Attorneys for Juniper Station Farm, LLC

**BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO**

IN THE MATTER OF PERMIT NOS. 61-
12090 (NEVID LLC); PERMIT NO. 61-12096
(NEVID LLC); PERMIT NO. NO. 63-32499
(MAYFIELD TOWNSITE LLC); and PERMIT
NO. 63-35473 (MAYFIELD RANCH LLC)

**DECLARATION OF MIKE
EISENMAN**

MIKE EISENMAN under penalty of perjury states as follows:

1. I am over the age of eighteen and state the following based upon my own personal knowledge.
2. I am the Manager of Juniper Station Farm, LLC ("Juniper"), an entity registered with the Idaho Secretary of State, in good standing.
3. Juniper is the holder of water right nos. 61-7283A, 61-11966, and 61-12133, each of which is for an irrigation purpose of use, from ground water, which are the subject of Transfer No. 81327 ("Transfer") that is of record with the Idaho Department of Water Resources ("IDWR").

SUPPORT DATA

IN FILE # 61-12090

4. Generally, the *Transfer* proposes to move the three water rights from a point of diversion and place of use within the Cinder Cone Butte Critical Ground Water Management Area to points of diversion and places of use within the I-84 Corridor.

5. Collectively, the three water rights authorize the irrigation of 151 acres.

6. The *Transfer* was filed with IDWR on December 6, 2016.

7. Juniper is also the holder of application for permit 61-12319 (“Application”) for the irrigation of 640 acres within a 1,437-acre permissible place of use, with a diversion rate of 12.80 cfs / 2,880 acre-feet per annum from ground water, of record with IDWR.

8. The *Application* has a priority date of August 3, 2017.

9. On May 6, 2019, Juniper received two letters from IDWR explaining that neither the *Transfer* nor the *Application* can move forward unless and until water becomes available for development. Attached hereto as **Exhibit 1** are true and correct copies of the aforementioned letters.

10. Attached hereto as **Exhibit 2** is a true and correct copy of a *Memorandum* from Nick Miller to Shelley Keen, dated December 29, 2020. The *Memorandum* explains that Juniper’s *Application* and *Transfer* are being held in the IDWR processing “queue” while permits (“Permits”) ahead of Juniper are put to beneficial use.

11. It is my understanding that the Permits that are ahead of Juniper are: 61-12090 (Nevid, LLC); 61-12096 (Nevid, LLC); 63-32499 (Mayfield Townsite, LLC); and 63-35473 (Mayfield Ranch, LLC). Each of the Permits are for municipal purposes of use, summarized by my review of the records of IDWR as follows:

| Owner | Permit No. | Purpose | Div. Rate (cfs) | Priority | Permit Approval | Proof Due |
|----------|------------|-------------------------------|---------------------------------|-----------|-----------------|-----------|
| Townsite | 63-32499 | Municipal | 6.52 | 7/28/2006 | 1/13/2016 | 1/1/2026 |
| Ranch | 63-35473 | Municipal | 3.48 | 7/28/2006 | 1/13/2016 | 1/1/2026 |
| Nevid | 61-12090 | Municipal and Fire Protection | 1.82 (Muni.); 2.20 (Fire Pro.) | 9/28/2006 | 11/24/2009 | 10/1/2024 |
| Nevid | 61-12096 | Municipal and Fire Protection | 14.91 (Muni.); 5.57 (Fire Pro.) | 4/3/2007 | 11/30/2015 | 12/1/2025 |

12. Each of the Permits have been granted extensions of time to put water to beneficial use by IDWR, with the “Proof Due” column representing what I understand to be the most recent date upon which water must be put to beneficial use.

13. Juniper’s *Transfer* and *Application* post-date the Permits.

14. Idaho Code § 42-301 allows me to petition IDWR to cancel the Permits if it can be demonstrated as follows:

If the holder of a permit to appropriate the public waters shall fail to comply with the requirements of his permit as to the commencing of work or the filing of bond there under, or the completion of one-fifth (1/5) of the construction work within one-half (1/2) the time allowed for the entire completion of such construction work, or shall fail to complete the entire construction work within the time specified in his permit, said permit may be cancelled and voided by the department of water resources as hereinafter provided at the instance of any person or persons holding any permit for the diversion of water from the same stream, such permit postdating the permit which is sought to be cancelled.

15. During the week of January 27, 2025, I viewed the listed places of use and points of diversion for the Permits from the public right-of-way.

16. Attached hereto as Exhibit 3 are photographs that I took relating to Permit No. 61-12090.

17. Attached hereto as Exhibit 4 are photographs that I took relating to Permit No. 61-12096.

18. Attached hereto as Exhibit 5 are photographs that I took relating to Permit No. 63-32499.

19. Attached hereto as Exhibit 6 are photographs that I took relating to Permit No. 63-35473.

20. Attached hereto as Exhibit 7 are true and correct copies maps from the IDWR mapping tool showing that the places of use for the Permit No. 61-12096, 63-32499, and 63-35473, printed from the IDWR website on January 7, 2025.

