WATER SUPPLY BANK RENTAL AGREEMENT No. 709

This is to certify that:

KIRK S EGBERT RANCHES INC

PO BOX 87

TERRETON, ID 83450

filed an application to rent water from the Water Supply Bank ("Bank"). The Idaho Water Resource Board ("Board"), being authorized to operate a Bank and to contract by and through the Director of the Idaho Department of Water Resources ("Director, Department") for rental of water from the Bank, agrees to rent water as follows:

Summary of Water Rights or Portions Rented from the Bank

Water Right No.	Priority Date	Source	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)	Rate Per Acre (CFS/AC)	Volume Per Acre (AF/AC)
22-2175B	2/23/1960	GROUND WATER	0.24	65.0	18.6	0.013	3.5
Combined Rental Totals			**0.24**	**65.0**	**18.6**	**0.013**	**3.5**

Term of Rental: This rental agreement shall take effect when all parties have signed it and shall continue in effect until December 31, 2025. Use of rental water shall be authorized as of either the date this rental agreement takes effect or the first day of the rental season of use, in 2023, whichever occurs last.

Annual Rental Fee:

2023 - 2025: $1,495.00 annually

The full fee for the rental of the above-described right(s) is $1,495.00 per year for years 2023 - 2025. The rental fee includes an administrative fee of $149.50 per year for years 2023 - 2025.

An annual payment shall be received by the Department on or before December 31 each year preceding the use of the rented water rights. The agreement will be void if payment is not received by the due date in a given year. Rental fees are non-refundable. To voluntarily terminate the agreement early, notify the Department in writing prior to the rental fee due date.

Total Water Use Authorized Under Rental Agreement

Beneficial Use	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)	Rate/Acre (CFS/AC)	Volume/Acre (AF/AC)
IRRIGATION	0.24	37.5	11.9	0.02	3.15
Combined Total	0.24	37.5	11.9	0.02	3.15

**** The authorized water usage reflects a reduction from the water right elements rented, to account for overlapping water right parameters at the rental point of diversion.***

Detailed water right conditions are attached.

RENTAL AGREEMENT CONDITIONS OF ACCEPTANCE

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
5. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
6. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
7. Renter acknowledges and agrees that the Director may terminate authorization for the use of a water right based on a water right's priority date.
8. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
9. This rental agreement does not authorize the construction of a well.
10. Prior to December 31 of each year, the Board may review this rental agreement to determine whether it is consistent with the management plan that may be approved for the Eastern Snake Plain Aquifer Ground Water Management Area ("ESPA GWMA Plan") pursuant to Idaho Code § 42-233b. The Board may cancel this rental agreement if the Board determines it is not consistent with the ESPA GWMA plan. If this rental

SCANNED

agreement is canceled, the cancellation shall not take effect until December 31 of the year in which the rental agreement is canceled.

11. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the place of use.

12. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 110.

STATE OF IDAHO
WATER RESOURCE BOARD

APPLICATION TO RENT WATER FROM THE BOARD'S WATER SUPPLY BANK

RECEIVED
OCT 21 2022
DEPARTMENT OF WATER RESOURCES

Applicant Name: Kirk S Egbert

Is this application being submitted with a lease application as a lease/rental package? Yes ☐ No ☑
If yes, specify companion water rights in Section 4

This application must be completed according to the minimum requirement checklist below. This checklist is part of the rental application and must be included with the rental application. **Applications that do not meet the minimum requirements will not be placed in the processing queue and may be returned until all minimum requirements have been met.**

Rental applications should be submitted well in advance of the desired start date for the use of rental water. Rental applications may be processed as early as November 1 of the year prior to the intended use of rental water. Any rental application received on or before November 1 for use in the next year will be assigned a received date of November 1. Rental applications submitted more than one year in advance of the proposed start date for the use of rental water will not be accepted and will be returned to applicants. Rental applications may be returned to applicants if the desired start date for the use of rental water cannot be accommodated by the Water Supply Bank. Rental requests will not be accepted once the rental season of use period has concluded.

One rental application per beneficial use of water. For multiple beneficial uses of water, separate rental requests should be submitted for each unique beneficial use of water. One rental application can be submitted if you propose to rent water from multiple sources.

For additional instructions on completing a rental application, visit the Bank's website at http://idwr.idaho.gov/water_supply_bank.

MINIMUM REQUIREMENT CHECKLIST			
Check All Items as Either Attached (Yes) or Not Applicable (N/A)			
		Yes	
		☑	Completed *Application to Rent Water from the Board's Water Supply Bank*
		☑	Confirmation that this form has been printed single sided, per requirement of the Water Supply Bank
Attachment	**N/A**	**Yes**	
2		☑	A map showing the proposed point(s) of diversion, place(s) of use, and water diversion and distribution systems proposed to be used with your rental request
3A	☑	☐	Detailed information on a proposed use of rental water
3F	☑	☐	Authorization from the owner/operator of the rental point(s) of diversion
3H	☐	☑	Water modeling to account for the impacts of the rental request
3J	☑	☐	Documents justifying a rate of flow greater than 0.02 cfs/acre
3K	☑	☐	Authorization from the owner/operator of the property at the proposed rental place(s) of use
4B	☑	☐	Explanation of how the rental water will sufficiently accomplish your rental purposes
4C	☑	☐	Explanation of consumptive use amounts for water rights experiencing a change in nature of use

Department Use Only – Proposed Water Right(s)

Application to Rent Water (Continued)

1. CONTACT INFORMATION

A. Applicant Kirk S Egbert

Mailing Address 1410 E 1300 N,P.O. Box 87 (Street) Terreton (City) ID (State) 83450 (Zip Code)

Email Address kkegbert1985@yahoo.com Phone Number 208-663-4505

B. Is this application being completed by an authorized representative on behalf of the applicant? Yes ☐ No ☐

If yes, representatives (includes company employees if the applicant is a corporation, as well as legal counsel or consultants) should provide their information below if they desire to be included on correspondence with the rental applicant.

