STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

TRANSFER OF WATER RIGHT
TRANSFER NO. 87188

This is to certify that: BONNIE ROSE AND
WESLEY G ROSE
60 FIFE LN
SALMON, ID 83467

has requested a change to the water right(s) listed below. This change in water right(s) is authorized pursuant to the provisions of Section 42-222, Idaho Code. A summary of the changes is also listed below. The authorized change for each affected water right, including conditions of approval, is shown on the following pages of this document.

Summary of Water Rights Before the Proposed Changes

Water Right	Origin/Basis	Priority Date	Diversion Rate	Diversion Volume	Acre Limit	Total Acres	Source
75-14328	WR/DECREED	5/11/1893	0.160 cfs	N/A	N/A	8.0	SALMON RIVER

Purpose of Transfer (Changes Proposed)

Current Number	Split	POD	POU	Add POD	Period of Use	Nature of Use
75-14328	NO	NO	YES	NO	YES	YES

Summary Of Water Rights After the Approved Change

Existing Right	New No. (Changed Portion)	Transfer Rate	Transfer Volume	Acre Limit	Total Acres	New No. (remaining portion)	Remaining Rate	Remaining Volume	Remaining Acre Limit	Remaining Total Acres
75-14328	75-14328	0.160 cfs	N/A	N/A	7.0	N/A	N/A	N/A	N/A	N/A
COMBINED TOTALS		**0.160 cfs**	**N/A**	**N/A**	**7.0**		**N/A**	**N/A**	**N/A**	**N/A**

This water right(s) is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources. Detailed Water Right Description(s) attached.

Dated this 12th day of January, 2023.

Regional Manager

CONDITIONS OF APPROVAL

1. The pond established by the storage of water under this right shall not exceed a total capacity of 1.2 acre-feet or a total surface area of 0.3 acres.

2. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 170.

Transfer No. 87188

SCANNED
JAN 18 2023

WATER RIGHT NO. 75-14328

As Modified by Transfer No. 87188

CONDITIONS OF APPROVAL

3. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion.

4. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the place of use.

5. Place of use is located within Lot 9 Chinook Subdivision

6. Water is delivered through Fife Ditch.

7. This right does not grant any right-of-way or easement across the land of another.

8. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.

9. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.

10. Pursuant to Idaho Code § 42-1412(6), this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 08/26/2014.

MINIMUM REQUIREMENTS CHECKLIST
TO BE SUBMITTED WITH APPLICATION FOR TRANSFER

An application for transfer must be prepared in accordance with the minimum requirements listed below to be acceptable for processing by the Department. Incomplete applications will be returned. The instructions, fee schedule, Part 2A reports and additional Part 2B forms are available from any Department office or on the Department's website at idwr.idaho.gov.

Name of Applicant(s) Wesley and Bonnie Rose

Check whether each item below is *attached* (Yes) or *not applicable* (N/A) for the proposed transfer.

Yes N/A * Means the item is always required and must be included with the application.

- ☑ * Completed Application for Transfer of Water Right form, Part 1.
- ☑ * Signature of applicant(s) or applicant's authorized representative on Application for Transfer Part 1. Include evidence of authority labeled Attachment #3 (see below) if signed by representative.
- ☑ * Application for Transfer Part 2A. Attach a Part 2A report describing each water right in the transfer as currently recorded.
- ☑ ☐ Complete and attach an Application for Transfer Part 2B for each water right for which only a portion is proposed to be changed through this transfer application.
- ☑ * Application for Transfer Part 3A is always required (see Attachment #7a below); Parts 3B and 3C must be completed for transfer applications proposing to change the nature of use of the water right(s) or proposing changes to supplemental right(s).
- ☑ * Correct fee submitted with transfer application form. (Fee schedule is on website and instructions for application for transfer.)

Attachments to Application - Label each attachment with the corresponding number shown below as Attachment #1-10.