21. I am unable to print a map from the IDWR mapping tool for Permit No. 61-12090, possibly because the IDWR website shows said permit as "lapsed."

22. Attached hereto as Exhibit 8 is an aerial photograph from Google Earth Pro, dated June 15, 2024, and printed from Google Earth Pro on January 29, 2025.

23. It is my opinion that the Permits have not been developed.

24. Juniper is ready, willing, and able to put water to beneficial use, yet is prevented from doing so because of the inactions of the holders of the Permit.

25. I certify under penalty of perjury pursuant to the law of the State of Idaho that the foregoing is true and correct.

DATED this 5th day of February, 2025.

/s/ Mike Eisenman

Re: Processing Hold – Application for Permit No. 61-12319

Dear Applicant,

The Idaho Department of Water Resources (IDWR) received your application for permit on August 3, 2017. The application for permit proposes diversion of ground water in the area near the Ada County/Elmore County line known as the I-84 Corridor and within the Mountain Home Ground Water Management Area. This is an area of known limited ground water supply as described in the *final order regarding water sufficiency* in the matter of application for transfer no. 78356 (Shekinah Industries et al.) issued November 4, 2013 (Final Order), and the November 9, 1982 *Order Establishing Mountain Home as a Groundwater Management Area*. The Final Order determined a limited amount of ground water was available for appropriation and authorized development of three applications to develop that available water. The Final Order required all other pending applications be held. Applications to appropriate ground water in the I-84 Corridor (including applications also within the Mountain Home Ground Water Management Area) are being processed in chronological order based on the date of receipt. These applications will be processed when the amount of additional ground water available to appropriate, if any, becomes known through licensing of the existing approved development within the area.

Based on the information above, the following are your options regarding your application:

- a) You may withdraw your application (form enclosed) and request a full refund.
- b) IDWR will hold your application until it can be processed in chronological order with other pending applications in the area.

If IDWR does not receive a written response withdrawing the application, IDWR will assume you prefer your application to be held until such time that processing may be allowed to resume.

IDWR forms and other information are available at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you need more information.

Sincerely,

Nick Miller
Manager, IDWR Western Region

| 1S | 4E | 15 | | | SE | NW | Elmore | Groundwater | New Well |

5. Water will be used for the following purposes:

Amount 12.8 cfs for Irrigation purposes from 3/15 to 11/15 (both dates inclusive)
 (cfs or acre-feet per year)Amount for purposes from to (both dates inclusive)
 (cfs or acre-feet per year)Amount for purposes from to (both dates inclusive)
 (cfs or acre-feet per year)Amount for purposes from to (both dates inclusive)
 (cfs or acre-feet per year)6. Total quantity to be appropriated is (a) 12.8 cubic feet per second (cfs) and/or (b) 2,880 acre-feet per year (af).

7. Proposed diverting works:

a. Describe type and size of devices used to divert water from the source. Up to six wells will divert water from the groundwater sourceb. Height of storage dam feet; active reservoir capacity acre-feet; total reservoir capacity acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 12. For dams 10 feet or more in height AND having a storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? Yes Noc. Proposed well diameter is 15-24 inches; proposed depth of well is 100-800 feet.d. Is ground water with a temperature of greater than 85°F being sought? Yes Noe. If well is already drilled, when? ; drilling firm ; well was drilled for (well owner) ; Drilling Permit No. .

Received by RN For Department Use Date 8/13/17 Time 3:15 Preliminary check by
 Fee \$ 330.00 Received by RN Receipt No. W045519 Date 8/13/17

8. Description of proposed uses (if irrigation only, go to item 9):

- Hydropower; show total feet of head and proposed capacity in kW. _____
- Stockwatering; list number and kind of livestock. _____
- Municipal; must complete and attach the Municipal Water Right Application Checklist.
- Domestic; show number of households _____
- Other; describe fully. _____

9. Description of place of use:

- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

| TWP | RGE | SEC | NE | | | | NW | | | | SW | | | | SE | | | | TOTALS |
|-----|-----|-----|----|----|----|----|----|----|----|----|----|----|----|----|----|----|----|-----|--------|
| | | | NE | NW | SW | SE | |
| 1S | 4E | 15 | 40 | 40 | 40 | 37 | 40 | 40 | 40 | 40 | 40 | 40 | 40 | 40 | 40 | 40 | 40 | 637 | |
| 1S | 4E | 22 | 40 | 40 | 40 | 40 | 40 | 40 | 40 | 40 | 40 | 40 | 40 | 40 | 40 | 40 | 40 | 640 | |
| 1S | 4E | 27 | 40 | 40 | 40 | 40 | | | | | | | | | | | | 160 | |
| | | | | | | | | | | | | | | | | | | | |
| | | | | | | | | | | | | | | | | | | | |

Total number of acres to be irrigated: 640

10. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? Juniper Station Farms has also filed transfer application no. 81327 proposing irrigation of 151 acres within the NW 1/4 of Section 15 (within the proposed place of use for which this water right application is submitted).

