RE: License No. 95-18229

ISSUANCE OF LICENSE

Dear Water Right Holders:

The Department of Water Resources ("Department") has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review all the conditions of approval listed on your license. The conditions may include ongoing requirements, such as maintenance of a measuring device or implementation of mitigation, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district.

The license is a PRELIMINARY ORDER issued by the Department pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Water right forms are available from any office of the Department or on the Department's website at idwr.idaho.gov

If you have any questions concerning the enclosed information, please contact me at (208) 287-4925.

Sincerely,

for Phill Hummer

Water Right No.	Source	Purpose of Use	Basis
95-18228	GROUNDWATER	DOMESTIC/IRRIGATION	PERMIT

Comments: Permit 95-18228, has a point of diversion in the SWNE quarter/quarter and a place of use described as 7 acres in the SWNE, 1acre in the NWNE quarter/quarter. No ArcGIS shape has been documented as of yet. The parcel 95-18229 is located within is the NWNE quarter/quarter, and it is the second parcel north of the SWNE boundary. The separation distance makes it unlikely that there would be any actual overlap between 95-18229 and 95-95-18228.

H. NARRATIVE/REMARKS/COMMENTS

This permit for domestic use from groundwater qualifies for an in-house exam. We received confirmation from the owner in the statement of completion that the well has been installed (including the tag# and drilling company name). The only information the owner provided on the delivery system is that it is pumped (no pump details) from a well and piped into the home. The applicant stated on the proof of beneficial use that they only were using 0.04cfs for domestic use and 1/2 acre irrigation. As this was different from the 0.06cfs requested for the home and shop with a bathroom approved for the permit, I called Robert Armijo and confirmed that the shop was built without a bathroom, and he does not need more than 0.04cfs to provide water for domestic use. I was able to confirm from 2022 imagery found on Google Earth that the shop has been built and imagery confirms approximately 1/2acre surrounding the home is being irrigated.

Conditions X01, X60 and 187, should be included on the license. Condition 046 was removed as the well construction is already completed and the tag#, drillers report and drilling company's name were provided in the submitted proof. Condition 004 was removed as the applicant stated in the permit application section 11 that they own the property the well and place of use are within (also supported by the tax lot data). All conditions have been met. I am issuing a licensing for a flow rate of 0.04cfs and an annual volume for domestic including irrigation for domestic of 1.2AFA, as per administrative memo #22.

Have conditions of permit approval been met? X Yes No

NOTICE: STATEMENT OF COMPLETION DUE

RE: Permit No. 95-18229

IMPORTANT: A response from you is required to maintain the active status of the referenced water right permit. If no response is received from you, the permit will lapse and your authorization to develop and/or use this water right will be cancelled.

Dear Permit Holders:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before **February 01, 2023**. Please complete and return the enclosed Statement of Completion for Submitting Proof of Beneficial Use (proof) if you have completed the water project authorized by your permit. The proof statement must be accompanied by either the appropriate license examination fee or a field examination report prepared by a certified water right examiner.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Idaho Code § 42-204. If you have been delayed by a government agency or by litigation that brings title to the water in question, an extension of time may be granted if appropriate documentation is provided at the time of filing. An extension request must be accompanied by a \$50.00 filing fee and signed by the appropriate authorized permit holder(s) or authorized representative with a power of attorney.

Either an acceptable proof or an acceptable extension request must be received by this Department on or before the above proof due date. If neither is received, the Department will send you a lapse notice and the permit will no longer be of any force or effect.

Sincerely,

Debbi Judd
