RE: License No. 92-11121

ISSUANCE OF LICENSE

Dear Water Right Holders:

The Department of Water Resources ("Department") has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review all the conditions of approval listed on your license. The conditions may include ongoing requirements, such as maintenance of a measuring device or implementation of mitigation, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district.

The license is a PRELIMINARY ORDER issued by the Department pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Water right forms are available from any office of the Department or on the Department's website at idwr.idaho.gov

If you have any questions concerning the enclosed information, please contact me at (208) 287-4925.

Sincerely,

for Phill Hammer

 a. Irrigation of 5 acres or less
 b. Storage of up to 14.6 AF for stockwater purposes only
 c. Any use other than irrigation or storage, if the combined diversion rate is 0.24 cfs or less
 d. Other < >

2. Current Owner: Name: Sabrina & Nicholas Ferris
 Owner of Record Correct? X Y ___ N
 Address of Record Correct? X Y ___ N
 If No: Address

3. Beneficial Use Fees have been paid: ___ Y X N Receipt No: GW <0.04cfs no fee

4. **SOURCE** TRIBUTARY
 Groundwater N/A

Method of Determination: GIS and Taxlot DataChange in Source: ___ Y X N**B. OVERLAP REVIEW**

1. Other water rights with the same place of use: YES Overlap

Water Right No.	Source	Purpose of Use	Basis
92-10408	Spring-sinks	Domestic/stock water	Partial Decree
92-11126	Groundwater	Stock water	Permit
92-11127	Groundwater	domestic/stock water	Permit

Comments: The place of use for permit 92-11121 is overlapped by permit 92-11127 and partially overlapped by 92-11126. Both overlapping permits have groundwater sources. I called and emailed the applicant on 12/05/2022 requesting clarification which building corresponds with permit 92-11121. The applicant responded by email stating that the small cabin, labeled building 2 (see figure 1.1) is the house being provided groundwater pumped in from the well located northwest of the cabin. I updated the shape of the place of use accordingly. I also emailed the applicant explaining that they will need to clarify which building corresponds to permit 92-11127 when they send us the proof of beneficial use, as it shares the well with 92-11121.

2. Other water rights with the same point of diversion: NO Overlap

Water Right No.	Source	Purpose of Use	Basis
92-11127	Groundwater	Domestic/stock water	permit

Comments: As previously noted the 92-11121 and 92-11127 share a well as their source. The applicant has been notified of a need to clarify the location of each building related to the corresponding domestic uses.

		Lot #																	
Total Acres =																			

Method of Determination: GISChange in POU? X N Amendment Required? X N Delivery System Diagram Attached (required). Indicate all major components and distances between components.

Indicate weir size/pipe as applicable.

X Aerial Photo Attached (required for irrigation of 10+ acres). Photo of Diversion and System Attached

4. Well or Diversion Identification No.*	Motor Make	Hp	Motor Serial No.	Pump Make	Pump Serial No. or Discharge Size
Well pump	unknown		unknown	unknown	unknown

*Code to correspond with No. on map and aerial photo

D. FLOW MEASUREMENTS

1.Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
NONE						

2. Measurements: No measurement is required for an in-house exam**E. FLOW CALCULATIONS**

Measured Method:

The applicant did not provide enough information about the pump or system for a theoretical analysis. A theoretical calculation shows that a diversion rate of 0.04 cfs is possible with a 1 Hp pump. The owner is only claiming 0.02cfs on the proof of beneficial use. I am recommending a diversion rate of 0.02 cfs, which is what was requested on their application for permit.

Q = (0.5 Hp)(8.8)(0.70)/10 ft lift + (30psi X 2.31) = 0.04 cfs
Permit allowed = 0.02 cfs

SCANNED

DEC 14 2022

F. VOLUME CALCULATIONS

Volume calculations are not necessary for domestic use including irrigation. Domestic use including irrigation is defined as up to 1.2 AFA annual volume, as per Memo 22.

G. PURPOSE OF USE

Irrigation ☐ Y ☒ X ☐ N # Stock ☐ Y ☒ X ☐ N Domestic # of Homes ☐ 1 ☐ Y ☒ N

Change in Purpose of Use? ☐ Y ☒ X ☐ N

Method of Determination: Taxlot data and email correspondence with owner.

H. NARRATIVE/REMARKS/COMMENTS

This permit for domestic use from groundwater qualifies for an in-house exam. We received confirmation from the owner in the statement of completion that the well has been installed (including the tag# and drilling company name), so it appears everything is in order. The only information the owner provided on the delivery system is that it is pumped (no pump details) from a well and piped into the cabin. All of the conditions have been met, and it is reasonable to believe that the owners are using water for this system. I am recommending licensing for a diversion rate of 0.02 cfs for the domestic use.

