RE: License No. 96-11227

ISSUANCE OF LICENSE

Dear Water Right Holder(s):

The Department of Water Resources ("Department") has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review all the conditions of approval listed on your license. The conditions may include ongoing requirements, such as maintenance of a measuring device or implementation of mitigation, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district.

The license is a PRELIMINARY ORDER issued by the Department pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Water right forms are available from any office of the Department or on the Department's website at idwr.idaho.gov

If you have any questions concerning the enclosed information, please contact me at (208) 287-4910.

Sincerely,

Jean Hershey

Technical Records Specialist 2

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
IN-OFFICE REVIEW/BENEFICIAL USE FIELD REPORT

A. GENERAL INFORMATIONExam Date: 07/06/2023

1. Does this qualify for an in-office field exam (IDAPA 37.03.02.035.01.r)? X Y N
- a. Irrigation of 5 acres or less
- b. Storage of up to 14.6 AF for stockwater purposes only
- c. x Any use other than irrigation or storage, if the combined diversion rate is 0.24 cfs or less
- d. Other < >
2. Current Owner: **Peggy Gaudet & Michael Ehredt**

- If No Explain:
3. Beneficial Use Fees have been paid: X Y N Receipt No: **C116687**
4. Source: **Riser Creek** Tributary: **Lake Pend Oreille**

Method of Determination: Y X N

Change in Source: Y X N

B. OVERLAP REVIEW

1. Other water rights with the same place of use: No Overlap

Water Right No.	Source	Purpose of Use	Basis
96-2144	Carter Creek	Irrigation	License
96-11460	Ground Water	Domestic	Adjudication Claim

Comments: Claim 96-11460, filed by the permit holder for domestic use completely overlaps the permit place of use (POU). However, the claim has a ground water source, so there are no statutory concerns regarding any interactions. Right 96-2144 for irrigation use diverting surface water completely overlaps the permit POU. However, the right has two claims into 96-2144A and 96-2144B, which have split the 20 total acres of right 96-2144. The claim POUs do not overlap the permit POU, but are instead appurtenant to parcels listed by Bonner County as currently owned by the claimant.

2. Other water rights with the same point of diversion: NO Overlap

Water Right No.	Source	Purpose of Use	Basis
96-11220	Riser Creek	Domestic	License

Comments: Right 96-11220 shares the same point of diversion (POD) as the permit POD. This has been identified in condition F06 of the permit and will be carried to the license. I called and spoke with the permit holder on July 6th, 2023, she explained that the POD is shared by family members and crosses several family-owned properties.

C. DIVERSION AND DELIVERY SYSTEM

1. Location of Point(s) of Diversion:

Source	Govt. Lot	¼	¼	¼	Sec.	Twp.	Rge.		County
Riser Creek	5		SW	NW	5	56N	02E	B.M.	BONNER

Method of Determination: GIS and Taxlot data.

Change in POD? Y X N Amendment Required? Y X N

			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
56N	01E	1			D														
		Lot #			5														

Method of Determination: GIS & Bonner County Tax Records.

Change in POU? ____Y XN Amendment Required? ____Y XNX Delivery System Diagram Attached (required). Indicate all major components and distances between components.

Indicate weir size/pipe as applicable:

____ Aerial Photo Attached (required for irrigation of 10+ acres).

____ Photo of Diversion and System Attached

3. Diversion Id No.*	Motor Make	HP	Motor Serial No.	Pump Make	Pump Serial No. or Discharge Size
Gravity fed from storage tank	NA	NA	NA	NA	NA

*Code to correspond with No. on map and aerial photo

D. FLOW MEASUREMENTS

1. Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
NONE						

2. Measurement Comments: No rate measurements are required for an in-office examination. However, Administrative Memo #22 was referenced to determine a reasonable rate of diversion.

E. FLOW CALCULATIONS

____Additional Computation Sheets Attached

Comments: Administrative Memo #22 allows a rate of diversion of up to 0.04cfs for domestic use in 1 home with up to ½ acre of irrigation.

