RE: License No. 96-13427

ISSUANCE OF LICENSE

Dear Water Right Holder(s):

The Department of Water Resources ("Department") has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review all the conditions of approval listed on your license. The conditions may include ongoing requirements, such as maintenance of a measuring device or implementation of mitigation, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district.

The license is a PRELIMINARY ORDER issued by the Department pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Water right forms are available from any office of the Department or on the Department's website at idwr.idaho.gov

If you have any questions concerning the enclosed information, please contact me at (208) 287-4925.

Sincerely,

Phill Hummer

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

> Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:
>
> (a) The petition for reconsideration is disposed of; or
> (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

i. A hearing was held,
ii. The final agency action was taken,
iii. The party seeking review of the order resides, or
iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Water Right No.	Source	Purpose of Use	Basis
96-8370	LAKE PEND OREILLE	IRRIGATION	LICENSE

Comments: Rights 96-7245 (domestic use) and 96-8603 (domestic) have GIS POU areas overlapping the permit POU, but both divert from different sources and are for different beneficial uses than the permit. Right 96-8370 is for the irrigation of 0.5 acre using surface water. However, the right backfile map locates the place of use (POU) adjacent to the point of diversion, placing the right POU northwest of the permit POU figures 4, 5a & 5b), indicating there is no actual overlap of the irrigation rights. Additionally, there is no claim for the right and no parcel within the NENE is currently listed as owned by the right holder. No rights appear to overlap the permit POU.

D. FLOW MEASUREMENTS

1. Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
NONE	NA	NA	NA	NA	NA	NA

2. Measurement Comments: The permit holder did not provide any details on the system pump. A maximum head of about 50ft was estimated to the POU based on the DRG map (figure 4).

E. FLOW CALCULATIONS ___Additional Computation Sheets Attached

Measured Method:

A theoretical calculation and Administrative Memos #17, and 6 were used to determine a reasonable rate of diversion.

Q = (0.5 Hp)(8.8)(0.80 eff)/(50 ft lift) + (2.31)*(45 psi) = 0.02cfs

Theoretical Calculation= 0.02cfs
Permit allowed = 0.03cfs
Recommendation= 0.01cfs

Comments:

Although no details were provided for the pump a theoretical calculation indicates that even a ½ Hp pump can produce a rate of 0.02cfs. However, the total irrigated area identified by the permit holder in the system diagram imagery is 0.1-acre. According to Administrative memo #17 up to 0.03cfs per acre is standard for the irrigation of up to 5 acres. The permit was issued for 0.1-acre of irrigation. Further, the aerial imagery and the maps submitted in the proof of beneficial use support the irrigation of 0.1 acres of lawn. I recommend a diversion rate of 0.01cfs for irrigation of 0.1-acre on the license.

F. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$V_{I.R.}$ = (Acres Irrigated) x (Irrigation Requirement) = 0.1-acre x 3 AF= 0.3AF

$V_{D.R.}$ = [Diversion Rate (cfs)] x (Days in Irrigation season) x 1.9835 = 0.01cfs x 214 days x 1.9835= 4.3 AF

V = Smaller of $V_{I.R.}$ and $V_{D.R.}$ = 0.3 AF

Comments:

The field headgate calculation in section F.1. above determined that an annual volume as 0.3 AF is reasonable for the irrigation of 0.1-acre. I recommend the license be issued with an annual volume of 0.3 AF for the irrigation of 0.1-acre.

G. PURPOSE OF USE

Irrigation _X_Y ____N # Stock_NA___ Domestic # of Homes _NA__

Change in Purpose of Use? ____Y _X_N

Method of Determination: Bonner County Maps, GIS, and Tax lot Data

H. NARRATIVE/REMARKS/COMMENTS

This permit for the irrigation of 0.1 acre qualifies for an in-office examination for license. The permit holder submitted the Proof of Beneficial Use, received by IDWR on March 11, 2024, stating in section #3 that the beneficial use was developed 0.2-acre of irrigation. The proof of beneficial use included 2 maps of the irrigation POU and the POD (figures 1 a & 1b). The permit was issued for 0.1-acre of irrigation, which is accurate based on aerial imagery (figures 2 & 3) and a GIS measurement of the areas identified on the proof maps. In 2023 Bonner County imagery the irrigated lawn area is evident on the southwest side of the home (figure 2).

