RENTAL AGREEMENT CONDITIONS OF ACCEPTANCE

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
5. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
6. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
7. Renter acknowledges and agrees that the Director may terminate authorization for the use of a water right based on a water right's priority date.
8. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
9. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the place of use.
10. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.

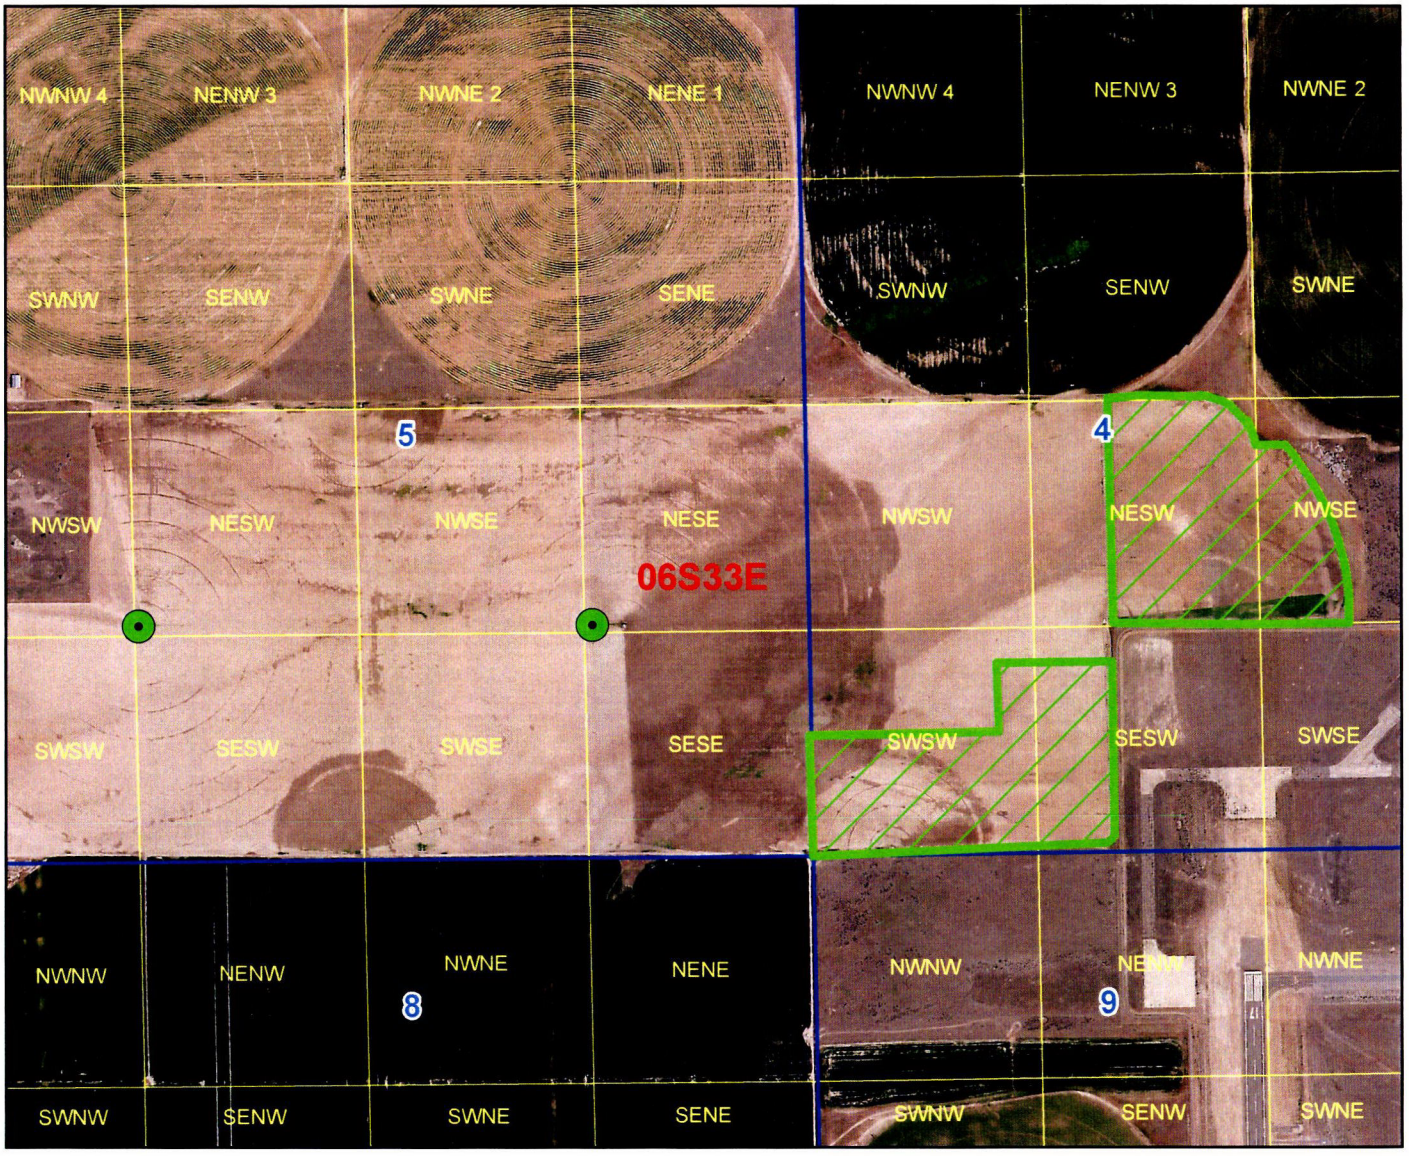

11. This rental agreement does not authorize the construction of a well.
12. Prior to December 31 of each year, the Board may review this rental agreement to determine whether it is consistent with the management plan that may be approved for the Eastern Snake Plain Aquifer Ground Water Management Area ("ESPA GWMA Plan") pursuant to Idaho Code § 42-233b. The Board may cancel this rental agreement if the Board determines it is not consistent with the ESPA GWMA plan. If this rental agreement is canceled, the cancellation shall not take effect until December 31 of the year in which the rental agreement is canceled.

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights? Yes ☑ No ☐

If yes, specify below the elements of the water rights you are requesting to rent. **If no,** continue to Question 4B.

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via IDWR's website.

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. **Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request**. For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

Water Right Elements Leased to Water Supply Bank					Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request		
Water Right Number (leave blank if sub-total of combined limits)	Nature of Use	Diversion Rate (CFS)	Volume (AF)	Acres (AC)		Diversion Rate (CFS)	Volume (AF)	Acres (AC)

Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre limits of water rights leased to the Water Supply Bank					TOTAL	1.22	244.0	70.0
						CFS	AF	AC

**Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.*

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:

N/A

C. Does your rental request propose to change the nature of use for any water right(s) being rented? Yes ☐ No ☑

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. RE: APPLICATION TO RENT WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO. 29-2489A AGREEMENT 753

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of $6,819.50 per year was calculated based on the current rental rate of $23.00 per acre-foot multiplied by a diversion volume of 296.5 acre-feet.

