Department of Water Resources

Water Right License

Water Right No. 15-7007

Priority: June 30, 2023

Maximum Diversion Rate: 1.75 CFS
Maximum Diversion Volume: 396 AF

It is hereby certified that:

FLYING R TRUST 3849 W 1000 N MALAD CITY ID 83252-6583

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated January 28, 1972, and has submitted Proof of Beneficial Use on June 30, 2023. An examination confirms water is diverted from:

Source : GROUND WATER

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
IRRIGATION	04/01 to 10/31	1.75 CFS	396 AF

Location of Point(s) of Diversion
GROUND WATER NE¼ SE¼, Sec. 14, Twp 14S, Rge 35E, B.M. ONEIDA County

Place of Use: IRRIGATION

ACTION OF THE DEPARTMENT OF WATER RESOURCES

The Idaho Department of Water Resources hereby approves the above Application for Amendment for Permit No. 15-7007 with the following:

Conditions of Approval

1. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the place of use.
2. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).

This amendment is issued pursuant to the provisions of Idaho Code § 42-211.

Signed this 20th day of September, 2024.

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 15-7007 IN THE NAME OF FLYING R. TRUST	))	**PRELIMINARY ORDER** **REINSTATING PERMIT**

This matter having come before the Idaho Department of Water Resources ("Department"), the Department finds, concludes and orders as follows:

FINDINGS OF FACT

1. On March 14, 1972, the Department issued Permit No. 15-07007 ("Permit") in the name of Robert C. Colton and Barbara C. Colton ("Original Permit Holder") authorizing the diversion of 3.0 cubic feet per second from ground water for irrigation of 160 acres in the NW¼SW¼ and SW¼SW¼ Section 13, and the NE¼SE¼ and SE¼SE¼ Section 14 of Township 14 South, Range 35 East, Oneida County. A condition of permit approval required the Original Permit Holder submit proof of beneficial use of water to the Department on or before March 1, 1977.

2. On December 31, 1976, the Department notified the Original Permit Holder by certified mail that proof of beneficial use was due and instructed the Original Permit Holder of the steps to be taken to submit a *Statement of Completion for Submitting Proof of Beneficial Use* ("Proof") or a *Request for Extension of Time* ("Extension Request").

3. On March 1, 1977, the Permit lapsed because the Department had not received an acceptable Proof or Extension Request.

4. On March 4, 1977, the Department notified the Original Permit Holder that the Permit lapsed because no Proof or Extension Request had been received.

5. On June 30, 2023, the Department received the following from Ron Blaisdell and Shirlee Blaisdell of Flying R Trust ("Current Permit Holder"): a *Request to Reinstate a Permit Lapsed more than Sixty Days* ("Reinstatement Request"), a *Beneficial Use Field Report* ("Field Report") prepared by a Certified Water Right Examiner ("CWRE"), Proof, a statement of reasonable cause for filing a late proof, a reinstatement fee of $250, and a Notice of Change in Water Right Ownership changing the ownership to Flying R. Trust.

6. The Current Permit Holder stated in the Reinstatement Request the well utilized as the point of diversion was completed in 1972, the property has been irrigated consistently since that time, and that they hired a CWRE as soon as they became aware the Permit had lapsed because Proof was not submitted.

7. The Department received a summary of the property ownership for the years 1968 to 1979 and affidavits attesting to irrigation having occurred during the beneficial use period.

CONCLUSIONS OF LAW

1) Idaho Code § 42-218a states, in relevant part:

> (1) A permit upon which the proof of beneficial use... has not been submitted, or a request for extension of time has not been received on or before the date set for such proof... shall lapse and be of no further force nor effect... Notice of said lapsing shall be sent by the department to the permit holder at the address of record by regular mail.
>
> (3) In connection with a proof of beneficial use statement submitted more than sixty (60) days after such notice of lapsing, the director shall require all of the following items to be submitted to the department:
>
> (a) A report prepared by a certified water right examiner as the result of an examination to clearly confirm and establish the extent of the beneficial use of water established in connection with the permit during the time authorized by the permit and any extensions of time previously approved. The report shall be on the form or forms specified by the director and shall provide the information specified in section 42-217, Idaho Code, for confirming beneficial use and such other information as may be required by the director.
>
> (b) A statement of reasonable cause for filing a late proof of beneficial use.
>
> (c) A reinstatement fee of two hundred fifty dollars ($250).
>
> Upon finding that beneficial use had occurred during the authorized period and upon a showing of reasonable cause for filing a late proof of beneficial use, the director may reinstate the permit with the priority date advanced to the day the proof of beneficial use was received.

2) Conveyance of ownership of the property and Permit around the time the Proof was due is reasonable cause for the late filing of the Proof.

3) The deed history, affidavits, and aerial imagery from 1976 demonstrate the beneficial use described in the Field Report occurred during the development period for the Permit.

4) The Current Permit Holder provided a reasonable showing that the Permit should be reinstated by submitting the required documents and filings pursuant to Idaho Code § 42-218a(3).

5) The Permit should be reinstated with the priority date advanced to June 30, 2023.

ORDER

IT IS HEREBY ORDERED that Permit No. 15-7077 is **REINSTATED** and the priority date advanced to June 30, 2023.

DATED this 3rd day of April, 2024.

The Idaho Department of Water Resources (Department) considers this form a statement that the permit holder(s) applied water to beneficial use and completed development of a water right to the extent described below. **This form must be accompanied by an examination fee, when necessary, or by a completed Beneficial Use Field Report prepared by a certified water right examiner (CWRE).** Please refer to the instructions and fee schedule for this form. If ownership of the permit has changed, complete a Notice of Change in Water Right Ownership form. If you wish to relinquish your permit because you have not established the authorized water use and are not applying for an extension, please notify the Department in writing.

