RE: License No. 96-12624

ISSUANCE OF LICENSE

Dear Water Right Holder(s):

The Department of Water Resources ("Department") has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review all the conditions of approval listed on your license. The conditions may include ongoing requirements, such as maintenance of a measuring device or implementation of mitigation, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district.

The license is a PRELIMINARY ORDER issued by the Department pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Water right forms are available from any office of the Department or on the Department's website at idwr.idaho.gov

If you have any questions concerning the enclosed information, please contact me at (208) 287-4925.

Sincerely,

Phill Hummer

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was held)

The accompanying order is a **Preliminary Order** issued by the Idaho Department of Water Resources (Department) pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and brief as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the hearing officer within fourteen (14) days of the service date of the order as shown on the certificate of service. **Note: the petition must be received by the Department within this fourteen (14) day period.** The hearing officer will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding to the Director. Otherwise, this preliminary order will become a final order of the agency.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have fourteen (14) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Director. The Director retains the right to review the preliminary order on his own motion.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, request for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

> Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:
>
> (a) The petition for reconsideration is disposed of; or
> (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

i. A hearing was held,
ii. The final agency action was taken,
iii. The party seeking review of the order resides, or
iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

D. FLOW MEASUREMENTS

1. Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
None						

2. Measurement Comments: No measurement is required for an in-house exam, but Applications Processing memo #17 and a theoretical calculation were used to determine an acceptable rate.

E. FLOW CALCULATIONS ___Additional Computation Sheets Attached

No information on the pump was provided by the permit holder. Per processing memo #17, a diversion of 0.03 cfs per acre for irrigation purposes is authorized for less than 5 acres. Because the permit holder is irrigating 0.4 acres, I am authorizing a diversion rate of 0.01 cfs. See the calculation bellow

0.03 cfs * 0.4 acres = 0.01 cfs

Permitted Rate = 0.03cfs

Theoretical Rate = 0.01 cfs

B.U Limit = 0.01 cfs

Recommended Rate = 0.01 cfs

F. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

V I.R. = (Acres Irrigated) x (Irrigation Requirement) = 0.4 acres * 3 afa = 1.2 afa

V D.R. = [Diversion Rate (cfs)] x (Days in Irrigation season) x 1.9835 = 0.01 cfs * 214 * 1.9835 = 4.24 afa

V = Smaller of V I.R. and V D.R. = 1.2 afa

G. PURPOSE OF USE

Irrigation __X__Y ____N # Stock_____ Domestic # of Homes _____

Other: < >

Change in Purpose of Use? ____Y __X__N

Method of Determination:

If Yes: From Use _____To Use _____Amount _____CFS _____AFA_____

H. NARRATIVE/REMARKS/COMMENTS

Permit 96-12624 qualifies for an in-office examination because the permitted rate is less than 0.24 cfs and there is no storage component.

The information for the current permit holder matches the information on the statement of completion provided to the Department. No pictures of the diversion works were provided. The permit holder described the delivery system as a "pump for irrigation" and prior application documentation states that the diversion works are pre-existing. The irrigation place of use shape was updated using Bonner County Assessor GIS maps to exclude the driveway and house located on the property, however the polygon is still approximately 0.4 acres. Guidance from application processing memo #17 permits a diversion rate of 0.03 cfs per acre for irrigation of 5 acres or less. I am recommending a diversion rate of 0.01 cfs and a volume of 1.2 afa for the irrigation of 0.4 acres.

Condition X31 will be retained because the irrigated area is under 1. Condition 029 has been satisfied and will be removed at licensing. Condition 004 will be retained because the point of diversion is outside of the parcel pertinent to the place of use. Condition X60 will be retained for the sake of clarity and record keeping.

Have conditions of permit approval been met? __X_Yes ____No

I. RECOMMENDATIONS

1. Recommended Amounts:

BENEFICIAL USE	PERIOD OF USE	DIVERSION RATE	ANNUAL VOLUME
Irrigation	04/01 to 10/31	0.01 cfs	1.2 afa
	Totals:	0.01 cfs	1.2 afa

2. Recommended Amendments:

___Change P.D. as reflected above ___Add P.D. as reflected above __X_None

___Change P.U. as reflected above ___Add P.U. as reflected above __X_None

Hello Caraig , Its been awhile since i've inspected the intake but it had a tapered stainless end on it with little holes the last time i looked when the water was down. I'll double check after the water goes down to confirm proper maintenance . Thanks for checking in and your help on this

Good afternoon Mr. and Mrs. Dempsey,

I am currently in the process of converting your permit for irrigation water into a license and wanted to inquire about whether or not a fish screen is installed on the intake pipe for your diversion from Boyer Slough per the conditions of your issued permit (see attached). No pictures are required, just confirmation from either of you.