Please send a check for $6,819.50 for 2023 made payable to the Idaho Department of Water Resources, **together with the signed rental agreement**, **within 14 days** so I can complete processing. An annual payment shall be received by the Department prior to the execution of this agreement and prior to January 1 in all subsequent years for the duration of the rental period. The agreement will be void if payment is not received prior to the due date in a given year. If you would like to terminate the agreement prior to the end of the rental period, you must submit written notice of your intent to the Department at least 30 days prior to the rental fee due date.

Pursuant to the Water Supply Bank Rules, 90% or 6,137.55 of the rental fee will be paid to the lessor(s) and 10% or 681.95 of the fee will be retained by the Department to offset administrative costs for 2023.

If you have any questions, please contact this office at bank@idwr.idaho.gov or (208) 287-4800.

Sincerely,

Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank

---

PURPOSE/NARRATIVE: Rental Application #2627 was submitted by Greg Sullivan (Brockway Engineering) on behalf of the Corp of the Presiding Bishop of the Church of Jesus Christ of Latter Day Saints a Utah Corp Sole and was received by the Department on 3/10/2023. This rental is similar to previous agreement #579 and proposes to rent 70.0 acres of groundwater irrigation right 29-2489A for 2023-2025.

Both the lease and rental are in the ESPA GWMA and WD #120.

AUTHORITY TO FILE: The application was signed by Rex Burgener. A notarized document giving Rex Burgener authority to sign was included with the application and was signed by Russell M. Nelson, President of The Church of Jesus Christ of Latter-day Saints. The requested PODs are on land owned by the Church as are portions of the rental POU. The remainder of the rental POU is on land owned by the City of Pocatello but is leased to the Church. Authorization for the Church's three-year WSB rental was received from Kristy Heinz, Management Assistant/Airport Security Coordinator Pocatello Regional Airport via email on 4/3/2023. No concerns with authority to file.

WATER RIGHT VALIDITY: The current lease contract for right 29-2489A began in 2021. The review of the lease application in 2021 noted that irrigation had occurred as recently as 2019. No concerns with water right validity.

INJURY TO OTHER WATER RIGHTS: Both the lease and rental are within the ESPA GWMA, WD #120, and are not in a GWD. The lease and rental PODs are located in adjacent ESPA model grid cells, so no modeling was required. There will be no change in source or aquifer. Both the lease and rental PODs have historically been used to divert irrigation rights. No concerns with injury to other water rights.