Representative Kristin Moore Professional Title Senior Water Rights Analyst

Organization Rocky Mountain Environmental Assoc. Inc Relationship to Applicant Consultant

Mailing Address 482 Constitution Way, Suite 303, Idaho Falls, ID 83402

Email Address kristin.rmea@gmail.com Phone Number 208-524-2353

2. MAP

Create a map of the proposed point(s) of diversion, place(s) of use and water diversion, delivery and distribution systems. Make sure the rental place of use is outlined and annotated with legal land descriptions (Township, Range, Section and Quarter-Quarters) or with GPS coordinates. For irrigation purposes, mark the number of acres you desire to irrigate. Attach the map to this application and label it **Attachment 2**.

3. DESCRIPTION OF PROPOSED USE FOR RENTAL WATER

A. Describe why you desire to rent water and provide a detailed description of your proposed use. If the proposed use is not for irrigation, describe in detail how you determined the amount of rental water required. If the space below is insufficient, attach additional sheets as required and label them **Attachment 3A**:

Applicant requires additional rental water to cover existing pivots with endguns. The mitigation plan of the appurtenant water rights allows gradual increase in irrigation until the full rights are available in 2035. Existing rights allow for irrigation of 230 acres in 2021. RA 395 adds an additional 33.1 acres of irrigation. More is needed

B. Enter the desired and/or minimum rates of flow, volume, or irrigable acres requested for your rental purposes:

Desired Rate (Cubic Feet/Second)	Desired Volume (Acre-Foot)	Minimum Rate* (Cubic Feet/Second)	Minimum Volume* (Acre-Foot)	Desired Acres (if applicable)
0.21 CFS	41.65 AF	0.21 CFS	35.7 AF	11.9 AC

* *Sometimes water rights provide an exceptionally low rate per acre and/or low volume per acre. This section is meant to establish an acceptable range of water sufficient for your proposed water use. Please see question 4B and complete if necessary.*

C. This section must be completed in full. Enter the proposed start date and latest possible start date for using rental water as well as the number of years you would like to rent water. The latest possible start is the latest possible date by which you would be willing to pay for a rental and be able to benefit from utilizing rental water.

Desired Start Date (month/day/year)	Latest Possible Start Date (month/day/year)	*Mark Desired Rental Duration (Calendar Years)					**Applicant's preference if rental application cannot be processed prior to the latest possible start?	
		1	2	3	4	5		
4/15/2023	6/01/2023	☑	☑	☑	☑	☐	☑ Process application as soon as possible	☐ Return application to applicant

* *The number of years permissible for a rental is subject to the lease contract duration for the water right(s) being rented.*

** *Per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right. Water Supply Bank rental applicants are not authorized to utilize rental water prior to the execution of an approved rental agreement. Rental requests may be returned to applicants if no water is available from the Bank to fulfill a rental request.*

SCANNED MAR 18

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

D. Describe your water distribution system and how rental water will be delivered from the point(s) of diversion (POD) to the proposed place of use (POU):
Two connected wells that divert to two pivot irrigation systems already installed with 80' endguns.

E. Describe the physical type (pump, headgate, etc.) and location of the POD from which rental water is proposed to be diverted:

POD Description	Water Source	Other Water Rights Diverted from this POD
Wells in NWNW Sec 1 and	Ground Water	31-11410, 31-11414, 31-11428,
NWNE Sec 2, T7N R37E		31-11947, 31-11954

If the POD(s) above are located where water is turned into a canal, lateral or ditch, or if they are located on your property but are serviced by water that is delivered via a canal, lateral or ditch, your rental request must include documented authorization from all relevant canal companies, irrigation districts and/or water delivery entities, confirming that they consent to your diversion of water from their system.

F. Has documented consent from all relevant water delivery entities been obtained? Yes ☐ N/A ☑
If yes, include documented consent as **Attachment 3F**.

G. Do any POD(s) identified in Question 3E divert from a water source that may require water modeling? Yes ☑ No ☐
Refer to the Water Modeling Requirements Information Sheet to determine if a rental POD may require water modeling.

H. Has water modeling been provided with your rental request? Yes ☑ N/A ☐
If yes, label modeling Attachment 3 H.
Rental applications that require modeling will be returned if modeling is not provided.

