2. Date of Priority:

Date	Explanation
1/1/1994	I believe the well was drilled in late 1993 or early 1994. So I set the priority date to 1/1/94. I figure we should have priority from when the casing hit the aquifer. My parents do not have any records on hand from so many years ago. I don't know who would drill a well without applying for the water rights to the well, so the assumption is everything was taken care of, especially since well drillers are licensed and bonded. I'd imagine if they said we needed to file we would have filed or if they didn't tell us we needed to file and we did we could sue them? And because today is the deadline, I need to get this done so. You are going to have to deal with it. You really needed to have sent out a clearer letter and made this whole process simpler. I am filling this out for my parents whose names are on this property, under their guidance and supervision, there is NO way they would have been able to figure this out or get it done on their own, you've truly made an inconvenience of everything with this. So That

56N	04W	5		SE	SW	BONNER		This is the 470' deep water well we drilled when we moved to this property in 1994. It is piped into the house we live in, and yeah. Its not like we have any ponds lakes rivers or creeks on this land, I wish we did, but we dont. The point on the map is give or take a few feet one direction or the other. Your directions for this whole paperwork fiasco are not very clear so we are doing the best we can to do what is requested of us for this BS you are subjecting us to
