Total Acres: 0.1

Conditions of Approval

1. A fish screen of 1/4 inch or smaller mesh shall be installed and maintained at the point of diversion.
2. The approach velocity at the point of diversion shall not exceed 0.5 feet per second.
3. Place of use is located within Lot 2, Blk. 1; Soldier Creek Subdivision.
4. This right when combined with all other rights shall provide no more than 0.01 cfs nor more than 0.3 afa at the field headgate for irrigation of the place of use.
5. Water shall not be diverted under this right when flows in the Priest River are below minimum flow amounts as defined by Right 97-7380. The right holder shall be responsible for monitoring the daily flow of the Priest River using real-time data and shall cease diverting water when flows in the Priest River are below established minimum flow amounts. Unless otherwise specified by the Director of the Department of Water Resources, data from the U.S. Geological Survey Priest River Gauging Station, No. 12395000 may be used for purposes of determining the daily flow amounts.
6. This right does not grant any right-of-way or easement across the land of another.

This license is issued pursuant to the provisions of Idaho Code § 42-219. The water right confirmed by this license is subject to all prior water rights and shall be used in accordance with Idaho law and applicable rules of the Department of Water Resources.

Signed this 29th day of March, 2024.

**BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO**

IN THE MATTER OF PERMIT NO. 97-8565	)	PRELIMINARY ORDER
IN THE NAME OF BIGWOOD TRUST	)	REINSTATING PERMIT
_____	)	

This matter having come before the Idaho Department of Water Resources ("Department"), the Department finds, concludes and orders as follows:

FINDINGS OF FACT

1. On June 2, 2022, the Department issued Permit No. 97-8565 ("Permit") in the name of Bigwood Trust ("Permit Holder") authorizing the diversion of 0.03 cubic feet per second from Priest Lake for irrigation in the NE¼ NW¼ of Section 34 of Township 60 North, Range 04 West, Bonner County. A condition of permit approval required submittal of the proof of beneficial use of water to the Department on or before June 1, 2023.
2. On March 31, 2023, the Department notified the Permit Holder by certified mail that proof of beneficial use was due and instructed the Permit Holder of the steps to be taken to submit a *Statement of Completion for Submitting Proof of Beneficial Use* ("Proof") or a *Request for Extension of Time* ("Extension Request").
3. On June 1, 2023, the Permit lapsed because the Department had not received an acceptable Proof or Extension Request.
4. On June 7, 2023, the Department notified the Permit Holder, that the Permit lapsed.
5. On July 17, 2023, the Permit Holder filed an acceptable Proof.

CONCLUSIONS OF LAW

Idaho Code § 42-218a(1) states, in pertinent part:

A permit upon which the proof of beneficial use... has not been submitted, or a request for extension of time has not been received on or before the date set for such proof... shall lapse and be of no further force nor effect... Notice of said lapsing shall be sent by the department to the permit holder at the address of record by regular mail.

Idaho Code § 42-218a(2) states, in pertinent part:

Within sixty (60) days after such notice of lapsing, the department may, upon a showing of reasonable cause, reinstate the permit with the priority date advanced a time equal to the number of days that said showing is subsequent to the date set for proof.

The Permit Holder filed an acceptable Proof providing a reasonable showing the Permit should be reinstated. The Permit should be reinstated based upon the July 17, 2023 filing date.

ORDER

IT IS HEREBY ORDERED that Permit No. 97-8565 is **REINSTATED** and the Permit's priority date is advanced to June 5, 2022.

DATED this 15th day of AUGUST, 2023.

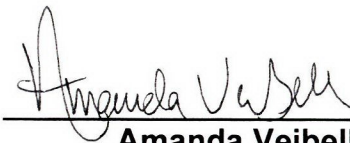

Angela Hansen, Chief
Water Allocation Bureau

CERTIFICATE OF SERVICE

I hereby certify that on **August 16, 2023** I mailed a true and correct copy, postage prepaid, of the foregoing PRELIMINARY ORDER (**PRELIMINARY ORDER REINSTATING PERMIT**) to the person(s) listed below:

RE: License No. 97-8565

ISSUANCE OF LICENSE

Dear Water Right Holder(s):

The Department of Water Resources ("Department") has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review all the conditions of approval listed on your license. The conditions may include ongoing requirements, such as maintenance of a measuring device or implementation of mitigation, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district.