I. Specify the desired beneficial use of water and the requested season of use or number of acres required:
☑ Irrigation 11.9 (number of acres) Duration: Subject to IDWR standard seasons of use
☐ Commercial from: _____ (mm/dd) to: _____ (mm/dd)
☐ Stockwater from: _____ (mm/dd) to: _____ (mm/dd)
☐ Industrial from: _____ (mm/dd) to: _____ (mm/dd)
☐ Other: _____ from: _____ (mm/dd) to: _____ (mm/dd)

J. For irrigation uses, do you propose to divert water at a rate greater than 0.02 cfs/acre? N/A ☐ Yes ☐ No ☑
If yes, justify the rate of flow and attach any supporting documents as **Attachment 3J**. Justification may include information on soil composition, conveyance losses, crop type, irrigation systems, public access areas, etc. A rate of 0.03 cfs/acre is permissible for irrigation of 5 acres or less.

K. Do you own the land at the proposed rental place of use (POU)? Yes ☑ No ☐
If no, attach documentation from the POU owner/operator confirming your authorization to use the POU and label it **Attachment 3K**.

L. List all other water rights and sources of water at the rental place of use for the same purpose, including privately owned water rights and water received from a municipal supplier, an irrigation district, a canal company or any other water delivery entity. Explain why additional water is required:
Water rights 31-11410, 31-11414, 31-11428, 31-11947, 31-11954 share the same place of use. Rental water supplements the existing rights to allow additional irrigation.

SCANNED MAR 18 2025

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights? Yes ☑ No ☐

If yes, specify below the elements of the water rights you are requesting to rent. **If no,** continue to Question 4B.

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via IDWR's website.

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. **Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request.** For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

Water Right Elements Leased to Water Supply Bank					Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request		
Water Right Number (leave blank if sub-total of combined limits)	Nature of Use	Diversion Rate (CFS)	Volume (AF)	Acres (AC)		Diversion Rate (CFS)	Volume (AF)	Acres (AC)
21-13255	Irrigation	0.61	119	34		0.21	41.7	11.9
Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre limits of water rights leased to the Water Supply Bank					TOTAL	0.21 CFS	41.65 AF	11.9 AC

**Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.*

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:

N/A

C. Does your rental request propose to change the nature of use for any water right(s) being rented? Yes ☐ No ☑

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient, attach a separate page and label it **Attachment 4C**:

SCANNED
MAR 18 2024

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

5. ADDITIONAL INFORMATION

A. Is this the first time that rental water is being requested for this purpose at the rental place of use? Yes ☐ No ☑
If no, list previous rental requests/agreements and explain why you have not secured a permanent water right for your needs:
Water is also rented under RA No. 395. Additional water is required for this pivot and requested under this application. The mitigation plan for the appurtenant water rights allows gradual increase in irrigation. Rental water will be required until the mitigation obligation is met and/or water rights are identified for purchase.

B. Have you or do you intend to submit an application for permit or transfer proposing a similar use as this rental? Yes ☐ No ☑
If yes, describe:

C. Was this rental application submitted in response to a Notice of Violation (NOV) or a pending NOV? Yes ☐ No ☑
If yes, describe the date and location of the NOV.

D. Additional Information
Under the current mitigation of the existing water rights, 236 acres can be irrigated. In addition, RA No. 395 authorizes an additional 33.1 acres. It is proposed to irrigate 281 acres, meaning that an additional 11.9 acres are required for 2023.

