WATER SUPPLY BANK RENTAL AGREEMENT No. 672

This is to certify that:

CORP OF THE PRESIDING BISHOP OF THE CHURCH OF JESUS CHRIST OF LATTER DAY SAINTS
50 E NORTH TEMPLE ST 12TH FLOOR
SALT LAKE CITY, UT 84150-0012

filed an application to rent water from the Water Supply Bank ("Bank"). The Idaho Water Resource Board ("Board"), being authorized to operate a Bank and to contract by and through the Director of the Idaho Department of Water Resources ("Director, Department") for rental of water from the Bank, agrees to rent water as follows:

Summary of Water Rights or Portions Rented from the Bank

Water Right No.	Priority Date	Source	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)	Rate Per Acre (CFS/AC)	Volume Per Acre (AF/AC)
29-13892	10/28/1953	GROUND WATER	0.04	10.0	2.5	0.016	4.00
Combined Rental Totals			**0.04**	**10.0**	**2.5**	**0.016**	**4.00**

Term of Rental: This rental agreement shall take effect when all parties have signed it and shall continue in effect until December 31, 2023. Use of rental water shall be authorized as of either the date this rental agreement takes effect or the first day of the rental season of use, in 2022, whichever occurs last.

Annual Rental Fee:

2022: $200.00 annually
2023: $230.00 annually

The full fee for the rental of the above-described right(s) is $200.00 per year for years 2022 - 2022 and $230.00 for 2023. The rental fee includes an administrative fee of $20.00 per year for years 2022 - 2022 and $23.00 for 2023.

An annual payment shall be received by the Department on or before December 31 each year preceding the use of the rented water rights. The agreement will be void if payment is not received by the due date in a given year. Rental fees are non-refundable. To voluntarily terminate the agreement early, notify the Department in writing prior to the rental fee due date.

Total Water Use Authorized Under Rental Agreement

Beneficial Use	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)	Rate/Acre (CFS/AC)	Volume/Acre (AF/AC)
MUNICIPAL	0.04	8.0	2.0	0.02	4.00
Combined Total	0.04	8.0	2.0	0.02	4.00

**** The authorized water usage reflects a reduction from the water right elements rented, to account for a change in nature of use.***

Detailed water right conditions are attached.

RENTAL AGREEMENT CONDITIONS OF ACCEPTANCE

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
5. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
6. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
7. Renter acknowledges and agrees that the Director may terminate authorization for the use of a water right based on a water right's priority date.
8. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
9. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the place of use.

SCANNED JAN 24 2023

WATER SUPPLY BANK RENTAL AGREEMENT No. 672

10. The rented portion of right 29-13892 is limited to the irrigation of a total diversion rate of 0.04 cfs, a total annual maximum diversion volume of 8.0 af at the field headgate, and the irrigation of 2.0 acres in a single irrigation season.
11. Use of water under this rental is subject to control by the watermaster of State Water District No. 1, Snake River and State Water District No. 120, American Falls Area.
12. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as determined by the Snake River Basin Adjudication court in the final unified decree entered 08/26/2014.
13. This rental agreement does not authorize the construction of a well.
14. Prior to December 31 of each year, the Board may review this rental agreement to determine whether it is consistent with the management plan that may be approved for the Eastern Snake Plain Aquifer Ground Water Management Area ("ESPA GWMA Plan") pursuant to Idaho Code § 42-233b. The Board may cancel this rental agreement if the Board determines it is not consistent with the ESPA GWMA plan. If this rental agreement is canceled, the cancellation shall not take effect until December 31 of the year in which the rental agreement is canceled.

