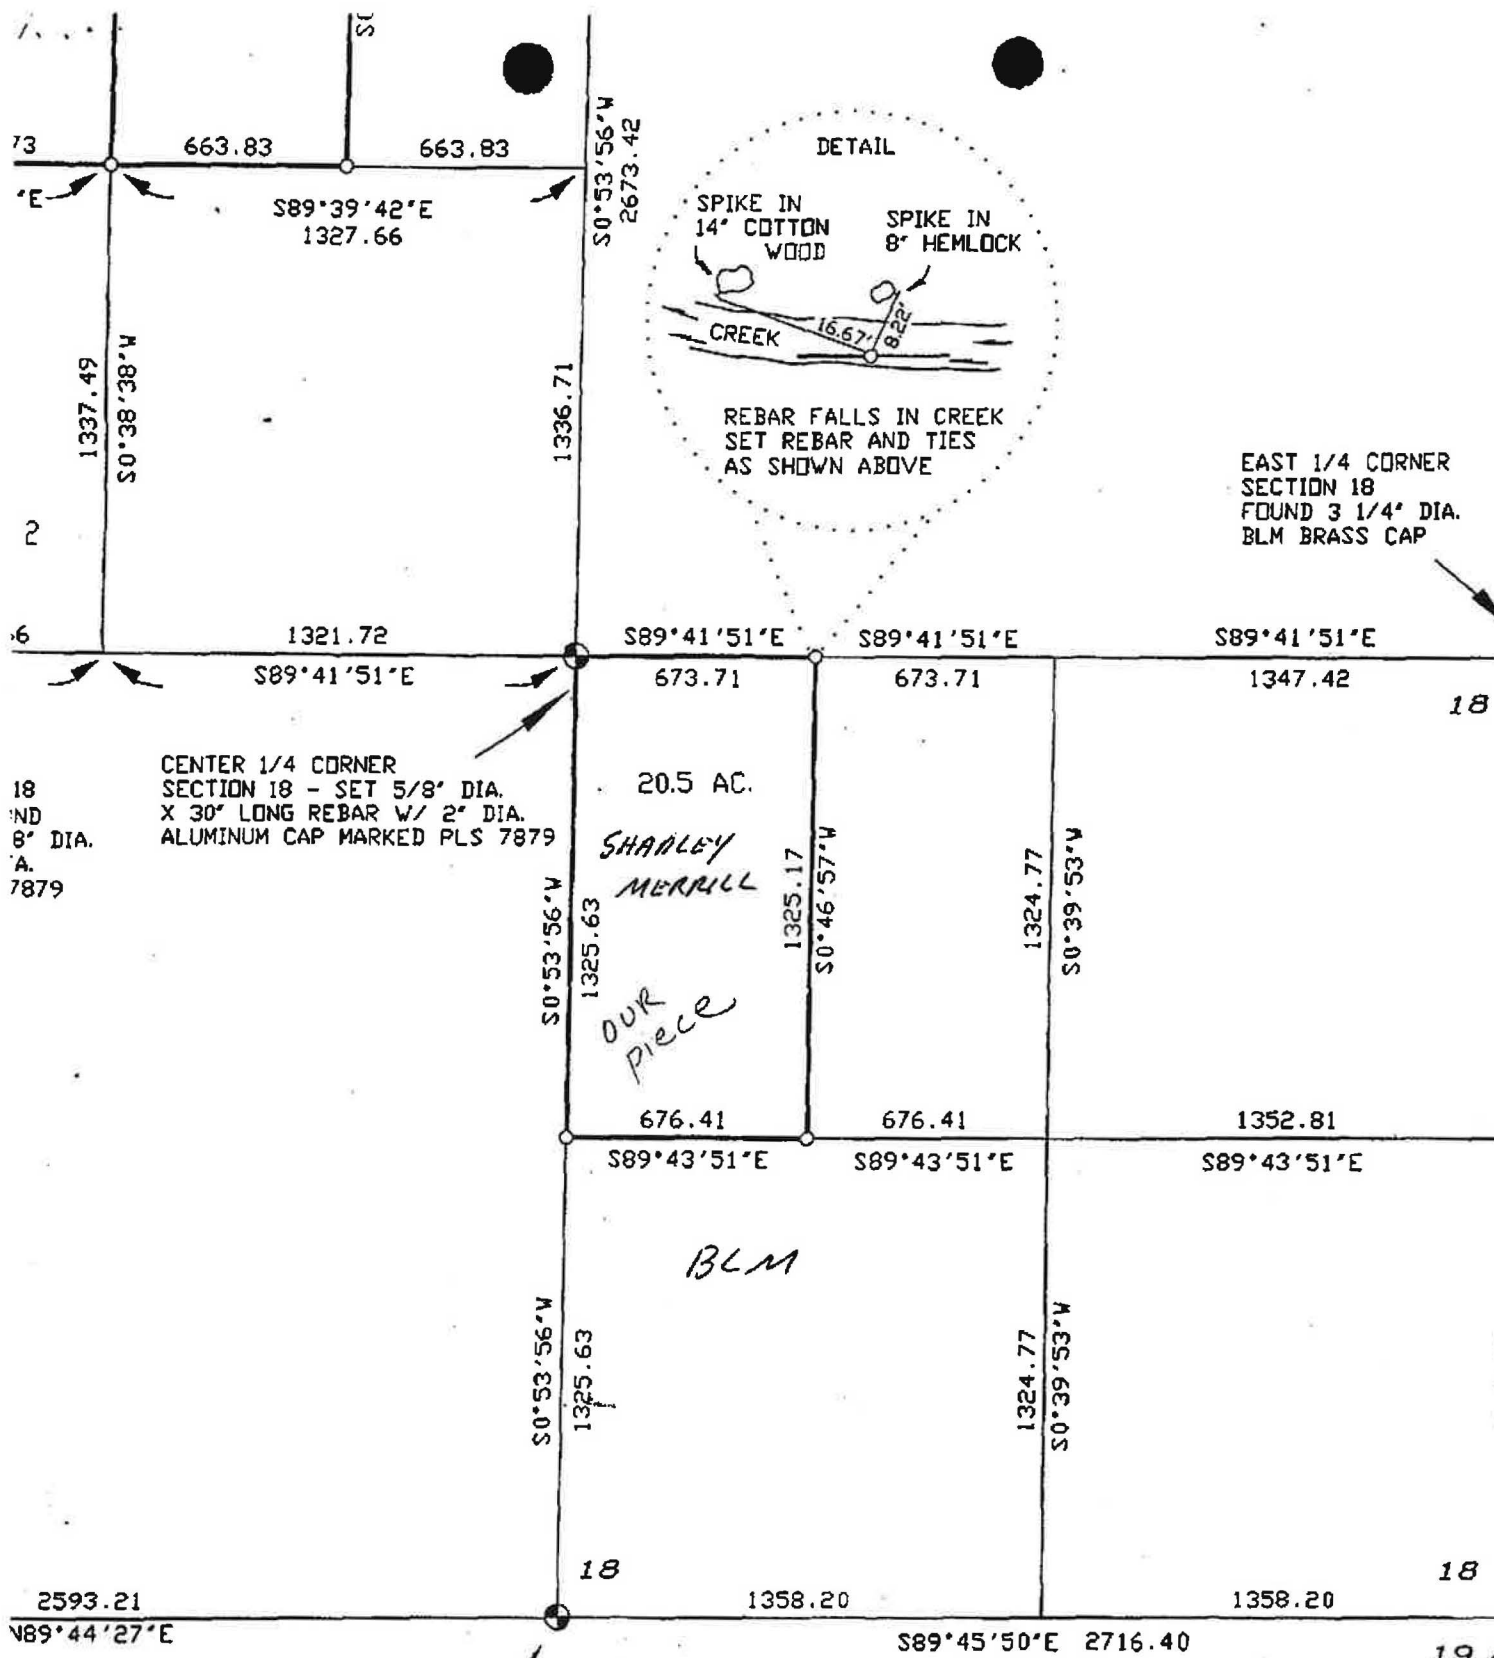

January 24, 2025

Water Right 96-9037

Author: Natalie Steading 

Subject: Place of Use Clarification

This memo serves to clarify the Place of Use (POU) for water right 96-9037 from the property currently identified as RP58N02E187801A to RP58N02E187950A. Property RP58N02E187950A was previously owned by the prior water right holders, Link Shadley & Mary Merrill, before being sold to Mark D Mayhew in 2021. Because water right POU through IDWR was recognized only via the Public Land Survey System, the POU was erroneously identified in the neighboring 20-acre parcel of the NW/SE quarter of section 18. Per the backfile information, the original water right holders identified their property on the map supplied during the application process. The beneficial use field report did not specify the property location but did note that a trailer was on the property and the water was being used for domestic purposes. Bonner County records show parcel RP58N02E187950A has a residential improved structure and that RP58N02E187801A is vacant forest land.
