DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK RENTAL AGREEMENT No. 668

RECEIVED

NOV 08 2022

DEPARTMENT OF
WATER RESOURCES

This is to certify that:

BRIAN GAUDETTE
2751 W 1000 S
ABERDEEN, ID 83210

filed an application to rent water from the Water Supply Bank ("Bank"). The Idaho Water Resource Board ("Board"), being authorized to operate a Bank and to contract by and through the Director of the Idaho Department of Water Resources ("Director, Department") for rental of water from the Bank, agrees to rent water as follows:

Summary of Water Rights or Portions Rented from the Bank

Water Right No.	Priority Date	Source	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)	Rate Per Acre (CFS/AC)	Volume Per Acre (AF/AC)
29-2292	10/14/1950	GROUND WATER	0.15	52.0	13.0	0.012	4.0
29-13143	6/2/1953	GROUND WATER	0.02	8.5	4.5	0.004	1.9
29-13144	6/9/1953	GROUND WATER	0.05	19.1	10.1	0.004	1.9
Combined Limit			0.22	52.0	13.0	0.017	4.0
Rental Totals			0.22	52.0	13.0	0.017	4.0

Term of Rental: This rental agreement shall take effect when all parties have signed it and shall continue in effect until December 31, 2024. Use of rental water shall be authorized as of either the date this rental agreement takes effect or the first day of the rental season of use, in 2022, whichever occurs last.

Annual Rental Fee:

2022: \$1,040.00 annually
2023 - 2024: \$1,196.00 annually

The full fee for the rental of the above-described right(s) is \$1,040.00 for 2022 and \$1,196.00 per year for years 2023 - 2024. The rental fee includes an administrative fee of \$104.00 for 2022 and \$119.60 per year for years 2023 - 2024.

An annual payment shall be received by the Department on or before December 31 each year preceding the use of the rented water rights. The agreement will be void if payment is not received by the due date in a given year. Rental fees are non-refundable. To voluntarily terminate the agreement early, notify the Department in writing prior to the rental fee due date.

Detailed water right conditions are attached.

RENTAL AGREEMENT CONDITIONS OF ACCEPTANCE

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
5. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
6. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
7. Renter acknowledges and agrees that the Director may terminate authorization for the use of a water right based on a water right's priority date.
8. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
9. This rental agreement does not authorize the construction of a well.
10. Rental of rights 29-2292, 29-13143 and 29-13144 when combined shall not exceed a total annual maximum diversion volume of 52.0 af and the irrigation of 13.0 acres.
11. Right 29-2292 when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK RENTAL AGREEMENT No. 668

12. Use of water under this agreement may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
13. Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.
14. Prior to the diversion and use of water this rental agreement, the right holder shall install and maintain acceptable measuring device(s), including data logger(s), at the authorized point(s) of diversion and in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.
15. Prior to December 31 of each year, the Board may review this rental agreement to determine whether it is consistent with the management plan that may be approved for the Eastern Snake Plain Aquifer Ground Water Management Area ("ESPA GWMA Plan") pursuant to Idaho Code § 42-233b. The Board may cancel this rental agreement if the Board determines it is not consistent with the ESPA GWMA plan. If this rental agreement is canceled, the cancellation shall not take effect until December 31 of the year in which the rental agreement is canceled.

**APPLICATION TO RENT WATER
FROM THE BOARD'S WATER SUPPLY BANK**

RECEIVED

MAY 02 2022

DEPARTMENT OF
WATER RESOURCESApplicant Name: Brian Gaudette

Is this application being submitted with a lease application as a lease/rental package?

Yes ☐ No ☒

If yes, specify companion water rights in Section 4

This application must be completed according to the minimum requirement checklist below. This checklist is part of the rental application and must be included with the rental application. **Applications that do not meet the minimum requirements will not be placed in the processing queue and may be returned until all minimum requirements have been met.**

Rental applications should be submitted well in advance of the desired start date for the use of rental water. Rental applications may be processed as early as November 1 of the year prior to the intended use of rental water. Any rental application received on or before November 1 for use in the next year will be assigned a received date of November 1. Rental applications submitted more than one year in advance of the proposed start date for the use of rental water will not be accepted and will be returned to applicants. Rental applications may be returned to applicants if the desired start date for the use of rental water cannot be accommodated by the Water Supply Bank. Rental requests will not be accepted once the rental season of use period has concluded.