DECLARATION

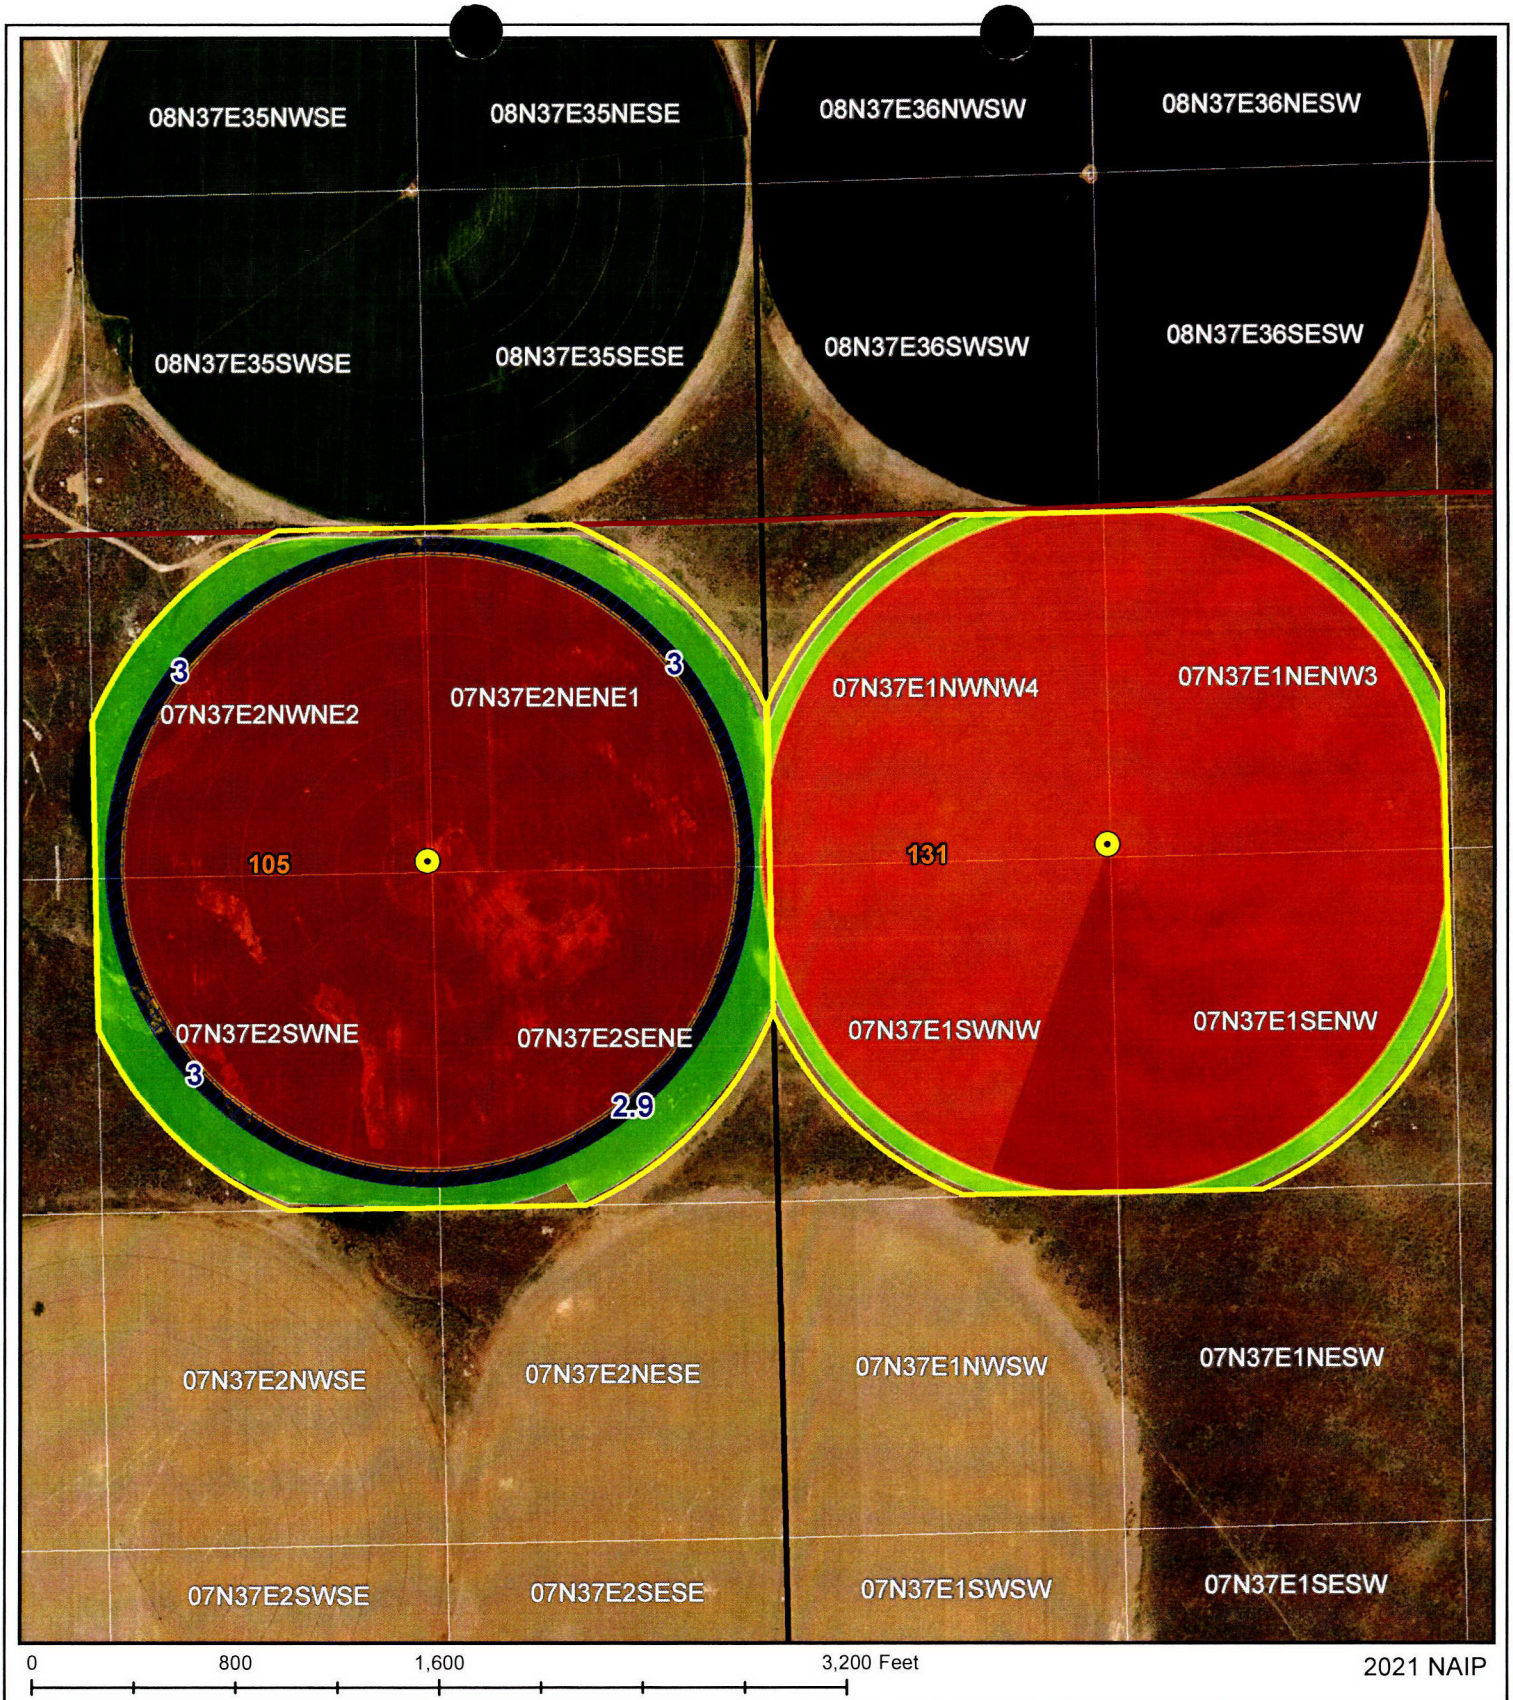

I hereby assert that the information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval. I understand that if this rental application is approved, it will be subject to the provisions of Section 42-1766, Idaho Code and all applicable state and federal laws. I understand that the submission of a rental application provides no guarantee for approval of a rental agreement. I also understand that, per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right and that I am not authorized to utilize water as proposed in this application prior to the execution of an approved rental agreement.

Eastern Snake Plain Aquifer Modeling Analysis and Narrative

WSB Rental Application for WR#21-13255

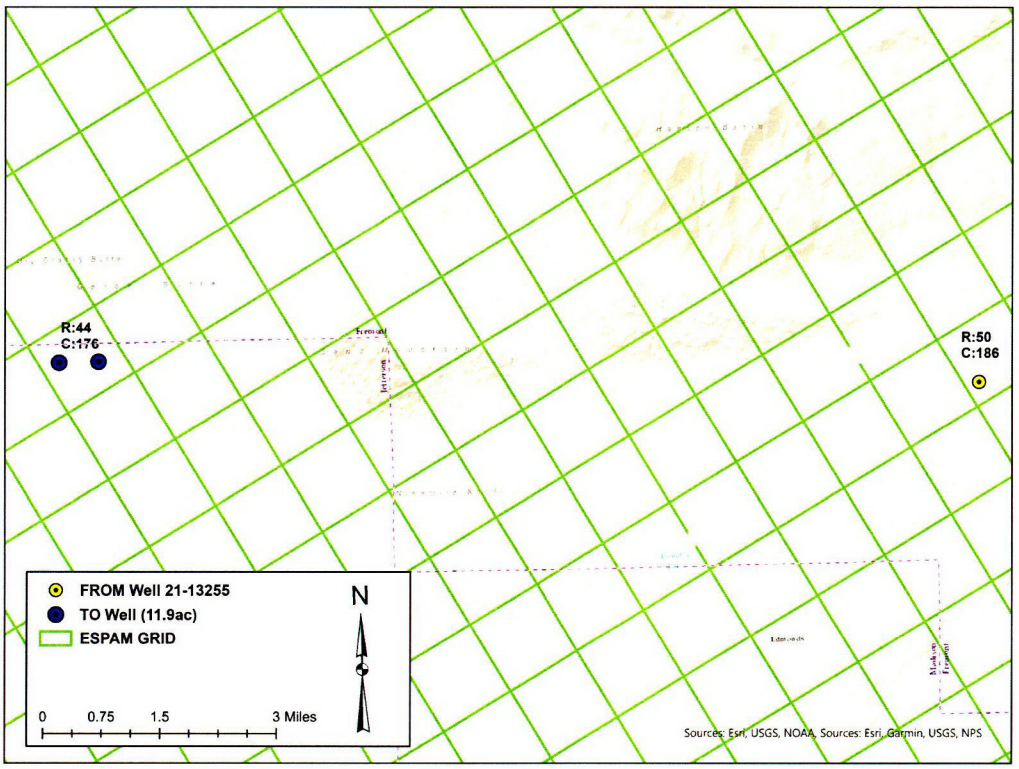

The Applicant requires an additional 11.9 acres at the proposed place of use to irrigate additional acres. This application proposes to rent water from water right no. 21-13255 for the 2023-2026 seasons that will cover the acres required.

Data Input Values

The TO Well location is two existing points of diversion for water rights 31-11947, 31-11954, 31-11410, 31-11414, and 31-11428. The model cell is identified as R44 C176.

The FROM Well location is the sole diversion for the proposed rented ground water rights. The model cell is identified as R50C186. Figure 1 shows the locations of the points of diversion used in the modeling scenario.

Figure 1. ESPA Model Grid

The standard consumptive use volume of 2.5 afa/acre was used to calculate a volume for modeling. Both the TO and the FROM wells share the same standard volume. For 11.9 acres of rental, a total annual volume of 29.75 af, or 9.9 af/trimester was used in the modeling simulation.

SCANNED
MAR 18 2023

Results

Using ESPAM 2.1 to simulate the depletions of transferring 11.9 acres to the proposed place of use, the affects do not exceed the threshold of 2.0 af/trimester. No mitigation is required. Figures 2-4 include excerpts from the model simulation.

RE: RENTAL OF WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO(S). 22-2175A & 22-2175B AGREEMENTS 708 & 709

Dear Renter:

Please find enclosed receipts in the amount of **$2,058.50** and a copy of the fully executed Water Supply Bank Rental Agreements in connection with the rental of 24.5 acre-feet of water for irrigation of 7 acres and the rental of 65 acre-feet of water for irrigation of 11.96 acres. . Upon receipt of this fully executed agreement, you are authorized to divert water in compliance with the conditions of water use described in the agreement.