- ☐ ☑ #1 If the applicant is a business, partnership, organization, or association, and not currently registered in the State of Idaho as a business entity, attach documentation identifying officers authorized to sign or act on behalf of right holder. (See Part 1.)
- ☐ ☑ #2a Water Right ownership documentation if Dept. records do not show the applicant as the current water right owner. **
- ☐ ☑ #2b If the ownership of the water right will change as a result of the proposed transfer to a new place of use, attach documentation showing land and water right ownership at the new place of use. Include documentation for all affected land and owner(s).** ** Additional fee(s) required for water right ownership changes; see fee schedule.
- ☐ ☑ #3 Documentation of authority to make the change if the applicant is not the water right owner.
- ☐ ☑ #4 Power of Attorney or documentation providing authority to sign or act on the applicant's behalf. (See Part 1.)
- ☐ ☑ #5 If the transfer application proposes to change the point of diversion for a water right affecting the Eastern Snake Plain Aquifer (ESPA), attach the results of an ESPA analysis and a detailed mitigation plan to offset any depletions to hydraulically connected reaches of the Snake River. ESPA transfer spreadsheet and model grid labeled cells are available on the Department's website at https://idwr.idaho.gov/water-rights/transfers/resources/.
- ☐ ☑ #6 Notarized statement of agreement or a statement on official letterhead signed by an authorized representative from each lien holder or other entity with financial interest in the water right(s) or land affected by the proposed transfer. (See Part 1.5.c.)
- ☑ * #7a Attach a map identifying the proposed point(s) of diversion, place(s) of use, and water diversion and distribution system details as described on the application. Include legal description labels. If only a portion of the right is proposed to be changed, identify the current location of the part of the existing right(s) proposed to be changed. (See Part 3A.)
- ☑ ☐ #7b If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (GIS) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. If some or all of any right is leased to the Water Supply Bank, you must also show the the specific location and/or acres to be idled at the new, proposed place of use to satisfy lease requirements.
- ☑ ☐ #8a If the transfer application proposes to change the nature of use or period of use for one or more rights, provide documentation describing the extent of historic beneficial use for the water rights proposed to be transferred and document how enlargement will be avoided. (See Part 3B.) Additional fee required for proposed changes to nature of use; see fee schedule.
- ☐ ☑ #8b If the transfer application proposes to change the place of use of a supplemental irrigation right, provide documentation regarding the historic use of the supplemental right(s) and availability or reliability of the primary right(s) being supplemented, both before and after the proposed change. (See Part 3C.)
- ☐ ☑ #9 Water Supply Bank information for all rights proposed for transfer and currently leased to the Bank. (Attachment WSB)
- ☐ ☑ #10 Other. Please describe: _____

A. PURPOSE OF TRANSFER

1. ☐ Change point of diversion ☐ Add diversion point(s) ☑ Change place of use
   ☑ Change nature of use ☑ Change period of use ☐ Other _____

2. Is this a transfer for changes pursuant to Idaho Code § 42-221.O.8?
   If yes, ☐ attach an explanation and any supporting documentation labeled as **Part1A.2.**

3. Describe your proposal in narrative form, including a detailed description of non-irrigation uses to justify amounts transferred (i.e. number of stock, etc.), and provide additional explanation of any other items on the application. Attach additional pages if necessary and label it **Part1A.3.**
   We would like to convert one acre of water right 75-14328 from irrigation to storage for a small pond on our property. The pond is located on the Fife Ditch and water flows through the pond all summer for irrigation deliveries to downstream properties.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

APPLICATION FOR TRANSFER OF WATER RIGHT
PART 1 Continued

5. General Information:

a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:
Water is diverted through a large common ditch called the Fife Ditch. The ditch is screened and can be equipped with a measuring device (by all of the users on the common ditch) if one is required in the future.

b. Who owns the property at the point(s) of diversion? Gene Gattung
If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:
N/A No change in point of diversion.

c. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts?
If yes, ☐ attach a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes on official letterhead signed by an authorized representative. Label it **Attachment #6.** List the name of the entity and type of lien: N/A Water rights are not being moved off of the property.