APPLICATION TO RENT WATER FROM THE BOARD'S WATER SUPPLY BANK

Applicant Name: The Church of Jesus Christ of Latter-day Saints

Is this application being submitted with a lease application as a lease/rental package? Yes ☐ No ☑
If yes, specify companion water rights in Section 4

This application must be completed according to the minimum requirement checklist below. This checklist is part of the rental application and must be included with the rental application. **Applications that do not meet the minimum requirements will not be placed in the processing queue and may be returned until all minimum requirements have been met.**

Rental applications should be submitted well in advance of the desired start date for the use of rental water. Rental applications may be processed as early as November 1 of the year prior to the intended use of rental water. Any rental application received on or before November 1 for use in the next year will be assigned a received date of November 1. Rental applications submitted more than one year in advance of the proposed start date for the use of rental water will not be accepted and will be returned to applicants. Rental applications may be returned to applicants if the desired start date for the use of rental water cannot be accommodated by the Water Supply Bank. Rental requests will not be accepted once the rental season of use period has concluded.

One rental application per beneficial use of water. For multiple beneficial uses of water, separate rental requests should be submitted for each unique beneficial use of water. One rental application can be submitted if you propose to rent water from multiple sources.

For additional instructions on completing a rental application, visit the Bank's website at http://idwr.idaho.gov/water_supply_bank.

MINIMUM REQUIREMENT CHECKLIST

Check All Items as Either Attached (Yes) or Not Applicable (N/A)

Attachment	N/A	Yes	
		☑	Completed *Application to Rent Water from the Board's Water Supply Bank*
		☑	Confirmation that this form has been printed single sided, per requirement of the Water Supply Bank
2		☑	A map showing the proposed point(s) of diversion, place(s) of use, and water diversion and distribution systems proposed to be used with your rental request
3A	☑	☐	Detailed information on a proposed use of rental water
3F	☐	☑	Authorization from the owner/operator of the rental point(s) of diversion
3H	☐	☑	Water modeling to account for the impacts of the rental request
3J	☑	☐	Documents justifying a rate of flow greater than 0.02 cfs/acre
3K	☐	☑	Authorization from the owner/operator of the property at the proposed rental place(s) of use
4B	☑	☐	Explanation of how the rental water will sufficiently accomplish your rental purposes
4C	☑	☐	Explanation of consumptive use amounts for water rights experiencing a change in nature of use

Application to Rent Water (Continued)

1. CONTACT INFORMATION

A. Applicant The Church of Jesus Christ of Latter-day Saints

Mailing Address 50 E. North Temple 12th FL (Street) Salt Lake City (City) UT (State) 84150-0012 (Zip Code)

Email Address shclark@churchofjesuschrist.org Phone Number 801-240-3690

B. Is this application being completed by an authorized representative on behalf of the applicant? Yes ☑ No ☐

If yes, representatives (includes company employees if the applicant is a corporation, as well as legal counsel or consultants) should provide their information below if they desire to be included on correspondence with the rental applicant.

Representative Kristin Moore Professional Title Sen. Water Rights Analyst

Organization Rocky Mountain Environmental Assoc., Inc. Relationship to Applicant consultant

Mailing Address 482 Constitution Way Ste 303, Idaho Falls, ID 83402

Email Address kristin.rmea@gmail.com Phone Number 208-524-2353

2. MAP

Create a map of the proposed point(s) of diversion, place(s) of use and water diversion, delivery and distribution systems. Make sure the rental place of use is outlined and annotated with legal land descriptions (Township, Range, Section and Quarter-Quarters) or with GPS coordinates. For irrigation purposes, mark the number of acres you desire to irrigate. Attach the map to this application and label it **Attachment 2**.

3. DESCRIPTION OF PROPOSED USE FOR RENTAL WATER

A. Describe why you desire to rent water and provide a detailed description of your proposed use. If the proposed use is not for irrigation, describe in detail how you determined the amount of rental water required. If the space below is insufficient, attach additional sheets as required and label them **Attachment 3A**:

Applicant proposes to rent ground water rights to provide reliable irrigation water for the proposed property. Current irrigation water comes through Progressive Irrigation District. Due to drought, it is not anticipated to have access to water for the entire irrigation season.

