3. The Director of the Idaho Department of Water Resources has reviewed the application for compliance with the Water Supply Bank rules and has approved the Lease subject to conditions listed below.

NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. **WATER RIGHTS:** The Lessor shall lease and the Board shall accept into the Bank the Applicant's water rights described as follows:

8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. The use of water for irrigation under this right may begin as early as March 1 provided other elements of the right are not exceeded. The use of water before March 15 under this remark is subordinate to all water rights having no subordinated early irrigation use and a priority date earlier than the date a partial decree is entered for this right.

MEMORANDUM FOR WSB LEASE APPLICATION # 2721

To: Water Right No(s). 3-7001E

From: Skyler Cheever, Water Resource Agent

Date: 10/10/2023

Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE:

Application 2721 was sent in by Mary Guthrie and received on August 17th, 2023, with the correct fee payment received the same date. The applicant proposes to lease the entirety of water right 3-7001E into the water supply bank from 2024-2028. The point of diversion is within Water District 67. This application is a renewal of contract 896 which is set to expire on December 31st, 2023.

AUTHORITY TO FILE:

Mary Guthrie signed the application. Ms. Guthrie has the authority to file this agreement because she is the current owner of water right 3-7001E according to Department records.

WATER RIGHT VALIDITY:

Water right 3-7001E was decreed in 2007. It was leased into the water supply bank from 2008-December 31st, 2023. Any water rights leased or rented from the water supply bank would be within a valid defense to forfeiture during the contracted period according to Idaho Code §42-223(5). Therefore, enough evidence is available to the bank to indicate it is likely water right 3-7001E is not lost to forfeiture and can be leased into the water supply bank.

ENLARGEMENT OF USE:

There are no other water rights diverting from the same source or for the same use overlapping the place of use. It shares the same point of diversion as water rights 3-7001B, 3-7001D, 3-10193 and 37-10194. There are no other enlargement concerns.

LOCAL PUBLIC INTEREST:

Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES:

The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The point of diversion is within basin 3 and Water District 67. The Watermaster and Western Regional Manager were contacted for comment on October 11th, 2023. No response was received, it is assumed there is no concern with this proposal.
