Priority Date Explanation:

This is the date that was licensed and the use continues today. We have an agreement with PacifiCorp to pump out of the river for the Bear Lake storage water. In this agreement, we agree to let this water flow to the river and in return pump out of the river to irrigate the land described in my water rights. The upper field is regularly irrigated, the lower field by the river was historically irrigated and still has the ability for irrigation when needed. This water right is for 86 acres of our total 175 acres of irrigation.

Our water right is used to irrigate land owned by Iverson that we are leasing for crop production.
