JUL 10 2023

Department of Water Resources

WATER SUPPLY BANK RENTAL AGREEMENT No. 696

This is to certify that:

CITY OF REXBURG
PO BOX 280
REXBURG, ID 83440-0280

filed an application to rent water from the Water Supply Bank ("Bank"). The Idaho Water Resource Board ("Board"), being authorized to operate a Bank and to contract by and through the Director of the Idaho Department of Water Resources ("Director, Department") for rental of water from the Bank, agrees to rent water as follows:

Summary of Water Rights or Portions Rented from the Bank

Water Right No.	Priority Date	Source	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)	Rate Per Acre (CFS/AC)	Volume Per Acre (AF/AC)
22-4130	6/1/1956	GROUND WATER	2.66	466	133	0.02	3.50
Rental Totals			2.66	466	133	0.02	3.50

Term of Rental: This rental agreement shall take effect when all parties have signed it and shall continue in effect until December 31, 2025. Use of rental water shall be authorized as of either the date this rental agreement takes effect or the first day of the rental season of use, in 2022, whichever occurs last.

Annual Rental Fee:

2022: \$932.00 annually
2023 - 2025: \$1,071.80 annually

The full fee for the rental of the above-described right(s) is \$932.00 per year for years 2022 - 2022 and \$1,071.80 per year for years 2023 - 2025. The rental fee includes an administrative fee of \$932.00 per year for years 2022 - 2022 and \$1,071.80 per year for years 2023 - 2025. Note that the renter is obligated to pay only the administrative fees associated with the water right(s): 22-4130.

An annual payment shall be received by the Department on or before December 31 each year preceding the use of the rented water rights. The agreement will be void if payment is not received by the due date in a given year. Rental fees are non-refundable. To voluntarily terminate the agreement early, notify the Department in writing prior to the rental fee due date.

Total Water Use Authorized Under Rental Agreement

Beneficial Use	Diversion Rate (CFS)	Diversion Volume (AF)
MUNICIPAL	2.66	342
Combined Total	2.66	342

** The authorized water usage reflects a reduction from the water right elements rented, to account for a change in nature of use representing the historic consumptive use volume.*

Detailed water right conditions are attached.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK RENTAL AGREEMENT No. 696

The undersigned renter agrees to use the water rented under this agreement in accordance with the Water Supply Bank rules and in compliance with the limitations and conditions of use described in this agreement:

Jerry L. Merrill 4/14/23
Signature of Renter Date

Jerry L. Merrill Mayor
Printed Name Title

*Title required if signing on behalf of a company or organization or with power of attorney

Having determined that this agreement satisfied the provisions of Idaho Code § 42-1763 and IDAPA 37.02.03.030 (Water Supply Bank Rule 30), for the rental and use of water under the terms and condition herein provided, and none other, I hereby execute this Rental Agreement on behalf of the Idaho Water Resource Board.

RENTAL AGREEMENT CONDITIONS OF ACCEPTANCE

2. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
3. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
4. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
5. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
6. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
7. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
8. Renter acknowledges and agrees that the Director may terminate authorization for the use of a water right based on a water right's priority date.
9. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
10. This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.
11. This rental agreement does not authorize the construction of a well.
12. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 100.
13. Prior to December 31 of each year, the Board may review this rental agreement to determine whether it is consistent with the management plan that may be approved for the Eastern Snake Plain Aquifer Ground Water Management Area ("ESPA GWMA Plan") pursuant to Idaho Code § 42-233b. The Board may cancel this rental agreement if the Board determines it is not consistent with the ESPA GWMA plan. If this rental agreement is canceled, the cancellation shall not take effect until December 31 of the year in which the rental agreement is canceled.

**RE: RENTAL OF WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO(S). 22-4130, AGREEMENT 696**

Dear Renter:

Please find enclosed a receipt in the amount of **\$932.00**, a receipt in the amount of **\$1,071.80**, and a copy of a fully executed Water Supply Bank Rental Agreement in connection with the rental of 466 acre-feet of water during 2022 and 2023. Upon receipt of this fully executed agreement, you are authorized to divert water in compliance with the conditions of water use described in the agreement.

Since you have a private agreement with the lessor of the right(s), **you are only obligated to pay the 10% administrative fee or \$932.00 and \$1,071.80** for 2022 and 2023.

