RECITALS

1. The Board is authorized under chapter 17, title 42, Idaho Code to operate a water supply bank and to contract with lessors to act as an intermediary in facilitating the rental of water.
2. The Lessor has filed a completed application to lease water rights described below into the Water Supply Bank on forms supplied by the Idaho Department of Water Resources and received by the Department on September 15, 2023.
3. The Director of the Idaho Department of Water Resources has reviewed the application for compliance with the Water Supply Bank rules and has approved the Lease subject to conditions listed below.

NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. **WATER RIGHTS:** The Lessor shall lease and the Board shall accept into the Bank the Applicant's water rights described as follows:

Summary of Water Rights or Portions Leased to the Bank

Water Right No.	Priority Date	Source	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)
2-7055	1/23/1970	SNAKE RIVER, tributary to COLUMBIA RIVER	2.86	725	145.0
2-7112A	2/22/1973	SNAKE RIVER, tributary to COLUMBIA RIVER	3.02	760	152.0
Combined Lease Totals			5.88	1,490	297.0

Summary of Water Rights Elements Rentable From the Bank

Water Right	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (Limited) (AC)	Rate Per Acre (CFS/AC)	Volume Per Acre (AF/AC)
2-7055	2.49	725	145.0	0.017	5.00
2-7112A	2.63	760	152.0	0.017	5.00
Combined Limit Totals	5.12	1,490	297.0	0.017	5.00

*** The water right elements rentable have been reduced from the water right elements leased to account for combined limits with water right part of shared pump station.**

WATER SUPPLY BANK LEASE CONTRACT No. 1760

2. **COMPENSATION:** The Lessor shall accept and the Board shall pay compensation determined by the amount of water rented under the following rental rate during such times as the water is rented from the Bank over the term of this Lease.

Minimum Payment Acceptable: Current Rental Rate

3. **TERM OF LEASE:** The term of this lease shall be January 1, 2024 to December 31, 2026. This Lease shall bind the parties and take effect when both parties have signed it.
4. **WATER SUPPLY BANK CONDITIONS OF ACCEPTANCE:** The Lessor shall abide by all terms and conditions contained in the Water Supply Bank Conditions of Acceptance, attached hereto as "Attachment A" and incorporated herein by this reference.
5. **CHANGE OF WATER RIGHT:** This lease specifies water right elements including but not limited to: diversion rates; diversion volumes; number of acres authorized to be irrigated; places of use; points of diversion; beneficial uses; and seasons of use. During the term of this lease, if a water right is administratively changed due to a water right split and renumbering, this lease may be reduced by an equal amount to reflect the water right elements as legally defined under the water right. If a lease contract cannot be reduced sufficient to reflect the legal definition of a water right as amended through a water right split and/or water right transfer, the Board may release the water right from the Water Supply Bank.
6. **ASSIGNMENT OF CONTRACT:** This lease is between the Board and the Lessor, who is the recognized owner or designated representative of the recognized owners of water rights described herein. Should ownership of any part of a water right herein described change during the term of this lease, either through a water right split, a water right transfer, sale of property to which the water right is appurtenant, or through any other recognized water right reassignment, the lease benefits and obligations to the conditions of acceptance for any such water rights will be assigned to the new owners.
7. **DUPLICATE ORIGINAL:** This Lease is executed in duplicate. Each of the documents with an original signature of each party shall be an original.

ADDITIONAL CONDITIONS OF ACCEPTANCE

1. The water rights referenced above will be rented from the bank at the current rental rate.
2. There is no rental payment to the lessor of the water right if the right or a part thereof is not rented from the bank.
3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B.
4. A right accepted into the bank stays in the bank until the Board releases it, or the lease term expires. A right may be released from the bank upon request, provided the Board approves the release. Unless approved by the Department, leased rights may not be immediately available for release.
5. While a water right is in the bank, forfeiture provisions are stayed pursuant to Idaho Code § 42-223(5).
6. Rental of water under this right is subject to the limitations and conditions of approval of the water right.
7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK LEASE CONTRACT No. 1760

8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Water Rights 2-7055, 2-7112A when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the place of use.
13. The period of use for the irrigation described in this approval may be extended to a beginning date of 3/1 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 3/15 is subordinate to all water rights having no subordinated early irrigation use and a priority date earlier than 9/12/2012.
14. The unleased portions of water rights 2-2156, 2-2245A, 2-7055, 2-10318, and 2-10562 when combined shall not exceed a total diversion rate of 16.03 cfs.
15. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 02.

4. GENERAL INFORMATION

- A. Is the diversion works or system owned or managed by an irrigation district or water delivery company? Yes ☐ No ☒
If yes, provide written consent from the company, corporation or irrigation district authorizing the proposed sale or lease (Attachment 4A).

If your water right is delivered through a canal, lateral or ditch operated by a canal company, irrigation district, or similar delivery entity, your lease request must include written consent from the company, district, or similar entity for your removal of water from its system pursuant to Section 42-108, Idaho Code and IDAPA WSB Rule 37.02.03.25.02e.