The license is a PRELIMINARY ORDER issued by the Department pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Water right forms are available from any office of the Department or on the Department's website at idwr.idaho.gov

If you have any questions concerning the enclosed information, please contact me at (208) 287-4925.

Sincerely,

Phil Hummer

D. FLOW MEASUREMENTS

1. Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
NONE	NA	NA	NA	NA	NA	NA

2. Measurement Comments: The permit holder provided that the pump used is 5 Hp. A maximum head of less than 10ft was estimated to the licensed POU using the DRG map and the stated lift on the proof of beneficial use.

E. FLOW CALCULATIONS

____Additional Computation Sheets Attached

Measured Method:

A theoretical calculation and Administrative Memo #17 were used to determine a reasonable rate of diversion.

$$Q = (5\text{Hp})(8.8)(0.80 \text{ efficiency}) / (10 \text{ ft lift}) + (2.31) * (40 \text{ psi}) = 0.31\text{cfs}$$

Theoretical Calculation= 0.31cfs

Permit allowed = 0.03cfs

Recommendation= 0.01cfs

Comments:

The permit holder stated that the irrigated area within the parcel is 0.1 acre on the proof of beneficial use. Irrigated areas of approximately 0.1-acre total were confirmed using the Department GIS, Google Earth, and Bonner County GIS imagery. The system was described as a 5 Hp pump with fish screened intake used conveyed through a 1" line to sprinklers used for watering throughout the POU.

Approximately 0.31cfs is possible with the 5 Hp pump. According to Administrative memo #17 up to 0.03cfs per acre is standard for the irrigation of up to 5 acres. Additional system information was requested from the applicant to support a higher diversion rate, but the requested system information was never received. Administrative memo #6, states that the rate should be reported rounded to the hundredth place. I am recommending a diversion rate of 0.01cfs for the license.

F. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 0.1\text{-acre} \times 3.0 \text{ AF} = 0.3 \text{ AF}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation season}) \times 1.9835 = 0.01\text{cfs} \times 214 \text{ days} \times 1.9835 = 4.3 \text{ AF}$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 0.3 \text{ AF}$$

Comments:

I am recommending the license be issued with an annual volume of 0.3 AF, based on the field headgate calculation.**G. PURPOSE OF USE**

Irrigation ____X Y ____N # Stock ____NA Domestic # of Homes ____NA

Change in Purpose of Use? ☐ Y ☒ N

Method of Determination: Bonner County Maps, GIS, and Taxlot Data

H. NARRATIVE/REMARKS/COMMENTS

This permit for the irrigation of 1 acre qualifies for an in-office examination for license. The permit holder submitted the Proof of Beneficial Use, received by IDWR on July 17, 2023, the proof due date on the permit was June 1, 2023, exceeding this date resulted in the permit lapsing. However, as the proof was filed with the department on July 17, 2023, within the 60 days allowed by Idaho Code 42-218a(2) a preliminary order was submitted reinstating the permit. In section #3 of the statement of completion the permit holder stated that the beneficial use was developed for 0.1-acre of irrigation. In section 5 they stated that they were diverting water from a 0.25-inch screened intake, traversing an approximated 8ft lift, using a 5 Hp pump, and about 125ft of 1" line to sprinklers. I was able to confirm approximately 0.1 acres irrigation was developed using aerial imagery (see figures 1 & 2). I called the permit holder on January 25th, 2024, requesting confirmation of the irrigation identified using aerial imagery and additional information regarding the irrigation. Skye Carver (the permit holder) confirmed in our conversation that only the lawn areas on the lakeside and landscaping along the southeastern property boundary are being watered. According to the phone call with Skye, the area between the structures and street is not watered. I emailed the permit holder asking that they either confirm that the areas outlined in the imagery I sent them accounted for all irrigation or provide a map outlining all the irrigated areas within the parcel. I also requested that the permit holder provide a system diagram via email. On January 31, 2024, the permit holder sent an aerial image outlining the irrigated areas and identifying the location of the screened intake. No details of the irrigation system were included in the response.