B. Enter the desired and/or minimum rates of flow, volume, or irrigable acres requested for your rental purposes:

Desired Rate (Cubic Feet/Second)	Desired Volume (Acre-Foot)	Minimum Rate* (Cubic Feet/Second)	Minimum Volume* (Acre-Foot)	Desired Acres (if applicable)
0.05 CFS	10 AF	0.04 CFS	7.5 AF	2.5 AC

* *Sometimes water rights provide an exceptionally low rate per acre and/or low volume per acre. This section is meant to establish an acceptable range of water sufficient for your proposed water use. Please see question 4B and complete if necessary.*

C. This section must be completed in full. Enter the proposed start date and latest possible start date for using rental water as well as the number of years you would like to rent water. The latest possible start is the latest possible date by which you would be willing to pay for a rental and be able to benefit from utilizing rental water.

Desired Start Date (month/day/year)	Latest Possible Start Date (month/day/year)	*Mark Desired Rental Duration (Calendar Years)					**Applicant's preference if rental application cannot be processed prior to the latest possible start?	
		☐ 1	☑ 2	☐ 3	☐ 4	☐ 5	☐ Process application as soon as possible	☐ Return application to applicant
5/15/2022	7/1/2022							

* *The number of years permissible for a rental is subject to the lease contract duration for the water right(s) being rented.*

** *Per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right. Water Supply Bank rental applicants are not authorized to utilize rental water prior to the execution of an approved rental agreement. Rental requests may be returned to applicants if no water is available from the Bank to fulfill a rental request.*

SCANNED JAN 24 2022

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

D. Describe your water distribution system and how rental water will be delivered from the point(s) of diversion (POD) to the proposed place of use (POU):
The City of Iona delivers culinary water to the proposed POU already. The irrigation lines will be disconnected from the surface water source and connected to the church building to receive the ground water.

E. Describe the physical type (pump, headgate, etc.) and location of the POD from which rental water is proposed to be diverted:

POD Description	Water Source	Other Water Rights Diverted from this POD
2N 38E 1 SESW	Ground water	City of Iona Municipal rights
2N 38E 1 NESE	Ground water	City of Iona Municipal rights

If the POD(s) above are located where water is turned into a canal, lateral or ditch, or if they are located on your property but are serviced by water that is delivered via a canal, lateral or ditch, your rental request must include documented authorization from all relevant canal companies, irrigation districts and/or water delivery entities, confirming that they consent to your diversion of water from their system.

F. Has documented consent from all relevant water delivery entities been obtained? Yes ☑ N/A ☐
If yes, include documented consent as **Attachment 3F**.

G. Do any POD(s) identified in Question 3E divert from a water source that may require water modeling? Yes ☑ No ☐
Refer to the Water Modeling Requirements Information Sheet to determine if a rental POD may require water modeling.

H. Has water modeling been provided with your rental request? Yes ☑ N/A ☐
If yes, label modeling Attachment 3 H.
Rental applications that require modeling will be returned if modeling is not provided.

I. Specify the desired beneficial use of water and the requested season of use or number of acres required:

☑ Irrigation 2.5 (number of acres) Duration: Subject to IDWR standard seasons of use

☐ Commercial from: _____ (mm/dd) to: _____ (mm/dd)

☐ Stockwater from: _____ (mm/dd) to: _____ (mm/dd)

☐ Industrial from: _____ (mm/dd) to: _____ (mm/dd)

☐ Other: _____ from: _____ (mm/dd) to: _____ (mm/dd)

J. For irrigation uses, do you propose to divert water at a rate greater than 0.02 cfs/acre? N/A ☐ Yes ☐ No ☑
If yes, justify the rate of flow and attach any supporting documents as **Attachment 3J**. Justification may include information on soil composition, conveyance losses, crop type, irrigation systems, public access areas, etc. A rate of 0.03 cfs/acre is permissible for irrigation of 5 acres or less.

K. Do you own the land at the proposed rental place of use (POU)? Yes ☑ No ☐
If no, attach documentation from the POU owner/operator confirming your authorization to use the POU and label it **Attachment 3K**.
The property is owned by the applicant, but under a different name. See Attachment 3K for documentation.

L. List all other water rights and sources of water at the rental place of use for the same purpose, including privately owned water rights and water received from a municipal supplier, an irrigation district, a canal company or any other water delivery entity. Explain why additional water is required:
Municipal water from the City of Iona for culinary uses. Irrigation is currently provided through Progressive Irrig. District. Drought will likely reduce the availability of Progressive water and a supplemental source is required.

