6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Water right 37-21668 is limited to the irrigation of 2.7 acres within the place of use described above in a single irrigation season.
13. Property is also known as Lot 5, Blk 4, Bellevue Farms Subdivision.
14. Point of diversion described above for water rights 37-21677, 37-21686, 37-21695, 37-21704, 37-21713 is the headgate for District 45 canal.
15. Right Nos. 37-21668, 37-21677, 37-21686, 37-21695, 37-21704 and 37-21713 are limited to the irrigation of a combined total of 5.0 acres in a single irrigation season.

17. A portion of the surface water rights provide conveyance for other right holders in the shared delivery of water through the Irrigation District #45 canal.
