WATER SUPPLY BANK LEASE CONTRACT No. 1747

8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted under Water Right 63-3597H and shall annually report the information to the Department.
13. Rights 63-3597H and 63-31535 when combined shall not exceed a total diversion rate of 1.20 cfs, a total annual diversion volume of 351.0 af at the field headgate, and the irrigation of 78 acres.

15. This right does not grant any right-of-way or easement across the land of another.
16. The period of use for the irrigation authorized by water right 63-3597H may be extended to a beginning date of 3/1 provided that beneficial use of water can be shown, and other elements of the right are not exceeded. The use of water before 3/15 is subordinate to all water rights having no subordinated early or late irrigation use and priority date earlier than 2/6/2009.
17. Water Right 63-31535 is limited to the irrigation of 55 acres within the place of use described above in a single irrigation season.
18. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted under Water Right 63-31535 and shall annually report the information to the Department.
19.