Pursuant to the Water Supply Bank Rules, 90% or $1,852.5 of the rental fees will be paid to the lessor(s) and 10% or $205.85 will be retained by the Department to offset administrative costs.

If you have any questions, please contact this office at bank@idwr.idaho.gov or (208) 287-4800.

Sincerely,

Amanda Johnson-Veibell

RE: APPLICATION TO RENT WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO(S). 22-2175A & 22-2175B AGREEMENTS 708 & 709

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of $563.50 per year was calculated based on the current rental rate of $23.00 per acre-foot times a diversion volume of 24.5 acre-feet for rental 708. A rental fee of $1,495.00 per year was calculated based on the current rental rate of $23.00 per acre-foot times a diversion volume of 65.0 acre-feet for rental 709.

Please send a check for $2,058.50 for 2023 made payable to the Idaho Department of Water Resources, **together with the signed rental agreement**, **within 14 days** so I can complete processing. An annual payment shall be received by the Department prior to the execution of this agreement and prior to January 1 in all subsequent years for the duration of the rental period. The agreement will be void if payment is not received prior to the due date in a given year. If you would like to terminate the agreement prior to the end of the rental period, you must submit written notice of your intent to the Department at least 30 days prior to the rental fee due date.

Pursuant to the Water Supply Bank Rules, 90% or $1,852.65 of the rental fee will be paid to the lessor(s) and 10% or $205.85 will be retained by the Department to offset administrative costs for **2023**.

If you have any questions, please contact this office at bank@idwr.idaho.gov or (208) 287-4800.

Sincerely,

Amanda Johnson-Veibell

MEMORANDUM FOR AGREEMENT #709

To: Water Right(s) 22-2175B

From: Mackenzie Kienholz

Date: 1/11/2023

Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank

---

PURPOSE/NARRATIVE: Rental application #2466 was submitted by Kristin Moore (Rocky Mountain Environmental Assoc.) on behalf of Kirk Egbert. The application was received by the Department on 10/21/2022 and requested 11.9 acres of right 21-13255 for the outer portions of two pivots irrigated by endguns from 2023-2026.

Water right 21-13255 was requested on the application, however during a review of the lease for 21-13255, it was determined that the owners of 21-13255 may not have been using the right as a primary right in recent years. Review staff requested information on recent use from the lessors, however no response was received. Because this rental application proposes to use groundwater in a primary fashion, review staff identified right 22-2175B to satisfy the rental instead. This right has a lower cfs/acre value, and thus the applicant will need to rent a higher volume than will be authorized for use, but 22-2175B can be more confidently rented as primary groundwater than 21-13255. Right 22-2175B is available through 2025, so the rental will be for 2023-2025.

This rental is located in the ESPA GWMA, WD 110, and the Jefferson Clark GWD.

AUTHORITY TO FILE: The application was signed by the applicant, Kirk Egbert. The parcels at the proposed rental POU and POD are owned by Kirk Egbert. Five other water rights, 31-11410, 31-11414, 31-11428, 31-11947, and 31-11954, are diverted from the proposed POD; all these rights are owned by Kirk Egbert. No concerns with authority to file.

WATER RIGHT VALIDITY: Water right 22-2175B was decreed on 11/24/2008. A review of the validity of the right was completed in 2015 when the right was first leased to the Bank and in 2019 & 2021 when the lease was renewed. The lease reviews found that irrigation occurred in the years leading up to 2015. Part of 22-2175B's POU became a subdivision, but water rights were withheld from the sale of land. Acres at the lease POU will continue to be irrigated using water from the City of Rexburg. No concerns with water right validity.

INJURY TO OTHER WATER RIGHTS: The lease and rental fall within the ESPA. Although the renter will only be irrigating 11.9 acres (37.5 af), because of the low duty of the rented right 18.6 acres (65.0 af) will be rented. ETRAN modeling was completed using the data entry below:

with 15.5 being the cumulative use per trimester value for the 18.6 acres being rented and 9.92 being the cumulative use per trimester value for the 11.9 acres being irrigated under the rental. This modeling found that no mitigation would be required for this rental. No anticipated injury to other water rights.

ENLARGEMENT OF USE: Although part of the leased water right place of use has continued to be irrigated with municipal water, it does not appear that 22-2175B has been used at the lease location. The rentable amounts for 22-2175B under the lease contract correspond to a duty of about 0.013 cfs/acre and 3.5 af/acre.

Rights 31-11410, 31-11414, 31-11428, 31-11947, and 31-11954 are diverted from the rental POD. Rights 31-11410, 31-11414, and 31-11428 have a mitigation condition which gradually allows for increased use until the full amount is allowed in 2039. These rights have a combined limit in 2023 of 3.59 cfs, 182 acres, and 553.4 af which corresponds to 0.02 cfs/acre and 3.04 af/acre. Rights 31-11947 and 31-11954 bring the total allowed amount at the rental POD's to 5.04 cfs, 236 acres, and 742.5 af (0.02 cfs/acre, 3.15 af/acre). Both the right being rented, 22-2175B, and the aforementioned rights diverted from the rental POD have a season of use from 4/1 to 10/31.

