ISSUANCE OF LICENSE

Dear Water Right Holder:

The Department of Water Resources ("Department") has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review all the conditions of approval listed on your license. The conditions may include ongoing requirements, such as maintenance of a measuring device or implementation of mitigation, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district.

The license is a PRELIMINARY ORDER issued by the Department pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Water right forms are available from any office of the Department or on the Department's website at idwr.idaho.gov

If you have any questions concerning the enclosed information, please contact me at (208) 287-4925.

Sincerely,

H. NARRATIVE/REMARKS/COMMENTS

This permit qualifies for an in-house examination. According to Tax Parcel Data the property was developed in 2003. The permit authorizes domestic use for 1 home and up to 1/2 acre yard irrigation. The permit holder confirmed they installed a fish screen according to their *Statement of Completion for Proof of Beneficial Use*. The permit holder did not provide pump horsepower; therefore, a diversion rate calculation was not possible. The recommended rate and volume were determined by the standards set in Administrative Processing Memo #22. All of the conditions have been met and it is reasonable to believe the permit holder are using water for the beneficial use authorized on their permit.

Conditions 227, X01, 187, X15, X16 and X60 should remain on the license. Condition 004 should be removed because there are currently no access concerns. All other conditions should be removed as standard with licensing.
