Right Acre Limit: 9871.0
POU Total Acres: 10740.0

CONDITIONS OF APPROVAL

1. This right is limited to the irrigation of 9,871 acres within the authorized place of use in a single irrigation season.

2. Rights 31-2420, 31-2451, 31-7113, 31-7327, 31-10322, 31-10323, 31-10324 and 31-10325 when combined shall not exceed a total annual maximum diversion volume of 37,590 af at the field headgate, and the irrigation of 10,740 acres.

3. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 110.

4. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.

5. Prior to the diversion and use of water under Transfer approval 85188, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.

6. Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.

WATER RIGHT NO. 31-7327

As Modified by Transfer No. 85188

CONDITIONS OF APPROVAL

7. This right when combined with all other rights shall provide no more than 3.5 afa per acre at the field headgate for irrigation of the place of use.

8. This right does not grant any right-of-way or easement across the land of another.

9. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.

10. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.

11. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.

CONDITIONS OF APPROVAL

1. Rights 31-2420, 31-2451, 31-7113, 31-7327, 31-10322, 31-10323, 31-10324 and 31-10325 when combined shall not exceed a total annual maximum diversion volume of 37,590 af at the field headgate, and the irrigation of 10,740 acres.

2. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 110.

3. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.

4. Prior to the diversion and use of water under Transfer approval 85188, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.

5. Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.

6. This right when combined with all other rights shall provide no more than 3.5 afa per acre at the field headgate for irrigation of the place of use.

7. This right does not grant any right-of-way or easement across the land of another.

Right Acre Limit: 2350.0
POU Total Acres: 10740.0

CONDITIONS OF APPROVAL

1. This right is limited to the irrigation of 2,350 acres within the authorized place of use in a single irrigation season.

2. Rights 31-2420, 31-2451, 31-7113, 31-7327, 31-10322, 31-10323, 31-10324 and 31-10325 when combined shall not exceed a total annual maximum diversion volume of 37,590 af at the field headgate, and the irrigation of 10,740 acres.

3. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 110.

4. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.

5. Prior to the diversion and use of water under Transfer approval 85188, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.

6. Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.

Transfer Approval Notice

Dear Water Right Holder:

The Department of Water Resources has issued the enclosed approved Transfer of Water Right(s). Please be sure to thoroughly review the conditions of approval and remarks listed on the approval document.

The Transfer of Water Right(s) is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Department and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

If the transfer approval includes a condition requiring measuring and recording devices, such devices shall comply with specifications established by the Department. Detailed specifications are available on the Department's home page on the Internet, or you can request a copy by contacting any office of the Department. Please be sure to thoroughly review the specifications to avoid unnecessary costs for reinstallation or modification due to non-conforming or improperly installed devices.

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

SCANNED
AUG 18 2023

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

> Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:
>
> (a) The petition for reconsideration is disposed of; or
> (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

i. A hearing was held,
ii. The final agency action was taken,
iii. The party seeking review of the order resides, or
iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Re: Review & Evaluation of Sufficiency of Information

This application proposes to add two points of diversion to the seven ground water rights held by Jefferson Irrigation Company. The company currently diverts from eighteen existing wells to fill its delivery canal. The two additional wells will be completed within the same well field as the company's other wells.

The proposed point of diversion is on BLM ground. The company did not begin the right-of-way application process with the BLM until after the transfer application was filed. BLM filed a protest against the transfer application demanding that the right of way be in place before approval. The BLM right -of-way took nearly two years to complete and was approved in April 2023. BLM subsequently withdrew its protest against the application.

Authority to File: Water rights are held by Jefferson Irrigation Company. Application was signed by Kraig Bare, president of the company.

Water Right Validity: Water rights were decreed in the SRBA. Existing place of use is fully irrigated.

Injury to Other Water Rights: No issues identified. Points of diversion are regulated by Water District 110. Additional wells will help the company divert its full diversion rate. Proposed wells are in the Jefferson Irrigation well field, surrounded by the company's other wells. All of the company's other wells are within the same ESPA Model cell as the proposed points of diversion or are in adjacent cells. Therefore, no Transfer Tool analysis is required.

Enlargement of Use: Based on records from Water District 110, the company's existing system with eighteen wells has the capacity to produce the 252.06 cfs authorized by the company's water rights. The additional wells will provide backup capacity if any of the company's other wells go offline during the summer. The watermaster for Water District 110 tracks the daily diversion rate for the company wells so there is little risk that the total diversion rate will be exceeded.

Local Public interest: No issues identified.

Beneficial Use/Conservation of Water Resources: No issues identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

RE: Conditional Withdrawal of BLM Protest:
Application for Transfer No. 85188 f/b Jefferson Irrigation Company, Limited

Dear Mr. Cefalo:

By this letter, I state that I have the authority to act on behalf of the United States Department of the Interior, Bureau of Land Management (BLM), with myself as its agent, to the matters discussed herein.

On July 19, 2021, Jefferson Irrigation Company, Limited ("Applicant") filed Application for Transfer No. 85188 ("Application") on July 19, 2021 with the Idaho Department of Water Resources ("IDWR") seeking to drill new wells on BLM land within T07N, R34E, S03, SWNE and approximately one hundred thirty two feet (132 ft) of ditch across BLM land, both of which lie outside of the existing right-of-way grant issued to the Applicant (IDI-016426). The Application involves water right numbers 31-02451, 31-07113, 31-07327, 31-10322, 31-10323, 31-10324, and 31-10325.