To satisfy the rental acreage at a more standard duty of water and match the af/acre value at the rental location, the rental rate amounts were changed as follows:

	Rate (cfs)	Acres (ac)	Volume (af)	cfs/acre	af/acre
Rental Amounts	0.24	18.6	65.0	0.013	3.5
Authorized for Use	0.24	11.9	37.5	0.02	3.15

SCANNED

22-2175B has a combined limit for rate with 22-2175A and 22-7502. Rentable rate amounts were reduced at the lease stage to accommodate this limit so rights could be leased and rented individually. Because of the way 22-2175B is leased in, renting it without 22-2175A and 22-7502 is not an enlargement of the rights.

No concerns with enlargement of use.

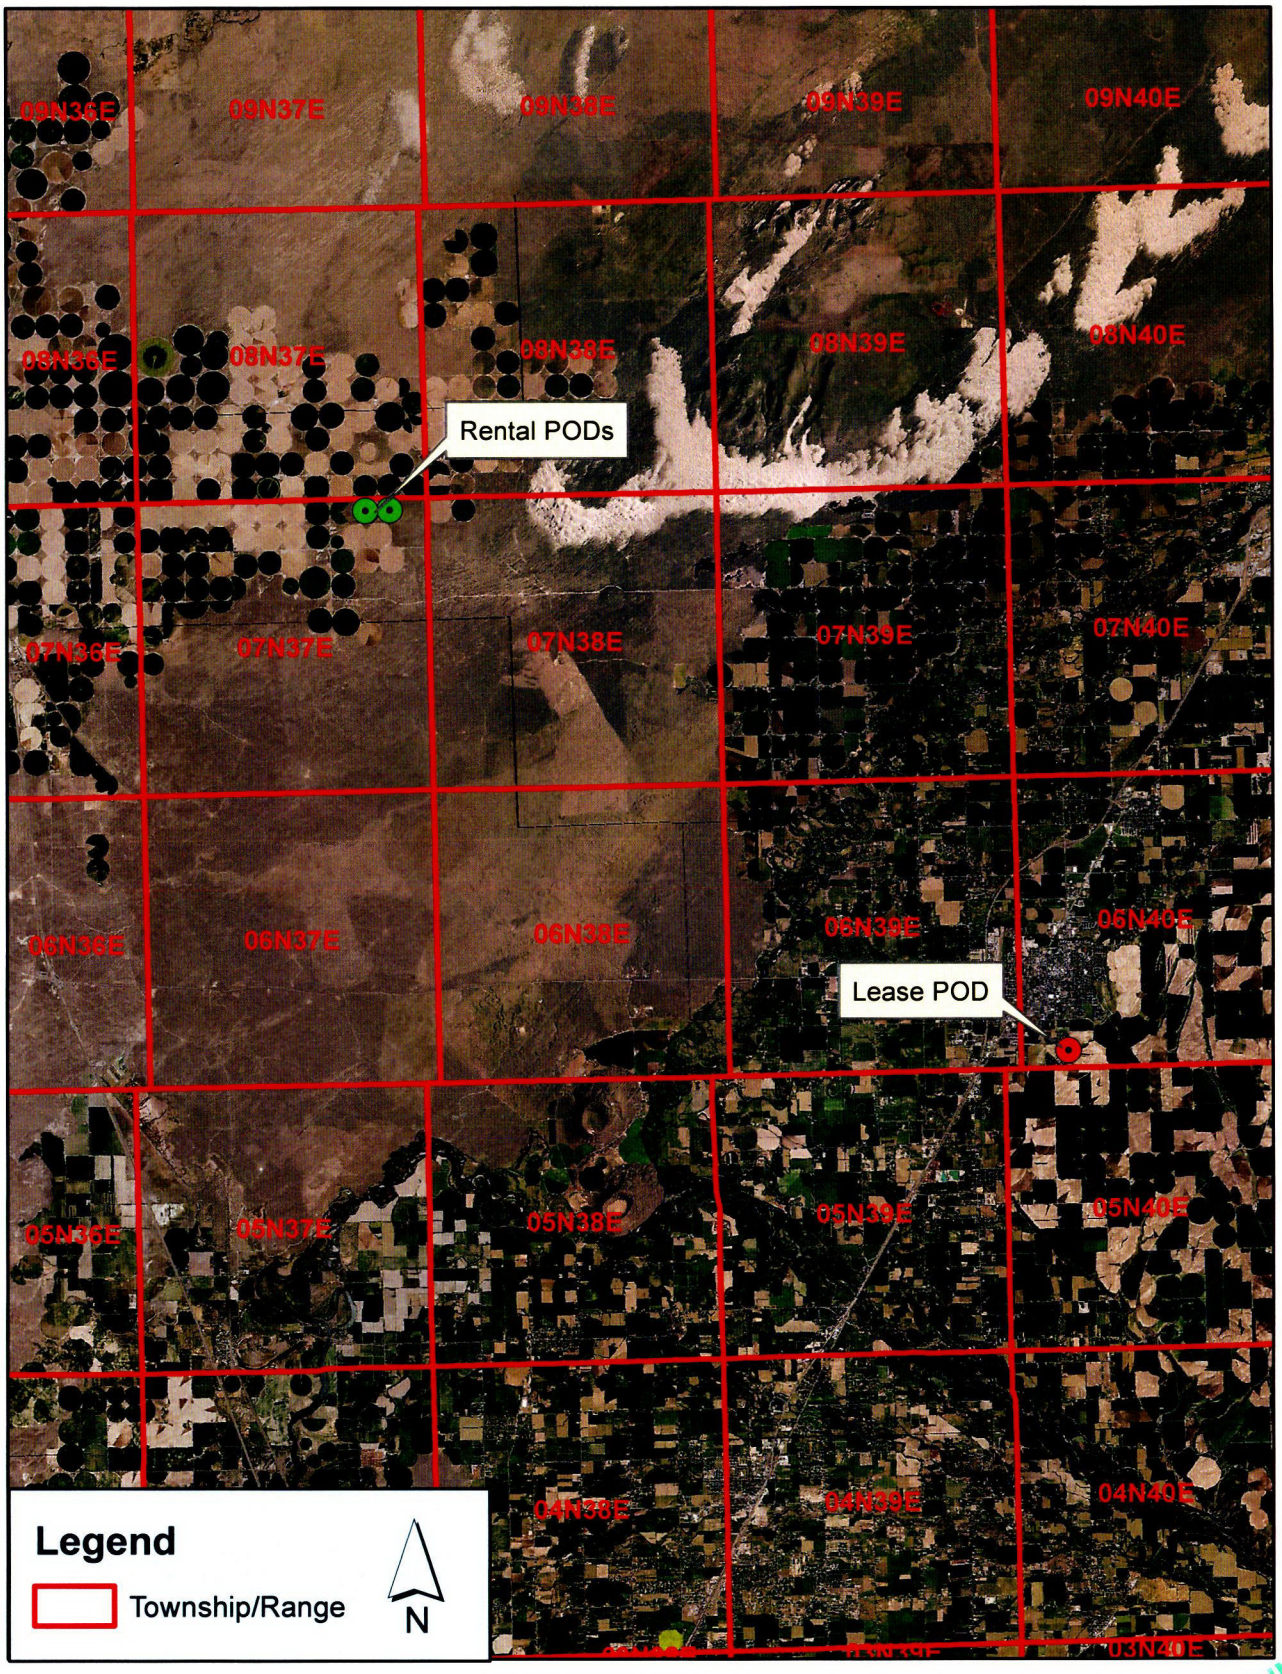

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The location for the rental POD's is subject to WD #110. A request for comments was sent to the WD #110 watermaster and the Eastern Regional Office on 1/11/2023.

Mackenzie,

I spoke with Paul Gunderson. He is willing to pay the extra fees to have a rental for 2023-2025. Please proceed with the rental of 22-2175A for Application #2446 (17.6 ac).

Kirk Egbert is also willing to pay the extra fees for the 3 year term using 22-2175A. Please proceed with this rental for Application #2467 (7 ac).
If 22-2175A does not have enough availability to cover Application #2466 (11.9 ac), does water right 22-2175B have enough availability? It looks like only a small portion is rented out through 2025. That would be the preferred over a one year rental.

Thanks,

Kristin Moore

Subject: P Gunderson and K Egbert WSB Rental Applications

Hello Kristin,

SCANNED

I have been working this week to find water rights for Paul Gunderson's rental application #2446 (17.6 ac) and Kirk Egberts rental applications #2466 (11.9 ac) & #2467 (7 ac) so that I can begin their reviews. Preliminary modeling for water right 22-2175A suggests that this right could be used to satisfy applications #2446 (Gunderson, 17.6 ac) and #2467 (Egbert, 7ac) for 2023-2025. However, this right is only worth 0.013 cfs/acre, so additional volume would need to be rented. From my calculations, the additional amount that would need to be rented but not applied would cost an additional $265.65 for Egbert #2467 and an additional $676.20 for Gunderson #2446. These aren't finalized values, but they can at least give an idea of the cost.