SCANNED

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights? Yes ☑ No ☐

If yes, specify below the elements of the water rights you are requesting to rent. **If no,** continue to Question 4B.

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via IDWR's website.

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. **Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request**. For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

Water Right Elements Leased to Water Supply Bank					Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request		
Water Right Number (leave blank if sub-total of combined limits)	Nature of Use	Diversion Rate (CFS)	Volume (AF)	Acres (AC)		Diversion Rate (CFS)	Volume (AF)	Acres (AC)
35-14650	Irrigation	0.4		20		0.05	10	2.5
01-10687	Irrigation	0.34		20		0.04		2.5
		0.74		20				
Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre limits of water rights leased to the Water Supply Bank					TOTAL	0.05	10	2.5
						CFS	AF	AC

**Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.*

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:

NA

C. Does your rental request propose to change the nature of use for any water right(s) being rented? Yes ☐ No ☑

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient, attach a separate page and label it **Attachment 4C**:

Authorization to Use Points of Diversion

The City of Iona currently delivers culinary water to the church building located at 4707 E Iona Rd, Idaho Falls, ID. The irrigation water has historically been delivered through Progressive Irrigation District, but the LDS Church has proposed to rent ground water rights to provide for a more consistent supply of irrigation water to be delivered through the City's wells. The City hereby gives authorization for the LDS Church to rent ground water rights from the Water Supply Bank to be delivered through the City's wells.

Eastern Snake Plain Aquifer Modeling Analysis

The Applicant requires 2.5 acres at the proposed place of use for the 2022 – 2023 irrigation seasons to supplement irrigation on existing irrigated acres. Water Right 35-14650 is currently leased to the Water Supply Bank. The TO well location represents two wells owned by the City of Iona within the same model grid cell. The FROM well location represents one of two diversion locations of 35-14650. TO and FROM well locations are illustrated in Figure 1. Using ESPAM 2.2/ETRAN 3.4 to simulate the depletions of transferring 2.5 acres or 10 AFA, the affects do not exceed the threshold of 2.0 af/trimester. No mitigation is required.

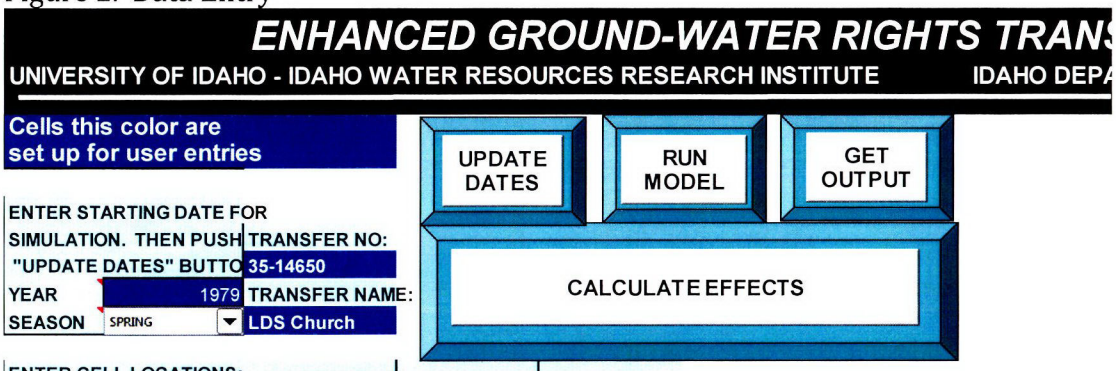

Figure 1. ESPAM Grid Cell locations.

Figures 2-4 include excerpts from the ESPAM 2.2/ETRAN 3.4 simulation.

RE: RENTAL OF WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO(S) 29-13892, AGREEMENT 672

Dear Renter:

Please find enclosed a receipt in the amount of **$230.00** in connection with the rental of 10.0 acre-feet of water during 2023. Upon receipt of this letter, you are authorized to divert water in compliance with the conditions of water use described in your rental agreement.