- B. Please provide a description of the current water diversion and delivery system.
pump station, pipeline, sprinklers

- C. Describe any other water rights used for the same purpose at the same place of use as the water right being offered to the Bank. see attached supplement

- D. Are any of the water rights identified in Section 4C stacked with the water right proposed for lease? Yes ☐ No ☒
Stacked water rights are used together to achieve a common beneficial use, such as irrigation of the same lands. Stacked water rights cannot be separated and must be jointly leased to the Water Supply Bank. Stacked water rights qualify for the multiple fee payment of \$500.

- E. Will the present place of use continue to receive water from any other source? Yes ☐ No ☒
If yes, explain the relationship between the different water sources and how enlargement of the authorized use will not occur if this water right is leased.

- F. Identify annual volumes and/or rates of water diverted in the last 5 years to accomplish the beneficial use authorized by this water right. see attached supplement

- G. Has any portion of this water right undergone a period of five or more consecutive years of non-use? Yes ☐ No ☒
If yes, describe the circumstances and attach evidence to demonstrate how the water right has not been lost through forfeiture (Attachment 4G). See Section 42-223, Idaho Code for exceptions to forfeiture. Your application may be denied if forfeiture concerns are not addressed. see attached supplement

- H. Is this water right involved in any other IDWR process, such as an application for transfer or a mitigation plan?
If yes, describe. Yes ☐ No ☒

Water Bank Lease Supplement

Water rights 2-10318, 2-10562, 2-2156, 2-2245A, 2-7055 and 2-7112A, when combined, allow irrigation of 1278 acres within a 1338-acre permissible place of use per transfer no. 82917 approved August 21, 2019. The irrigation place of use has changed over time due to the installation of pivots resulting in a more efficient irrigation system and less acres irrigated. Currently, only 950 acres have been irrigated and the remaining 328 authorized acres have been banked under lease contract #1216 set to expire 12/31/2023. Applicants wish to "re-lease" 297 acres for another three years. They are planning some pivot adjustments that will allow irrigation of an additional 31 acres for a total of 981 acres as shown on the attached map. As a result, they wish to lease all of right 2-7112A (152 acres) and 145 acres of water right 2-7055 to the bank.

5. SALE/LEASE AGREEMENT

A. Is the water right, or portion thereof, offered to the Idaho Water Resource Board (IWRB) for sale ☐ or lease ☒.

If lease, specify the years when the use of water will be suspended: 2024 to 2027 (maximum lease period 5 calendar years).
(Year) (Year) (3 years)

B. Show the minimum payment acceptable to the seller/lessor. The minimum payment may be shown as the "current rental rate" as established by the IWRB. Include the method of determining the minimum payment if other than the current rental rate.
current rental rate

I hereby assert that the information contained in this application is true to the best of my knowledge, and that I have the authorities necessary to offer this water right for sale or lease to the Idaho Water Resource Board.

The Designated Applicant acknowledges the following:

1. Payment to the Designated Applicant is contingent upon the sale or rental of the water right from the Bank.
2. While a water right is in the Bank, the seller/lessor of the water right may not use the water right, even if the water right is not rented from the Bank.
3. A water right accepted into the Bank stays in the Bank until the Designated Applicant receives written confirmation from the Board or Water Supply Bank that the water right has been released from the Bank.
4. While a water right is in the Bank, forfeiture is stayed.
5. Acceptance of a water right into the Bank does not, in itself, confirm the validity of the water right or any element of the water right.

**RE: WATER SUPPLY BANK LEASE CONTRACT 1760
FOR WATER RIGHT 2-7055, 2-7112A**

Dear Lessor:

Water right **2-7055,2-7112A** is leased into the Water Supply Bank (Bank) as of January 2024 in accordance with the enclosed executed lease contract. **Your water rights, as described on the lease contract, are considered leased into the Bank and should remain unused until they are formally released from the Bank.** More information and further restrictions placed on your water rights while leased can be found in conditions of acceptance of the lease contract. Read the conditions of acceptance carefully.

The right(s) will automatically be released from the Bank on **December 31,2028** unless the rights are released earlier by the Water Resource Board (Board). To release the water rights from the Bank prior to the release date, submit a written request on the *Request to Release a Water Right from the Bank* form. This form is available on our public website at www.idwr.idaho.gov. **Please note your water rights may not be available for immediate release if they are rented.**

If you have questions regarding this matter, please contact this office at [bank @idwr.idaho.gov](mailto:bank@idwr.idaho.gov) or 208-287-4800.

Sincerely,
Signature

**RE: APPLICATION TO LEASE WATER RIGHTS 2-7055 AND 2-7112A TO THE WATER
SUPPLY BANK CONTRACT 1760**

******TIME SENSITIVE RESPONSE REQUIRED******

Dear Applicant:

The Department of Water Resources has completed its review of your application to lease the above-mentioned water right to the Water Supply Bank. **I have enclosed two original Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The Lease Contract is not considered final until you and the Department have both signed.

The right will automatically be released from the Bank on **December 31, 2026**, unless the right is released earlier by the Board, or upon your request. To release the right from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. To propose a new lease period, submit a new Application to Sell or Lease a Water Right to the Water Supply Bank form along with applicable fees to the Department. These forms are available from any IDWR office or from our public website at <http://www.idwr.idaho.gov>. Please note your right may not be available for immediate release if it has been rented.

