**NOTICE OF DIVERSION AS AN ALTERNATIVE TO
INSTREAM STOCKWATER USE**

(To provide notice of intent to divert surface water from a stream or riparian area to troughs or tanks as an alternative to instream use for the watering of livestock)

1. Name of right holder Daniel or Jesse Keller Phone (210) 215-0433
Mailing address 6807 E Hwy 36 Email _____
2. Source of water supply Spring tributary to Strawberry Creek
3. Point of Diversion:
 - a) Is this notice based on an existing recorded instream stockwater right? If yes, provide the water right number _____
If no, describe the beginning and ending points for the instream stockwater use:
Beginning point is in Gov't. Lot _____, SW 1/4 SW 1/4 NW 1/4,
Section 29, Township 13S Range 41E, B.M.,
Franklin County.
Ending point is in Gov't. Lot _____, NW 1/4 SW 1/4 NW 1/4,
Section 29, Township 13S Range 41E, B.M.,
FRANKLIN County.
 - b) Alternate point of diversion is in Gov't. Lot _____, SW 1/4 SW 1/4 NW 1/4,
Section 29, Township 13S Range 41E, B.M.,
FRANKLIN County.
4. Description of diversion and delivery system:
 - a) Describe the type of diversion Closed conduit diversion out of spring.
 - b) Describe the delivery system Trench dug at the head of the spring with a perforated pipe that feeds into a 4x4 trough with a shutoff valve pursuant to USDA regulations.
Overflow from shutoff follows the natural path of the spring system pre-development.
 - c) Describe the number, type and total capacity of troughs or tanks 4x4ft trough

- d) Describe the automatic shutoff or flow control mechanism or means of returning unused water to the source Shutoff valve.
- e) Describe how the system is designed to allow measurement of the rate of diversion Shutoff valve stops water diversion and allows the spring to flow through the natural system.

5. Describe the place of use by placing an X in the appropriate 40-acre tract(s) below:

TWP	RGE	SEC	NE				NW				SW				SE			
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE
13S	41E	29							S									

6. Priority date claimed or established 12/31/1900
7. Rate of diversion .02 cfs
8. Season of use: from 1/1 to 12/31
9. a) Who owns the property at the point of diversion? Claimant
b) Who owns the property at the place of use? Claimant
10. When will construction occur? Already occurred.
11. Comments (include number and type of stock) 100 head of mixed stock. This property was homestead by my family in approximately 1900 and that is when cattle first began drinking from the spring.
12. Map of project required - Attach an 8½"x11" map clearly identifying the location of the instream stockwater use and the locations of the alternative point(s) of diversion and stock trough(s). A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.

I hereby assert the following:

- a) Diversion is from a surface water source to which the livestock would otherwise have access. The land where the watering tanks or troughs will be located is land from which the livestock had access to the source of water from which diversion is being made.
- b) The diversion of water out of the stream as described in this notice is for watering livestock and will not injure other water rights.
- c) I will not alter the bed and banks of the source as the term is defined in section 42-3802, Idaho Code. I understand that I may place an inlet conduit into the source in a manner that does not require excavation or obstruction of the stream channel, unless the director of the department of water resources approves a stream channel alteration permit for additional work.
- d) I understand that upon determination of interference with other water rights, the Director may order curtailment of diversion or use of water under this notice or may require the diversion and delivery system to be modified to prevent injury.
- e) I will not divert more than 13,000 gallons per day for livestock watering from this diversion, and I will not use more than one point of diversion under this notice.
- f) I am authorized to make the changes described in this notice and that if the notice involves a federal grazing allotment, the permittee consents to the changes described in this notice.
- g) I understand that any willful misrepresentation on this notice will void any right to divert water for livestock under this notice.

Dated this 24 day of December, 2024

RE: Water Right Nos. 13-9677 and 13-9678
Notice of Diversion for Instream Stockwater Use

Dear Water Right Holder(s):

The Department of Water Resources acknowledges receipt of the water right notice you submitted under Section 42-113(3), Idaho Code. Please refer to the above referenced number in all future correspondence regarding this notice.

The filing of the notice does not confirm the validity of the water right. It will serve to record and preserve the information regarding the notice.

Please note that the diversion described in your notice may occur only if the following conditions are met.

- The water is diverted from a surface water source to a trough or tank through an enclosed water delivery system.
- The water delivery system is equipped with an automatic shutoff or flow control mechanism or includes a means for returning unused water to the surface water source through an enclosed delivery system, and the system is designed and constructed to allow the rate of diversion to be measured.
- The diversion is from a surface water source to which the livestock would otherwise have access and the watering tank or trough is located on land from which the livestock would have access to the surface water source from which the diversion is made.
- The diversion of water out of the stream in this manner does not injure other water rights.
- The use of the water diverted is for watering livestock.
- The bed and banks of the source shall not be altered as that term is defined in section 42-3802, Idaho Code, except that an inlet conduit may be placed into the source in a manner that does not require excavation or obstruction of the stream channel, unless additional

work is approved by the Director of the Department of Water Resources.

- The amount of water diverted for watering of livestock shall not exceed thirteen thousand (13,000) gallons per day.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

We are enclosing a copy of the notice for your records. Please feel free to contact this office if you have any questions.

Sincerely,

A handwritten signature in blue ink, appearing to read "Michael Holliday", with a long horizontal line extending to the right.
