RE: License No. 96-12576

ISSUANCE OF LICENSE

Dear Water Right Holder(s):

The Department of Water Resources ("Department") has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review all the conditions of approval listed on your license. The conditions may include ongoing requirements, such as maintenance of a measuring device or implementation of mitigation, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district.

The license is a PRELIMINARY ORDER issued by the Department pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Water right forms are available from any office of the Department or on the Department's website at idwr.idaho.gov

If you have any questions concerning the enclosed information, please contact me at (208) 287-4925.

Sincerely,

Phill Hummer

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

> Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:
>
> (a) The petition for reconsideration is disposed of; or
> (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

i. A hearing was held,
ii. The final agency action was taken,
iii. The party seeking review of the order resides, or
iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

2. Measurement Comments: The permit holder stated that the system uses a 1.5 Hp pump to divert water to 1 ½" sprinkler lines. A maximum head of about 20ft was estimated to the POU based on the DRG map.

E. FLOW CALCULATIONS ___Additional Computation Sheets Attached

Measured Method:

A theoretical calculation, peer reviewed Department reference materials, and Administrative Memos #17, and 6 were used to determine a reasonable rate of diversion.

Q = (1.5 Hp)(8.8)(0.80 eff)/(20 ft lift) + (2.31)*(45 psi) = 0.09cfs

TABLE 1, RECOMMENDED DIVERSION RATES FOR STOCKWATER

In cubic feet per second (cfs)

No. of head	Dairy cows	Other cattle, horses & mules	Hogs	Sheep & goats
0 - 25	0.02	0.02	0.02	0.02
26 - 50	0.04	0.02	0.02	0.02

Table 1- Field Examiners Handbook-Reference Library-Stockwater-1982 Annual Stockwater Use Table-"Table 1".

Theoretical Calculation= 0.09cfs
Permit allowed = 0.05cfs
Recommendation= 0.03cfs

Comments:

The full permitted rate of 0.05cfs is possible with the 1 ½ Hp pump. However, the total irrigated area identified by the permit holder in the system diagram imagery is 0.3-acre. According to Administrative memo #17 up to 0.03cfs per acre is standard for the irrigation of up to 5 acres. I am recommending a diversion rate of 0.01cfs for irrigation of 0.3-acre on the license. I am recommending the full permitted rate of 0.02cfs for stockwater, as per Department guidance referencing small animals such as goats.

F. VOLUME CALCULATIONS

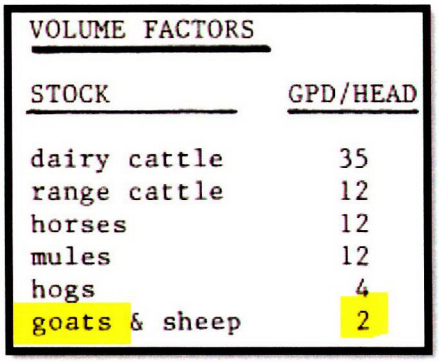

1. Volume Calculations for Irrigation:

$V_{I.R.}$ = (Acres Irrigated) x (Irrigation Requirement) = 0.3-acre x 3 AF= 0.9 AF

$V_{D.R.}$ = [Diversion Rate (cfs)] x (Days in Irrigation season) x 1.9835 = 0.01cfs x 214 days x 1.9835= 4.3 AF

V = Smaller of $V_{I.R.}$ and $V_{D.R.}$ = 0.9 AF

2. Volume determination for Stockwater:
40 GPD (stockwater for 20 goats) x365=14,600 gal per yr / 325,850 gal per AF= 0.1 AF annual volume.

VOLUME FACTORS

STOCK	GPD/HEAD
dairy cattle	35
range cattle	12
horses	12
mules	12
hogs	4
goats & sheep	2

Table 2- Field Examiners Handbook-Reference Library-Stockwater-1982 Annual Stockwater Use Table-"Volume Factors".

Comments:

This permit was issued for irrigation use from a natural steam/river source. According to the IDAPA Beneficial Use Examination Rules 37.03.02.35. 01j.viii a diversion volume is not required for irrigation if water is diverted from a natural flowing stream/river or spring. However, as the POU is less than 1 acre condition X31 will be carried on the license stating the annual volume as 0.9 AF for the irrigation of 0.3-acre. Based on Department guidance material standard stockwater use for 20 head of small animals, such as goats would be approximately 0.1 AF annual volume. I am recommending the license be issued with an annual volume of 0.1 AF for stockwater, as per the Field Examiners Handbook and Administrative Memo 6.

