STATEMENT OF COMPLETION

FOR SUBMITTING PROOF OF BENEFICIAL USE

FOR OFFICE USE ONLY	
Amt. of Fee $	50
Receipt No.	119335
Receipted By	hm
Date Receipted	5/17/24

The Idaho Department of Water Resources (Department) considers this form a statement that the permit holder(s) applied water to beneficial use and completed development of a water right to the extent described below. **This form must be accompanied by an examination fee, when necessary, or by a completed Beneficial Use Field Report prepared by a certified water right examiner (CWRE).** Please refer to the instructions and fee schedule for this form. If ownership of the permit has changed, complete a Notice of Change in Water Right Ownership form. If you wish to relinquish your permit because you have not established the authorized water use and are not applying for an extension, please notify the Department in writing.

1. Permit No. 96-15769 Name of Permit Holder(s) George B. Hurley and Linda Anderson

Telephone No. 208-263-1543 Email WILDGooseChaseID@Gmail.com

Mailing Address 757 Selkirk View City Sandpoint State Id Zip 83864

2. Source of Water Pack River If Ground Water (well), Date Drilled mo. _____ / yr. _____

Drilling Permit/Tag No. _____ Drilling Company's Name _____

3. Extent of use(s) completed **as authorized by the water right permit**:

Domestic (No. households) _____ Irrigation (No. acres) 1.0 Stockwater (No. and stock type) _____

Other _____

4. Total diversion rate or volume (storage only) for which proof is submitted 0.03 cfs OR _____ af

If the total developed water use is 5 acres of irrigation or less, is stockwater storage of 14.6 acre-feet or less, or has a diversion rate of less than 0.24 cfs, attach a map of the place of use and point of diversion and photographs showing beneficial use.

5. Describe the diversion and delivery system from the water source to the use (pump, lift, irrigation method, etc.)

a hose with a foot valve in the river, attached to a pump on the river bank, then pumped to a pressure tank and then piped to yard bibs

6. Permit condition compliance. Refer to the permit approval conditions and check all the items required, then check "Yes" or "No" to indicate whether the required items were established, submitted, and/or installed:

Required?	Yes	No	(If "Yes", attach required data, evidence of compliance, or evidence of installation)
☐	☐	☒	Ground water level data, pumping information, or other diversion data
☐	☐	☒	Mitigation plan
☐	☐	☒	Lockable controlling works
☐	☐	☒	Measuring device
☐	☐	☒	Fish screen
☐	☐	☒	Other requirements of the water right permit _____
	☐	☒	Reasonably Anticipated Future Needs ("RAFN") Municipal use

If RAFN Municipal use, additional increment of beneficial use developed? ☐ Yes (attach CWRE report) ☐ No

7. Fee Enclosed $ _____ or ☐ CWRE field report attached or ☒ No fee required

See fee schedule on page 3 of the instructions. Proof statements filed without an appropriate fee are incomplete.

8. Person to contact to accompany a Department representative during the field examination of the water system:

Name: George Hurley Telephone No. 2082631543 Email Wildgoosechaseid@Gmail.com

Mailing Address 757 Selkirk View City Sandpoint State Id Zip 83864

The information given on this form is my true statement of the extent to which the above numbered permit has been developed and water has been diverted and applied to beneficial use. I understand that any undeveloped portion of the permit is relinquished to the State of Idaho.

Permit to Appropriate Water

No. 96-15769

Priority: April 28, 2023 **Maximum Diversion Rate:** 0.03 CFS

This is to certify that

GEORGE B HURLEY 757 SELKIRK VW SANDPOINT ID 83864-7603 AND/OR
LINDA ANDERSON 757 SELKIRK VW SANDPOINT ID 83864-7603

has applied for a permit to appropriate water from:

Source : PACK RIVER **Tributary:** LAKE PEND OREILLE

and a permit is APPROVED for development of water as follows:

Beneficial Use	Period of Use	Rate of Diversion
IRRIGATION	04/01 to 10/31	0.03 CFS

Location of Point(s) of Diversion
PACK RIVER NE¼ NE¼, Sec. 16, Twp 58N, Rge 01W, B.M. BONNER County

Place of Use: IRRIGATION

Twp	Rng	Sec	NE				NW				SW				SE				Totals
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
58N	01W	16	1.0																1.0

Total Acres: 1.0

Conditions of Approval

1. Proof of application of water to beneficial use shall be submitted on or before **June 01, 2024.**
2. Subject to all prior water rights.
3. A fish screen of 1/4 inch or smaller mesh shall be installed and maintained at the point of diversion.
4. The approach velocity at the point of diversion shall not exceed 0.5 feet per second.
5. This right when combined with all other rights shall provide no more than 0.03 cfs per acre nor more than 3.0 afa per acre at the field headgate for irrigation of the place of use.
6. This right does not grant any right-of-way or easement across the land of another.