2. Source of Water Well If Ground Water (well), Date Drilled mo. 07 / yr. 1972

Drilling Permit/Tag No. Well ID: 389522 Drilling Company's Name Ivan Bortz

3. Extent of use(s) completed **as authorized by the water right permit**:

Domestic (No. households) _____ Irrigation (No. acres) 113 Stockwater (No. and stock type) _____

Other _____

4. Total diversion rate or volume (storage only) for which proof is submitted 1.75 cfs OR _____ af

If the total developed water use is 5 acres of irrigation or less, is stockwater storage of 14.6 acre-feet or less, or has a diversion rate of less than 0.24 cfs, attach a map of the place of use and point of diversion and photographs showing beneficial use.

5. Describe the diversion and delivery system from the water source to the use (pump, lift, irrigation method, etc.)

Water is pumped from the well by a 125 hp turbine pump and delivered to wheel line sprinklers through PVC pipe.

6. Permit condition compliance. Refer to the permit approval conditions and check all the items required, then check "Yes" or "No" to indicate whether the required items were established, submitted, and/or installed:

Required?	Yes	No	(If "Yes", attach required data, evidence of compliance, or evidence of installation)
☐	☐	☐	Ground water level data, pumping information, or other diversion data
☐	☐	☐	Mitigation plan
☐	☐	☐	Lockable controlling works
☒	☒	☐	Measuring device
☐	☐	☐	Fish screen
☐	☐	☐	Other requirements of the water right permit _____
	☐	☐	Reasonably Anticipated Future Needs ("RAFN") Municipal use

If RAFN Municipal use, additional increment of beneficial use developed? ☐ Yes (attach CWRE report) ☐ No

7. Fee Enclosed $_____ or ■ CWRE field report attached or ☐ No fee required

See fee schedule on page 3 of the instructions. Proof statements filed without an appropriate fee are incomplete.

8. Person to contact to accompany a Department representative during the field examination of the water system:

Name: Ron Blaisdell Telephone No. 208-766-3936 Email sblaisdell@atcnet.net

Mailing Address 3849 W. 1000 N. City Malad State ID Zip 83252

The information given on this form is my true statement of the extent to which the above numbered permit has been developed and water has been diverted and applied to beneficial use. I understand that any undeveloped portion of the permit is relinquished to the State of Idaho.

Request to Reinstate a Permit Lapsed more than Sixty Days

Statements of Completion for Submitting Proof of Beneficial Use submitted more than sixty (60) days after mailing of a lapsed permit notice must be accompanied by a Beneficial Use Field Report prepared by a certified water right examiner as the result of an examination to clearly confirm and establish the extent of the beneficial use of water established in connection with the permit during the time authorized by the permit and any extensions of time previously approved, a statement of reasonable cause for filing late proof of beneficial use, and a reinstatement application fee of $250 per§ 42-218a(2), Idaho Code.

Statement of reasonable cause for filing a late proof of beneficial use:

A water right application for permit was filed by Robert Colton on January 28, 1972 and was approved on March 19, 1972 with ID No. 15-7007. Subsequently, a well was drilled at this site and utilized to irrigate the farm ground associated with the site. The well was completed July 17, 1972. A condition of the permit was to submit a beneficial use report. It is our understanding that the report was not completed and the permit application lapsed. The property has been irrigated consistently since the well was drilled and the property has changed ownership a couple of times since then. It was just brought to our attention, as the current owners, that the water right application had lapsed and a beneficial use field report would need to be completed. As soon as we found out about the need to complete the report we hired a certified water rights examiner and started working toward completing the report.

Required items:

- [4] Statement of Completion for Submitting Proof of Beneficial Use
- [4] Beneficial Use Field Report
- [4] Reinstatement application fee of $250

The information contained in this statement is true to the best of my knowledge. I understand that should the department reinstate my permit that the priority date will be advanced to the day that proof of beneficial use was received.

NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP

DE

1. List the numbers of all water rights and/or adjudication claim records to be changed. If you only acquired a portion of the water right or adjudication claim, check "*Yes*" in the "*Split?*" column. If the water right is leased to the Water Supply Bank, check "*Yes*". If you are not sure if the water right is leased to the Water Supply Bank, see #7 of the instructions.

Water Right/Claim No.	Split?	Leased to Water Supply Bank?	Water Right/Claim No.	Split?	Leased to Water Supply Bank?
15-7007	Yes ☐	Yes ☐		Yes ☐	Yes ☐
	Yes ☐	Yes ☐		Yes ☐	Yes ☐
	Yes ☐	Yes ☐		Yes ☐	Yes ☐
	Yes ☐	Yes ☐		Yes ☐	Yes ☐
	Yes ☐	Yes ☐		Yes ☐	Yes ☐

2. Previous Owner's Name: Robert C. Colton
Name of current water right holder/claimant

3. New Owner(s)/Claimant(s): Ron Blaisdell
New owner(s) as listed on the conveyance document Name connector ☐ **and** ☐ **or**

3849 W. 1000 N. (Mailing address) | Malad (City) | ID (State) | 83252 (Zip)

208-766-3936 (Telephone) | sblaisdell@atcnet.net (Email)

4. If the water rights and/or adjudication claims were split, how did the division occur?
   - ☐ The water rights or claims were divided as specifically identified in a deed, contract, or other conveyance document.
   - ☐ The water rights or claims were divided proportionately based on the portion of their place(s) of use acquired by the new owner.

5. Date you acquired the water rights and/or claims listed above: _____.

6. Do you own the land identified as the water right place of use? Yes ☐ No ☐
   - If no, attach evidence that written notice of the change of water right ownership has been delivered to the landowner of record.

7. This form must be signed and submitted with the following **REQUIRED** items:
   - ☒ A copy of the conveyance document – warranty deed, quitclaim deed, court decree, contract of sale, etc. The conveyance document must include a legal description of the property or description of the water right(s) if no land is conveyed.
   - ☒ Plat map, survey map or aerial photograph which clearly shows the place of use and point of diversion for each water right and/or claim listed above (if necessary to clarify division of water rights or complex property descriptions).
   - ☒ Filing fee (see instructions for further explanation):
     - ● $25 per *undivided* water right.
     - ○ $100 per *split* water right.
     - ○ No fee is required for pending adjudication claims.
   - ☐ If water right(s) are leased to the Water Supply Bank AND there are multiple owners, a Lessor Designation form is required.
   - ☐ If water right(s) are leased to the Water Supply Bank, the individual owner or designated lessor must complete, sign and submit an IRS Form W-9.

