A. ☒ New well ☐ Replace ☐ Deepen ☐ Modify Previous well #:B. Proposed Casing Dia: 6"

C. Proposed Maximum Depth: _____

Construction Start Date: 9-17-187. Well Driller: BOB PITTS & SONSDriller's Lic. No. 235

The Driller hereby accepts the terms and conditions of the Start Card/Permit.

Driller's Signature: Bob Pitts

Date: _____

The Well Owner affirms to have read this Start Card/Permit, validates its accuracy and accepts the conditions.

Owner's Signature: [Signature]Date: 7-30-18

CONDITIONS FOR USE OF START CARD:

This permit authorizes the construction or modification of one domestic well for a single-family residence. No additional residences, businesses, or dwellings may be connected to this well without a valid water right.

This form must be complete, including the prepaid tag number and signature of the driller. The owner should sign the start card after reviewing these conditions. Mailing must take place no less than 72 hours prior to construction (Dept. address below), hand delivered or faxed to the Dept. prior to commencing construction. The start construction date shall be no more than 10 days after the Department receives the permit. An incomplete form will not be considered a valid permit to drill.

This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare. All wells must be drilled a minimum distance of 100' from a drain field. Domestic wells must be drilled a minimum of 50' from a septic tank.

Only Well Drillers licensed in Idaho may use a Start Card for construction of a well. The driller shall maintain a copy of the Start Card and the I.D. tag at the drilling site during construction.

This drilling permit does not authorize trespass on the land of another party.

This drilling permit does not constitute other local, county, state or federal approvals, which may be required for construction of a well.

This drilling permit does not represent a right to divert and use the water of the State of Idaho.

If a bottom hole temperature of 85° F. or greater is encountered, well construction shall cease and the well driller shall contact the Department immediately.

Idaho Code, S 55-2201 - 55-2210 requires the applicant and/or his contractors to contact "Digline" (Digline is a one-call center for utility location) not less than 2 working days prior to the start of any excavation for this project. The "Digline" Number for your area is 208-342-1585.

The stainless steel I. D. tag must be welded to the well casing upon completing the well and must remain permanently attached above and level for the life of the well. Other tags may be added following a repair or modification of the well. The well driller is responsible for permanently attaching the I.D. tag to the casing upon completing the well. The well tag shall be attached by welding at least 3 sides or using (4) stainless steel, closed-end pop rivets.

A start card is not valid for drilling in Areas of Drilling Concern, Critical Groundwater Areas, Groundwater Management Areas or Areas identified by the Department as Contaminated.

The possession of a well tag does not authorize construction of a well.

Any well being replaced by a new well, shall be properly abandoned by the well driller prior to removing the drilling equipment, unless otherwise authorized by the department.

Start Card/Application and Tag purchase may be submitted to one of the following offices:

Idaho Department of Water Resources
Airport Way Boise, ID 83705-5082
Phone: (208) 334-2190 Fax: (208) 334-2348Idaho Department of Water Resources