The place of use for permit 92-11121 is overlapped by permit 92-11127 and partially overlapped by 92-11126. Both overlapping permits have groundwater sources. I called and emailed the applicant on 12/05/2022 requesting clarification which building corresponds with permit 92-11121. The applicant responded by email stating that the small cabin, labeled building 2 (see figure 1.1) is the house being provided groundwater pumped in from the well located northwest of the cabin. I updated the shape of the place of use accordingly. I also emailed the applicant explaining that they will need to clarify which building corresponds to permit 92-11127 when they send us the proof of beneficial use, as it shares the well with 92-11121.

Future clarification of the building location and place of use for permit 92-11127 will be helpful in the review of permit 92-11126. Permit 29-11127 has a POU that partially overlaps 92-11126, and both permits source groundwater for stock water usage.

Conditions 004, X01, and 187, are included on the license as domestic use guidelines are applicable. Condition 046, was removed as the well construction is already completed and the tag# and drilling company's name were provided in the submitted proof. The recommended annual volume for domestic use not including irrigation for domestic use is 1.2 AFA, as per administrative memo #22.

Have conditions of permit approval been met? ☒ X Yes ☐ No

I. RECOMMENDATIONS**1. Recommended Amounts**

BENEFICIAL USE	PERIOD OF USE	DIVERSION RATE	ANNUAL VOLUME
domestic	01/01 to 12/31	0.02 CFS	1.2 AFA
	<u>Totals:</u>	0.02 CFS	1.2 AFA

2. Recommended AmendmentsA

☐ Change P.D. as reflected above ☐ Add P.D. as reflected above ☒ X None

☐ Change P.U. as reflected above ☐ Add P.U. as reflected above ☒ X None

Hi Bob,

Permit #92-11127 provides water via well/pump/piping to four cows and one bull. I have not received a letter with the Beneficial Use form for that or the other permit.

Thanks,
Sabrina Ferris

On Tue, Dec 6, 2022 at 11:07 AM Howe, Bob <Bob.Howe@idwr.idaho.gov> wrote:

Good Morning Sabrina,

Thank you for getting back to me so quickly. With the information you provided I am now completing the processing for Licensure of Water right 92-11121.

Please note that the permit for 92-11121 (and the license being processed) are for domestic use. We are still awaiting the proof of beneficial use for permits 92-11126 and 92-11127, both of which will address the stock water usage. Once we have the proof of beneficial use on those permits we can work on work on processing those.

I did send you another image showing where the stock water usage permits overlap. If you let us know which building is related to permit 92-11127 for domestic/stock water on the proof of beneficial use when it is submitted, we should be able to expedite processing on the other permits too.

Please let me know if you have any questions or concerns. Thank you for your time and assistance in this matter.

Sincerely,

Bob Howe

CAUTION: This email originated outside the State of Idaho network. Verify links and attachments BEFORE you click or open, even if you recognize and/or trust the sender. Contact your agency service desk with any concerns.

Hello Bob,

Thank you for your email. The domestic use is for Building #2. It is a small cabin. The water source is a well and it is pumped from the well via pipe.

Please let me know if you have any other questions.

Regards,

Sabrina Ferris

Hi Sabrina,

I am working on processing your permit for water right 92-11121 for an in-house examination. If we can do it this way, it will expedite the processing.

There is an overlap of the place of use for two of your permits. I need to clarify which building is the house for domestic use in water right 92-11121?

Can you please review the attached aerial image and identify which building #1-5 is the house for the domestic use on this permit, also please provide a brief description of how the water is delivered to the house (such as pumped in from the well via pipe). The bright blue dot in the image is the location of the well, as per the permit information.

Please feel free to reach out to me with any questions or concerns. My office hours are 8:00am to 4:30pm, Mon-Fri.

Thank you for your time and assistance in this matter.

Sincerely,

Bob Howe

NOTICE: STATEMENT OF COMPLETION DUE

RE: Permit No. 92-11121

IMPORTANT: A response from you is required to maintain the active status of the referenced water right permit. If no response is received from you, the permit will lapse and your authorization to develop and/or use this water right will be cancelled.

Dear Permit Holder(s):

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before **January 01, 2023**. Please complete and return the enclosed Statement of Completion for Submitting Proof of Beneficial Use (proof) if you have completed the water project authorized by your permit. The proof statement must be accompanied by either the appropriate license examination fee or a field examination report prepared by a certified water right examiner.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been delayed by a government agency or by litigation that brings title to the water in question, an extension of time may be granted if appropriate documentation is provided at the time of filing. An extension request must be accompanied by a \$50.00 filing fee and signed by the appropriate authorized permit holder(s) or authorized representative with a power of attorney.

Either an acceptable proof or an acceptable extension request must be received by this department on or before the above proof due date. If neither is received, the department will send you a lapse notice and the permit will no longer be of any force or effect.

Sincerely,

Debbi Judd