H. NARRATIVE/REMARKS/COMMENTS

This permit for the irrigation of 1 acre and stockwater for 20 mixed head of livestock qualifies for an in-office examination for license. The permit holder submitted the Proof of Beneficial Use, received by IDWR on February 23, 2024, stating in section #3 that the beneficial use was developed 1 acre of irrigation. The appurtenant parcel is heavily treed and only about 0.3-acre of irrigable land could be identified within the POU in aerial imagery. I called the permit holder requesting additional system information and a map of the irrigation POU and the POD. The permit holder responded March 12, 2024, via email with an attachment outlining the areas irrigated and system used within the parcel. The total irrigation POU area identified by the permit holder was measured using GIS to be approximately 0.3-acre. In 2023 Bonner County imagery stacked logs, slash piles, and trails are visible in many areas within the clearing surrounding the home. The permit holder explained that last year they cleared out many of the trees and underbrush to make improvements to the POU, which tore up a lot of the landscape. Those areas are to be reseeded as soon as the weather allows. The system pump is described as a 1 ½ Hp Red lion pump with a screened foot valve at the intake, delivering water via 1 1/2" discharge hoses with a nozzle on the end of each were used for irrigation throughout the POU.

The livestock is described as 20 mixed small animals such as goats. According to The Field Examiners Handbook reference material for stockwater use (1982 Annual Stockwater Use Table) a rate of 0.02cfs and an annual volume of approximately 0.05AF (40 GPD) is standard for watering 20 head of goats and similar small livestock. Administrative Memo #6 requires that volume is reported to the tenth place on licenses. I am recommending the license be issued with a rate of 0.02cfs and an annual volume of 0.1AF for stockwater.

Administrative memo #17 allows 0.03cfs per acre for the irrigation of up to 5 acres of irrigation, and Administrative Memo #6 states that the rate is to be reported to the hundredth place on licenses. I am recommending a rate of 0.01cfs for irrigation on the license, as per the usage description and current guidance. The license is being recommended for irrigation use from a natural steam/river source. According to the IDAPA Beneficial Use Examination Rules 37.03.02.35. 01j.viii a diversion volume is not required for irrigation if water is diverted from a natural flowing stream/river or spring. However, as the POU is less than 1 acre condition X31 will be carried on the license stating the annual volume as 0.9 AF for the irrigation of 0.3-acre.

I am recommending the license be issued with a combined total rate of 0.03cfs and conditions X60, X59, X31,and 004. Conditions 029 was removed at licensing, as the permit holder confirmed a fish screen (foot valve strainer) is installed at the intake, and no comment was received from Idaho Fish and Game (IDFG) at advertisement. Condition X02 was removed at licensing as per current guidance, and R66 was replaced by X31 at licensing as the irrigated area is less than 1 acre.

Have conditions of permit approval been met? _X_ Yes ____ No

Good evening Sir,

I have attached a diagram with the information requested.

Unfortunately, this past year we had our property pretty torn up because we had a lot of equipment on the property to get trees cut down on the majority of the property and cleared out a majority of the ground brush. Then we had some time until we could get all the very large piles moved and burned. Anything nice was destroyed. Unfortunately, I am not at the property at this time. We will be re-seeding when the time is right and hope to things back on track.

Thanks,
Daniel Jenkins

NOTICE: STATEMENT OF COMPLETION DUE

RE: Permit No. 96-12576

IMPORTANT: A response from you is required to maintain the active status of the referenced water right permit. If no response is received from you, the permit will lapse and your authorization to develop and/or use this water right will be cancelled.

Dear Permit Holder(s):

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before **March 01, 2024**. Please complete and return the enclosed Statement of Completion for Submitting Proof of Beneficial Use (proof) if you have completed the water project authorized by your permit. The proof statement must be accompanied by either the appropriate license examination fee or a field examination report prepared by a certified water right examiner.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been delayed by a government agency or by litigation that brings title to the water in question, an extension of time may be granted if appropriate documentation is provided at the time of filing. An extension request must be accompanied by a $50.00 filing fee and signed by the appropriate authorized permit holder(s) or authorized representative with a power of attorney.

Either an acceptable proof or an acceptable extension request must be received by this department on or before the above proof due date. If neither is received, the department will send you a lapse notice and the permit will no longer be of any force or effect.