On September 7, 2021, BLM filed a protest to Application for Transfer No. 85188 because this Application sought to construct new facilities (two new wells and a new segment of ditch) on Federal land without authorization. The Applicant holds BLM-issued right-of-way ("ROW") IDI-016426 which authorizes existing facilities but not future facilities. An application to amend ROW IDI-016426 would be required to authorize the "change" described in the transfer.

On September 23, 2021, I emailed a draft Settlement Agreement to the Applicant to structure outcomes and to include two standard conditions: (1) "This right does not grant any right-of-way or easement across the land of another;" and (2) "Prior to diversion and use of water on or across federal land under this approval, the right holder shall obtain written authorization from the United States to access the point of diversion, or place of use, or to convey water across federal lands." Instead of signing the agreement, on October 18, 2021, the Applicant filed an application to amend ROW IDI-16426 to include the new wells and ditch described in Transfer 85188. On December 20-2022, BLM issued a decision granting the amendment of ROW IDI-16426 and cost recovery was received on April 3, 2023, which completed the ROW processing.

SCANNED
AUG 18 2023

The BLM's protest has been resolved by the completion of the amended ROW process for ROW IDI-16426. Please include IDWR's standard condition in the approved transfer for each of the involved water rights: "This right does not grant any right-of-way or easement across the land of another." I hereby withdraw BLM's protest, provided that there are no subsequent amendments made without notice to the BLM, and the BLM has the opportunity to protest subsequent amendments.

The BLM's expectation in withdrawing its protest is that any Approved Transfer issued by IDWR will be based upon the application existing at the time of this protest withdrawal. The BLM requests that it receives notice of any subsequent amendments by the applicant and of any Approved Tranfer issued by IDWR.

If there are questions regarding any statements above, please do not hesitate to contact me at (208) 373-3831, or write to the address in our letterhead.

Sincerely,

Thank you for the update, Fred. I was hoping that someone from Jefferson Irrigation Company would respond to the email too. I think we should wait for the BLM to make a final decision on the ROW (because we are so close). I will check back with the group at the beginning of the year.

09-23-2021	BLM emails Settlement Agreement to JIC
10-18-2021	JIC files Application to Amend Right-of-Way (ROW) IDI-16426

Thanks for reaching out, as this case had fallen off my radar. Yes, Jefferson Irrigation Company, Limited (JIC) filed an Application to Amend Right-of-Way (ROW) IDI-16426 with BLM on 10-18-2021. I emailed JIC a Settlement Agreement a month previous on 09-23-2021. If JIC signed it and sent it back to me, I can't find it.

JIC has been working with BLM's Upper Snake Field Office (USFO) to provide information needed to process the ROW amendment. It appears that the USFO is on-track to issue a decision on the ROW amendment before the end of this year.

We can either wait a while longer to see what happens with the ROW, or JIC could consider signing the attached Settlement Agreement. Attached is the proposed Settlement Agreement. I've updated the one from a year ago to fill in the blank on the previous version to provide the date the ROW application was filed.

Subject: [EXTERNAL] Application for Transfer 85188

Dear Parties:

On July 19, 2021, Jefferson Irrigation Company filed Application for Transfer 85188 with the Department, proposing to add two new points of diversion (new wells) to the company's existing network of wells. The proposed points of diversion were both located on land held by the U.S. Bureau of Land Management. The Department published notice of the application in August 2021. BLM filed a protest against the application. BLM's protest stated that Jefferson Irrigation did not have an approved right-of-way for the proposed wells.

On October 19, 2021, the Department conducted a pre-hearing conference for the contested case. No one from Jefferson Irrigation attended the conference. After the conference, I called Patrick Hendren, who confirmed that the company had started discussions with BLM about the right-of-way for the proposed new wells. On December 8, 2021, I called Kraig Bare, who said that the company needed to submit a work plan to BLM as part of the right-of-way application. I have not heard anything more from either party.

When you get a moment, please provide an update on this contested case. Has Jefferson Irrigation filed a right-of-way application with BLM? If so, what is the timeframe for review and approval/denial?

Subject: Application for Transfer 85188

Dear Parties:

On July 19, 2021, Jefferson Irrigation Company filed Application for Transfer 85188 with the Department, proposing to add two new points of diversion (new wells) to the company's existing network of wells. The proposed points of diversion were both located on land held by the U.S. Bureau of Land Management. The Department published notice of the application in August 2021. BLM filed a protest against the application. BLM's protest stated that Jefferson Irrigation did not have an approved right-of-way for the proposed wells.

On October 19, 2021, the Department conducted a pre-hearing conference for the contested case. No one from Jefferson Irrigation attended the conference. After the conference, I called Patrick Hendren, who confirmed that the company had started discussions with BLM about the right-of-way for the proposed new wells. On December 8, 2021, I called Kraig Bare, who said that the company needed to submit a work plan to BLM as part of the right-of-way application. I have not heard anything more from either party.

When you get a moment, please provide an update on this contested case. Has Jefferson Irrigation filed a right-of-way application with BLM? If so, what is the timeframe for review and approval/denial?