INSTRUCTIONS FOR FILING A NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP

This form has been prepared to assist all claimants and owners of water rights to comply with the requirements of Idaho Code §§ 42-248 and 42-1409(6). All persons owning or claiming ownership of a water right or claim are required to provide notice to the Department of Water Resources (IDWR) of any change in ownership of any part of the water right or claim or of any change in the owner's mailing address within 120 days of the change. Forms to report ownership changes and/or to update an address are available on IDWR's website at www.idwr.idaho.gov/forms/water-rights.html. In addition, all new owners of water rights within a pending general adjudication area must inquire whether a notice of claim has been filed and, if not, shall file a notice of claim if necessary.

A notice is required for changes in ownership from one individual to another, from an individual to a business entity (even if the business is owned by the individual), or from one business entity to another (even if both businesses are owned by the same individual). Adding or removing a name is considered an ownership change which requires the submission of evidence to support the change and the filing fee.

Separate brochures describing the adjudication of water rights and the ownership change notice requirement are available from IDWR. Please contact your nearest IDWR office if you would like more information or need help completing this form. A list of IDWR offices is on page 2 of these instructions, or you can call 1-800-451-4129. Water right information can be found on the IDWR's website using the Water Right and Adjudication Search.

Please note:

- Unlike licensed or decreed water rights, which are real property, water right permits, applications for new water rights, and applications to transfer existing water rights are considered the personal property of the permit holders/applicants. Permit holders and applicants must assign their interest in a permit and/or application to the new owner. Assignment forms are available on the IDWR's website at www.idwr.idaho.gov/forms/water-rights.html, or from any IDWR office. The fee for an Assignment of Permit is $25. There is no charge for an Assignment of Application for Permit or Application for Transfer.
- If you want to change or add a point of diversion, place of use, season of use, or purpose of use of a water right, you must file an Application for Transfer. The ownership of a water right can also be updated through the transfer process.
- The combined portions of a divided ("split") water right cannot exceed the total flow rate, volume, or period of use of the original right.
- IDWR has no jurisdiction concerning easements, rights-of-way, and zoning matters. The buyer and seller must make these provisions where necessary.
- Any action by IDWR updating the ownership of a water right in IDWR's records is not a determination of water right ownership. Water right ownership disputes arising from a notice of change in water right ownership must be resolved in a water rights adjudication or in an action to quiet title.

LINE INSTRUCTIONS:

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). You may have purchased only a portion of the water right(s) held by the seller. If so, the water right(s) held by the seller may need to be divided ("split") to provide you your share of each right. Mark the box "Yes" if a division of the water right is required.

If you receive water from a municipal provider, an irrigation district or other water delivery organization, and the water rights are held by the organization, please do not use this form to record a change. Please contact the water delivery organization to determine if any action is necessary.

If you or the seller believes there are water rights for the property but you do not know the numbers, you may contact IDWR for assistance in identifying the water rights for the property in question. If adjudication claims for the rights are required and have not been filed, IDWR will so advise you.

2. Fill in the name of the current water right holder/claimant.

3. Fill in each name as listed on the conveyance document and complete the current contact information. For water rights, IDWR will update the ownership to the individual(s)/entities listed on the conveyance document. For active adjudication claims, IDWR will update the claimant information to match the conveyance document unless the new claimant provides good cause for the variance.

4. You may have acquired only a portion of the water right(s) held by the seller. If you did not acquire the entire water right/property, please check the appropriate box. Water rights are often conveyed as an appurtenance to the land where they are used, and the conveyance document for the land often does not have specific language regarding the water right. Please read your deed or other conveyance document carefully to be sure. When the conveyance document does not specifically address water rights, it will be assumed that the water rights are to be split proportionate to the amount of land acquired.

FLYING R TRUST
3849 W 1000 N
MALAD CITY ID 83252-6583

RE: License No. **15-7007**

ISSUANCE OF LICENSE

Dear Water Right Holder(s):

The Department of Water Resources ("Department") has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review all the conditions of approval listed on your license. The conditions may include ongoing requirements, such as maintenance of a measuring device or implementation of mitigation, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district.

The license is a PRELIMINARY ORDER issued by the Department pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Water right forms are available from any office of the Department or on the Department's website at idwr.idaho.gov

If you have any questions concerning the enclosed information, please contact me at (208) 287-4925.

Sincerely,

Phill Hummer

Phill Hummer

MALAD CITY ID 83252-6583

Debra Mansfield
Technical Records Specialist 1

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was held)

The accompanying order is a **Preliminary Order** issued by the Idaho Department of Water Resources (Department) pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and brief as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the hearing officer within fourteen (14) days of the service date of the order as shown on the certificate of service. **Note: the petition must be received by the Department within this fourteen (14) day period.** The hearing officer will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding to the Director. Otherwise, this preliminary order will become a final order of the agency.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have fourteen (14) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Director. The Director retains the right to review the preliminary order on his own motion.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, request for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

> Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:
>
> (a) The petition for reconsideration is disposed of; or
> (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

i. A hearing was held,
ii. The final agency action was taken,
iii. The party seeking review of the order resides, or
iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Memorandum

Date: 9/19/2024

From: Justin Shearer

To: Water Right File 15-7007

Subject: Licensing Review of Certified Water Right Examiner Report

---

Water right permit 15-7007 authorized 3.0 cfs from groundwater for the irrigation of 160 acres in Oneida County. The permit was issued on March 14, 1972, and proof of beneficial use was due on March 1, 1977. However, the permit lapsed because IDWR did not receive acceptable proof of beneficial use or extension request. The field exam for this right was performed by Certified Water Right Examiner Rick Rumsey, on June 23, 2023. On June 30, 2023, Flying R Trust filed an acceptable Request to Reinstate a Permit Lapsed more than 60 days, Proof of Beneficial Use, a Beneficial Use Field Report prepared by a Certified Water Right Examiner, and a Notice of Change in Water Right Ownership. The purpose of this memo is to review the recommendations made in the field exam report submitted June 23, 2023, and supplemental documentation submitted by Flying R Trust demonstrating the permit was developed during the beneficial use period of 1972-1977.