Permit allowed = 0.04cfs

Recommendation = 0.04cfs**F. VOLUME CALCULATIONS**

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 0.5 \text{ acres} \times 3.0 = 1.5 \text{ AF}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation season}) \times 1.9835 = 0.04 \text{ cfs} \times 213 \text{ days} \times 1.9835 = 16.9 \text{ AF}$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 1.5 \text{ AF}$$

2. Volume Calculations for Other Uses: Administrative Memo #22 allows an annual volume of 1.2 AF for domestic use in 1 home including the irrigation of up to ½ acre.

Comments: I am recommending an annual volume of 1.2 AF for the license, as per Administrative Memo #22.

G. PURPOSE OF USE

Change in Purpose of Use? ____Y ____X ____N

Method of Determination:

If Yes: From Use _____ To Use _____ Amount _____ CFS _____ AFA _____

H. NARRATIVE/REMARKS/COMMENTS

This permit for domestic use with up to 1/2 acre of irrigation qualifies for an in-office examination for licensing. On a phone call made July 6th, 2023, the permit holder clarified details of the system. The permit holder confirmed that the parcel line is not correct, the true property boundary is just north of the house (see Figure 2). The POD is shared with right 96-11220 and access is provided for diversion by the permit holder's family who owns the parcel it is within. Claim #96-11460 for domestic use, which was filed by the permit holder, diverts ground water for domestic use at the same household as this permit. The permit holder stated that the surface water is used for domestic use when the rate of the gravity flow from the holding tank is sufficient, when flow at the creek is insufficient the well at the home is used for domestic use. According to the permit holder the sources are not used simultaneously. I wrote an email to the permit holder and provided them a copy of right 96-11220 system diagram for reference (see figure 3), requesting a system diagram explaining how their surface water integrates with the POD and how surface and groundwater sources are controlled for the permitted domestic use.

GIS and Bonner County imagery was used to confirm the residence location and to provide evidence of irrigation within the domestic place of use (see Figures 1 & 2). Based on Administrative Memo #22, I am recommending a rate of diversion of 0.04cfs and an annual volume of 1.2 acres on the license.

I am recommending that the license be issued with conditions F06, X01, 187, and 004.

Have conditions of permit approval been met? ____X____ Yes ____No

I. RECOMMENDATIONS

1. Recommended Amounts:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>DIVERSION RATE</u>	<u>ANNUAL VOLUME</u>
Domestic	01/01 to 12/31	0.04cfs	1.2 AF
	<u>Totals:</u>	0.04cfs	1.2 AF

2. Recommended Amendments:

Subject: System diagram and information requested for permit 96-11227
Attachments: 96-11220 diagram image.PNG

Hi Peggy,

Thank you for taking the time to discuss permit 96-11227 with me this morning. As I mentioned in our conversation, we are requesting a system diagram detailing how your water integrates with the same point of diversion as Dale Van Stone (right 96-11227), so your in-office license review can be completed.

I have attached the system diagram submitted by Dale for his diversion system. Feel free to use it as a reference, or draw and identify your water line(s). Also, as you described your domestic usage as alternately sourcing surface water and ground water, please include details regarding how the domestic system is switched from surface water to ground water use. Please include any photos of the system that might be helpful to describe the system.

Feel free to reach out to me with any questions or concerns. Thank you for your time and attention to this matter.

Regards,

Bob Howe

Re: Proof Deficiency Water Permit No. 96-11227

Veibell, Amanda

Wed 6/28/2023 9:55 AM

To: Peggy Gaudet <gaudetpeggyjo@gmail.com>

Hi Peggy.

Thank you for getting back to me so quickly. If you continue reading number 7, a fee for .04 cfs of ground water is not required. At the bottom of page 3 of the instructions, it is highlighted that all surface water sources must pay a license exam fee. Your permit has a Riser Creek surface water source, which requires the \$50.00 license exam fee as per Idaho Statutes [42-217](#) and [42-221](#).