One rental application per beneficial use of water. For multiple beneficial uses of water, separate rental requests should be submitted for each unique beneficial use of water. One rental application can be submitted if you propose to rent water from multiple sources.

For additional instructions on completing a rental application, visit the Bank's website at http://idwr.idaho.gov/water_supply_bank.

Application to Rent Water (Continued)

1. CONTACT INFORMATION

A. Applicant Brian Gaudette

Mailing Address 2751 W 1000 S, Aberdeen, ID 83210

Street City State Zip Code

Email Address 'my702diecast@yahoo.com'

Phone Number _____

B. Is this application being completed by an authorized representative on behalf of the applicant? Yes ☐ No ☐

If yes, representatives (includes company employees if the applicant is a corporation, as well as legal counsel or consultants) should provide their information below if they desire to be included on correspondence with the rental applicant.

Representative Kristin Moore Professional Title Senior Water Rights Analyst

Organization Rocky Mountain Environmental Associates Relationship to Applicant Consultant

Mailing Address 482 Constitution Way, Suite 303, Idaho Falls, Idaho 83402

Email Address kristin.rmea@gmail.com Phone Number 208-524-2353

2. MAP

Create a map of the proposed point(s) of diversion, place(s) of use and water diversion, delivery and distribution systems. Make sure the rental place of use is outlined and annotated with legal land descriptions (Township, Range, Section and Quarter-Quarters) or with GPS coordinates. For irrigation purposes, mark the number of acres you desire to irrigate. Attach the map to this application and label it **Attachment 2**.

3. DESCRIPTION OF PROPOSED USE FOR RENTAL WATER

A. Describe why you desire to rent water and provide a detailed description of your proposed use. If the proposed use is not for irrigation, describe in detail how you determined the amount of rental water required. If the space below is insufficient, attach additional sheets as required and label them **Attachment 3A**:

Applicant desires to rent 13.0 acres of ground water right. The proposed POD is located on the east side of the field and is an existing well.

B. Enter the desired and/or minimum rates of flow, volume, or irrigable acres requested for your rental purposes:

Desired Rate (Cubic Feet/Second)	Desired Volume (Acre-Foot)	Minimum Rate* (Cubic Feet/Second)	Minimum Volume* (Acre-Foot)	Desired Acres (if applicable)
0.22 CFS	52.0 AF	0.2 CFS	32.5 AF	13.0 AC

* Sometimes water rights provide an exceptionally low rate per acre and/or low volume per acre. This section is meant to establish an acceptable range of water sufficient for your proposed water use. Please see question 4B and complete if necessary.

C. This section must be completed in full. Enter the proposed start date and latest possible start date for using rental water as well as the number of years you would like to rent water. The latest possible start is the latest possible date by which you would be willing to pay for a rental and be able to benefit from utilizing rental water.

Desired Start Date (month/day/year)	Latest Possible Start Date (month/day/year)	*Mark Desired Rental Duration (Calendar Years)					**Applicant's preference if rental application cannot be processed prior to the latest possible start?	
4/15/2022	5/15/2022	☒ 1	☒ 2	☒ 3	☐ 4	☐ 5	☒ Process application as soon as possible	☐ Return application to applicant

* The number of years permissible for a rental is subject to the lease contract duration for the water right(s) being rented.

** Per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right. Water Supply Bank rental applicants are not authorized to utilize rental water prior to the execution of an approved rental agreement. Rental requests may be returned to applicants if no water is available from the Bank to fulfill a rental request.

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

- D. Describe your water distribution system and how rental water will be delivered from the point(s) of diversion (POD) to the proposed place of use (POU):

Water will be diverted to the POU via an existing well and wheel lines.

- E. Describe the physical type (pump, headgate, etc.) and location of the POD from which rental water is proposed to be diverted:

POD Description	Water Source	Other Water Rights Diverted from this POD
T04S R31E Sec28 NENW	Groundwater	NA

If the POD(s) above are located where water is turned into a canal, lateral or ditch, or if they are located on your property but are serviced by water that is delivered via a canal, lateral or ditch, your rental request must include documented authorization from all relevant canal companies, irrigation districts and/or water delivery entities, confirming that they consent to your diversion of water from their system.

- F. Has documented consent from all relevant water delivery entities been obtained? Yes ☐ N/A ☒

If yes, include documented consent as **Attachment 3F**.