This permit is issued pursuant to the provisions of Idaho Code § 42-204.

Signed this 13 day of June, 2023.

__x__ Map Attached Showing Location(s) of point(s) of diversion and place(s) of use (required). Scale must be 1:24,000 or greater.

__x__ Aerial Photo Attached (required for irrigation of 10+ acres).

_____ Photo of Diversion and System Attached

4. Well or Diversion Identification No.*	Motor Make	Hp	Motor Serial No.	Pump Make	Pump Serial No. or Discharge Size
PUMP		1/2HP			

D. FLOW MEASUREMENTS

1.Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
NONE						

2. Measurements: No measurement is required for an in-house exam, but Applications Processing memo #17 and a theoretical calculation were used to determine an acceptable rate.

E. FLOW CALCULATIONS _____Additional Computation Sheets Attached

No information on the pump was provided by the permit holder aside from the pump horse power (1/2 hp). Per processing memo #17, a diversion of 0.03 cfs per acre for irrigation purposes is authorized for less than 5 acres. Because the permit holder is irrigating 1 acre, I am recommending a diversion rate of 0.03 cfs. See the calculation bellow

0.03 cfs/acre * 1 acre = 0.03 cfs

Permitted Rate = 0.03cfs

Theoretical Rate = 0.03 cfs

B.U Limit = 0.03 cfs

Recommended Rate = 0.03 cfs

F. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$V_{I.R.}$ = (Acres Irrigated) x (Irrigation Requirement) = N/A

$V_{D.R.}$ = [Diversion Rate (cfs)] x (Days in Irrigation season) x 1.9835 = N/A

V = Smaller of $V_{I.R.}$ and $V_{D.R.}$ = N/A

G. PURPOSE OF USE

Irrigation __X__Y ____N # Stock_____ Domestic # of Homes _____

Change in Purpose of Use? ____Y __X__N

Method of Determination: Tax lot data and documentation from owner.

H. NARRATIVE/REMARKS/COMMENTS

Permit 96-15769 qualifies for an in-office examination because the permitted rate is less than 0.24 cfs, there is no storage component, and less than 5 acres of irrigation are performed.

The information for the current permit holder matches the information on the statement of completion provided to the Department. No pictures of the diversion works were provided. The permit holder described the delivery system as a "hose with a foot valve in the river, attached to a pump on the riverbank, then pumped to a pressure tank and then piped to yard bibs". The irrigation place of use shape was updated using Bonner County Assessor GIS maps to exclude driveways and houses located on the property, the polygon has been shrunk to approximately 1 acre to better represent the place of use. Guidance from application processing memo #17 permits a diversion rate of 0.03 cfs per acre for irrigation of 5 acres or less. Per IDAPA Rule 35, no maximum volume shall be assigned to water rights irrigating from natural stream flow, thus none is recommended. I am recommending a diversion rate of 0.03 cfs for the irrigation of 1 acre.

Condition R66 will be retained because the irrigated area is under 5 acres and to ensure usage of this right in combination with other rights will not result in a higher diversion rate than 0.03 cfs. Condition X15 has been satisfied, however per its usage guidance will be retained on the license. Condition 004 will be retained because the point of diversion is outside of the parcel pertinent to the place of use. Condition X16 will be retained as a companion condition to X15.

Have conditions of permit approval been met? __**X**__Yes _____No

I. RECOMMENDATIONS

1. Recommended Amounts

BENEFICIAL USE	PERIOD OF USE	DIVERSION RATE	ANNUAL VOLUME
Irrigation	04/01 to 10/31	0.03 CFS	
	Totals:	0.03 CFS	

2. Recommended Amendments

___Change P.D. as reflected above ___Add P.D. as reflected above _X__None

___Change P.U. as reflected above ___Add P.U. as reflected above _X__None

Subject: Proof deficiency 96-15769
Attachments: Proof Instructions - Highlight.pdf

Dear Permit Holder(s):

The Department received the proof of beneficial use (proof) form submitted for the above referenced permit. The proof is not acceptable without the correct fee.