Have an excellent day,

NOTICE: STATEMENT OF COMPLETION DUE

RE: Permit No. 96-12624

IMPORTANT: A response from you is required to maintain the active status of the referenced water right permit. If no response is received from you, the permit will lapse and your authorization to develop and/or use this water right will be cancelled.

Dear Permit Holder(s):

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before **June 01, 2024**. Please complete and return the enclosed Statement of Completion for Submitting Proof of Beneficial Use (proof) if you have completed the water project authorized by your permit. The proof statement must be accompanied by either the appropriate license examination fee or a field examination report prepared by a certified water right examiner.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been delayed by a government agency or by litigation that brings title to the water in question, an extension of time may be granted if appropriate documentation is provided at the time of filing. An extension request must be accompanied by a $50.00 filing fee and signed by the appropriate authorized permit holder(s) or authorized representative with a power of attorney.

Either an acceptable proof or an acceptable extension request must be received by this department on or before the above proof due date. If neither is received, the department will send you a lapse notice and the permit will no longer be of any force or effect.

Sincerely,

Amanda Veibell

RE: Permit No. 96-12624

Permit Approval Notice

Dear Permit Holder(s):

The Department of Water Resources ("Department") has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review all the conditions of approval listed on your permit. The conditions include requirements that you must accomplish, such as timely submittal of proof of beneficial use or installation of a measuring device, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district. Failure to comply with the conditions of approval may result in your permit lapsing or being canceled.

The permit is a PRELIMINARY ORDER issued pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

The final step in the water right process is issuance of a water right license. To receive a water right license, you must divert and use water to the full extent intended and submit a *Statement of Completion for Submitting Proof of Beneficial Use* by the date shown in condition no. 1 of your permit. The Department will send you a *Proof Due Notice* approximately 60 days prior to the date listed in condition no. 1 of your permit.

You may also require approvals from other Department programs, such as Ground Water Protection, Safety of Dams, or Stream Channel Protection, to accomplish your proposed development. Please call or visit any Department office or see the Department's website at idwr.idaho.gov for more information about these programs.

Please be advised that Idaho Code § 42-248, requires you or the owner of this water permit to maintain current ownership and address records on file with the Department. Forms to file an assignment of permit and/or a change in the address of the permit owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the enclosed information, please contact me at (208) 287-4910.

Sincerely,

Cody Parker

Hello Shilynn, The Pump for this application is defiantly on our property and so is the power that runs it. Thank you for your help on this.

Hello,

I am processing Application for Permit 96-12624 (copy attached for reference), and I wanted some clarification on the location of the pump. The location of the pump appears to be on property that belongs to Terry C Bloom (according to Bonner County Assessor's webpage) instead of your property. I wanted to know if the pump location was on Mr. Bloom's property or if the pump is located on your property since the imagery/parcel lines could be off on the map. If it is on Mr. Bloom's property, the Department needs written acknowledgement from Mr. Bloom addressing the pump on his property.

I've attached a map showing where parcel lines and the location of the pump (Point of Diversion). Since this is just for clarification, it will not require any changes to your application.

Please respond to this email within 7 days (by end of day June 1, 2023), so I may continue working towards drafting a permit. You may call my direct phone number at 208-287-4915. If you call my direct phone number, please leave a detailed message if you reach my voicemail.

Thank you for your assistance and I look forward to hearing from you.

Re: Post Advertising Review

The original Application for Permit listed a 0.4 acre place of use for irrigation, but was advertised with a 0.5 acre place of use. The permit will use 0.4 acres since there is no other documentation showing an increase was requested by the applicant.

RE: Application for Permit No. 96-12624

Dear Applicants:

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the BONNER COUNTY DAILY BEE on 9/15/2022 and 9/22/2022. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Tammy Alleman
Administrative Assistant

Dear Interested Agencies:

The Department of Water Resources is seeking written comment and/or recommendations from your agency regarding the above referenced Water Right Permit application. You can find copies of the application at: http://www.idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx.

This office can publish notice of the application as soon as the initial review is completed; therefore, your prompt response to this request is appreciated. If your agency desires to formally protest the approval of the application(s), you may do so after the notice is published by filing a written protest along with a $25.00 filing fee within 10 days after final publication. The deadline for comments on the applications is October 3, 2022.

Please contact the Northern Region Office at (208) 762-2800 if you have any questions regarding the Permit application.

Thank you,