If you have any questions, please contact this office at bank@idwr.idaho.gov or (208) 287-4800.

Sincerely,

Mackenzie Kienholz

Subject: Payment Needed - Water Supply Bank Rental Agreement 696, City of Rexburg
Attachments: Proposed Rental Agreement #696 - City of Rexburg.pdf

Good morning,

Thank you for returning a signed copy of Water Supply Bank Rental Agreement #696 for the City of Rexburg, and a payment of \$932.00. The \$932.00 has been allocated to pay the 2022 rental year fee. However, as we are well into the 2023 season, the rental fee for 2023 needs to be paid as well. This fee is \$1,071.80 as shown on page one of the rental agreement (attached for your reference). **Please send a check in the amount of \$1,071.80** for 2023 made payable to the Idaho Department of Water Resources **within 14 days** so I can complete processing. If you have any questions, please contact me by phone or email.

Thank you,

Mackenzie Kienholz

**RE: APPLICATION TO RENT WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO. 22-4130, AGREEMENT 696**

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of **\$9,320.00 per year** was calculated based on the current rental rate of \$20.00 per acre-foot times a diversion volume of 466.0 acre-feet. Since you have a private agreement with the lessor, **you are only obligated to pay the 10% administrative fee or \$932.00.** An annual payment shall be received by the Department prior to the execution of this agreement and prior to January 1 in all subsequent years for the duration of the rental period. The agreement will be void if payment is not received prior to the due date in a given year. If you would like to terminate the agreement prior to the end of the rental period, you must submit written notice of your intent to the Department at least 30 days prior to the rental fee due date.

Please send a check in the amount of \$932.00 for 2022 made payable to the Idaho Department of Water Resources, **together with the signed rental agreement, within 14 days** so I can complete processing.

If you have any questions, please contact this office at (208) 287-4800.

Sincerely,

Water Supply Bank

MEMORANDUM FOR APPLICATION #2418 and #2419

To: Water Right(s) 22-4130

From: Mackenzie Kienholz

Date: 10/31/2022, 12/19/2022

Re: Review & Analysis of Applications to Lease & Rent Water through the State Water Supply Bank

PURPOSE/NARRATIVE: Application #2418 was received by the Eastern Regional Office on 7/22/2022 and by the State Office on 8/4/2022. The application was submitted by Kristin Moore (Rocky Mountain Environmental Assoc.) on behalf of BYU Idaho and it proposes to lease the full amount of right 22-4130 (2.66 cfs, 466 af, 133 acres) for 2022-2025. It is part of a companion package with rental application #2419 for the City of Rexburg.

Application #2419 was received by the Eastern Regional Office on 7/22/2022 and by the State Office on 8/4/2022. The application was submitted by Kristin Moore (Rocky Mountain Environmental Assoc.) on behalf of the City of Rexburg. It is part of a companion package with lease application #2418 for BYU-Idaho. The application proposes to rent the full amount of 22-4130 for 2022-2025 to supplement the City's municipal water rights.

An agreement between the lessor and renter was included indicating that the payment amount is \$100.00 per year. The lease and rental POD's are in the ESPA GWMA, the Madison GWD, and WD 100.

AUTHORITY TO FILE: Lease application #2418 was signed by Brett Cook. Brett Cook is listed as a Vice President on Brigham Young University-Idaho's SOS filing as well as the University Resources Vice President on the BYU Idaho – Office of the President page. Water right 22-4130 is owned solely by BYU Idaho. The parcel under the lease POU is owned by the applicant, Brigham Young University-Idaho.

Rental application #2419 was signed by Jerry L. Merrill who is the mayor of the City of Rexburg. The requested place of use is within the City of Rexburg's Municipal Place of Use. One of the requested POD's is the same as the lease POU and also diverts other municipal water rights. The other requested POD's are the City's municipal diversions and only divert municipal rights.

WATER RIGHT VALIDITY: Water right 22-4130 was decreed 11/24/2008 and was leased to the Water Supply Bank from 2011-2020 (previous contract #552). The City of Rexburg has been renting this water the entire period it has been in the Bank. The land does not appear to have been idled in the past, however the associated rental has previously and proposes again to use the water as supplemental to municipal water. The 133 acres decreed under 22-4130 include irrigated lawn as well as acres covered by buildings, roads, and parking lots. The rental proposes to move the portions that are not actually irrigated in the water right POU and put them to use in the surrounding area. No concerns with validity of the water right and portion offered to the bank.

