Permit Approval Notice

Dear Permit Holder(s):

The Department of Water Resources ("Department") has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review all the conditions of approval listed on your permit. The conditions include requirements that you must accomplish, such as timely submittal of proof of beneficial use or installation of a measuring device, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district. Failure to comply with the conditions of approval may result in your permit lapsing or being canceled.

The permit is a PRELIMINARY ORDER issued pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

The final step in the water right process is issuance of a water right license. To receive a water right license, you must divert and use water to the full extent intended and submit a *Statement of Completion for Submitting Proof of Beneficial Use* by the date shown in condition no. 1 of your permit. The Department will send you a *Proof Due Notice* approximately 60 days prior to the date listed in condition no. 1 of your permit.

You may also require approvals from other Department programs, such as Ground Water Protection, Safety of Dams, or Stream Channel Protection, to accomplish your proposed development. Please call or visit any Department office or see the Department's website at idwr.idaho.gov for more information about these programs.

Good afternoon Tammy,

This applicant does not appear to have made application with Idaho Department of Lands for a water intake line. Encroachment Permits - Department of Lands (idaho.gov)

Per IDAPA 20.03.04.012.02, No encroachment on, in or above the beds or waters of any navigable lake in the state shall hereafter be made unless approval therefore has been given as provided in these rules. An encroachment permit does not guarantee the use of public trust lands without appropriate compensation to the state of Idaho.

We will need the applicant to contact our office to apply for a permit to pull water from the public waters. I have copied them on this email. My contact information is listed below.

Mr. Wilkening,
Good morning.

I am requesting a courtesy response to this correspondence; it will let me know I didn't error in entering your email address. Thank you!

IDWR is in receipt of your application for water permit & have assigned it as WR No. 97-9678. In the past Shaun Maxey from our Northern Office had been working with you to file the WR application; his workload has been shifted to my desk to finalize, and during my review of your application for permit I have identified one discrepancy that will cause added fees if not corrected before the application is advertised.

Review of your parcel(s) identifies the Township (Twp) legal designation to be **56N** whereas your application states 59N in both step No.4 & 9. If not corrected it would add a $100.00 fee to correct later in the water right process. The attached amended application has been revised to reflect accurately 56N as the township for both questions. I've highlighted the information in yellow that has changed from the initial. I did make changes to the verbiage in step 12 as well, but that is ancillary to the changes necessary prior to advertisement.

I recommend amending your application as follows:

- Review the 2-page amended application for permit document & Map page.
  - Print & sign with ink pen bottom of PG2.
  - Print and attach map page to application pages.

Following your review, let me know if you have any questions or concerns.

Once satisfied with corrections you do the following to re-submit:

1. If able, **please scan three pages and email the corrected forms, as a PDF document,** to the email address listed below (**not my personal email**)

file@idwr.idaho.gov

Alternately, you may elect to mail the amended version back to the department using the mailing address below C/O Luke Bates OR had deliver if in the local area.

As of the date of this email, **please respond within 14 Days, No Later Than 3 May 2023** and/or respond with explanation why more time is required to submit revisions. We can discuss by phone which changes to the application you would prefer to pursue. I appreciate your diligence in working on these corrections and am here to assist you with any questions.