Sincerely,

Amanda Veibell

RE: Permit No. 96-12576

Permit Approval Notice

Dear Permit Holder(s):

The Department of Water Resources ("Department") has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review all the conditions of approval listed on your permit. The conditions include requirements that you must accomplish, such as timely submittal of proof of beneficial use or installation of a measuring device, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district. Failure to comply with the conditions of approval may result in your permit lapsing or being canceled.

The permit is a PRELIMINARY ORDER issued pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

The final step in the water right process is issuance of a water right license. To receive a water right license, you must divert and use water to the full extent intended and submit a *Statement of Completion for Submitting Proof of Beneficial Use* by the date shown in condition no. 1 of your permit. The Department will send you a *Proof Due Notice* approximately 60 days prior to the date listed in condition no. 1 of your permit.

You may also require approvals from other Department programs, such as Ground Water Protection, Safety of Dams, or Stream Channel Protection, to accomplish your proposed development. Please call or visit any Department office or see the Department's website at idwr.idaho.gov for more information about these programs.

Please be advised that Idaho Code § 42-248, requires you or the owner of this water permit to maintain current ownership and address records on file with the Department. Forms to file an assignment of permit and/or a change in the address of the permit owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the enclosed information, please contact the Northern Region Office at (208) 762-2800.

Sincerely,

Luke Bates

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

SCANNED
FEB 2 8 2023

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

> Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:
>
> (a) The petition for reconsideration is disposed of; or
> (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

i. A hearing was held,
ii. The final agency action was taken,
iii. The party seeking review of the order resides, or
iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Application for Permit No. 96-12576

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the BONNER COUNTY DAILY BEE on 2/2/2023 and 2/9/2023. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Tammy Alleman
Administrative Assistant

Dear Interested Agencies:

The Department of Water Resources is seeking written comment and/or recommendations from your agency regarding the above referenced Water Right Permit application. You can find copies of the application at: http://www.idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx.

This office can publish notice of the application as soon as the initial review is completed; therefore, your prompt response to this request is appreciated. If your agency desires to formally protest the approval of the application(s), you may do so after the notice is published by filing a written protest along with a $25.00 filing fee within 10 days after final publication. The deadline for comments on the applications is February 21, 2023.

Please contact the Northern Region Office at (208) 762-2800 if you have any questions regarding the Permit application.

Thank you,

Subject: IDWR app for permit 96-12576
Attachments: 96-12576 - initial app for permit & PG3 RED mark-up sheet.pdf

Daniel & Marlo Jenkins,

Good afternoon. I am requesting a courtesy reply to this email – it will allow me to know I've not errored in your email information when sending this correspondence (thank you). IDWR is in receipt of your application for permit that was filed using the online application function with fees paid on 1/13/2023. Upon initial review I note a couple of items that require amendment in order to ensure accuracy of your filing prior to advertisement processing.

Please print PG 1 of the three-page PDF associated with your filing and use to make corrections.

Form steps that require change consideration are as follows:

Step 5 – referencing the mark up sheet with red changes, please line through 1.00 cfs and enter with ink pen 0.03 cfs for IRRIGATION, initial & date.

Step 5 & step 8 – please consider ADDING the following beneficial use: STOCKWATER, as this will cover watering chickens and goats. The specific data to enter is reflected in RED on the mark-up sheet. Ensure you enter the diversion rate of 0.02 cfs, season of use 1/1-12/31, and Place of Use (POU) = 57N, 01W, Sec 29, SWSW (QQ). This will allow me to add this beneficial use to both step 5 and step 8.
Step 6 – I recommend adding stockwater 0.02 cfs and irrigation 0.03 cfs to make the sum **0.05 cfs,** initial & date.

Please note that adding stockwater use requires IDWR to advance your priority date from 1/13/2023 to the date the amendment is received by IDWR. I recommend expediting this revision to reduce the priority date change for your water right application for permit.

Following your review, let me know if you have any questions or concerns. Once satisfied with corrections you **may scan and email the corrected forms** to the email address listed below (**not my personal email**)

file@idwr.idaho.gov

Please do give me a call if you've any questions and we can discuss the "why" of the changes recommended. I recommend carbon copying me on the email you send to the state office file@idwr.idaho.gov

If unable to scan you may mail the corrected version to the address listed below C/O Luke Bates.

As of the date of this email, **please respond with corrections within 14 Days, No Later 31 January 2023** and/or respond with explanation why more time is required to submit revisions. I appreciate your diligence in working on these corrections and am here to assist you with any questions.

Thank you,

Luke Bates