It is the applicant's responsibility to provide notice to lien holder, trustee, mortgagor, or contract holder of the proposed changes that may impact or change the value of the water rights or affected real property. Any misrepresentation of legal encumbrance on this application may result in rejection of the application or cancellation of an approval.

d. Are any of the water rights proposed for transfer currently leased to the Water Supply Bank?
If yes, ☐ complete Attachment WSB.

e. Describe the effect on the land now irrigated if the place or purpose of use is changed pursuant to this transfer:
One acre will be changed from irrigation to aesthetic storage. The acre was irrigated as grass pasture in the past. Based on ET Idaho data, there is 2.4 acre feet of consumptive use for the dried up acre. This is sufficient to offset the annual fill and evaporation from the pond. (continued below)

f. Describe the use of any other water right(s) for the same purpose or land, or the same diversion system as right(s) proposed to be transferred at both the existing and proposed point(s) of diversion and place(s) use:
None.
(continued from above) We do not anticipate any seepage from the pond. The pond is located 50 feet from the Salmon River and the bottom of the pond intersects the local water table.

g. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes	No	
☐	☑	undergone a period of five or more consecutive years of non-use,
☐	☑	currently leased to the Water Supply Bank,
☐	☑	currently used in a mitigation plan limiting the use of water under the right, or
☐	☑	currently enrolled in a Federal set-aside program limiting the use of water under the rights?

If yes, describe:

APPLICATION FOR TRANSFER OF WATER RIGHT
PART 3

A. PLAT MAP (See Part 3A of Instructions for application for transfer for complete requirements.)

☒ Attach a map of the diversion, measurement, control, and distribution system. Label it **Attachment #7a.**

☒ If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (GIS) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. Label it **Attachment #7b.**

If the place of use currently consists of a permissible place of use, then the attachment is not required if the application contains a clear statement that the boundaries for the place of use are not proposed to be changed by the transfer and the total number of irrigated acres within the place of use before and after the transfer is clearly stated.

If any part of the irrigation water right is leased to the Water Supply Bank, you must also specify the location and number of acres that will remain idled for the duration of the lease contract at the new, proposed place of use.

B. CHANGES IN NATURE OF USE (Water Balance)

☒ If you propose to change the nature of use or period of use of all or part of the rights(s) listed in this application, attach documentation describing the extent of historic beneficial use of the portion of the right(s) proposed to be changed. Also attach documentation showing that the portion of the right(s) to be changed will not be enlarged in rate, volume, or consumptive use through the proposed change. Label it **Attachment #8a.**

C. PLACE OF USE CHANGES TO SUPPLEMENTAL IRRIGATION RIGHTS

☐ If you propose to change the place of use of a supplemental irrigation right, answer below and attach supporting documentation. Label it **Attachment #8b.**

Describe how the supplemental water rights have been used historically in conjunction with other water rights at the existing place of use. Describe the time during the irrigation season that the supplemental rights have been used. Include information about the availability or reliability of the primary right(s) being supplemented, both before and after the change. If the applicant is proposing to change a supplemental irrigation right to a primary right, provide the information required on Part 3B above:

Formula Explanations

The acronyms used on the Kimberly Research Center website are defined below:
P = Precipitation
ET= Evapotranspiration
P_d = Precipitation deficit
P_d =ET-P

USING THIS SPREADSHEET

Use the link below to access the Kimberly Research Center website. This website provides the Precipitation Deficit for a station most representative of the pond under examination. The Precipitation Deficit is the total amount of free water surface evaporation minus the precipitation for a given area, which gives the total amount of evaporative losses incurred by the pond. There are several weather sites that are used throughout the state. IDWR staff can find the nearest site using Arc Map. The shape file containing the sites can be found at X:/Spatial/Climate/ETIdahostations.shp.