This permit authorizes a diversion rate of 0.03 cfs (cubic feet per second) of surface water and was stated the same on the form requiring a license examination fee of $50.00. Please submit the required fee of $50.00.

Please submit the required fees at your earliest convenience before the proof due date of **June 1, 2024,** to avoid the possibility of your permit lapsing. Please note that the Department is unable to accept payments online or over the phone at this time. If you have any questions concerning this matter, please contact me.

NOTICE: STATEMENT OF COMPLETION DUE

RE: Permit No. 96-15769

IMPORTANT: A response from you is required to maintain the active status of the referenced water right permit. If no response is received from you, the permit will lapse and your authorization to develop and/or use this water right will be cancelled.

Dear Permit Holder(s):

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before **June 01, 2024**. Please complete and return the enclosed Statement of Completion for Submitting Proof of Beneficial Use (proof) if you have completed the water project authorized by your permit. The proof statement must be accompanied by either the appropriate license examination fee or a field examination report prepared by a certified water right examiner.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been delayed by a government agency or by litigation that brings title to the water in question, an extension of time may be granted if appropriate documentation is provided at the time of filing. An extension request must be accompanied by a $50.00 filing fee and signed by the appropriate authorized permit holder(s) or authorized representative with a power of attorney.

Either an acceptable proof or an acceptable extension request must be received by this department on or before the above proof due date. If neither is received, the department will send you a lapse notice and the permit will no longer be of any force or effect.

Sincerely,

Amanda Veibell

RE: Permit No. 96-15769

Permit Approval Notice

Dear Permit Holder(s):

The Department of Water Resources ("Department") has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review all the conditions of approval listed on your permit. The conditions include requirements that you must accomplish, such as timely submittal of proof of beneficial use or installation of a measuring device, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district. Failure to comply with the conditions of approval may result in your permit lapsing or being canceled.

The permit is a PRELIMINARY ORDER issued pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

The final step in the water right process is issuance of a water right license. To receive a water right license, you must divert and use water to the full extent intended and submit a *Statement of Completion for Submitting Proof of Beneficial Use* by the date shown in condition no. 1 of your permit. The Department will send you a *Proof Due Notice* approximately 60 days prior to the date listed in condition no. 1 of your permit.

You may also require approvals from other Department programs, such as Ground Water Protection, Safety of Dams, or Stream Channel Protection, to accomplish your proposed development. Please call or visit any Department office or see the Department's website at idwr.idaho.gov for more information about these programs.

SCANNED
JUN 14 2023

Please be advised that Idaho Code § 42-248, requires you or the owner of this water permit to maintain current ownership and address records on file with the Department. Forms to file an assignment of permit and/or a change in the address of the permit owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the enclosed information, please contact the Northern Region Office at (208) 762-2800.

Sincerely,

Luke Bates
Interim Water Rights Supervisor

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

SCANNED
JUN 14 2023

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

> Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:
>
> (a) The petition for reconsideration is disposed of; or
> (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

i. A hearing was held,
ii. The final agency action was taken,
iii. The party seeking review of the order resides, or
iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Application 96-15769 – Pack River – Hurley/Anderson

