Water Right No. 96-16596

Priority: July 03, 2023

Maximum Diversion Rate: 0.01 CFS
Maximum Diversion Volume: 0.3 AF

It is hereby certified that:

DALLAS ANDERSON 24990 E STONECREST CT LIBERTY LAKE WA 99019 AND
KELLI ANDERSON 24990 E STONECREST CT LIBERTY LAKE WA 99019

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated June 22, 2023, and has submitted Proof of Beneficial Use on July 05, 2024. An examination confirms water is diverted from:

Source : LAKE PEND OREILLE **Tributary:** PEND OREILLE RIVER

Conditions of Approval

1. Place of use is located within Lot 6A Replat, Sandy Cove Subdivision.
2. This right when combined with all other rights shall provide no more than 0.01 cfs nor more than 0.3 afa at the field headgate for irrigation of the place of use.
3. Some of the water use authorized by this right is claimed with an earlier priority date on Clark Fork-Pend Oreille River Basins Adjudication Claim No. 96-16018. If Claim 96-16018 is decreed as it is claimed, this right shall be diminished by the amount necessary to avoid any redundancy of water rights.
4. This right does not grant any right-of-way or easement across the land of another.

This license is issued pursuant to the provisions of Idaho Code § 42-219. The water right confirmed by this license is subject to all prior water rights and shall be used in accordance with Idaho law and applicable rules of the Department of Water Resources.

RE: License No. **96-16596**

ISSUANCE OF LICENSE

Dear Water Right Holder(s):

The Department of Water Resources ("Department") has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review all the conditions of approval listed on your license. The conditions may include ongoing requirements, such as maintenance of a measuring device or implementation of mitigation, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district.

The license is a PRELIMINARY ORDER issued by the Department pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Water right forms are available from any office of the Department or on the Department's website at idwr.idaho.gov

If you have any questions concerning the enclosed information, please contact me at (208) 287-4925.

Sincerely,

Phill Hummer

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was held)

The accompanying order is a **Preliminary Order** issued by the Idaho Department of Water Resources (Department) pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and brief as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the hearing officer within fourteen (14) days of the service date of the order as shown on the certificate of service. **Note: the petition must be received by the Department within this fourteen (14) day period.** The hearing officer will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding to the Director. Otherwise, this preliminary order will become a final order of the agency.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have fourteen (14) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Director. The Director retains the right to review the preliminary order on his own motion.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, request for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

> Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:
>
> (a) The petition for reconsideration is disposed of; or
> (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

i. A hearing was held,
ii. The final agency action was taken,
iii. The party seeking review of the order resides, or
iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

B. OVERLAP REVIEW

1. Other water rights with the same place of use: YES Overlap

Water Right No.	Source	Purpose of Use	Basis
96-16018	LAKE PEND OREILLE	IRRIGATION	CLAIM
96-16010	GROUND WATER	DOMESTIC	CLAIM

Comments: Two claims were submitted by the permit holder for the parcels appurtenant to the permit, overlapping the place of use (POU). Claim 96-13018 is a total overlap of the permit. However, the claim application states that use began in 1977, as the diversion is surface water it is unlikely that the claim will be decreed. The license should have conditions 928 and X31, to address any future concerns. Claim 96-16010 has a different source and beneficial use than the permit.

2. Other water rights with the same point-of-diversion: NO Overlap

Water Right No.	Source	Purpose of Use	Basis
96-16018	LAKE PEND OREILLE	IRRIGATION	CLAIM

Comments: The irrigation claim is a total overlap, as previously stated and therefore shares the point of diversion (POD) with the permit.

Comments:

After clarification from the permit holder, approximately 0.1 acre of irrigation was measured using GIS aerial imagery (figure 3). The system was described by the permit holder as a ¾ Hp submersible pump, which conveys water through a 2" PVC line to 2 spigots and a pressure tank (see figure 2). Garden hoses and portable sprinklers are used for irrigation throughout the POU. The place of use was outlined by the permit holder (figure 1). The permit holder explained that irrigation was not developed in the eastern parcel, as this area is just used for outbuildings and septic. The intake to the submersible pump is screened to keep out debris.

The theoretical calculation determined approximately 0.03cfs is possible with a ¾ Hp pump. Administrative Memo #17 allows up to 0.03 cfs per acre for the irrigation of up to 5 acres. The confirmed irrigated POU is approximately 0.1 acres. The minimal reportable rate of 0.01cfs is reasonable for the beneficial use developed. I recommend a diversion rate of 0.01cfs for the license, as per Administrative Memos #17 & 6.

F. VOLUME CALCULATIONS

1. Volume Calculations for irrigation:

$V_{I.R.}$ = (Acres Irrigated) x (Irrigation Requirement) = 0.1-acre x 3 AF = 0.3 AF annually

$V_{D.R.}$ = [Diversion Rate (cfs)] x (Days in Irrigation season) x 1.9835 = 0.01 x 214 x 1.9835 = 4.3 AF

V = Smaller of $V_{I.R.}$ and $V_{D.R.}$ = 0.3 AF annually

2. Volume Calculations for Other Uses:NA

Comments:

The field headgate calculation above was used to determine a reasonable annual volume for irrigation. I recommend the license be issued for an annual volume of 0.3 AF, as per the headgate standard.

H. NARRATIVE/REMARKS/COMMENTS

This permit for the irrigation of 0.4 acres qualifies for an in-office examination for license. The permit holder submitted the Proof of Beneficial Use, received by IDWR on July 5, 2024, stating in section #3 that the beneficial use was developed for 0.4-acres of irrigation. After reviewing an outline of the irrigated areas (figure 1) and system diagram (figure 2) emailed by the permit holder I was able to confirm approximately 0.1 acres irrigation, measured with GIS aerial imagery (figure 3).

