Permit Holder:

The Department acknowledges receipt of the Statement Of Completion for Submitting Proof of Beneficial Use (proof) form for the above-referenced permit. This permit authorizes the diversion of 0.11 cfs of surface water for stock water and irrigation. On the form submitted, numbers three and six were left bank. Number three outlines the extent of use, including the total amount of acres irrigated and the amount of stock and type that utilize the water. Number six asks if specific permit conditions were met. I have attached both the submitted form and a computer-generated report for your reference. Please reply to this email to confirm the extent of use and compliance with permit conditions.

Please note if the Department does not receive a response before the proof due date of **June 1, 2024**, the permit may lapse due to the incomplete form.

Feel free to reach out if you have any questions.

NOTICE: STATEMENT OF COMPLETION DUE

RE: Permit No. 96-10743

IMPORTANT: A response from you is required to maintain the active status of the referenced water right permit. If no response is received from you, the permit will lapse and your authorization to develop and/or use this water right will be cancelled.

Dear Permit Holder(s):

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before **June 01, 2024**. Please complete and return the enclosed Statement of Completion for Submitting Proof of Beneficial Use (proof) if you have completed the water project authorized by your permit. The proof statement must be accompanied by either the appropriate license examination fee or a field examination report prepared by a certified water right examiner.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been delayed by a government agency or by litigation that brings title to the water in question, an extension of time may be granted if appropriate documentation is provided at the time of filing. An extension request must be accompanied by a $50.00 filing fee and signed by the appropriate authorized permit holder(s) or authorized representative with a power of attorney.

Either an acceptable proof or an acceptable extension request must be received by this department on or before the above proof due date. If neither is received, the department will send you a lapse notice and the permit will no longer be of any force or effect.

Sincerely,

Amanda Veibell

RE: Permit No. 96-10743

Permit Approval Notice

Dear Permit Holder(s):

The Department of Water Resources ("Department") has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review all the conditions of approval listed on your permit. The conditions include requirements that you must accomplish, such as timely submittal of proof of beneficial use or installation of a measuring device, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district. Failure to comply with the conditions of approval may result in your permit lapsing or being canceled.

The permit is a PRELIMINARY ORDER issued pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

The final step in the water right process is issuance of a water right license. To receive a water right license, you must divert and use water to the full extent intended and submit a *Statement of Completion for Submitting Proof of Beneficial Use* by the date shown in condition no. 1 of your permit. The Department will send you a *Proof Due Notice* approximately 60 days prior to the date listed in condition no. 1 of your permit.

You may also require approvals from other Department programs, such as Ground Water Protection, Safety of Dams, or Stream Channel Protection, to accomplish your proposed development. Please call or visit any Department office or see the Department's website at idwr.idaho.gov for more information about these programs.

SCANNED
JUN 09 2023

Please be advised that Idaho Code § 42-248, requires you or the owner of this water permit to maintain current ownership and address records on file with the Department. Forms to file an assignment of permit and/or a change in the address of the permit owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the enclosed information, please contact the Northern Region Office at (208) 762-2800.

Sincerely,

Luke Bates

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

SCANNED
JUN 09 2023

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

> Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:
>
> (a) The petition for reconsideration is disposed of; or
> (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

i. A hearing was held,
ii. The final agency action was taken,
iii. The party seeking review of the order resides, or
iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Application 96-10743 – Woody/Sturgeon

