RE: License No. 96-15939

ISSUANCE OF LICENSE

Dear Water Right Holder(s):

The Department of Water Resources ("Department") has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review all the conditions of approval listed on your license. The conditions may include ongoing requirements, such as maintenance of a measuring device or implementation of mitigation, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district.

The license is a PRELIMINARY ORDER issued by the Department pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Water right forms are available from any office of the Department or on the Department's website at idwr.idaho.gov

If you have any questions concerning the enclosed information, please contact me at (208) 287-4925.

Sincerely,

Phill Hummer

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

> Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:
>
> (a) The petition for reconsideration is disposed of; or
> (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

i. A hearing was held,
ii. The final agency action was taken,
iii. The party seeking review of the order resides, or
iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

D. FLOW MEASUREMENTS

1. Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
NONE	NA	NA	NA	NA	NA	NA

2. Measurement Comments: The permit holder stated the system operates on a ½ Hp pump. A maximum head of about 15ft was estimated to the licensed POU using the DRG map.

E. FLOW CALCULATIONS ___Additional Computation Sheets Attached

Measured Method:

A theoretical calculation and Administrative Memo #17 were used to determine a reasonable rate of diversion.

Q = (1/2 Hp)(8.8)(0.80 efficiency)/(15 ft lift) + (2.31)*(45 psi) = 0.03cfs

Theoretical Calculation= 0.03cfs
Permit allowed = 0.03cfs
Recommendation= 0.01cfs

Comments:

Approximately 0.2 acre of irrigation was measured via GIS aerial imagery. The system was described by and permit holder as a ½ Hp electric pump with an 1 " inlet, which conveys water to a portable sprinkler used throughout the POU..

Approximately 0.03 cfs is possible with the ½ Hp pump. According to Administrative memo #17 up to 0.03cfs per acre is standard for the irrigation of up to 5 acres. According to Administrative memo #6 the reported rate of diversion should be rounded to the hundredth place. I am recommending a diversion rate of 0.01cfs for the license.

F. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$V_{I.R.}$ = (Acres Irrigated) x (Irrigation Requirement) = 0.2-acre x 3.0 AF= 0.6 AF

$V_{D.R.}$ = [Diversion Rate (cfs)] x (Days in Irrigation season) x 1.9835 = 0.01cfs x 214 days x 1.9835= 4.3 AF

V = Smaller of $V_{I.R.}$ and $V_{D.R.}$ = 0.6 AF

Comments:

This permit was issued for irrigation use from a natural steam/river source. According to the IDAPA Beneficial Use Examination Rules 37.03.02.35. 01j.viii a diversion volume is not required for irrigation if water is diverted from a natural flowing stream/river or spring. However, as the POU is less than 1 acre condition X31 will be carried on the license stating the annual volume as 0.6 AF.

H. NARRATIVE/REMARKS/COMMENTS

This permit for the irrigation of 0.4 acres qualifies for an in-office examination for license. The permit holder submitted the Proof of Beneficial Use, received by IDWR on January 11, 2024, stating in section #3 that the beneficial use was developed for 0.4-acre of irrigation. I was able to confirm approximately 0.2 acres irrigation was developed using aerial imagery (see figures 1 & 2). Ther permit holder indicated in section #6 of the proof of beneficial use that no fish screen was installed at the intake, so I called the permit holder on January 26, 2024, to discuss the documentation submitted. I followed up the call with an email requesting additional information including a map outlining the irrigated area and POD,

I received an email January27,2024, with photos of the system components, confirmation that a intake screen was installed, and a system diagram (figure 3) identifying the POD and pumphouse location. The system description in the email stated that the screened 1" intake (photos 1 & 2) delivers water to the pumphouse (photo 3), where 5/8" garden hoses are hooked up to irrigate using portable rotary sprinklers and a hand nozzle to water landscaping (photos 4-6).

After reviewing the permit holder's response to the information request an area of approximately 0.2 acres is confirmed for irrigation. A theoretical calculation confirmed that the pump can provide the 0.03cfs rate on the permit. However, as the permit measured irrigated area is approximately 0.2-acres I am recommending the license be issued with a diversion rate of 0.01cfs (as per Administrative Memos #17 and 6). As the diversion is from streamflow the volume was not reported on the license (IDAPA Rules 37.03.02.35. 01j.viii). However, as the irrigated area is less than 1 acre the license will carry condition X31, stating the annual volume as 0.6 AF.

I am recommending the license be issued with a rate of 0.01cfs and conditions X60, 004, ~~227~~ and X31. Condition 029 was removed at licensing as the permit holder confirmed there is a screen installed at the intake and no comments were received from IDFG regarding the permit. ~~As the permit POD is within the reach of MSF right 96-8730 for the Pend Oreille River, a~~ ~~condition 227 was added at licensing, as per current guidance~~. Although currently no water district is established for the regulating of this minimum stream flow, the Department tries to make right holders aware of any potential issues.

