RE: License No. 96-14255

ISSUANCE OF LICENSE

Dear Water Right Holders:

The Department of Water Resources ("Department") has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review all the conditions of approval listed on your license. The conditions may include ongoing requirements, such as maintenance of a measuring device or implementation of mitigation, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district.

The license is a PRELIMINARY ORDER issued by the Department pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Water right forms are available from any office of the Department or on the Department's website at idwr.idaho.gov

If you have any questions concerning the enclosed information, please contact me at (208) 287-4925.

Sincerely,

for Phill Hummer

H. NARRATIVE/REMARKS/COMMENTS

This permit qualifies for an in-house examination. According to Tax Parcel Data the property was developed in 1974. The permit authorizes domestic use for one home and up to ½ acres of yard irrigation. GIS Imagery seemed to indicate irrigation of landscaping occurred in 2021. The legal description of the point of diversion, on the permit, did not include the government lot as the included map does. The legal description should be updated to include the government lot. According to the permit holders Statement of Completion for Proof of Beneficial Use a fish screen within the requirements set by the Idaho Department of Fish and Game was installed. The permit holder did not provide a pump horsepower. Therefore, a diversion rate calculation was not possible. The standards set in Administrative Processing Memo #22 were used to make diversion rate and volume recommendations. All of the conditions have been met and it is believed the permit holders are using water for the beneficial use authorized on their permit. Therefore, I am recommending a 0.04 cfs diversion rate and 1.2 af diversion volume.

Conditions X60, X01, 187, and 004 should remain on the license. Condition 029 should be removed because the permit holder complied with the requirements set by the Idaho Department of Fish and Game. All other conditions should be removed as standard with licensing.

Have conditions of permit approval been met? __X___Yes _____No

RE: Permit No. 96-14255

Permit Approval Notice

Dear Permit Holder(s):

The Department of Water Resources ("Department") has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review all the conditions of approval listed on your permit. The conditions include requirements that you must accomplish, such as timely submittal of proof of beneficial use or installation of a measuring device, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district. Failure to comply with the conditions of approval may result in your permit lapsing or being canceled.

The permit is a PRELIMINARY ORDER issued pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

The final step in the water right process is issuance of a water right license. To receive a water right license, you must divert and use water to the full extent intended and submit a *Statement of Completion for Submitting Proof of Beneficial Use* by the date shown in condition no. 1 of your permit. The Department will send you a *Proof Due Notice* approximately 60 days prior to the date listed in condition no. 1 of your permit.

You may also require approvals from other Department programs, such as Ground Water Protection, Safety of Dams, or Stream Channel Protection, to accomplish your proposed development. Please call or visit any Department office or see the Department's website at idwr.idaho.gov for more information about these programs.

Please be advised that Idaho Code § 42-248, requires you or the owner of this water permit to maintain current ownership and address records on file with the Department. Forms to file an assignment of permit and/or a change in the address of the permit owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the enclosed information, please contact the Northern Region Office at (208) 762-2800.

Sincerely,

Luke Bates
Interim Water Rights Supervisor

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

SCANNED
FEB 13 2023

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

> Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:
>
> (a) The petition for reconsideration is disposed of; or
> (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

i. A hearing was held,
ii. The final agency action was taken,
iii. The party seeking review of the order resides, or
iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Application for Permit No. 96-14255

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the BONNER COUNTY DAILY BEE on 1/19/2023 and 1/26/2023. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Tammy Alleman
Administrative Assistant

The Department of Water Resources is seeking written comment and/or recommendations from your agency regarding the above referenced Water Right Permit application. You can find copies of the application at: http://www.idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx.

This office can publish notice of the application as soon as the initial review is completed; therefore, your prompt response to this request is appreciated. If your agency desires to formally protest the approval of the application(s), you may do so after the notice is published by filing a written protest along with a $25.00 filing fee within 10 days after final publication. The deadline for comments on the applications is February 6, 2023.

Please contact the Northern Region Office at (208) 762-2800 if you have any questions regarding the Permit application.

Thank you,

MEMORANDUM

December 27, 2022

Application for Permit: 96-14255

Author: LBates LB 12/27/2022

Subject: POD / POU / Development Period Clarification

Application for permit submitted with map that illustrated the applicant's parcel, with parcel ID# referenced. Twp, Rge, Sec, & QQs were on map, but the POD was not specified by the applicant.

Applicant submitted amended application for permit on 12/27/2022 revising the following:

- water source tributary to reflect Pend Oreille River
- POU updated to add Gov Lot 2 to SWNE for domestic & remove an erroneously entered QQ
- Apply centroid to application map for POD which was accurately described in step No.4
- Change development period for existing system from zero (0) years to reflect one (1) year. Applicant misconstrued question No.13, which requires to assign a development period to complete project; as the applicant's system is in place & currently in use, zero was a suitable answer but ADHOC will not allow a null value for data entry.

None of the above-mentioned clarifications are recommended for advancement of priority date by department staff.

Howard Lawrence & Susan Alexander,
Good morning.

I am requesting a courtesy response to this correspondence; it will let me know I didn't error in entering your email address. Thank you!

During initial review of your online application for permit filing I have identified an issue with the point of diversion, specifically with the map product. State Statute requires the map product agree with the legal description on the application in order to make it complete for filing.

1. The application identifies 56N01E, Sec 17, SWNE quarter-quarter in step No. 4.
2. The application map illustrates the parcel and clearly shows the legal description but there is no centroid (dot or X) which identifies the point of diversion. You will note the yellow line running east-west separating the SWNE Government lot 2 (land side) from the SWNE (lakeside) portion of your property.
3. Step 13 requires a number value between 1 & 5 years. Even though your system is in place, you will need to enter the value one (1) in this step.

Please print the three-page PDF associated with your filing and use it to make corrections.

Form steps that require change consideration are as follows:

Map Page – use a sharpy or ink pen and clearly mark where the Point of Diversion is located. Initial and date on the map page.

Step 4 – Point of Diversion –

- IF the point of diversion is north (above) the yellow line, then your legal description in step 4 needs to be clarified to include Govt Lot 2. This is most likely if the pump is located with the dock
- IF the point of diversion is south (below) the yellow line, then your legal description is accurate and no changes to step 4 are required.

Step 9 – Place of Use – Due to the developed shoreside portion of your parcel falling within a government lot, I need you to do the following to step 9.

- In the row below the letter "D" correlating with Big Box "NE" Little Box "SW", enter GL2
- Line out the letter D in the Big Box "NE", Little Box "SE", as this legal description is not association with your property. Initial and date

Step 13 – Time required for completion of works – Please line out the zero and enter a value of one (1), this can be done in the area just below the years (minimum 1 year). Initial and date.