Instructions:

1. Use the link below to navigate to ET Idaho 2012.
2. Select the station which is most representative to your pond location.
3. Click Submit Query.
4. Under "Land Covers with Evapotranspiration Estimates," select "Open Water - Shallow Systems (ponds, streams)" or "Open Water - small stock ponds" depending on the pond size.
5. Click the link to "Precipitation Deficit."
6. Reference and copy (ctrl + C) the first subheading "Mean" values.
7. Click the "Paste Values from ET Idaho" button. The table will automatically enter a zero (0) for any negative precipitation deficit values.

Found at: http://data.kimberly.uidaho.edu/ETIdaho/

Precipitation Deficit

Station: Twin Falls 2 NNE (NWS -- 109294)

Month	mm/day[1]	*Days per month*	mm/Month
Jan	**0.21**	*31*	***6.51***
Feb	**0.68**	*28*	***19.04***
March	**1.63**	*31*	***50.53***
April	**2.65**	*30*	***79.50***
May	**3.28**	*31*	***101.68***
June	**3.80**	*30*	***114.00***
July	**4.68**	*31*	***145.08***
August	**4.03**	*31*	***124.93***
September	**2.86**	*30*	***85.80***
October	**1.64**	*31*	***50.84***
November	**0.62**	*30*	***18.60***
December	**0.13**	*31*	***4.03***

Total mm/year =	***800.54***

PLEASE NOTE: The seasonal average for precipitation deficit should not be used for calculations because precipitation often exceeds evaporation during wetter months of the year. If the pond is kept full, excess precipitation during wetter months does not serve to refill the pond during drier months.

For example, see Sandpoint KSPT (NWS -- 108137), the annual precipitation deficit is -106 mm. However, April through September have positive precipitation deficit values. To properly estimate the annual volume of water necessary to refill a pond due to evaporation losses, the table will automatically enter a zero (0) for each month that the precipitation value is reported as a negative value.

As described above, precipitation offsets evaporation in winter months, so the net effect is that wintertime precipitation deficit is usually zero.

[(mm/yr) ÷ (convert to feet)] X (Surface area of pond, in acres) = Evaporation Loss in Acre Feet

(***800.54*** ÷ ***304.8***) X **0.30** = **0.8 AFA**

Surface Area of Pond is automatically carried over from the Seepage Loss Sheet.

Total Storage Calculations

FILE NUMBER	75-14328
REVIEWER	Rose
DATE	10/20/2022

This spreadsheet has been designed by Idaho Department of Water Resources to estimate the total seepage, evaporation and fill capacity required for a pond.

User Input
Calculated value
Formula Explanations

Surface Area (AC.)	**0.3**	"Surface Area" is automatically carried over from the "Seepage Loss" sheet.
Average Pond Depth (FT.)	**4**	"Average Pond Depth" depicts the actual depth of the pond either measured or estimated. Note: If you know the maximum depth and not the average depth, the Field Examiner's Handbook suggests multiplying the maximum depth by 0.4 to get the average depth, or you can use any method that seems reasonable to attain average depth.
Pond Capacity (AF)	**1.2**	Pond Capacity is calculated by multiplying the Pond Surface Area by the Average Pond Depth. If you know the capacity, divide the capacity by surface area and enter the average pond depth in the space above. Note: If pond capacity is determined using a method shown on the "Pond Capacity" sheet, the user may need to modify the value of "Pond Capacity" (cell B9) manually. Note that if the value is modified manually, the formula will be altered for future use.
Multiple Fill Volume Above Initial Fill to Fulfill From Storage Needs- "Multiple Fills" (AF)	**0**	The "Multiple Fill Volume Above Initial Fill" is the acre-feet of water required to meet a *from storage* component if the *from storage* component exceeds a one time fill. This section should not include the amount of water needed to fill the pond initially or the amount of water needed to maintain the pond level due to evaporation or seepage. For example: if a pond has a capacity of 5 acre feet and 2.5 acre feet of seepage and evaporation, but the pond is used for irrigation that requires 10 acre feet of from storage for the irrigation use, then you would insert 5 acre feet into this location (10 acre feet needed - 5 acre feet from the initial fill = 5 acre feet of additional storage needed). Note: You must have a "From Storage" component exceeding the initial fill on the permit to include a volume in this space.
Estimated Seepage Loss (AF)	**0.0**	The "Estimated Seepage Loss" is automatically carried over from the "Seepage Loss" sheet.
Estimated Evaporation Loss (AF)	**0.8**	The "Estimated Evaporation Loss" is automatically carried over from the "Evaporation Loss" sheet.
Total Volume Required (AF)	**2.0**	The "Total Volume Required" is calculated by adding the Pond Capacity, Multiple Fills, Seepage Loss, and Evaporation Loss amounts to determine the total amount of storage required.