Ownership:

On June 30, 2023, Ownership change was filed by Ron and Shirlee Blaisdell to place permit 15-7007 in their name. Later, email correspondence on August 8, 2023, authorized the ownership of 15-7007 to be in the name of Flying R Trust, the appurtenant landowner. Were amendments recommended? Does the CWRE have authority to request amendments?

Overlap:

Overlap analysis shows that there are no overlapping rights at the point of diversion (POD), nor over the confirmed irrigated place of use (POU) for water right permit 15-7007.

Point of Diversion and Place of Use:

In Mr. Rumsey's submitted field report, he describes the POD as being from a ground water well in the NE ¼ SE ¼ of Twp 14S, Rge 35E, Sec 14. This is contrary to the permit's description of the POD being in the SE ¼ SE ¼ of Twp 14S, Rge 35E, Sec 14. I am recommending that an amendment for licensing purposes be filed to correct the POD description on the license after the permit has been reinstated. The field exam in 2023 confirmed 113 acres as being developed for irrigation within the 160-acre permitted POU legal description at the time of the exam. These 113 acres are accurate to what I was able to identify and measure using imagery and

resources available to me at IDWR. Mr. Rumsey describes the conveyance system as 8 inch and 6-inch PVC mainlines delivering water from a well pump to a total of 5-wheel lines, with 4-wheel lines operating under normal operating conditions. Such a system seems capable of delivering the recommended rate and volume to 113 acres reasonably.

Diversion Rate and Volume:

Flow rate was measured under normal average operating conditions with 4 wheel lines operating. The measured flow rate was 785 gpm, or 1.75 cfs using a Hidroconta Nautilus ultrasonic flow meter. This is an installed closed conduit flow meter on IDWR's list of approved spooled ultrasonic flow meter. A quick theoretical exercise shows that the 125 hp pump in place would be very capable of delivering this amount of water. The quantity of water being recommended is 1.75 cfs and 395.5 acre-feet. This amount is less than the permitted rate amount of 3.0 cfs and the volume recommendation of 395.5 af is consistent with department standards of 3.5 af/acre.

Conditions:

The reviewer did not have any recommendations of removal/application of conditions. At the time of permit approval in 1972 it was conditioned that a measuring device of a type approved by this department shall be permanently installed and maintained as part of the diverting works. Mr. Rumsey indicated in his report that this measuring device installation requirement had been met and is evidenced by the measurement provided by said device on which he bases his recommendation.

Discussion:

In addition to the CWRE filed by Mr. Rumsey which demonstrates current beneficial use taking place, it was necessary to determine beneficial use taking place during the beneficial use period from 1972 to 1977. To satisfy this requirement, Aerial imagery from U.S. Bureau of Land Management dated August 7, 1976, was provided by the current permit owner. In addition, the permit owner also provided deed history for the years of 1968-1979 and relevant affidavits from Mark Colton and Ken Edwards who testify as having either been owners themselves, or direct relatives of the owners of the land during the beneficial use period and attest to the land being irrigated during that time.

Recommendation:

Taking all evidence presented to me in both Mr. Rumsey's CWRE report, aerial imagery, deed history, and affidavits into consideration, I am recommending that water right permit 15-7007 be reinstated. Subsequently, following the required 57-day hold period succeeding reinstatement I am recommending an amendment for licensing purposes to correct the POD from the SE ¼ SE ¼ of 14S, Rge 35E, Sec. 14 to the NE ¼ SE ¼ of 14S, 35E, Sec. 14 as confirmed by Mr. Rumsey's field report, and that a license be issued for water right 15-7007 for 1.75 cfs and 396 af for the irrigation of 113 acres.

Governor Brad Little

Director Mathew Weaver

April 04, 2024

FLYING R TRUST
3849 W 1000 N
MALAD CITY ID 83252-6583

PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 15-7007

Dear Permit Holder(s):

The Department acknowledges receipt of the proof of beneficial use form ("proof"), beneficial use field report, a request to reinstate a permit lapsed more than sixty days, and reinstatement fee of $250.00 submitted for the above referenced water right permit. The next step in the process is for the Department to review the file for issuance of water right license.

Enclosed is a preliminary order that reinstates this permit since proof was submitted more than 60 days after the date of the lapse notice. Please note that the priority date for this permit has been advanced to **June 30, 2023**, pursuant to Idaho Code § 42-218a(2).

The reinstatement order is a PRELIMINARY ORDER issued by the Department pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01). It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date of the preliminary order as described in the attached information sheet.

Please be advised that Idaho Code § 42-248, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning this permit, please contact the State Office of the Department located in Boise at (208) 287-4800.

Sincerely,

Amanda Veibell
Technical Records Specialist

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

(a) The petition for reconsideration is disposed of; or
(b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

i. A hearing was held,
ii. The final agency action was taken,
iii. The party seeking review of the order resides, or
iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Justin,

I have attached the full report that I submitted that includes the mapping and photos. Based on the included maps it looks like the well is actually in the NE ¼ of the SE ¼. Please look over the report and let me know if you have any questions. Maybe we can discuss this further tomorrow and see what we need to do. Thanks.

Good evening Rick,

As we discussed over the phone, if you could please send me a corrected pg 1 of the field report detailing the POD in the proper legal QQ. Currently, your field report states the POD as being in the NE ¼ SE ¼ , Sec 14, TWP 14S, Rge 35E. I believe, and you may as well, this to be an error and that the well is in the SE ¼ SE ¼ . IF you agree, then please correct appropriately pg 1 of the field report. Additionally, if you could also send any pics taken during the field examination that would be greatly appreciated.

Thank you for taking my call, and your prompt attention to these matters. Feel free to let me know if you have any questions or concerns.