A reminder, the fee must be received by July 1, 2023, for the proof to be considered received timely and to avoid the permit lapsing. Fees may be mailed to any IDWR office as cash, check, or money order. You also can pay by card by going to any of our offices throughout the state. The Department can not accept payments over the phone.

Please let me know if you have any questions.

Amanda Veibell

208-287-4945

If you would like to submit documents electronically, they must be emailed to file@idwr.idaho.gov per [IDAPA 37.01.01.053](#) in PDF form.

From: Peggy Gaudet <gaudetpeggyjo@gmail.com>

Sent: Wednesday, June 28, 2023 9:18 AM

To: Veibell, Amanda <Amanda.Veibell@idwr.idaho.gov>

Subject: Re: Proof Deficiency Water Permit No. 96-11227

CAUTION: This email originated outside the State of Idaho network. Verify links and attachments BEFORE you click or open, even if you recognize and/or trust the sender. Contact your agency service desk with any concerns.

Hi Amanda,

Thanks for letting me know. Since I'm only using .04cfs I don't have pay a fee. That is what it says in part 7. (See attachment)

204(4). The reporting information is the time between the permit incremental Proof and the current Proof filing.

If any of the items were not required by the permit, please check the box(es) under "No". If the permit conditions do not require any of the items, but the items listed have been reported, submitted, or installed anyway, please check the box(es) under "Yes" and attach documentary evidence of establishment or installation.

The Proof may be unacceptable if the required information is not submitted with or before the Proof. It is possible a water right license may not be issued if the permit conditions have not been complied with. You must comply with the permit conditions or seek to have the Department waive the permit condition(s).

7. A license examination fee to confirm the extent of beneficial water use developed during the permit development period is required. You need to either submit a field examination report completed by a CRWE or pay a license examination fee to the Department. A license examination fee is required by Idaho Code § 42-217. The fee required is based on the diversion rate of the system or total volume of water stored, according to Idaho Code § 42-221. State the fee amount you are submitting as part of the Proof in the space provided.

A license examination fee is not required if a field examination is conducted by a CWRE or if you are using total of 0.04 cfs or less or storing 4.0 acre-feet per year or less from a ground water well. See the License Examination Fee Schedule below to determine the appropriate fee. If a fee is not required, leave the fee amount line blank and check the box to indicate a fee is not required.

If the appropriate license examination fee is not received, the Proof will be considered incomplete. Fees received after the Proof due deadline may be cause to advance the priority date of the water right.

The Department will issue a license of water right based on the determination of the amount of water beneficially used in compliance with the existing law. The license will include specific information to describe the water right.

Instructions for Filing a Statement of Completion for Submitting Proof of Beneficial Use

Page 2

I'm not filing an extension so I don't need to pay the \$50 for that.

I already paid the \$100 fee to file the permit in April of 2022. Can you please help me understand why I have this extra fee?

Sincerely

Peggy Gaudet

NOTICE: STATEMENT OF COMPLETION DUE

RE: Permit No. 96-11227

IMPORTANT: A response from you is required to maintain the active status of the referenced water right permit. If no response is received from you, the permit will lapse and your authorization to develop and/or use this water right will be cancelled.

Dear Permit Holder(s):

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before **July 01, 2023**. Please complete and return the enclosed Statement of Completion for Submitting Proof of Beneficial Use (proof) if you have completed the water project authorized by your permit. The proof statement must be accompanied by either the appropriate license examination fee or a field examination report prepared by a certified water right examiner.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been delayed by a government agency or by litigation that brings title to the water in question, an extension of time may be granted if appropriate documentation is provided at the time of filing. An extension request must be accompanied by a \$50.00 filing fee and signed by the appropriate authorized permit holder(s) or authorized representative with a power of attorney.

Either an acceptable proof or an acceptable extension request must be received by this department on or before the above proof due date. If neither is received, the department will send you a lapse notice and the permit will no longer be of any force or effect.

Sincerely,

Water Rights Section