- G. Do any POD(s) identified in Question 3E divert from a water source that may require water modeling? Yes ☒ No ☐

Refer to the Water Modeling Requirements Information Sheet to determine if a rental POD may require water modeling.

- H. Has water modeling been provided with your rental request? Yes ☒ N/A ☐

If yes, label modeling Attachment 3 H.

Rental applications that require modeling will be returned if modeling is not provided.

- I. Specify the desired beneficial use of water and the requested season of use or number of acres required:

- ☒ Irrigation 13 (number of acres) Duration: Subject to IDWR standard seasons of use
- ☐ Commercial from: _____ (mm/dd) to: _____ (mm/dd)
- ☐ Stockwater from: _____ (mm/dd) to: _____ (mm/dd)
- ☐ Industrial from: _____ (mm/dd) to: _____ (mm/dd)
- ☐ Other: _____ from: _____ (mm/dd) to: _____ (mm/dd)

- J. For irrigation uses, do you propose to divert water at a rate greater than 0.02 cfs/acre? N/A ☐ Yes ☐ No ☒

If yes, justify the rate of flow and attach any supporting documents as **Attachment 3J**. Justification may include information on soil composition, conveyance losses, crop type, irrigation systems, public access areas, etc. A rate of 0.03 cfs/acre is permissible for irrigation of 5 acres or less.

- K. Do you own the land at the proposed rental place of use (POU)? Yes ☒ No ☐

If no, attach documentation from the POU owner/operator confirming your authorization to use the POU and label it **Attachment 3K**.

- L. List all other water rights and sources of water at the rental place of use for the same purpose, including privately owned water rights and water received from a municipal supplier, an irrigation district, a canal company or any other water delivery entity. Explain why additional water is required:

The proposed POU is overlapped by irrigation rights by the Aberdeen Springfield Canal CO. The applicant does not own any shares in the canal company.

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights?

Yes ☒ No ☐

If yes, specify below the elements of the water rights you are requesting to rent. If no, continue to Question 4B.

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via [IDWR's website](#).

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. **Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request.** For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

Water Right Elements Leased to Water Supply Bank					Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request		
Water Right Number (leave blank if sub-total of combined limits)	Nature of Use	Diversion Rate (CFS)	Volume (AF)	Acres (AC)		Diversion Rate (CFS)	Volume (AF)	Acres (AC)
29-13143		0.19	79.4	42.1		0.02	8.5	4.5
29-13144		0.42	178.6	94.5		0.04	19.0	10.1
29-2292		1.42	488	121.9		0.15	52.0	13.0
Combined		2.03	488	121.9		0.22	52.0	13.0
Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre limits of water rights leased to the Water Supply Bank					TOTAL	0.22	52.0	13
						CFS	AF	AC

*Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:

C. Does your rental request propose to change the nature of use for any water right(s) being rented?

Yes ☐ No ☒

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient, attach a separate page and label it **Attachment 4C**:

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

5. ADDITIONAL INFORMATION

- A. Is this the first time that rental water is being requested for this purpose at the rental place of use? Yes ☒ No ☐
If no, list previous rental requests/agreements and explain why you have not secured a permanent water right for your needs:

- B. Have you or do you intend to submit an application for permit or transfer proposing a similar use as this rental? Yes ☐ No ☒
If yes, describe:

- C. Was this rental application submitted in response to a Notice of Violation (NOV) or a pending NOV? Yes ☐ No ☒
If yes, describe the date and location of the NOV.

- D. Additional Information

DECLARATION

I hereby assert that the information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval. I understand that if this rental application is approved, it will be subject to the provisions of Section 42-1766, Idaho Code and all applicable state and federal laws. I understand that the submission of a rental application provides no guarantee for approval of a rental agreement. I also understand that, per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right and that I am not authorized to utilize water as proposed in this application prior to the execution of an approved rental agreement.

Eastern Snake Plain Aquifer Modeling Analysis and Narrative

Water Supply Bank Rental Application of WR# 29-13143, 29-13144, and 29-2292

The Applicant requires rental water for the irrigation of 13.0 acres at the proposed POU. This application proposes to rent water from water right nos. 29-13143, 29-13144, and 29-2292.

Data Input Values

The TO Well location is an existing well located in model cell R79 C110.

The FROM Well location is a point of diversion located in model cell R96 C124. Figure 1 shows the locations of the points of diversion used in the modeling scenario.