Justin:

I checked with Ken today and found out you had not talked to him yet. I asked him to send his statement to me and I have forwarded it on to you. Can we now get this process rolling? I know you're busy, but this is really dragging on for too long. I am really frustrated at this point. Can I please get an update on the progress of this water permit (15-7007)

Shirlee

Shirley,

Attached is the letter you requested. Let me know if you need anything else.

Ordered you a great rest of the week. Enjoy!

Let me know you received this email.

Best,

Ken

Re: Well Usage on Farmland owned by Ken Edwards 1975-1979 Located at 3849 W. 1000 N., St. Johns, ID 83252

Dear Shirley

I'm writing this letter to confirm that I owned and irrigated the 160 Acres located there at 3849 W. 1000 N., St. Johns, ID from 1975-1979 from the water well located on this property. It was the only source of water on the property.

If anyone has any questions or concerns, please contact:

Ken Edwards
(801) 628-5555

Justin:
Here is some more info I've gathered on the water for our permit. This will go with the info I sent you on 1-25-2024.
I will call you.
Shirlee

To whom it may concern: I Mark Colton was living with my uncle Robert Colton in 1972, we were living on his farm in St john oneida county idaho, at this time i helped milk cows and my uncle had a well drilled for irrigation and after the well was drilled he had a sprinckler system installed so he could raise hay for the dairy.

Mark A. Colton 2 FEB 2024

Note: this was my great grandfathers farm and during the summer of 2022 I was the hydrographer for the malad valley irrigation and inspecting the meters on the wells, at this time i found the well on my grandfathers farm now owned by Ron Blaisdell was not recorded in the information provided to me by the state water dept. I looked into this and was told that not all records were updated from the Idaho Falls office to Boise. this letter is confirm that the well drilled by my uncle did happen in 1972 and he used this well to irrigate the farm at this time so he could provide the hay needed for the dairy prior to thistime he was buying hay from the local ranchers.

Justin:
I went to the ASCS office in Malad and they pulled up this document for me. They are still trying to get more information for me. But the picture shows the well in question and the land that is irrigated with it. The picture is from a 1976 flight. I also talked to Mark Colton, a nephew of Robert Colton, that worked for Robert during the time in question. He is writing an affidavit for me to send to you. I also found out that Robert sold his 8 1/2 shares of St. John Irrigation stock, which is all the stock he owned in the irrigation co., to David Deschamps as soon as he got his well running. I am tracking that info down now. If Robert sold that stock to another farmer, he would not have any water to irrigate his field unless he used his well.
As I gather the information, I will forward it on to you.
Thanks
Shirlee

August 7, 1976 Aerial Photo U.S. Bureau of Land Management, Zoom to property, T014S R035E S014, S013. Well ID 389522 location and land irrigated with well noted by dark colored vegetation on east and west side of well.

Subject: Status of water permit 15-7007

Good Afternoon, Mr. and Ms. Blaisdell.

Angela Hanson forwarded me your email today asking about water permit 15-7007 status. The Department has updated the ownership of water permit 15-7007 in the name of Flying R Trust as per your email on August 8th. The next step for this permit is to be reinstated per a reinstatement order signed by the Bureau Chief, which may take up to a week to complete. You will receive the reinstatement order via USPS. After the order is signed, there is a 56-day holding period where you, as the permit holder, have the opportunity to petition the Department for reconsideration if you do not agree with the reinstatement order. After the 56 days, the permit will be given to a water agent for review. Once the review is complete, the Department will issue a Water Right License. The license will be mailed to you via USPS.

Please feel free to reach out if you have any questions.

We were just wondering what the status is on our well permit #15-7007.
I looked it up on line and nothing shows up yet. Can you give us an update? The last email I got said you wanted to list it under Flying R Trust. That's been over a month ago. Any updates would be appreciated.
Thanks
Ron and Shirlee Blaisdell

Form 219 07/11

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

BENEFICIAL USE FIELD REPORT

RECEIVED
Jun 23, 2023
DEPARTMENT OF
WATER RESOURCES

A Beneficial Use Field Report is prepared by a water right examiner as the result of an examination to clearly confirm and establish the extent of the beneficial use of water established in connection with a permit during the development period authorized by the permit and any extensions of time previously approved.

A. GENERAL INFORMATION

Permit No. 15-7007

1. Owner ~~Ron Blaisdell~~ Flying R Trust Phone No. (208) 766 3936
   Current address 3849 W. 1000 N., Malad, ID 83252
2. Examiner's name Rick Rumsey EXAM DATE 06/01/2023
3. Accompanied by Ron Blaisdell Email sblaisdell@atcnet.net
   Address 3849 W. 1000 N., Malad, ID 83252
   Relationship to permit holder Permit Holder Phone No. _____
4. Source Groundwater - Well tributary to NA

B. OVERLAP REVIEW

1. Other water rights with the same place of use _____
2. Other water rights with the same source and point of diversion _____