Dear Tammy,

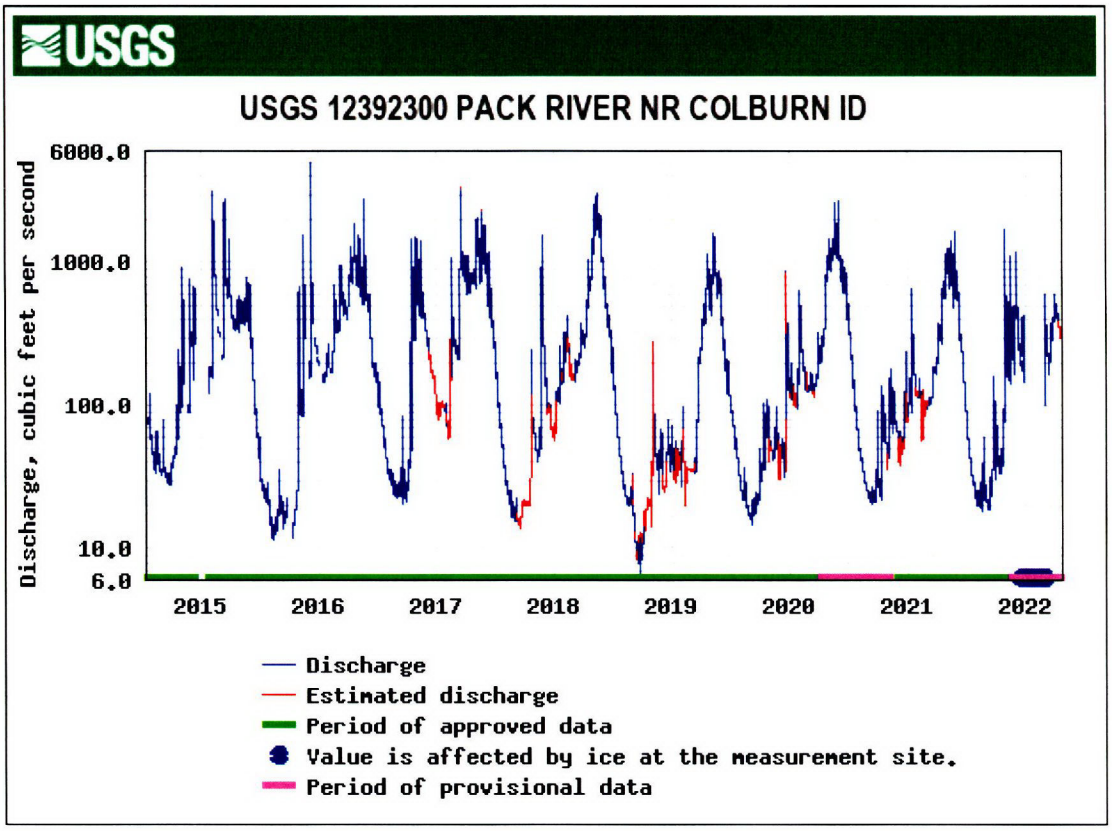

We have reviewed the above-named application for a 0.03 cfs irrigation withdrawal from the Pack River in Bonner County. The purpose of these comments is to assist the decision-making authority by providing technical information that can be used to minimize fish and wildlife impacts.

The applicant proposes a ½ HP pump in the river that feeds a pressure tank and hydrant. The irrigation use of 0.03 cfs is from April until November on 1.0 acre of land.

Idaho code 36-906 prohibits any person diverting water through a conduit from ... *taking water from any stream or lake in this state without first installing and maintaining a suitable screen or other device to prevent fish from entering therein.* We recommend a pipe diameter of **2.5" or less**, screened with **not more than 0.25" mesh screen**, and an approach velocity of not more than **0.5 feet per second** to protect juvenile fish from the proposed pump.

The Pack River has been designated as critical habitat for ESA listed (threatened) Bull Trout by the United States Fish and Wildlife Service. Bull Trout depend on cool, clean water and use the Pack River as a migration corridor to and from their spawning areas. Additionally, Girard Rainbow Trout and native Westslope Cutthroat Trout from Lake Pend Oreille use the Pack River for spawning. Because of the importance of these fisheries, the Idaho Water Board holds a minimum flow water right for the Pack River. Water right 96-8717 was created in 1992 to protect the Pack River flows, and therefore the fisheries and fish habitat. The minimum flow amount held by that water right is 129 cfs through the end of July. During the hotter, dryer portion of the year, it is reduced to 54 cfs through the end of November. Data from USGS gauge 12392300 on the Pack River at Colburn shows a consistent downward trend of both spring freshet high flows and low summer flows since its installation in July of 2014. Additionally, summertime low flows of less than 20 cfs have been recorded several times as seen in the hydrograph below:

SCANNED
JUN 14 2023

While this application's POD is downstream of the minimum flow right, Idaho Department of Fish and Game (IDFG) is concerned about negative effects to fisheries habitat and loss of connectivity with additional water rights being approved for the lower Pack River.

Climate models for Idaho indicate increasing temperatures, decreasing snowpack, and decreasing precipitation leading to low summer stream flows increasing in frequency into the future. Additionally, there is no water master for the Pack River system to ensure that senior water rights are not being negatively impacted by junior rights, such as the one proposed. Given that the Pack River is already consistently less than the granted minimum instream flow, we do not believe it prudent to grant additional water rights in the Pack River; arguably, it is already fully appropriated. If the water right is granted, we recommend it include language that makes it clear no diversion can occur if Pack River is at or below the designated minimum flow. The USGS 12392300 Pack River NR Colburn ID Gauge data can be accessed online at: https://nwis.waterdata.usgs.gov/id/nwis/uv/?cb_00060=on&cb_00065=on&format=gif_default&site_no=12392300&period=&begin_date=2015-01-01&end_date=2022-07-07

Because the application as asking for additional water, while current water rights held by the Idaho Water Resources Board are not being met, IDFG is concerned about effects to fish and fisheries resources with additional water rights, and their cumulative negative impact on the Pack River System.