ENLARGEMENT OF USE: The right being rented has a season of use of 4/1-10/31 while the existing right at the rental POD has a season of use of 4/1-10/15. Allowing for the rented portion of 29-2489A to be used for the full historic season of use (4/1-10/31) from groundwater is not anticipated to be an enlargement or injurious. The standard season of use at the rental POU is 4/1-10/31 and the rental POU is not the same place of use as right 29-10265. The existing water right, 29-10265, at the rental POD has a duty of ~0.017 cfs/acre while the right being rented has a duty of ~0.014 cfs/acre. The amounts rented versus amounts authorized for use under this rental will be as follows to account for this difference:

	Right	Rate (cfs)	Acres	Volume (af)	cfs/acre	af/acre
Existing WR	29-10265	6.22	357	1249.5	0.017	3.5
Rented	29-2489A	1.22	84.7	296.5	0.014	3.5
Authorized for Use	29-2489A	1.22	70.0	245.0	0.017	3.5

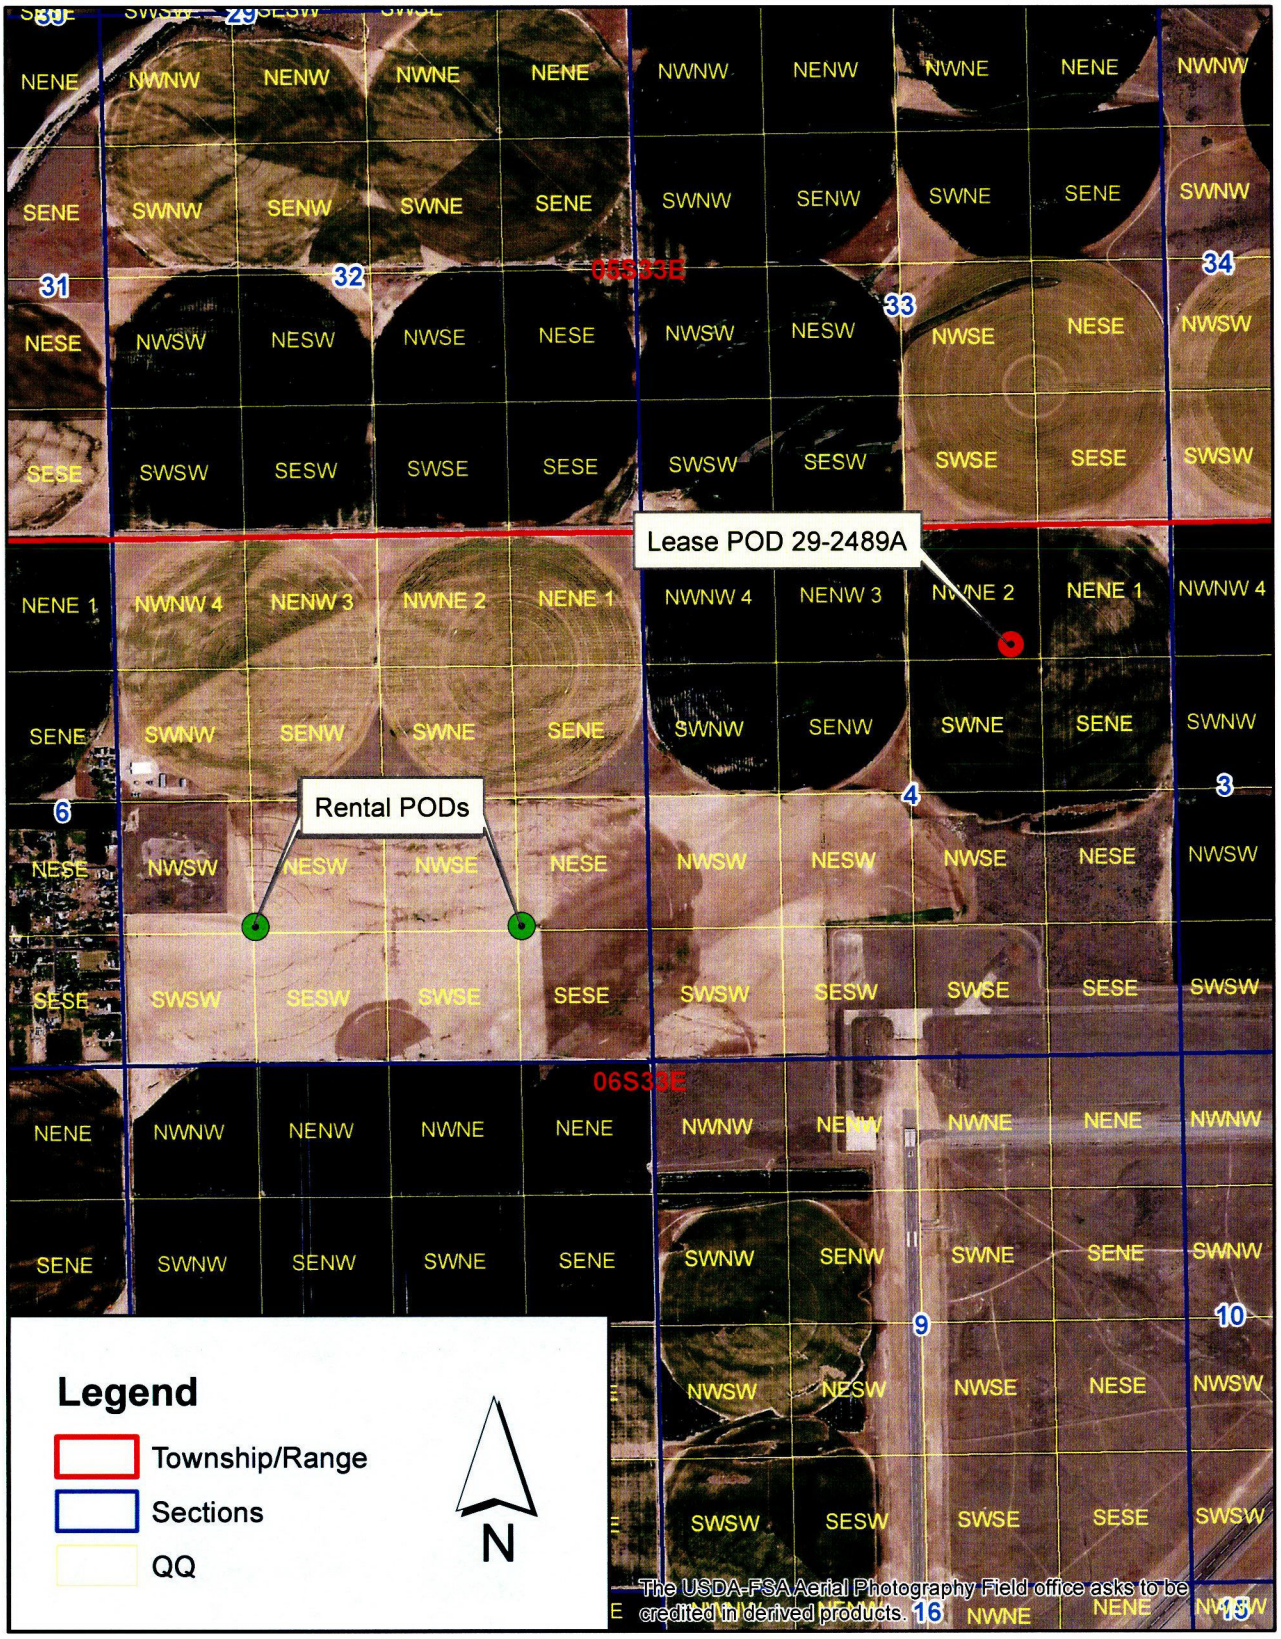

No concerns with enlargement of use.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The location for the rental POD is subject to Water District #120. A request for comments was sent to the WD #120 watermaster and the Eastern Regional Office on 4/24/2023.

Hi Kristy,

The Church of Jesus Christ of Latter-day Saints is hoping to rent water from the Idaho Water Bank for another 3 years on this rental property, to align with the lease. The rental agreement will be the same as previous years, and I have attached the application for more detail. Will the airport please send approval of this rental? It is required to complete our application.

Thank you.