C. DIVERSION AND DELIVERY SYSTEM

1. **Point(s) of Diversion:**

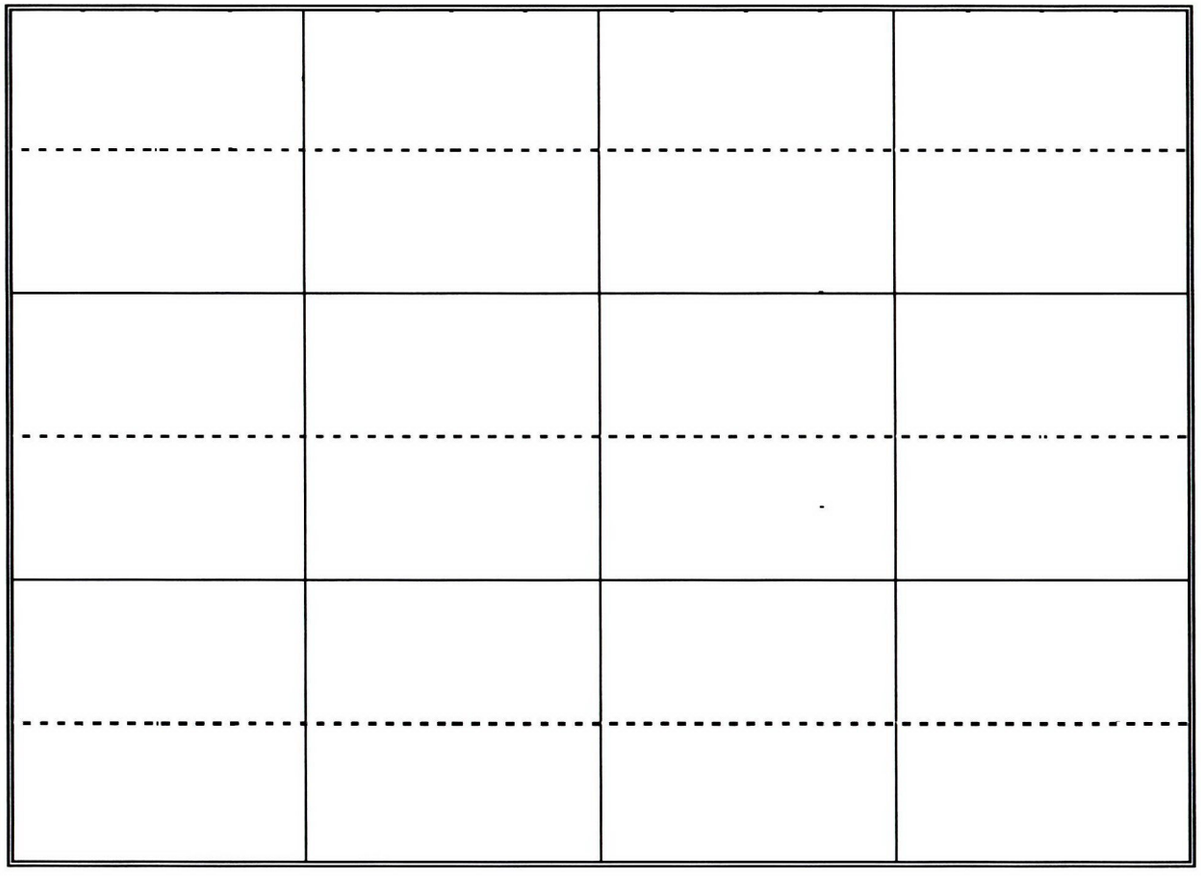

Ident. No.	Gov't Lot	¼	¼	¼	Sec	Twp	Rge	County	Method of Determination/Remarks
1		NE	SE	-	14	14 S	35 E	Oneida	IDWR Well Map with PLS

2. **Place(s) of Use:** Method of determination IDWR Well Map with PLS, Aerial Photography

Twp	Rge	Sec	NE				NW				SW				SE				Totals
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
14 S	35 E	14													24			21	45
14 S	35 E	13										40	28						68

Exam Report

3. **Delivery System Diagram**: Indicate all major components and distances between components. Indicate weir size/ditch size/pipe diameter (inside), as applicable. Use the space provided or ☒ see attached.

Scale: 1" = _____

☒ Copy of USGS Quadrangle attached showing location(s) of point(s) of diversion and place(s) of use (**required**)
☒ Aerial photo attached (required for irrigation of 10+ acres)
☒ Photo of diversion and system attached

4.

Well or Diversion Identification No.*	**Motor Make**	**Hp**	**Motor Serial No.**	**Pump Make**	**Pump Serial No. or Discharge Size**
Well Pump	General Electric	125	FHJ6 28 103	National Pump	8"

****Code to correspond with no. on map and aerial photo***

D. FLOW MEASUREMENTS

1.

Measurement Equipment	**Type**	**Make**	**Model No.**	**Serial No.**	**Size**	**Calib. Date**
Flow Meter	Ultrasonic	Nautilus	DN - 8-inch	82003891	8"	07/30/2020

2. **Measurements:** _____

Flow rate was measured under normal average operating conditions with 4 wheel lines operating. The measured flow rate was 785 gpm on the day of the site visit.

E. NARRATIVE/REMARKS/COMMENTS

Pumping flow rates vary due to the wheel line lengths changing as the wheel lines move across the field.

Has the permit holder met all conditions of permit approval, including any mitigation requirements and/or measuring device installation requirements? ☒ Yes ☐ No If no, what must be done to meet the permit requirements?

Form 219 07/11

F. FLOW CALCULATIONS ☐ Additional computation sheets attached

Measured Method:

Flow was measured directly with an ultrasonic flow meter.

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$V_{I.R}$ = (Acres Irrigated) x (Irrigation Requirement) = 113 acres x 3.5 acre-ft/acre = 395.5 acre-ft

$V_{D.R}$ = [Diversion Rate (cfs)] x (Days in Irrigation Season) x 1.9835 = 1.75 cfs x 214 days x 1.9835 = 742.8 acre-ft

V = Smaller of $V_{I.R.}$ and $V_{D.R.}$ = 395.5 acre-ft

2. Volume Calculations for Other Uses:

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use From	Period of Use To	Rate of Diversion Q (cfs)	Annual Volume V (afa)
Irrigation	April 1	Oct. 31	1.75	395.5 acre -ft
				3.5 acre-ft/acre
		Totals:	1.75	3.5 acre-ft/acre

2. Recommended Amendments

☐ Change P.D. as reflected on page 1 ☐ Add P.D. as reflected on page 1 ☒ None

☐ Change P.U. as reflected on page 1 ☐ Add P.U. as reflected on page 1 ☐ Other

December 31, 1976 CERTIFIED MAIL

Re: Permit No. 15-7007

Robett C. Colton & Barbara C. Colton
Route 1, Box 158
Malad, Idaho 83252

Dear Mr. & Mrs. Colton:

One of the conditions of approval of your water Permit No. 15-7007 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before March 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Garner:

We are in receipt of your letter of March 28 requesting information on the above referenced permit. Our records indicate that Proof of Beneficial Use is due on this permit on or before March 1, 1977, and has not yet been filed.