After reviewing the information provided by the permit holder, an area of approximately 0.1-acre of irrigation was confirmed. A theoretical calculation confirmed that the pump can provide the 0.31cfs rate on the permit. However, as the system information requested was never received and the place of use is approximately 0.1-acre in area I am recommending the license be issued with a rate of 0.01cfs (as per Administrative Memos #17 and 6). I am recommending an annual volume of 0.3 AF on the license, as per the field headgate calculation.

I am recommending the license be issued with conditions 004, 227, X15, X16, X60, and X31.

Have conditions of permit approval been met? ☒ Yes ☐ No**I. RECOMMENDATIONS**

1. Recommended Amounts:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>DIVERSION RATE</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	04/01 TO 10/31	0.01CFS	0.3 AF
	<u>Totals:</u>	0.01CFS	0.3 AF

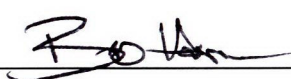

2. Recommended Amendments:

PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 97-8565

Dear Permit Holder(s):

The Department acknowledges receipt of the Proof of Beneficial Use form ("proof") and license examination fee for the above-referenced water right permit. Enclosed is an order that reinstates this permit since proof and the license examination fee were submitted after the proof deadline. Please note that the priority date for this permit has been advanced to **June 5, 2022**, pursuant to Idaho Code § 42-218a(2).

The next step in the process of developing a water right is for the Department to conduct a field examination to determine and confirm the use being made of the water according to the conditions of the permit.

Please be advised that Idaho Code § 42-248, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the field examination, please contact the Northern Region Office of the Department located in Coeur d'Alene at (208) 762-2800.

Sincerely,

Amanda Veibell
Technical Records Specialist

LAPSE NOTICE

RE: PERMIT NO. 97-08565

IMPORTANT: This permit has lapsed because no written response was received from you by the IDWR. Development and/or use must cease.

Dear Permit Holder(s):

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in the proof due notice dated March 31, 2023. No further construction or additional development is authorized under this permit.

If water was put to beneficial use prior to the date proof of beneficial use was due, you may file the Statement of Completion (proof) now, or if you or a previous owner of this permit have not received a prior extension of time, you may file the Request for Extension of Time (extension request) if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. You may also request an extension of time if you have been delayed by a government agency, or by litigation that brings title to the water in question.

Either an acceptable proof or an acceptable extension request must be received by this Department within sixty (60) days of the mailing of this lapse notice in order to reinstate this permit.

Please contact Phill Hummer at 208-287-4925, if you need additional assistance.

Sincerely,

Angela Hansen, Manager
Water Rights Section

NOTICE: STATEMENT OF COMPLETION DUE

RE: Permit No. 97-08565

IMPORTANT: A response from you is required to maintain the active status of the referenced water right permit. If no response is received from you, the permit will lapse and your authorization to develop and/or use this water right will be cancelled.

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before **June 01, 2023**. Please complete and return the enclosed Statement of Completion for Submitting Proof of Beneficial Use (proof) if you have completed the water project authorized by your permit. The proof statement must be accompanied by either the appropriate license examination fee or a field examination report prepared by a certified water right examiner.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Idaho Code § 42-204. If you have been delayed by a government agency or by litigation that brings title to the water in question, an extension of time may be granted if appropriate documentation is provided at the time of filing. An extension request must be accompanied by a \$50.00 filing fee and signed by the appropriate authorized permit holder(s) or authorized representative with a power of attorney.

Either an acceptable proof or an acceptable extension request must be received by this Department on or before the above proof due date. If neither is received, the Department will send you a lapse notice and the permit will no longer be of any force or effect.

Sincerely,

Debbi Judd
Technical Records Specialist
