NARRATIVE

Remington Recreational Water and Sewer District

Statement of Completion Narrative

Site Background

The Remington Recreational Water and Sewer District (the District) is a public water system that currently serves 397 residential connections and is expected to serve 661 connections at system buildout. Refer to Figure 1 on the following page for an overview of the system.

The water facilities on parcel 0-7227-002-019-B include two existing wells (Wells No. 2 and No. 3), one booster station, and one 100,000-gallon reservoir. Well No. 2 was drilled in 1998 and Well No. 1 (Parcel number: 0-7227-002-010-A) was drilled in 1970, and the booster station and reservoir were constructed in 1995. The new well, Well No. 3, was drilled in 2021; due to supply chain issues, the pump was not installed and operational until late winter 2023.

Well No. 3

The new well utilizes a Western Hydro Model FST-9FHC Enclosed Impeller pump and has the option to pump directly to distribution at system pressure or discharge to the existing reservoir on the same site. These controls are pre-set to easily switch between these two options, with the pump being programmed with a pre-set to slow when pumping to the reservoir rather than to pressure. The well pump is equipped with a variable frequency drive. IDEQ's authorization to serve as well as the well log are included in Attachment A.1 and A.2 respectively.

Additional Future Improvements

Future system improvements involve the construction of a partially buried 160,000-gallon reservoir on parcel 0-7227-002-019-B that will contribute to the water storage capacity of the system, with the addition of two new booster pumps inside the existing booster station building. The construction will consist of the 160,000 cast-in-place concrete reservoir, overflow piping, two additional booster pumps (inside the existing building), and connection to the existing system. Well 3 will be able to pump to either the existing or future reservoir.

These improvements provide redundancy and the ability to meet other IDEQ requirements. These improvements are planned for Summer/Fall 2023 and are not intended to significantly impact current beneficial use of the system.

Subject: Authorization to Serve – Remington Recreational Water and Sewer District Well 3; State Revolving Fund Loan DW2106

Dear Shawn:

The Idaho Department of Environmental Quality (DEQ) has completed review and inspection of the facilities relating to the above referenced project. A well completion report was approved by DEQ on 9/2/2022. The constructed facilities were evaluated based on the record drawings sealed and signed by Ashley Williams, PE on 3/21/2023 and submitted to DEQ on 3/22/2023 and the O&M Manual also signed and sealed by Ashley Williams, PE on 4/5/2023 and submitted on the same day. The new drinking water source is hereby approved and the well is authorized to serve water to the public subject to the following conditions.

I. Standard Conditions:

- A. Within 30 days of receiving this letter, contact Drinking Water Compliance Supervisor Anna Moody to obtain monitoring schedule for WELL No. 3 and ensure that compliance requirements have been implemented. Anna Moody may be reached at (208) 666-4612 or anna.moody@deq.idaho.gov.

If you have any questions or comments, please contact me at (208) 666-4622 or email.

PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 95-9427

Dear Permit Holder(s):

The Department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the Department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the field examination, please contact the Northern Region Office of the Department located in Coeur d'Alene at (208) 762-2800.

Sincerely,

Amanda Veibell

Good Afternoon.

I tried to call the phone number listed on the Statement of Completion for Submitting Proof of Beneficial Use (proof), but the number appears disconnected.

Idaho Department of Water Resources (Department) received your proof with the appropriate \$150 fee at our Northern Regional office today. During our initial review, the name of the permit holder listed on the proof, Remington Recreational Water and Sewer District, differs from that of the Water Permit (permit), Remington Water District. Are Remington Recreational Water and Sewer District and Remington Water District the same entity?

Please let the department know if the entities are the same and provide an updated phone number for our records.

Thank you.

NOTICE: STATEMENT OF COMPLETION DUE

RE: Permit No. 95-09427

IMPORTANT: A response from you is required to maintain the active status of the referenced water right permit. If no response is received from you, the permit will lapse and your authorization to develop and/or use this water right will be cancelled.

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before **June 01, 2023**. Please complete and return the enclosed Statement of Completion for Submitting Proof of Beneficial Use (proof) if you have completed the water project authorized by your permit. The proof statement must be accompanied by either the appropriate license examination fee or a field examination report prepared by a certified water right examiner.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Idaho Code § 42-204. If you have been delayed by a government agency or by litigation that brings title to the water in question, an extension of time may be granted if appropriate documentation is provided at the time of filing. An extension request must be accompanied by a \$50.00 filing fee and signed by the appropriate authorized permit holder(s) or authorized representative with a power of attorney.

Either an acceptable proof or an acceptable extension request must be received by this Department on or before the above proof due date. If neither is received, the Department will send you a lapse notice and the permit will no longer be of any force or effect.

Sincerely,

Debbi Judd
Technical Records Specialist
