2. The Lessor has filed a completed application to lease water rights described below into the Water Supply Bank on forms supplied by the Idaho Department of Water Resources and received by the Department on March 10, 2022.
3. The Director of the Idaho Department of Water Resources has reviewed the application for compliance with the Water Supply Bank rules and has approved the Lease subject to conditions listed below.

NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. **WATER RIGHTS:** The Lessor shall lease and the Board shall accept into the Bank the Applicant's water rights described as follows:

MEMORANDUM FOR COMPANION APPLICATIONS # 2334 & 2335

To: Water Right(s) 63-32616

From: Mary Condon

Date: May 10, 2023

Re: Review & Analysis of Applications to Lease and Rent Water from the State Water Supply Bank

PURPOSE/NARRATIVE: Companion applications to lease and rent irrigation right 63-322616 received on March 10, 2022 for five years, was pushed to 2023 due to timing. This lease application is a continuation of previous lease approvals for the same right and 41 acre amount since 2012, for 5 year terms. The rental request is for irrigation of the common areas only within a planned community close to the leased land and diversion and is not intended to be combined in the municipal system. The existing municipal permit for the community has a condition that any use of the municipal water for the common areas, large parcels, etc., must first be used for potable and culinary purposes, delivered to and from the wastewater treatment plant and then directly to the parcel to be irrigated.

AUTHORITY TO FILE: Application to lease and rent are signed by Greg Johnson, the owner and manager of the water right, place of use and rental project parcels. Rental proposes to pipe from the leased diversion well to the community for use in the common area system. All parcels from the diversion well to and within the community are managed by the applicant. No concerns with authority to file or the ability to develop the project.

WATER RIGHT VALIDITY: This right was decreed in 2009, and portion offered has been in the bank since 2012. No concerns with validity of the water right and portion offered to the bank.

INJURY TO OTHER WATER RIGHTS: Rental POU will move the water use 5 miles SE into the Mountain Home GWMA, but return flows will drain back the same way it would if kept in the leased location. No injury to other rights through the lease and rental is expected.

ENLARGEMENT OF USE: Rental request is for the same beneficial use and rate but on different acres and is requested to be independent and separate from the municipal permit for the community. So long as the rental water comes from the original diversion and is kept separate from the municipal with no comingling, enlargement is not expected.

LOCAL PUBLIC INTEREST: Previously denied transfer of this right requested different diversion and delivery, to be used as supplemental to the municipal permit, and was protested. This rental proposal does not appear to be averse to the local public interest and does not propose changing the diversion well from which it has and can be withdrawn from. Review staff have no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The lease and rental are of a beneficial use of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The location for the lease and rental PD is within Western Region and is subject to Water District # 161. Request for comment sent on May 10, 2023.