Administrative memo #17 allows 0.03cfs per acre for the irrigation of up to 5 acres of irrigation, and Administrative Memo #6 states that the rate is to be reported to the hundredth place on licenses. Although the permit holder indicated 0.2-acre of irrigation on the statement of completion, the license will be limited to the 0.1-acre of irrigation that the permit was issued for. I recommend a rate of 0.01cfs on the license, as per the usage description and current guidance. Additionally, I recommend the license be issued with an annual volume of 0.3 AF for the irrigation of 0.1-acre, as per the field headgate calculation.

I recommend the license be issued with conditions X31 and 004. Condition 029 should be removed at licensing, the permit holder confirmed a fish screen (foot valve strainer) is installed at the intake.

Have conditions of permit approval been met? _X_Yes ____No

NOTICE: STATEMENT OF COMPLETION DUE

RE: Permit No. 96-13427

IMPORTANT: A response from you is required to maintain the active status of the referenced water right permit. If no response is received from you, the permit will lapse and your authorization to develop and/or use this water right will be cancelled.

Dear Permit Holder(s):

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before **May 01, 2024**. Please complete and return the enclosed Statement of Completion for Submitting Proof of Beneficial Use (proof) if you have completed the water project authorized by your permit. The proof statement must be accompanied by either the appropriate license examination fee or a field examination report prepared by a certified water right examiner.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been delayed by a government agency or by litigation that brings title to the water in question, an extension of time may be granted if appropriate documentation is provided at the time of filing. An extension request must be accompanied by a $50.00 filing fee and signed by the appropriate authorized permit holder(s) or authorized representative with a power of attorney.

Either an acceptable proof or an acceptable extension request must be received by this department on or before the above proof due date. If neither is received, the department will send you a lapse notice and the permit will no longer be of any force or effect.

Sincerely,

Amanda Veibell

RE: Permit No. 96-13427

Permit Approval Notice

Dear Permit Holder(s):

The Department of Water Resources ("Department") has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review all the conditions of approval listed on your permit. The conditions include requirements that you must accomplish, such as timely submittal of proof of beneficial use or installation of a measuring device, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district. Failure to comply with the conditions of approval may result in your permit lapsing or being canceled.

The permit is a PRELIMINARY ORDER issued pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

The final step in the water right process is issuance of a water right license. To receive a water right license, you must divert and use water to the full extent intended and submit a *Statement of Completion for Submitting Proof of Beneficial Use* by the date shown in condition no. 1 of your permit. The Department will send you a *Proof Due Notice* approximately 60 days prior to the date listed in condition no. 1 of your permit.

You may also require approvals from other Department programs, such as Ground Water Protection, Safety of Dams, or Stream Channel Protection, to accomplish your proposed development. Please call or visit any Department office or see the Department's website at idwr.idaho.gov for more information about these programs.

Please be advised that Idaho Code § 42-248, requires you or the owner of this water permit to maintain current ownership and address records on file with the Department. Forms to file an assignment of permit and/or a change in the address of the permit owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the enclosed information, please contact the Northern Region Office at (208) 762-2800.

Sincerely,

Luke Bates

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

SCANNED
APR 2 4 2023

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

> Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:
>
> (a) The petition for reconsideration is disposed of; or
> (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

i. A hearing was held,
ii. The final agency action was taken,
iii. The party seeking review of the order resides, or
iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

April 21, 2023

Water Permit: 96-13427

Author: LBates GSB 4/21/23

Subject: POU validation

Applicant's initial online filing designated 0.01 cfs & 0.1 acres irrigation for lawn space on the western side of the applicant's parcel.

S.Maxey, Sr. Water Resource Agent, recommended the applicant amend both the diversion rate & irrigation acreage to reflect 0.03 cfs & 1.0 acres while making the entire parcel the POU.

The amended application received on 1/12/2023 resulted in the applicant making pen/ink changes to the diversion rate requesting 0.03 cfs. In the white space to the right of the POU table for irrigation, the applicant designated "updated to include the entire parcel" and initial/dated. The applicant did not change the irrigation acreage within the table which still states 0.1 acres.