Subject: Application for Permit
Attachments: Partial Decree 75-13316.PDF

Dear Applicants:

On July 27, 2022, you filed an application seeking a permit to divert 36.4 acre-feet per year from the Salmon River for aesthetic storage. The application is meant to cover the storage at an existing pond on the Fife Ditch. According to aerial images, the Fife Ditch flows through the proposed pond. In other words, the pond is constructed on the ditch. According to the information provided with the application, there are continuous losses associated with the pond (seepage and evaporation). Anytime water is flowing in the Fife Ditch and through your pond, water is lost to seepage and evaporation in the pond.

The United States Forest Service holds water right 75-13316 for Wild & Scenic flow on the Salmon River. The right is measured and delivered at the Shoup Gage on the Salmon River. Attached is a copy of the partial decree for water right 75-13316. As you can see, the diversion rate changes throughout the year. The Shoup Gage is measured by the USGS and daily flows can be found here. Water right 75-13316 bears a priority date of July 23, 1980 and would be senior to your proposed permit. Although the Wild & Scenic water rights, including 75-13316, are subordinated to future water uses, off-stream storage use is not included in the list of protected future uses. Therefore, your right would be curtailed (shut-off) whenever the Wild & Scenic flows are not met. I just reviewed the stream flow data for 2021. Water right 75-13316 was not fully satisfied between April 16 and October 26 in 2021. That would mean all junior, unprotected rights would have been curtailed throughout the entire summer of 2021.

How do you propose to eliminate seepage and evaporation losses in your pond when your water right is curtailed? If the pond remains connected to the Fife Ditch during periods of curtailment, it could injure water rights on the Fife Ditch or on the Salmon River.

I noticed that your property is covered by water right 75-14328, which bears a priority date of 5/11/1893 and authorizes the diversion of 0.16 cfs from the Salmon River and the irrigation of eight acres. One way you could cover the storage use in your pond would be to change a portion of water right 75-14328 from irrigation use to aesthetic storage use. The only way this could work, however, would be to line the pond. The estimated seepage losses in the pond (33.6 acre-feet) are so high, converting the entire water right to storage would still not be sufficient to cover the seepage losses. If the pond were lined, however, then the only losses in the pond would be evaporation, which is estimated to be 1.2 acre-feet per year. This, in addition to the water held in the pond, could be covered by drying up and changing one or two acres from irrigation use to storage.

Please let me know how you would like to proceed with your application. If you choose to move forward, you will need to provide evidence demonstrating that your proposed use will not injure existing water rights, including water right 75-13316. If you choose to withdraw your application, I am happy to work with you on a transfer application to convert a portion of water right 75-14328 from irrigation to aesthetic storage use.

Transfer Approval Notice

Dear Water Right Holder:

The Department of Water Resources has issued the enclosed approved Transfer of Water Right(s). Please be sure to thoroughly review the conditions of approval and remarks listed on the approval document.

The Transfer of Water Right(s) is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless the APPLICANT petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

ANY PERSON aggrieved by any decision, determination, order or action of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Department and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

If the transfer approval includes a condition requiring measuring and recording devices, such devices shall comply with specifications established by the Department. Detailed specifications are available on the Department's home page on the Internet, or you can request a copy by contacting any office of the Department. Please be sure to thoroughly review the specifications to avoid unnecessary costs for reinstallation or modification due to non-conforming or improperly installed devices.

