Part 1A.3 – Proposal Description

Previous owners of both the FROM and the TO properties altered the irrigated acres through conversion to center pivots, etc. No expansion or forfeiture has occurred, since the water being transferred has been used continuously, but in different locations. Applicant seeks to move a portion of 61-7276 (29.6 acres of irrigation) from T5S R5E Sec 4 & 5 to T4S R5E Sec 24 to accurately represent the current irrigation at each location.

Water right 61-7276 is the only water right that is appurtenant to the current point of diversion and place of use, which is described using a PPU. There are additional water rights at the proposed location that share the proposed point of diversion and PPU, but they are not overlapping rights.

The total size of the PPU at the FROM location should be reduced in size to include only the NE ¼ of Sec 5, T5S R5E, since the applicant does not own the remaining acres within the current PPU. All right and interest in water right 61-7276 was quitclaimed by various parties to the previous owners of the property, Wesley and Christine Wooten, in 2014. The Wootens subsequently conveyed both the property in the NE ¼ of Sec 5 and water right 61-7276 to Sunview Dairy later in 2014. Copies of quitclaims and warranty deeds are attached.

Lynne,

Can you help me out? The attached letter is a consent letter from Rabo Agrifinance acknowledging they agree to the water right transfer for the Sunview Dairy. I submitted the transfer applications (three of them) last week to IDWR (State office) and addressed the cover letter to Scott Storms. The attached letter is to be a part of those transfers. Are you able to find the agent/three transfers and include this letter as part of those packages?

The water rights involved include:

61-2186
61-2220
61-7276
61-11963

Thank you.

SUBJECT: Applications for Transfer

Dear Scott,

Enclosed on behalf of Sunview Dairy LLC are three Applications for Transfer. The first proposes to change a portion of water right nos. 61-2186 and 61-2220 from irrigation to commercial and stockwater uses. The second and third transfer applications each propose to move a portion of one water right, 61-7276 and 61-11963 respectively, to the same, separate location. I calculate the filing fee as follows:

- Transfer 1 - \$580 for modifying 1.41 cfs (portion of two water rights) + \$250 for changing the nature of use from irrigation to stockwater and commercial,
- Transfer 2 - \$500 to change the place of use for the irrigation use (0.44 cfs),
- Transfer 3 - \$200 to change the place of use for the irrigation use (0.16 cfs).

I have requested a notarized statement from the mortgage holder and will submit that to you when it comes in.

Please let me know if there are any questions.

Sincerely,
HDR|SPF