The Department of Water Resources is seeking written comment and/or recommendations from your agency regarding the above referenced Water Right Permit application. You can find copies of the application at: Idaho Department of Water Resources

This office can publish notice of the application as soon as the initial review is completed; therefore, your prompt response to this request is appreciated. If your agency desires to formally protest the approval of the application(s), you may do so after the notice is published by filing a written protest along with a $25.00 filing fee within 10 days after final publication. The deadline for comments on the applications is June 5, 2023.

Please contact the Northern Region Office at (208) 762-2800 if you have any questions regarding the Permit application.

Thank you,

RE: Application for Permit No. 96-15769

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the BONNER COUNTY DAILY BEE on 5/18/2023 and 5/25/2023. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Tammy Alleman
Administrative Assistant

Re: Water Right Application 96-15769 - Incomplete for filing

Dear Applicant:

This office received your application on 5/9/2022 The application cannot be accepted into the records of the Idaho Department of Water Resources (IDWR) until the following items are addressed:

- **14 – Application Map**
  - Step No.14 requires the map product to clearly designate the Point of Diversion (POD) & Place of Use (POU) for proposed beneficial use of water.

In the past IDWR staff member Shaun Maxey, Sr. Water Resource Agent, had been in correspondence with you working toward finalizing the application filing. Since that time & due to backlog workload your application for permit has been shifted to my level for review and processing. Upon review I note the Application submitted by you did not clearly annotate the POD on the map nor POU for irrigation on your two parcels.

I have created an AMENDED application for permit & enclosed for your consideration & signatures. Please do review the 3-pg amended version w/map page and if satisfied with the documents sign on PG-2 and mail back to IDWR using the mailing address below. I encourage you to call me with questions and/or to walk through "why" I have made the recommendations for change.

Notable recommendations:

1. Step No.4 POD – removed one of two PODs; reference map page you will see the yellow centroid dot that is the "approximate" location of your intake pump from river. Please note that this may not be exactly where you pump from, but it is legally described correctly, and the physical location will be refined in the future following a field exam. The POD satisfies the application requirement for filing.

SCANNED
MAY 17 2023

2. Step No. 5 – Beneficial Use of water for irrigation: IDWR authorizes 0.03 cfs for 1 acre of irrigation. You may only be irrigating 0.5 acres as noted on your initial filing, but I highly recommend applying for 1 acre total. This value will be reduced at time of future examination by the department, but we want to ensure you apply for enough and not sell yourself short at the beginning of the process. I recommend filing for the department standard of 0.03 cfs at this stage of the permitting process.

3. Step No. 6 – Total quantity to be appropriated: I recommend keeping the value at 0.03 cfs as the department standard authorizes this amount.

4. Step No. 9 – POU table: I have revised the POU to reflect a general area covering portions of both your parcels. The table annotates 1 acre irrigation in the legally described quarter-quarter. The intent of the map page (red polygon shape) is to identify that within the area described you are authorized to irrigation UP TO 1.0 acres. As this is a generalized area, the actual irrigation area will be refined following future field examination.

5. Step No. 11 – ownership: I've revised to state that you are the owner at the POD as well as POU. I'm not certain why Shaun Maxey recommended you enter Idaho Dept. of Lands for this question, but that is not accurate.

6. Step No. 12 – I've entered a generalized description that states your intent for filing. We can change or add to this with ink pen to satisfy your full intent.

7. Step No. 14 – Map product: this step requires specific information be present on the map page submitted with the application. Please reference the attached amended application for permit map. This is a generalized POD & POU map that satisfies the question and legal description requirements for the application's other questions. I recommend using this map product.

The Department requires applicants be provided a 30-day window from date informed of required actions prior to returning an incomplete application for permit. A copy of the original incomplete application is enclosed.

Please contact IDWR to make the necessary amendments to the original form prior to re-submitting within the fourteen (14) days, **NLT 03 MAY 2023**. If IDWR does not receive your complete amended application within thirty (30) days, a refund of $100.00 will be issued for this filing & the original incomplete filing returned to you by mail. If the filing is returned, you may still apply in the future by submitting a complete application for permit with associated application fees.