Figure 1. ESPA Model Grid

The standard consumptive use volume of 3.0 afa/acre for a total of 39.0 afa, or 13.0 af/trimester, was used to calculate a volume for modeling.

Results

Using ESPAM 2.2/ETRAN 3.4 to simulate the depletions of transferring 39.0 af to the proposed place of use, the affects do not exceed the threshold of 2.0 af/trimester. No mitigation is required. Figures 2-4 include excerpts from the model simulation.

Eastern Snake Plain Aquifer Modeling Analysis and Narrative

Water Supply Bank Rental Application of WR# 29-13143, 29-13144, and 29-2292

The Applicant requires rental water for the irrigation of 13.0 acres at the proposed POU. This application proposes to rent water from water right nos. 29-13143, 29-13144, and 29-2292.

Data Input Values

The TO Well location is an existing well located in model cell R79 C110.

The FROM Well location is a point of diversion located in model cell R96 C124. Figure 1 shows the locations of the points of diversion used in the modeling scenario.

Figure 1. ESPA Model Grid

The standard consumptive use volume of 3.0 afa/acre for a total of 39.0 afa, or 13.0 af/trimester, was used to calculate a volume for modeling.

superceded

Results

Using ESPAM 2.2/ETRAN 3.4 to simulate the depletions of transferring 39.0 af to the proposed place of use, the affects do not exceed the threshold of 2.0 af/trimester. No mitigation is required. Figures 2-4 include excerpts from the model simulation.

**RE: RENTAL OF WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO(S). 29-2292, 29-13143, 29-13144, AGREEMENT 668**

Dear Renter:

Please find enclosed a receipt in the amount of **\$1,040.00** and a copy of a fully executed Water Supply Bank Rental Agreement in connection with the rental of 52 acre-feet of water for irrigation of 13 acres during 2021. Upon receipt of this fully executed agreement, you are authorized to divert water in compliance with the conditions of water use described in the agreement.

Pursuant to the Water Supply Bank Rules, 90% or \$936.00 of the rental fee will be paid to the lessor(s) and 10% or \$104.00 will be retained by the Department to offset administrative costs for 2022

If you have any questions, please contact this office at bank@idwr.idaho.gov or (208) 287-4800.

Sincerely,

Amanda Johnson-Veibell

**RE: APPLICATION TO RENT WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO(S). 29-2292, 29-13143, 29-13144 AGREEMENT 668**

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of \$1,040.00.00 per year was calculated based on the current rental rate of \$20.00 per acre-foot times a diversion volume of 724 acre-feet.

Please send a check for \$1,040.00 for 2022 made payable to the Idaho Department of Water Resources, **together with the signed rental agreement, within 14 days** so I can complete processing. An annual payment shall be received by the Department prior to the execution of this agreement and prior to January 1 in all subsequent years for the duration of the rental period. The agreement will be void if payment is not received prior to the due date in a given year. If you would like to terminate the agreement prior to the end of the rental period, you must submit written notice of your intent to the Department at least 30 days prior to the rental fee due date.

Pursuant to the Water Supply Bank Rules, 90% or \$936.00 of the rental fee will be paid to the lessor(s) and 10% or \$104.00 will be retained by the Department to offset administrative costs for **2022**.

If you have any questions, please contact this office at bank@idwr.idaho.gov or (208) 287-4800.

Sincerely,

Amanda Johnson-Veibell

Hi Mary,

I have don't oppose this rental application. I agree that measuring device conditions (214, 213) should be placed on the rental agreement.

Blake.

Good morning,

Please see the attached move map for a rental of 13 acres of ground water for irrigation from 2022 through 2024. This ESPA rental proposes to move ground water use from outside the Aberdeen-American Falls GWD boundary to inside the GWD boundary.

Best,
Mary

MEMORANDUM FOR AGREEMENT # 668

To: Water Right(s) 29-2292, 29-13143, 29-13144
From: Mary Condon
Date: October 17, 2022
Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank

PURPOSE/NARRATIVE: Application to rent additional water for irrigation, received on May 2, 2022, within the ESPA, for one to three years depending on availability of requested water rights. This is in response to an enforcement investigation – E2021-1702.

AUTHORITY TO FILE: Application to rent submitted by Kristin Moore of Rocky Mtn Environmental, on behalf of Brian Gaudette, and signed by the rental applicant. Rental location and POD parcel information shows Brian and Tammy Gaudette as the owner.