SCANNED
JAN 18 2023

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a $100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at (208) 525-7161.

Sincerely,

Christina Henman
Administrative Assistant

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

SCANNED
JAN 18 2023

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

> Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:
>
> (a) The petition for reconsideration is disposed of; or
> (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

i. A hearing was held,
ii. The final agency action was taken,
iii. The party seeking review of the order resides, or
iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

JAN 18 2023

MEMORANDUM

Date: December 30, 2022

To: Transfer 87188

From: Thomas Lafortune

Re: Review & Evaluation of Sufficiency of Information

The purpose of this transfer is to change one acre of irrigation under water right 75-14328 to aesthetic storage to account for an existing pond on Fife Ditch. The place of use, nature of use, and period of use will be changed for this portion of the right.

Authority to File:
The applicants are the current owners of the water right according to department records.

Water Right Validity:
Water right 75-14328 was decreed in the SRBA in 2008. Aerial imagery shows consistent irrigation since the decree. Forfeiture is not an issue.

Injury to Other Water Rights:
The volume of the pond is 1.2 acre feet, with a calculated evaporation loss of 0.8 acre feet per annum. It was determined that there are no seepage losses because the pond is located 50 feet from the Salmon River and the water table intersects the bottom of the pond. Data from the University of Idaho Evapotranspiration tool shows that drying up one acre would reduce the consumptive use by 2.4 acre feet per annum. This reduction in water for irrigation is enough to cover an initial fill of the pond plus evaporation and seepage losses from the pond. The transfer application was advertised without protest and the Water District 170 watermaster did not respond when asked for comment.

Enlargement of Use:
The total rate of diversion will remain the same. The irrigation portion of the right will decrease by 0.02 cfs to account for the diversion rate under the aesthetic storage portion of the right. The season of use for the changed portion will expand to the entire year, but water will only be actively diverted through the ditch during the irrigation season. Therefore, the total volume will also remain the same.

Local Public interest:
No issues identified.

Beneficial Use/Conservation of Water Resources:
No issues identified.

Effect on Economy the Local Area:
No issues identified.

Effect on Agricultural Base of the Local Area:
No issues identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

NOTICE OF PROPOSED CHANGE OF WATER RIGHT TRANSFER NO. 87188

BONNIE ROSE and WESLEY G ROSE, 60 FIFE LN, SALMON, ID 83467 has filed Application No. 87188 for changes to the following water rights within LEMHI County(s): Right No(s). 75-14328; to see a full description of these rights and the proposed transfer, please see https://research.idwr.idaho.gov/apps/waterrights/querynewtransfers. The purpose of the transfer is to change a portion of the above rights as follows: change place of use, period of use, and nature of use. The applicant proposes to divert 0.16 cfs from the Salmon River through the current point of diversion (Fife Ditch) for irrigation and aesthetic storage. The proposed place of use is in Lot 11 (NESE and NWSE) Sec 6 T20N R22E for 7 acres of irrigation and 2 af of aesthetic storage. The proposed period of use for aesthetic storage is 1/1 to 12/31.

For additional information concerning the property location, contact Eastern Region office at (208)525-7161. Protests may be submitted based on the criteria of Idaho Code Sec. 42-222. Any protest against the proposed change must be filed with the Department of Water Resources, Eastern Region, 900 N SKYLINE DR STE A, IDAHO FALLS ID 83402-1718 together with a protest fee of $25.00 for each application on or before 12/19/2022. The protestant must also send a copy of the protest to the applicant.

Watermaster:

The Idaho Department of Water Resources (IDWR) is seeking written comment and/or recommendations from you regarding the above referenced water right application. You can find a copy of the application at: https://idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx. Please review the application, then complete the enclosed recommendation form and return it to this office within 21 days of the date of this letter.