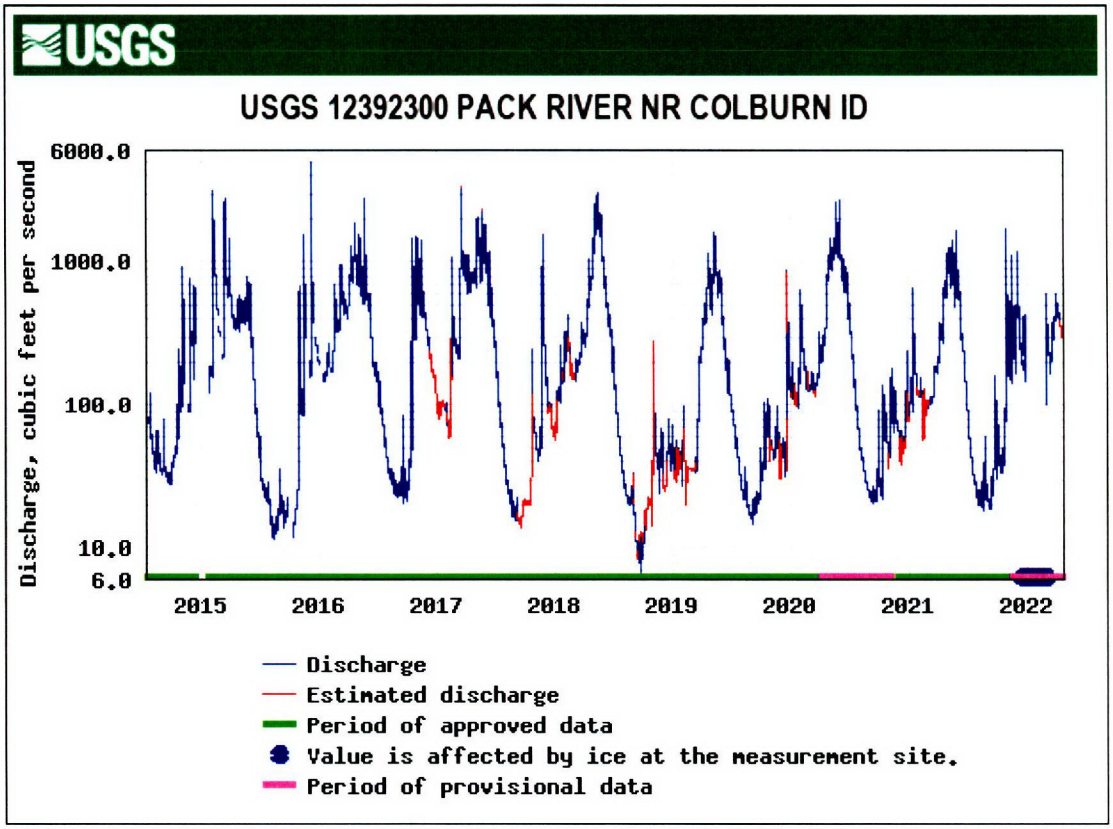

Dear Tammy,

We have reviewed the above-named application to appropriate 0.11 cfs to be utilized for irrigation and stockwater from Spring Creek, which is a tributary to Rapid Lightning Creek in Bonner County. The purpose of these comments is to assist the decision-making authority by providing technical information that can be used to minimize fish and wildlife impacts.

The applicant proposes solar powered system to fill a 1100-gallon water tank to be distributed from the tank to the place of use. Rapid Lightning Creek is a major tributary to the Pack River that joins the Pack River below the designated minimum stream flow area.

The Pack River has been designated as critical habitat for ESA listed (threatened) Bull Trout by the United States Fish and Wildlife Service. Bull Trout depend on cool, clean water and use the Pack River as a migration corridor to and from their spawning areas. Additionally, Girard Rainbow Trout and native Westslope Cutthroat Trout from Lake Pend Oreille use the Pack River for spawning. Because of the importance of these fisheries, the Idaho Water Board holds a minimum flow water right for the Pack River. Water right 96-8717 was created in 1992 to protect the Pack River flows, and therefore the fisheries and fish habitat. The minimum flow amount held by that water right is 129 cfs through the end of July. During the hotter, dryer portion of the year, it is reduced to 54 cfs through the end of November. Data from USGS gauge 12392300 on the Pack River at Colburn shows a consistent downward trend of both spring freshet high flows and low summer flows since its installation in July of 2014. Additionally, summertime low flows of less than 20 cfs have been recorded several times, as seen in the hydrograph below:

SCANNED
JUN 09 2023

2021 was an exceptionally dry year, and climate models indicate years like this will occur with increasing frequency into the future. While the application requests a relatively small amount of water, we are concerned that any additional diversions in this important drainage could have negative effects on the fisheries' resource.

Idaho Code 36-906 stipulates that no person shall construct a dam which restricts free and uninterrupted passage of fish without an approved fishway. This law includes seasonal fish movements.

Idaho code 36-906 prohibits any person diverting water through a conduit from ... *taking water from any stream or lake in this state without first installing and maintaining a suitable screen or other device to prevent fish from entering therein.* We recommend a pipe diameter of **2.5" or less**, screened with **not more than 0.25" mesh screen**, and an approach velocity of not more than **0.5 feet per second** to protect juvenile fish from the proposed pump.

IDFG is concerned that the cumulative loss of flow from private diversions may have an increasingly negative impact on habitat availability for many native species.

Thank you for the opportunity to comment.

RE: Application for Permit No. 96-10743

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the BONNER COUNTY DAILY BEE on 5/18/2023 and 5/25/2023. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Tammy Alleman

Subject: Request for Comments for WR#96-10743
Attachments: 96-10743 Application for Permit.pdf

The Department of Water Resources is seeking written comment and/or recommendations from your agency regarding the above referenced Water Right Permit application. You can find copies of the application at: Idaho Department of Water Resources

This office can publish notice of the application as soon as the initial review is completed; therefore, your prompt response to this request is appreciated. If your agency desires to formally protest the approval of the application(s), you may do so after the notice is published by filing a written protest along with a $25.00 filing fee within 10 days after final publication. The deadline for comments on the applications is June 5, 2023.

Please contact the Northern Region Office at (208) 762-2800 if you have any questions regarding the Permit application.

Thank you,

IDAHO DEPARTMENT OF WATER RESOURCES