If we can be of further assistance, please contact us.

Very truly yours,

NORMAN C. YOUNG
District Engineer

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for our review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

> "I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid."
>
> _____
> (signature of claimant)

Very truly yours,

Norman C. Young

Re: Application for Permit No. 15-7007

Mr. Robert C. Colton
Route #1, Box 158
Malad City, ID 83252

Dear Mr. Colton:

Your application for permit has been forwarded to this office for processing. We note that the names of the applicants as listed in Item #1 do not correspond exactly with the signatures on page 3. We have reytped your application and would appreciate your signing the application exactly as the names are listed in Item #1. Pleas return the completed application to this office.

Also, we note in Item #5b you had requested 900 acre feet per annum. It is not necessary to indicate a volume requirement unless the application involves a reservoir. A license when issued will, however, include a volume limitation based upon the climate in your area. For the Malad area the volume for which licenses are usually issued is 3 acre feet per acre per annum.

If you have any questions, please do not hesitate to contact this office.

Very truly yours,

NORMAN C. YOUNG
District Engineer

Source Ground Water

Point of Diversion SE¼SE¼, Sec. 14, T. 14S, R. 35E, B.M., Oneida County

Quantity 3.0 cfs Use Irrigation Period Apr. 1 to Oct. 30

Quantity _____ Use _____ Period _____

Quantity _____ Use _____ Period _____

Well Size _____ Diameter _____ Proposed Depth _____ Feet

Use Irrigation of 160 acres.

Date Forwarded _____ Date Returned _____ Received by _____

COMMENTS: A U.S.G.S. obs. well ¼ to ½ mile away shows very little variation in spring to spring water levels. (W.B. #24). Proposed location of the well appears to be very near the Little Malad River. Well should be constructed to mining interference with surface water. Ground to be irrigated has very rough topography. Little Malad River will make significant reductions in actual acreage irrigated. Use of ground water for irrigation is common in the area with numerous filings and wells located south of the proposed location. Most wells yield 3.0 c.f.s. or less.

RECOMMENDED:

Applied: Qty. 3.0 c.f.s. Use irrig. Period 4/1-11/1 AF/A 3.5 AF 560

Qty. _____ Use _____ Period _____ AF/A _____ AF _____

Qty. _____ Use _____ Period _____ AF/A _____ AF _____

Maximum: Qty. 3.2 cfs Use irrig. Period 4/1-11/1 AF/A 3.5 AF 560

Qty. _____ Use _____ Period _____ AF/A _____ AF _____

Qty. _____ Use _____ Period _____ AF/A _____ AF _____

ACTION: Approved X Denied _____

Conditions of approval or reason for denial: Construct well to limit interference with Little Malad River.

DRAFT

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 15-7007	)	**PRELIMINARY ORDER**
IN THE NAME OF FLYING R TRUST	)	**REINSTATING PERMIT**
	)	

This matter having come before the Idaho Department of Water Resources ("Department"), the Department finds, concludes and orders as follows:

FINDINGS OF FACT

1. On March 14, 1972, the Department issued Permit No. 15-07007 ("Permit") in the name of Robert C. Colton and Barbra C. Colton ("Original Permit Holder") authorizing the diversion of 3.0 cubic feet per second from ground water for irrigation of 160 acres in NW¼SW¼ and SW¼SW¼ and NE¼SE¼ and SE¼SE¼ of Section 14 of Township 14 South, Range 35 East, Oneida County. A condition of permit approval required the Permit Holder submit proof of beneficial use of water to the Department on or before March 1, 1977.

of section 13

2. On December 31, 1976, the Department notified the Permit Holder by certified mail that proof of beneficial use was due and instructed the Original Permit Holder of the steps to be taken to submit a *Statement of Completion for Submitting Proof of Beneficial Use* ("Proof") or a *Request for Extension of Time* ("Extension Request").

3. On March 1, 1977, the Permit lapsed because the Department had not received an acceptable Proof or Extension Request.

4. On March 4, 1977, the Department notified the Original Permit Holder that the Permit lapsed because no Proof or Extension Request had been received.

5. On June 30, 2023, the Department received the following from Ron Blaisdell and Shirlee Blaisdell of Flying R Trust ("Current Permit Holder") a *Request to Reinstate a Permit Lapsed more than Sixty Days* ("Reinstatement Request"), a *Beneficial Use Field Report* ("Field Report") prepared by a Certified Water Right Examiner "(CWRE"), Proof, a statement of reasonable cause for filing a late proof, a reinstatement fee of $250, and a Notice of Change in Water Right Ownership changing the ownership to Flying R Trust.

all this received 6/30 or 7/13 or 6/23

is statement reason filing late since as regard to re-instate? Yes but separate

6. The Field Report did not demonstrate beneficial use occurring during the beneficial use period.

7. The Current Permit Holder stated in the Reinstatement Request ~~that~~ ~~that~~ well was completed in 1972, ~~that~~ the property has been irrigated consistently since that time, and that they only recently became aware as the current landowners that the Permit had lapsed because Proof was not submitted.

observed the

hired a CWRE ~~after~~ they became aware the Permit had lapsed

property

as soon as

a summary of ownership

8. ~~On February 5, 2024, and February 13, 2024, respectively,~~ the Department received the deed history for the years 1968 to 1979 and affidavits from Mark Colton (nephew of Original Permit Holder), and Ken Edwards (property owner 1975-1979) attesting to irrigation having occurred during the beneficial use period.

2 Feb

9. Aerial imagery from August 7, 1976, deed history, and affidavits supplemental to the Field Report confirm beneficial use occurring during the time authorized.