96-13427 was processed and advertised for public comment with 0.03 cfs & 0.1 acres for irrigation.

During the permit approval process, I noted the discrepancy and reached out by email to the applicant & representative. A phone conversation between Shayne Goff, applicant's representative, and myself was held to discuss options and whether the applicant would like to make another amendment to the application. It was noted that if amendment was pursued the applicant would have to pay $50.00 for a 2nd advertising period. Mr. Goff asserts that the POU shape was good to keep the entire parcel, but that the applicant was ok with keeping the initial 0.1 acres irrigation designation. The remainder of the parcel stays green and doesn't require irrigation & the applicant's intent was to irrigate the small lawn space.

I notified Mr. Goff that in the future if additional irrigation was pursued the applicant would need to file a new application for permit to add irrigated acreage beyond the 0.1 acres associated with this filing.

The permit was approved designating 0.03 cfs and 0.1 acres irrigation with the POU shape as the applicant's entire parcel.

Mr. Wendle,
Good morning. In the recent past you had been working with Shaun Maxey, Sr. Water Resource Agent, IDWR Northern Office to amend your initial application for permit received on 10/25/2022. Amended application was received on 1/12/2023.

I have taken over for Shaun for this filing, and during permit approval processing I note a discrepancy with irrigation acreage I would like to discuss with you before making recommendations for approval.

Attached is a copy of the amended filing. Please reference step No.8 – Place of Use. You updated the form with ink pen annotating "updated to include the entire parcel". Unfortunately, as the form is now, I can still only approve the permit for 0.10 acres as designated in the table for step No.8.

Question – was your intent to update the POU for the map only to reflect entire parcel, OR to update to reflect irrigation for up to 1.4 acres?

If the answer is 1.4 acres, then we need to pursue a 2nd amendment to correct the acreage in step 8. Additionally, this will require the application be advertised again for two consecutive weeks. Unfortunately, this will require an additional $50.00 fee to re-process the form as it was previously advertised for the 0.10 acres.

If you are satisfied with 0.10 acres irrigation, then I can pursue processing the form as is.

Please do contact me at your earliest convenience, no later than 20 April 2023, to discuss your filing.

Thank you Sir,

Luke Bates

RE: Application for Permit No. 96-13427

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the BONNER COUNTY DAILY BEE on 2/2/2023 and 2/9/2023. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Tammy Alleman
Administrative Assistant

Dear Interested Agencies:

The Department of Water Resources is seeking written comment and/or recommendations from your agency regarding the above referenced Water Right Permit application. You can find copies of the application at: http://www.idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx.

This office can publish notice of the application as soon as the initial review is completed; therefore, your prompt response to this request is appreciated. If your agency desires to formally protest the approval of the application(s), you may do so after the notice is published by filing a written protest along with a $25.00 filing fee within 10 days after final publication. The deadline for comments on the applications is February 21, 2023.

Please contact the Northern Region Office at (208) 762-2800 if you have any questions regarding the Permit application.

Thank you,

To whom it may concern:

Please see the updated attachment for the clarifications for 96-13427.
#4 POD – original location was in the incorrect spot. The map has been updated to reflect more accurately the true POD by the Orange dot.
#5 Water use: the 0.01 cfs has been updated to 0.03 cfs
#8 Place of use: The original application was completed showing only the lawn/irrigated portion of the parcel. The attached map shows the updated area to be included in the application shown as the entire parcel (green outline).
#9 The POD and attached supply line crosses another parcel. That parcel and the one included in this application are owned in common. Permission has been granted to allow the supply line to cross the property.

The above noted changes have been also changed on the original application and have been initialed and dated by Shayne Goff, Representative.

Thank you,

Shayne Goff

Attachments: 96-13427 WENDLE APP Map.pdf; 96-13427 WENDLE APP.pdf

Hi:

Please contact me about on-line Application For Permit 96-13427 (Wendle) that lists you as a representative. I have attached a copy of the Application and a IDWR map.

I need to review the following topics with you:

1) amount of water to be used (0.01 Cubic Feet per Second).
2), amount of area to be irrigated (0.10 acres).
3) the meaning of Fire Protection as it applies to the CFS.
4) Encroachment Permit

Thanks,

Shaun Maxey