There is another right, 31-7094, that may be an option for all three applications or just K. Egbert's rental application #2466 (11.9 ac) which 22-2175A does not have enough availability to cover. This right is worth about 0.015 cfs/acre, but is only available for 2023.

It seems that it will come down to the applicant's preference as to whether they would like to pay more for a longer agreement term, or whether they would like the shorter term but lower cost. Please let me know your thoughts so I can tie up these rights before they are allocated elsewhere.

Thank you,

RE: APPLICATION(S) 2466 TO RENT WATER FROM THE WATER SUPPLY BANK

Dear Applicant:

The Idaho Department of Water Resources (Department) acknowledges receipt of your application(s) to rent water from the Water Supply Bank (Bank).

The Department will accept applications proposed for the next calendar season on November 1 of the prior year. Your application is proposing water use during the 2023 season; therefore, the Department will begin processing your application after November 1, 2022.

Applications received after November 1, 2022 will be processed in the order received at the Department. The likelihood of successfully acquiring a rental through the Bank is greatly improved by applying early during the processing period before the proposed season of use begins.

Note that filing a rental application does not authorize diversion and use of water. It is unlawful to use water without a valid water right or an approved Bank rental agreement. **You are not authorized to divert any water for the purposes described in your application until you have paid the rental fee and you and the Department have both signed and executed a rental agreement.**

You can check the status of your rental application by reviewing the Department's Water Supply Bank Processing spreadsheet, accessible from the Bank's website at:

https://idwr.idaho.gov/iwrb/programs/water-supply-bank/resources/

Sincerely,

Mackenzie Kienholz
Water Supply Bank Specialist