The system was described by the permit holder as a screened intake from the lake to the ¾ Hp submersible pump diverting water through a 2" PVC line to two spigots and a pressure tank. One spigot is in the area between the home and shore and the second spigot and pressure tank are located near the home. The permit holder stated that there is no irrigation in the eastern parcel of the permit POU. Timers and garden hoses are used to deliver water to portable sprinklers used throughout the POU.

I recommend the license be issued with a rate of 0.01cfs and an annual volume of 0.3 AF for the irrigation of 0.1-acre, as per the field headgate volume calculation in section F of this report and Administrative Memos 17 & 6.

I recommend conditions X60, X31, 928, and 004 on the license. Condition 029 was removed at licensing as the permit holder confirmed there is a screen installed at the intake and no comments were received from IDFG regarding the permit during advertisement. As the permit is overlapped by claim 96-16018, condition 928 should be on the license, pending the claim decision, as per current guidance.

NOTICE: STATEMENT OF COMPLETION DUE

RE: Permit No. 96-16596

IMPORTANT: A response from you is required to maintain the active status of the referenced water right permit. If no response is received from you, the permit will lapse and your authorization to develop and/or use this water right will be cancelled.

Dear Permit Holder(s):

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before **September 01, 2024**. Please complete and return the enclosed Statement of Completion for Submitting Proof of Beneficial Use (proof) if you have completed the water project authorized by your permit. The proof statement must be accompanied by either the appropriate license examination fee or a field examination report prepared by a certified water right examiner.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been delayed by a government agency or by litigation that brings title to the water in question, an extension of time may be granted if appropriate documentation is provided at the time of filing. An extension request must be accompanied by a $50.00 filing fee and signed by the appropriate authorized permit holder(s) or authorized representative with a power of attorney.

Either an acceptable proof or an acceptable extension request must be received by this department on or before the above proof due date. If neither is received, the department will send you a lapse notice and the permit will no longer be of any force or effect.

Sincerely,

Amanda Veibell

RE: Permit No. 96-16596

Permit Approval Notice

Dear Permit Holder(s):

The Department of Water Resources ("Department") has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review all the conditions of approval listed on your permit. The conditions include requirements that you must accomplish, such as timely submittal of proof of beneficial use or installation of a measuring device, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district. Failure to comply with the conditions of approval may result in your permit lapsing or being canceled.

The permit is a PRELIMINARY ORDER issued pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

The final step in the water right process is issuance of a water right license. To receive a water right license, you must divert and use water to the full extent intended and submit a *Statement of Completion for Submitting Proof of Beneficial Use* by the date shown in condition no. 1 of your permit. The Department will send you a *Proof Due Notice* approximately 60 days prior to the date listed in condition no. 1 of your permit.

You may also require approvals from other Department programs, such as Ground Water Protection, Safety of Dams, or Stream Channel Protection, to accomplish your proposed development. Please call or visit any Department office or see the Department's website at idwr.idaho.gov for more information about these programs.

Please be advised that Idaho Code § 42-248, requires you or the owner of this water permit to maintain current ownership and address records on file with the Department. Forms to file an assignment of permit and/or a change in the address of the permit owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the enclosed information, please contact the Northern Region office at (208) 762-2800.

Sincerely,

Luke Bates

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

SCANNED
SEP 06 2023

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

> Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:
>
> (a) The petition for reconsideration is disposed of; or
> (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

i. A hearing was held,
ii. The final agency action was taken,
iii. The party seeking review of the order resides, or
iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Application for Permit No. 96-16596

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the BONNER COUNTY DAILY BEE on 8/3/2023 and 8/10/2023. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Taya Sharp
Administrative Assistant

Mr. Dallas Anderson,
Good afternoon,

I am requesting a courtesy response to this correspondence; it will let me know I didn't error in entering your email address. Thank you!

IDWR is in receipt of your application for water permit & have assigned it as WR No. 96-16596.

Following my review of your application I have identified the diversion rate is lower than authorized by IDWR and recommend amending the original filing to increase from 0.01 cfs to 0.03 cfs for 0.5 acres irrigation on two parcels. You will note that 0.5 acres is the total parcel(s) size which you will not achieve for irrigation; this is ok, at this point in the filing process we apply generic shape which covers the entire area & at a later date/time the irrigation use will be refined at time of licensing to reflect accurate irrigation practices.

I recommend amending your application as follows:

- Review the 2-page amended application for permit document & separate amended map PDF.
  - Print 2 pages & map page – you will note my recommended changes have been made & highlighted in yellow to include the **need for new signature on PG2**.
  - As you have elected the "AND" name connector for step No.1, both yourself and your wife Kelli are required to sign the document.

Following your review, let me know if you have any questions or concerns.

Once satisfied with corrections you may do the following to re-submit:

1. **Mail the corrected forms (signed 2pg application & map page)** to the address listed below c/o Luke Bates

I have attached two extra PDF documents for reference:

1. 2pg PDF application-permit-license notes – this document explains each step in the process from filing to securing your water right license.
2. Your intake pipe drafts water from the lake which is under Idaho Department of Lands (IDL) regulatory purview; IDL may require you file through them an encroachment permit for the intake pipe in the lake. This is a separate process from our department, but I've attached a copy of the example encroachment permit information for you. There are contact numbers on PG1 and you may reach out to IDL to discuss potential for their permit process.

As of the date of this email, **please respond within 14 Days, No Later Than 12 July 2023** and/or respond with explanation why more time is required to submit revisions. We can discuss by phone which changes to the application you would prefer to pursue. I appreciate your diligence in working on these corrections and am here to assist you with any questions.