Please review the conditions of acceptance listed on the Lease Contract, including #3 which says:

"While a right is in the bank, **the lessor may not use the right** without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

Hello Rob and Nick,

I have completed my review of a Water Supply Bank Lease Application 2756 with the point of diversion within basin 2, Water District 2, and the place of use is within basin 51. The applicant is the Crane Falls Acres LLC. The applicant proposes to lease 145 acres of water right 2-7055 and the entirety of 2-7112A into the water supply bank from 2024-2026. Attached is a copy of the review memo and map of the place of use. If you have any comments on the applicant's proposal or my review, please let me know within 7 days. If you have any questions or concerns, please let me know.

Best,

Skyler

Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE:

Application 2756 was sent in by Crane Farms Acres LLC and received on September 18th, 2023, with the correct fee payment received the same date. The applicant proposes to lease the entirety of water right 2-7112A and a 145-acre portion of water right 2-7055 into the water supply bank from 2024-2026. According to a description provided the applicants propose to reduce the leased acres because a new 31-acre pivot area is being developed. However, according to the provided map those acres were not included with the previous lease place of use. After an email conversation with the representative, they explained the applicant reduced the acres to possibly prevent the spreading of water and enlargement. The point of diversion is within the Snake River Basin Moratorium, Bruneau-Grandview Ground Water Management Area, and Trust Water Area. This application is intended to renew contract 1216 which is set to expire on December 31st, 2023.

AUTHORITY TO FILE:

Jacoba Atkins signed the application. Ms. Atkins has the authority to file this agreement because she is one of the current owners of water rights 2-7055 and 2-7112A according to Department records.

WATER RIGHT VALIDITY:

Water rights 2-7055 and 2-7112A were decreed in 2012. An extension of time to prevent forfeiture was approved from 2018-2023. According to Multiple Programs Memo #2 a water right is likely protected from forfeiture if an extension is filed within the 6th year of nonuse. The water right was leased into the water supply bank from 2020-2023. Any water right leased or rented from the water supply bank is likely within a valid defense to forfeiture according to Idaho Code §42-223(5). Therefore, enough evidence is available to the bank to conclude water rights 2-7055 and 2-7112A are likely not lost to forfeiture and can be leased into the water supply bank.

ENLARGEMENT OF USE:

The rights proposed for lease are diverted from the Snake River with a pump station that is also the point of diversion for many other rights. If the proposed rights are leased and the full combined rate is continued to be diverted using the pump station, then an enlargement would occur. However, Crane Farms has no control over rights they do not own and should be penalized, the rights should be accepted but the remaining rights owned by the applicant should be reduced to account for the reduction to the limit. Table 1 and Table 2 below show the water rights included in the combined limit, the proportional rates, and the reduced lease amounts to account for the limit. This method was similarly applied in past lease contracts, but the rights included in the combined limit calculation were not accurate and the calculation did not account for proportional amounts of the limit. A rental could be possible without a reduction to the rights or combined limit if the point of diversion for the rental is the same as historic diversion.

LOCAL PUBLIC INTEREST:

Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES:

The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The point of diversion is within basin 2, Water District 2 and the place of use is within basin 51. The Watermaster and Western Regional Manager were contacted for comment on February 5th, 2024. No response was received, it is assumed there is no concern with the applicant's proposal.

Table 2. The water rights owned by the applicant and the amounts of each currently leased into the bank. The "Div Rate Available" column and total shows the proportional limit amount of each right unleased. If the Applicant diverts 16.03 cfs for the unleased portions and all other rights in the limit are satisfied proportionally then an enlargement should not occur.

Water Bank Rental Application, Water Right 2-7112A
Notice of Change in Water Right Ownership

Dear Mary,

Enclosed are two water bank lease applications for Crane Falls Acres LLC. These acres proposed for lease are currently part of Contract #1216 set to expire 12/31/2023. Applicants wish to "re-lease" 297 of the currently leased 328 acres for another three years. Check #1018 is enclosed for the \$500 filing fee.

Applicants' tenant farmer (Bruce Lampman) is planning pivot adjustments that will increase irrigation by 31 acres which is why less acres are being "re-leased". As we discussed on the phone, Bruce would like to irrigate the 31 additional acres late this season once the pivot adjustments are made. As recommended, enclosed is a water bank rental application requesting to rent water currently banked under water right 2-7112A. The rental fee is to cover administrative costs only per private agreement between Crane Falls Acres LLC (Jacoba and Clay Atkins) and Bruce Lampman.

The subject water rights are currently in the Atkins names. The Atkins deeded the property to Crane Falls Acres LLC in 2022 with Jacoba and A. Clay Atkins as the managing members. Enclosed is a Notice of Change in Water Right Ownership and associated grant deeds to allow ownership of the water right records be updated. Check #1019 is enclosed for the \$150 filing fee.

Please let me know if there are any questions. Thanks Mary.

Sincerely,

HDR Engineering, Inc.