Thank you so much for your time spent getting this approval to me--it means a lot to us and our farmer. Attached are our applications. They reference 69.75 acres because some of the land is on our owned adjacent property as seen on the map. I will forward to you approval when it is received!

Stay safe and healthy.

I completely understand this is an unusual time for everyone, I am working from home as well. Thank you for your continued diligence on helping me get the approval! Is there someone in the legal department I could reach out to and possibly answer any ongoing questions? This is our last step in submitting the rental water application.

Have a great Monday and take care!

Hi Lauren,
I apologize for the delay. I have not yet heard back from our Legal Department. I have tried contacting them a few times. We went to a work-at-home status just over a week ago and it has slowed everything down. I understand the urgency in getting you the approval in time for the start of irrigation season and I keep pursuing it and let you know as soon as I have an answer.

Good morning,

My name is Lauren Cabrera and I am an analyst for Farmland Reserve. We manage the water and irrigation maintenance for farms owned by the Church of Jesus Christ of Latter-day Saints. Recently, the Idaho Department of Water Resources requested information on 68 acres of land that we rent from the airport. The farm manager, Lloyd Ward, only has a copy of the lease from 2011 to 2016. We do not have access to the 2016+ (current) lease. Would it be possible to be emailed a copy of the current lease, or be put in touch with someone who may have a copy? It will greatly help with my investigation into the water available on the property.

Below is the highlighted lands under the lease, for reference. Thank you for your time.