Good Afternoon Mr. Lamb,

In paragraph 7, it states that an examination fee is not required for .04 cfs from a groundwater well. In Paragraph 8, page 3 of the included instructions, "A license examination fee is required for any permit which uses surface water". I have highlighted the section for your reference. Your permit authorizes .04 cfs from the Pend Oreille River, which is a surface water source.

Please let me know if you have any questions.

Amanda,
Per the INSTRUCTIONS FOR FILING A STATEMENT OF COMPLETION, Paragraph 7, "A license examination fee is not required....OR if you are using a total of .04 cfs or less...."
The permitted amount is .03 cfs, which is less than the .04 cfs referenced above.
The instructions clearly indicate no fee is required, and the proof was submitted accordingly.
If the Department's instructions are in error, please reply to me with proof of requirement changes which resulted in the deficiency declaration.

Your prompt attention is appreciated.

Dear Permit Holder(s):

The Department received the proof of beneficial use (proof) form submitted for the above-referenced permit. The proof is not acceptable without the correct fee. A copy of the form is enclosed for your reference.

This permit authorizes a diversion rate of 0.03 cfs (cubic feet per second) of surface water from the Pend Oreille River and was stated the same on the form requiring a license examination fee of $50.00. Please submit the required $50.00 fee within 30 days.

If the required fee is not received within 30 days, the proof form will be returned to you unprocessed. If you have any questions concerning this matter, please contact me at amanda.veibell@idwr.idaho.gov.

RE: Permit No. 96-15939

Permit Approval Notice

Dear Permit Holder(s):

The Department of Water Resources ("Department") has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review all the conditions of approval listed on your permit. The conditions include requirements that you must accomplish, such as timely submittal of proof of beneficial use or installation of a measuring device, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district. Failure to comply with the conditions of approval may result in your permit lapsing or being canceled.

The permit is a PRELIMINARY ORDER issued pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

The final step in the water right process is issuance of a water right license. To receive a water right license, you must divert and use water to the full extent intended and submit a *Statement of Completion for Submitting Proof of Beneficial Use* by the date shown in condition no. 1 of your permit. The Department will send you a *Proof Due Notice* approximately 60 days prior to the date listed in condition no. 1 of your permit.

You may also require approvals from other Department programs, such as Ground Water Protection, Safety of Dams, or Stream Channel Protection, to accomplish your proposed development. Please call or visit any Department office or see the Department's website at idwr.idaho.gov for more information about these programs.

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

SCANNED
JUN 14 2023

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

> Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:
>
> (a) The petition for reconsideration is disposed of; or
> (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

i. A hearing was held,
ii. The final agency action was taken,
iii. The party seeking review of the order resides, or
iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Application for Permit No. 96-15939

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the BONNER COUNTY DAILY BEE on 5/18/2023 and 5/25/2023. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Tammy Alleman
Administrative Assistant

Mr. Terrence L. Lamb,
Good morning.

I am requesting a courtesy response to this correspondence; it will let me know I didn't error in entering your email address. Thank you!

IDWR is in receipt of your application for water permit & have assigned it as WR No. 96-15939.

Following my review of your application I have identified discrepancies that make it incomplete & inaccurate. These errors require correction prior to IDWR processing for advertisement.

I recommend amending your application as follows:

- Review the 2-page amended application for permit document & separate amended map PDF.
    - Print 2 pages & map page – you will note my recommended changes have been made & highlighted in yellow to include the **need for new signature on PG2**.
        - Step 4 – I note the POD located in Government Lot 2, NW ¼ NE ¼ (ref map page).
        - Step 5 – Season of use for irrigation in your local area = 4/1 to 10/31. This is an IDWR standard. You are authorized to apply for 0.03 cfs & I recommend doing so vice the 0.02 cfs. IDWR can't make values larger after the permit is approved but will refine the use to what the pump produces at time of future field examination.
        - Step 6 – updated total quantity to reflect 0.03 cfs.
        - Step 9 – Place of use updated to reflect the legal description values for irrigation.
        - Step 14 – I've updated the map product to reflect the property as our system sees it. Please note this map is not a survey map and there may be minor shift in imagery from physical survey stakes, but it is what our department must use during processing. You will note it is very different than the original filing map product which I believe is inaccurate.
    - Reference the copy of your initial filing, but please do not send this PDF back to the department.

Following your review, let me know if you have any questions or concerns.

Once satisfied with corrections you may do the following to re-submit:

1. If able, **please scan and email the corrected forms (signed 2pg application & map page), as a PDF document,** to the email address listed below (**not my personal email**)

file@idwr.idaho.gov

Alternately, you may elect to mail the amended version back to the department using the mailing address below C/O Luke Bates OR hand deliver if in the local area.

As of the date of this email, **please respond within 14 Days, No Later Than 10 May 2023** and/or respond with explanation why more time is required to submit revisions. We can discuss by phone which changes to the application you would prefer to pursue. I appreciate your diligence in working on these corrections and am here to assist you with any questions.

Please do give me a call if you've any questions and we can discuss the "why" of the changes recommended. I recommend carbon copying me on the email you send to the state office file@idwr.idaho.gov