CONCLUSIONS OF LAW

1) Idaho Code § 42-218a states, in relevant part:

> (1) A permit upon which the proof of beneficial use… has not been submitted, or a request for extension of time has not been received on or before the date set for such proof… shall lapse and be of no further force nor effect… Notice of said lapsing shall be sent by the department to the permit holder at the address of record by regular mail.
>
> (3) In connection with a proof of beneficial use statement submitted more than sixty (60) days after such notice of lapsing, the director shall require all of the following items to be submitted to the department:
>
> (a) A report prepared by a certified water right examiner as the result of an examination to clearly confirm and establish the extent of the beneficial use of water established in connection with the permit during the time authorized by the permit and any extensions of time previously approved. The report shall be on the form or forms specified by the director and shall provide the information specified in section 42-217, Idaho Code, for confirming beneficial use and such other information as may be required by the director.
>
> (b) A statement of reasonable cause for filing a late proof of beneficial use.
>
> (c) A reinstatement fee of two hundred fifty dollars ($250).
>
> Upon finding that beneficial use had occurred during the authorized period and upon a showing of reasonable cause for filing a late proof of beneficial use, the director may reinstate the permit with the priority date advanced to the day the proof of beneficial use was received.

2) The Current Permit Holder has provided a reasonable showing why the Permit should be reinstated by submitting an acceptable Proof, Field Report, Reinstatement Request, and reinstatement fee.

3) The Permit should be reinstated with priority date advanced to June 30, 2023.

ORDER

IT IS HEREBY ORDERED that Permit No. 15-7077 is **REINSTATED** and the Permit's priority date is advanced to June 30, 2023.

DATED this _____ day of _____, 2024.

Water Allocation Breau

Memorandum

Date: 3/19/2024

From: Justin Shearer

To: Water Right File 15-7007

Subject: Licensing Review of Certified Water Right Examiner Report

DRAFT

Water right permit 15-7007 authorized 3.0 cfs from groundwater for the irrigation of 160 acres in Oneida County. The permit was issued on March 14, 1972, and proof of beneficial use was due on March 1, 1977. However, the permit lapsed because IDWR did not receive acceptable proof of beneficial use or extension request. The field exam for this right was performed by Certified Water Right Examiner Rick Rumsey, on June 23, 2023. On June 30, 2023, Flying R Trust filed an acceptable Request to Reinstate a Permit Lapsed more than 60 days, Proof of Beneficial Use, a Beneficial Use Field Report prepared by a Certified Water Right Examiner, and a Notice of Change in Water Right Ownership. The purpose of this memo is to review the recommendations made in the field exam report submitted June 23, 2023, 2023 and supplemental documentation submitted by Flying R Trust demonstrating the permit was developed during the beneficial use period of 1972-1977.

Ownership:

On June 30, 2023, Ownership change was filed by Ron and Shirlee Blaisdell to place permit 15-7007 in their name. Later, email correspondence on August 8, 2023, authorized the ownership of 15-7007 to be in the name of Flying R Trust, the appurtenant landowner. Were amendments recommended? Does the CWRE have authority to request amendments?

Overlap:

Overlap analysis shows that there are no overlapping rights at the point of diversion (POD), nor over the confirmed irrigated place of use (POU) for water right permit 15-7007.

Point of Diversion and Place of Use:

In Mr. Rumsey's submitted field report, he describes the POD as being from a ground water well in the NE ¼ SE ¼ of Twp 14S, Rge 35E, Sec 14. This is contrary to the permit's description of the POD being in the SE ¼ SE ¼ of Twp 14S, Rge 35E, Sec 14. I am recommending that an

amendment for licensing purposes be filed to correct the POD description on the license after the permit has been reinstated. Field exam in 2023 confirmed 113 acres as being developed for irrigation within the 160-acre permitted POU legal description at the time of the exam. These 113 acres is accurate to what I was able to identify and measure using imagery and resources available to me at IDWR. Mr. Rumsey describes the conveyance system as 8 inch and 6-inch PVC mainlines delivering water from a well pump to a total of 5 wheel lines, with 4 wheel lines operating under normal operating conditions. Such a system seems capable of delivering the recommended rate and volume to 113 acres reasonably.

Diversion Rate and Volume:

Flow rate was measured under normal average operating conditions with 4 wheel lines operating. The measured flow rate was 785 gpm, or 1.75 cfs using a Hidroconta Nautilus ultrasonic flow meter. This is an installed closed conduit flow meter on IDWR's list of approved spooled ultrasonic flow meter. A quick theoretical exercise shows that the 125 hp pump in place would be very capable of delivering this amount of water. The quantity of water being recommended is 1.75 cfs and 395.5 acre-feet. This amount is less than the permitted rate amount of 3.0 cfs and the volume recommendation of 395.5 af is consistent with department standards of 3.5 af/acre.

Conditions:

The reviewer did not have any recommendations of removal/application of conditions. At the time of permit approval in 1972 it was conditioned that a measuring device of a type approved by this department shall be permanently installed and maintained as part of the diverting works. Mr. Rumsey indicated in his report that this measuring device installation requirement had been met and is evidenced by the measurement provided by said device of which he bases his recommendation.

Discussion:

In addition to the CWRE filed by Mr. Rumsey which demonstrates current beneficial use taking place, it was necessary to determine beneficial use taking place during the beneficial use period from 1972 to 1977. To satisfy this requirement, Aerial imagery from U.S. Bureau of Land Management dated August 7, 1976, was provided by the current permit owner. In addition, the current permit owner also provided deed history for the years of 1968-1979 and relevant affidavits from Mark Colton and Ken Edwards who testify as having either been owners themselves, or direct relatives of the owners of the land during the beneficial use period and attest to the land being irrigated during that time.

Recommendation:

Taking all evidence presented to me in both Mr. Rumsey's CWRE report, aerial imagery, deed history, and affidavits into consideration, I am recommending that water right permit 15-7007 be reinstated. Subsequently, following the required 57-day hold period succeeding reinstatement, I am recommending an amendment for licensing purposes to correct the POD from the SE ¼ SE ¼ of 14S, Rge 35E, Sec. 14 to the NE ¼ SE ¼ of 14S, 35E, Sec. 14 as confirmed by Mr. Rumsey's field report, and that a license be issued for water right 15-7007 for 1.75 cfs and 396 af for the irrigation of 113 acres.
