12. Remarks:

Priority Date Explanation:

This is the licensed priority date and use continues today.

Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 11.

Prior to diversion of water under this right, the right holder shall install and maintain a measuring device and lockable controlling works of a type acceptable to the Department as part of the diverting works.

This right does not grant any right-of-way or easement across the land of another.

The place of use described in this right is located in Utah. Water is delivered through Cub River Canal.

This right is intended to mirror Utah water right 25-11266 and represents the same use of water described under that right. This right and Utah water right 25-11266 when combined shall not exceed a total annual maximum diversion volume of 48 acre-feet or the irrigation of 13 acres.