If the application is approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the watermaster, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

IDWR can finish reviewing an unprotested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered. If IDWR has not received your written recommendation within 21 days from the date of this letter, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Please contact this office if you have any questions regarding the application.

RE: Transfer No. 87188
Water Right No(s). 75-14328

Dear Applicant:

The Department of Water Resources has received your water right transfer application. Please refer to the transfer number referenced above in all future correspondence regarding this transfer.

A legal notice of the application has been prepared and is scheduled for publication in the RECORDER HERALD on 12/1/2022 and 12/8/2022. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the approval document.

Please contact this office if you have any questions regarding the application.

Sincerely,

Christina Henman
Administrative Assistant

RE: Transfer No. 87188
Water Right No(s). 75-14328

Dear Legal Notice Department:

Please publish the enclosed legal notice on the dates indicated (once a week for two consecutive weekly issues). If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Please send the affidavit and bill to this office before 12/19/2022. Your cooperation is appreciated.

Thank You,

IDAHO DEPARTMENT OF WATER RESOURCES

NOTICE OF PROPOSED CHANGE OF WATER RIGHT
TRANSFER NO. 87188

BONNIE ROSE and WESLEY G ROSE, 60 FIFE LN, SALMON, ID 83467 has filed Application No. 87188 for changes to the following water rights within LEMHI County(s): Right No(s). 75-14328; to see a full description of these rights and the proposed transfer, please see https://research.idwr.idaho.gov/apps/waterrights/querynewtransfers. The purpose of the transfer is to change a portion of the above rights as follows: change place of use, period of use, and nature of use. The applicant proposes to divert 0.16 cfs from the Salmon River through the current point of diversion (Fife Ditch) for irrigation and aesthetic storage. The proposed place of use is in Lot 11 (NESE and NWSE) Sec 6 T20N R22E for 7 acres of irrigation and 2 af of aesthetic storage. The proposed period of use for aesthetic storage is 1/1 to 12/31.

For additional information concerning the property location, contact Eastern Region office at (208)525-7161. Protests may be submitted based on the criteria of Idaho Code Sec. 42-222. Any protest against the proposed change must be filed with the Department of Water Resources, Eastern Region, 900 N SKYLINE DR STE A, IDAHO FALLS ID 83402-1718 together with a protest fee of $25.00 for each application on or before 12/19/2022. The protestant must also send a copy of the protest to the applicant.

The following application(s) have been filed to appropriate the public waters of the State of Idaho:

74-16413
KATHLEEN M GATENS, 36 CHERRY DR, SALMON, ID 83467-5062
Point of Diversion NWSE S30 T21N R23E LEMHI County
Source GROUND WATER Tributary
Use: IRRIGATION
03/15 to 11/15
0.12 CFS
Total Diversion:
0.12 CFS
Date Filed: 10-31-2022
Place Of Use: IRRIGATION
T21N R23E S30
NWSE
Total Acres: 6

This application proposes the diversion and use of water from ground water tributary to the Salmon Wild & Scenic River. The decreed minimum stream flow rights for the federal Wild & Scenic Rivers are subordinate to certain categories of water use and to specific amounts of water use established after the minimum stream flow. The water use proposed in this application will benefit from the subordination provision because the diversion rate and acres will be applied to the subordination amounts specified in the decree for the Wild & Scenic River listed above.

Permits will be subject to all prior water rights. For additional information concerning the property location, contact the Eastern office at (208)525-7161; or for a full description of the right(s), please see https://idwr.idaho.gov/apps/ExtSearch/WRApplicationResults/. Protests may be submitted based on the criteria of Idaho Code § 42-203A. Any protest against the approval of this application must be filed with the Director, Dept. of Water Resources, Eastern Region, 900 N SKYLINE DR STE A, IDAHO FALLS ID 83402-1718 together with a protest fee of $25.00 for each application on or before 12/19/2022. The protestant must also send a copy of the protest to the applicant.