WATER RIGHT VALIDITY: Requested rights are leased to the bank from 2021 through 2025, where leased annually in 2019 and 2020, and were previously leased to the bank from 2015 through 2018, although the acres leased increased from 70 acres to 121.9 acres in 2021 from previous lease contracts.

INJURY TO OTHER WATER RIGHTS: This rental diversion is within the ESPA modeling boundary. ETRAN 3.4 was submitted with the application for rental on the requested rights, listed above. Movement of the ground water is leased from the east side of American Falls Reservoir and rented on the west side. Consumptive use standard for lease and rental point of diversion is 3 acre-feet per acre, and 13 acre-feet per trimester for 13 acres of irrigation. Verified ETRAN 3.4 run, with no mitigation required for rental from 2022 through 2024. Since this ground water rental is within WD 120, and is for irrigation in excess of 5 acres, a measuring device is required.

ENLARGEMENT OF USE: The place of use under the leased right acres for 29-2292, 29-13143, 29-13144 are within the PPU for irrigation and irrigation from storage water right 29-7437, from waste water. Any application of the waste water on lands within the PPU for 29-7437 is by an agreement between the farmer and JR Simplot, owner of right 29-7437, and Simplot will deliver what is essentially liquid fertilizer at certain times during the year, according to the crop type raised by the farmer and should not be considered as a supplemental irrigation water to rights already developed in the PPU (pgs 110-135, Water Right Backfile 29-7437). The lands within the area under this right were chosen/identified by Simplot as nearby farms or lands which could be developed and could be serviced in the future, in about a 6-mile radius or near the delivery canal or sludge ponds. Use of rights 29-2292, 29-13143, and 29-13144 independently of 29-7437 should not cause an enlargement of either of these rights.

The rental application does not list any other rights available at the rental place of use or from the existing domestic well. The rental place of use is within the Aberdeen Springfield Canal Co service area, but the application states they do not own shares, and there is enforcement case E2017-1702 under investigation for same 13 acres irrigated they are requesting a rental for. There is a domestic and stockwater right 35-11966 appearing to be for the same home. The water right report for 35-11966 does not have Gaudette listed as the owner, but both mailing addresses are the same. Parcel number RP0030902 is listed on the proof report, but does not return a record when searched in ArcGIS, which could be that the parcel was split or changed. The parcel number for the Gaudette property is RP0030908.

Rental POU/POD area standard headgate (HG) – 4 ac-ft/acre, consumptive use (CU) – 3 ac-ft/acre, which is the same as the combined volume limit on the requested rights. No concerns with enlargement through this rental.

LOCAL PUBLIC INTEREST: Rental is within the Aberdeen American Falls GWD, and the leased rights are not within a GWD, but are within the ESPA model boundary.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: This rental for irrigation is a beneficial use.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The location for the rental POD is subject to Water District #120, is within the Aberdeen American Falls GWD, and Eastern Region. Request for comments or concerns sent to WM, GWD, and region manager on October 18, 2022.

RE: APPLICATION 2365 TO RENT WATER FROM THE WATER SUPPLY BANK

Dear Applicant:

The Idaho Department of Water Resources (Department) acknowledges receipt of your application(s) to rent water from the Idaho Water Resource Board's Water Supply Bank (Bank) for the irrigation of 13 acres. Filing a Bank rental application does not automatically result in approval.

Before a rental application can be approved, the rental request must be reviewed, a rental agreement must be prepared, the agreement must be approved by the applicant and the Department, and the rental fee must be paid. To maximize the number of rental applications processed while managing competing priorities, the Department begins accepting rental applications on November 1 for use in the next calendar year, and it processes as many applications as it can before the start of the irrigation season in March or April. Once the irrigation season begins, Department staff members are reassigned to address field work and other duties. Consequently, few rental applications are processed after May 1.

Because your application was received near the beginning of the irrigation season, which is now underway, the Department will not be able to process your application prior to the latest possible start date on your application. Your application will remain in the order it was received for review, unless you request it be returned, or request it be amended to begin next season in 2023.

In future years, we encourage you to file your rental applications as soon as possible after November 1 to improve the chances that they will be processed.

Water Supply Bank Processing for application status may be found on the Department's website at <https://idwr.idaho.gov/iwrb/programs/water-supply-bank/reports/>

If you have questions regarding this matter, please contact me at 287-4936.

Sincerely,

Mary Condon
Water Supply Bank Coordinator