11. a. Who owns the property at the point of diversion? Applicant
 b. Who owns the land to be irrigated or place of use? Applicant
 c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: _____

12. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. Application proposes the irrigation of 640 acres within a 1437 acre place of use. Up to six wells will be constructed within the 23 requested point of diversion locations. The water rights under transfer application no. 81327 together with the water right sought under this application will irrigate up to 791 acres within the proposed 1437 acre place of use.

13. Time required for completion of works and application of water to proposed beneficial use is 5 years (minimum 1 year).

14. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map or maps clearly identifying the proposed point of diversion, place of use, section #, township & range. The map scale shall not be less than two (2) inches equal to one (1) mile.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

Re: Settlement and Stay of Processing – Application for Transfer No. 81327

Dear Applicant(s),

On August 24, 2017 the Department held a pre-hearing conference to discuss the protested application for transfer of water right no. 81327. At the conference, the parties signed and submitted a *stipulation in the matter of application for transfer no. 81327 in the name of Juniper Station Farm, LLC* to resolve the protests. The stipulation specified that all protests should be considered withdrawn provided the Department processes application for transfer no. 81327 in chronological order, based on receipt date, with other pending applications proposing the use of water within the I-84 Corridor area.

The proposal set forth in the stipulation is consistent with the Department's current approach to processing applications within the I-84 Corridor. Pursuant to the stipulation, the Department will consider the protests filed by Ark Properties LLC, Mayfield Townsite LLC, Nevid LLC, Orchard Ranch LLC, and Shekinah Industries Inc. to be conditionally withdrawn. The Department shall process application for transfer no. 81327 in chronological order with other pending applications. The parties will receive notice when application processing has resumed and will receive a copy of any decision regarding application for transfer no. 81327. The protestants' further participation in this matter is limited to ensuring the terms of the stipulation are met.

Please contact me at 208-334-2190 if you have questions regarding this matter.

Sincerely,

Nick Miller
Manager, IDWR Western Region

EXHIBIT 2

MEMORANDUM

TO: Shelley Keen
FROM: Nick Miller 
DATE: 12/29/2020
RE: Status of I84 Applications

You had asked me for a listing of the pending applications for permit and transfer in the I84 corridor. As you know, the Director's November 4th, 2013 *Final Order Regarding Water Sufficiency* established that the area was nearly fully appropriated, but that some of the applications in the consolidated matter could be approved and others would remain in queue while those and other pre-existing permits are developed. To the extent the permits are developed for less than the permitted amount, that water would become available to the next applications in the queue. Since that order was issued, Western Region has received an additional application for transfer and three applications for permit. These are being held and will be processed if/when existing permits become licensed and water becomes available or not.

Currently, here is the listing of the active applications for permit and transfer within the I84 area in chronological order of the dates they were received:

| NAME | NUMBER | RECEIVED | PRIORITY | WATER USE | CFS |
|---|----------|-----------|-----------|---|-------|
| Nevid, LLC | 61-12095 | 4/3/2007 | 4/3/2007 | Municipal | 5.00 |
| Orchard Ranch, LLC | 63-32703 | 6/21/2007 | 6/21/2007 | Irrigation (was municipal) | 9.60 |
| Ark Properties, LLC/ Mayfield Townsite, LLC | 63-33344 | 3/1/2010 | 3/1/2010 | Irrigation in planned community (63-32499) | 9.00 |
| PARS HOLDING LC | 61-12307 | 6/15/2016 | 6/15/2016 | Municipal (part replace 61-12256) | 5.0 |
| PARS HOLDING LC | 63-34245 | 6/16/2016 | 6/16/2016 | Municipal (Backup in event 63-32225 not full licensed) | 5.0 |
| PARS HOLDING LC | 61-12308 | 6/21/2016 | 6/21/2016 | Municipal (part replace 61-12256) | 8.76 |
| JUNIPER STATIONS FARM LLC | X 81327 | 12/5/2016 | 1975/1976 | Irrigation 151 moved from CCBCGWA into I84 area – new irrigation | 3.02 |
| JUNIPER STATIONS FARM LLC | 61-12319 | 8/3/2017 | 8/3/2017 | Irrigation new 640 acres (with X81327 give 791-acre project) | 12.80 |

Note: The Orchard Ranch transfer 78355 was withdrawn shortly following issuance of the *Final Order Regarding Water Sufficiency*.

Additionally, IDWR is processing a transfer (83875) and a permit amendment for Intermountain Water & Sewer Corp related to the Mayfield Springs development (63-32225). Cynthia Bridge Clark held a hearing in late August 2020, but I do not think a decision has been issued. Note that the three Pars Holdings applications all relate to this same development. Let me know if you need anything else.
