Water Usage 2018 through 2022

Rolling Meadows Ranch Home Owners Association

PWS #ID1280314 / Well Permit #95-09490

Our water system is currently serving 20 connections out of the 22 residential parcels in our development. Two parcels have not been developed by the respective owners and are not connected to the system. Another is currently under construction with a completion date in summer of 2023 and is connected to the system. All parcels are single family residences.

The meter is read once a month and recorded on a spreadsheet by our Well Operator.

For the year 2018	2,992,000 gals
For the year 2019	2,308,000 gals
For the year 2020	3,047,000 gals
For the year 2021	5,925,000 gals
For the year 2022	3,447,000 gals

The spreadsheets reflecting the actual meter readings are available.

Respectfully submitted,

Michael Foster

PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 95-9490

Dear Permit Holder:

The Department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the Department to conduct a field examination to determine and confirm the use being made of the water.

Please be advised that Idaho Code § 42-248, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the field examination, please contact the Northern Region Office of the Department located in Coeur d'Alene at (208) 762-2800.

Sincerely,

MEMORANDUM

To: Water Right File No 95-09490
From: Ashley Ritter
Date: April 6, 2023
Re: Reporting Requirements Review

Intro

Water permit 95-9490, (permit holder: Kootenai Land & Trust LLC) has proof of application of water to beneficial use submittal date of April 01, 2023.

Diversion and use of water in connection with permit 9-9490 (based on conditions of approval) require that:

"The right holder shall annually report to IDWR and Kootenai Environmental Alliance the total annual water volume withdrawn and the annual volume of water delivered to each connection by January 31 for the previous calendar year."

"Prior to or in connection with the proof of beneficial use statement to be submitted for municipal water use under this right, the right holder shall provide the department with documentation showing that the water supply system is being regulated by the Idaho Department of Environmental Quality as a public water supply and that it has been issued a public water supply number."

The permit holder states that the water system currently serves 20 connections out of the 22 residential parcels, and that two (2) parcels have not been developed and are not connected to the system. Another is currently under construction with a summer 2023 completion date and is also connected to the system.

The permit holder provided water usage data for the Rolling Meadows Ranch Homeowners Association for 2018 through 2022. This includes a total annual system volume and an annual diversion volume for each individual lot.

The public water system number for Rolling Meadows ranch is ID1280314. I was able to locate a monitoring schedule report for 2023 that shows that IDEQ is monitoring this system.

Conclusions

The reporting requirements for submittal of proof of application of water to beneficial use have been satisfied.

"*FUTURE" in the "Satisfied" column indicates the sampling requirement begins sometime in the future. Sampling before the monitoring period begin date will not satisfy the requirement for the monitoring period.

"*See CO" in the "Satisfied" column indicates the operator needs to contact his or her compliance officer (CO) to verify that samples have been taken and the schedule has been satisfied.

IMPORTANT NOTICE: This monitoring schedule is provided to you as a courtesy and is current as of April 06, 2023 Surface water systems and systems that are disinfecting have additional sampling that is not reflected in this monitoring schedule report. This monitoring schedule may be changed or modified as needed. This monitoring schedule does not show past unfulfilled schedules for which violations may exist. Please revisit the monitoring schedule tool and review the system's monitoring schedule prior to sampling to ensure compliance with the most current monitoring requirements. Contact your public water system regulating agency if you have any questions.

NOTICE: STATEMENT OF COMPLETION DUE

RE: Permit No. 95-09490

IMPORTANT: A response from you is required to maintain the active status of the referenced water right permit. If no response is received from you, the permit will lapse and your authorization to develop and/or use this water right will be cancelled.

Dear Permit Holder(s):

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before **April 01, 2023**. Please complete and return the enclosed Statement of Completion for Submitting Proof of Beneficial Use (proof) if you have completed the water project authorized by your permit. The proof statement must be accompanied by either the appropriate license examination fee or a field examination report prepared by a certified water right examiner.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been delayed by a government agency or by litigation that brings title to the water in question, an extension of time may be granted if appropriate documentation is provided at the time of filing. An extension request must be accompanied by a \$50.00 filing fee and signed by the appropriate authorized permit holder(s) or authorized representative with a power of attorney.

Either an acceptable proof or an acceptable extension request must be received by this department on or before the above proof due date. If neither is received, the department will send you a lapse notice and the permit will no longer be of any force or effect.

Sincerely,

Debbi Judd