INJURY TO OTHER WATER RIGHTS: Reducing the amounts authorized for use as described in the enlargement section will prevent injury to other users. Both the lease point of diversion and an additional municipal well will be used for the rental; all are within on ESPA model grid cell and are supplied by the same groundwater source. Lease and rental of this water right is not anticipated to cause injury to other water rights.

ENLARGEMENT OF USE: Eleven water rights overlap the water right/lease POU. All these rights are owned by the City of Rexburg and are for municipal use. The majority of these only have a rate listed as they are part of the city's large POU. Two the rights (22-13130 & 22-13131) have listed volumes and acres as well. These two rights have decreed proportions equal to 0.02 cfs/acre and 3.5 af/acre. These are the standard values for the lease location and are the same for the leased right. The lease POD and rental POD's are located in the ESPA, however no modeling is required because they are within one model grid cell.

Even though the City of Rexburg intends to use the rented water for lawn irrigation, because the rented water will be mixed with the general municipal water supply, the rental needs to be treated as an irrigation to municipal change in nature of use. This lease-rental package has been completed as irrigation to irrigation in previous years, however decisions since the package's last review in 2016, specifically those regarding Application for Transfer No. 83875 and Application for Transfer No. 82161, require this to be treated as a change in nature of use. In essence, portions of these decisions state that there is not a way to guarantee the (in this case) rented water right will strictly be used for irrigation purposes once mixed with the general municipal supply. Because the proposed points of diversion also deliver other municipal waters, there could not be separation of the irrigation right from existing municipal rights.

The volume amount authorized under the rental will be limited to the calculated historic consumptive use value for right 22-4130. This value was calculated using ET Idaho from the University of Idaho Kimberly Research and Extension Center and by using the area standard consumptive use value, season of use, and number of acres. With the change in nature of use the rate will not need to be reduced, and the place of use will be the City of Rexburg's service area boundary.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The lease and rental package appears to be consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The locations of the lease and rental POD's are subject to Water District #100. A request for comments was sent to watermasters and the Eastern Regional Office on 12/19/2022.

CAUTION: This email originated outside the State of Idaho network. Verify links and attachments BEFORE you click or open, even if you recognize and/or trust the sender. Contact your agency service desk with any concerns.

As a municipal right, the place of use should be represented by the city service area boundary, not by an acre description. It is also my understanding that as a municipal right, there should be a reduction in the volume allowable for the rental, which would be consistent with your analysis. However, I do not believe the acres must be identified nor should the rate be reduced.

After careful review of the orders you sent me, and discussion with the local office on the interpretation of those orders, we anticipated the rental could be issued as Municipal with a rate of 2.66 cfs and a reduced volume as you calculated, 342 afa. The volume could then be used to supply water for any municipal purpose.

Please let me know your thoughts and how we might proceed.

Hi Kristin,

No need to send an updated application. We would not need a new map either if you are able to send a shapefile over reflecting the 97.7 acres instead of the original amount. A shapefile would be much preferred. Thank you for your help with all of this.

Best,
Mackenzie

Subject: Water Supply Bank: BYUI - City of Rexburg Applications

Good Morning Kristin,

I am working on finishing my review of the Water Supply Bank lease-rental package submitted for BYU Idaho and the City of Rexburg. This lease-rental package has been completed as irrigation to irrigation in previous years, however decisions since the package's last review in 2016, specifically those regarding Application for Transfer No. 83875 and Application for Transfer No. 82161, require this to be treated as a change in nature of use. I calculated historic consumptive use using values for the standard when the crop history is unknown, and came up with 1.95 cfs, 97.7 acres, and 342 af. If you or the applicants have any record of the crop history, I can adjust the calculations to reflect that, or I can leave it as the standard.

Also, would you be able to provide the shapefile for the rental place of use? This would cut down on the amount of time it takes to finish the data entry for the agreement. If there are any specific acres that would be preferable to remove to align with the reduction in acres, please let me know. If you would like to discuss this further, I am more than happy to do so and welcome any input you have.

Thank you,

Mackenzie Kienholz
