Permit Approval Notice

Dear Permit Holder(s):

The Department of Water Resources ("Department") has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review all the conditions of approval listed on your permit. The conditions include requirements that you must accomplish, such as timely submittal of proof of beneficial use or installation of a measuring device, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district. Failure to comply with the conditions of approval may result in your permit lapsing or being canceled.

The permit is a PRELIMINARY ORDER issued pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

The final step in the water right process is issuance of a water right license. To receive a water right license, you must divert and use water to the full extent intended and submit a *Statement of Completion for Submitting Proof of Beneficial Use* by the date shown in condition no. 1 of your permit. The Department will send you a *Proof Due Notice* approximately 60 days prior to the date listed in condition no. 1 of your permit.

You may also require approvals from other Department programs, such as Ground Water Protection, Safety of Dams, or Stream Channel Protection, to accomplish your proposed development. Please call or visit any Department office or see the Department's website at idwr.idaho.gov for more information about these programs.

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

SCANNED

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

> Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:
>
> (a) The petition for reconsideration is disposed of; or
> (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

Chris & Shelley Healy,
Good morning.

IDWR is in receipt of your application for permit and I've assigned it No. 96-15169. Following initial review I note that the application is incomplete for processing due to incomplete data as required for the following steps:
4. quarter quarter legal description not designated.
5. diversion rate in cubic feet per second (cfs), and season of use change recommended.
6. total quantity to be appropriated in cfs.
9. place of use identified down to the quarter-quarter legal description.
13. time required to complete project – understanding the system is already in place, the minimum value required is 1 year.

I have developed an amended version of your application to include all data populated, just needing reviewed and signatures prior to resubmitting with the map page. Please do contact me to discuss changes and I can answer any questions regarding the proposed revision. Once you are satisfied with the amended version please do the following to re-submit:

- Please print the 2 PG amended application PDF & 1 PG app map
- Sign with ink pen bottom PG2 – I have designated "and/or" so either of you can sign and the other is not required to but can later in the process. Enables greatest flexibility in managing your water rights.
- If able, scan the 3 pages (app & map) as a PDF document and title it **amended 96-15169**.

Please note that IDWR is required to advance your priority date reflect the date the revision is received by IDWR as a complete application for processing. I recommend expediting this revision to reduce the priority date change for your water right application for permit.

Following your review, let me know if you have any questions or concerns. Once satisfied with corrections you **may scan and email the corrected forms** to the email address listed below (**not my personal email**)

file@idwr.idaho.gov

Please do give me a call if you've any questions and we can discuss the "why" of the changes recommended. I recommend carbon copying me on the email you send to the state office file@idwr.idaho.gov

If unable to scan you may mail the corrected version to the address listed below C/O Luke Bates.

As of the date of this email, **please respond with corrections within 14 Days, No Later 28 March 2023** and/or respond with explanation why more time is required to submit revisions. If IDWR does not receive a COMPLETE application for filing within 30 days, your incomplete application will be returned with refund of fees.

I appreciate your diligence in working on these corrections and am here to assist you with any questions.

Thank you,

Luke Bates