Pursuant to the Water Supply Bank Rules, 90% or $207.00 of the rental fee will be paid to the lessor(s) and 10% or $23.00 will be retained by the Department to offset administrative costs.

If you have any questions, please contact this office at (208) 287-4800.

Sincerely,

Mackenzie Kienholz

RE: Water Supply Bank CANCELLATION for Rental Agreement 672, Water Right No(s) 29-13892

Dear Renter,

Your rental of the above water right was cancelled on March 31, 2023 for no payment received. The following is a summary of your annual rental payment schedule and associated payment due dates:

Rental Agreement	Start	End	Owner Fee (90%)	Admin Fee (10%)	Rental Fee (Total)	Rental Fee Due Date
672	2022	2023	$207.00	$23.00	$230.00	12/31/2022

Diversion and use of water is no longer authorized under the cancelled rental agreement. Any use associated with your proposed rental request is not authorized and, if occurring, will be subject to any necessary enforcement action.

If you have any questions, please contact me at (208) 287-4822.

Sincerely,

Mackenzie Kienholz
Water Supply Bank Specialist

PAST DUE NOTICE
RESPOND NLT 2/13/2023

RE: Water Supply Bank Rental Agreement No. 672 Rental Fees for 2023 for Water Right No(s) 29-13892

Dear Renter,

The following are rental fees associated with your active Water Supply Bank rental agreements for 2023:

Rental Agreement	Start Year	End Year	Water Right	Rental Volume (AF)	Total Rental Fee	Owner Fee (90%)	Admin Fee (10%)	Rental Fee Due Date
672	2022	2023	29-13892	10	$230.00	$207.00	$23.00	12/31/2022
			Total	10	$230.00	$207.00	$23.00	12/31/2022

Our records indicate that payment has not yet been fully received for 2023 rentals of the above water rights. If you have not already done so, please remit payment of **$230.00** prior to the due dates above and enclose a copy of this letter with your payment.

If payment is not received by the response deadline above, IDWR may cancel your rental agreement. Any use of rental water during 2023 under a cancelled rental agreement may be considered unauthorized.

If you have questions about your rental, you can contact me at 208-287-4936.

Thank you,

Mary Condon
Water Supply Bank Coordinator

RE: RENTAL OF WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO(S). 29-13892 AGREEMENTS 672

Dear Renter:

Please find enclosed receipts in the amount of **$200.00** and a copy of the fully executed Water Supply Bank Rental Agreements in connection with the rental of 10 acre-feet of water for irrigation of municipal use. Upon receipt of this fully executed agreement, you are authorized to divert water in compliance with the conditions of water use described in the agreement.

Pursuant to the Water Supply Bank Rules, 90% or $180.00 of the rental fees will be paid to the lessor(s) and 10% or $20.00 will be retained by the Department to offset administrative costs.

If you have any questions, please contact this office at bank@idwr.idaho.gov or (208) 287-4800.

RE: APPLICATION TO RENT WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO(S). 29-13829 AGREEMENT 672

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of $200.00 per year was calculated based on the current rental rate of $20.00 per acre-foot times a diversion volume of 10 acre-feet.

Please send a check for $200.00 for 2022 made payable to the Idaho Department of Water Resources, **together with the signed rental agreement**, **within 14 days** so I can complete processing. An annual payment shall be received by the Department prior to the execution of this agreement and prior to January 1 in all subsequent years for the duration of the rental period. The agreement will be void if payment is not received prior to the due date in a given year. If you would like to terminate the agreement prior to the end of the rental period, you must submit written notice of your intent to the Department at least 30 days prior to the rental fee due date.

Pursuant to the Water Supply Bank Rules, 90% or $180.00 of the rental fee will be paid to the lessor(s) and 10% or $20.00 will be retained by the Department to offset administrative costs for **2022**.

If you have any questions, please contact this office at bank@idwr.idaho.gov or (208) 287-4800.

Sincerely,

Amanda Johnson-Veibell

for
Water Supply Bank

Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank

---

PURPOSE/NARRATIVE: Rental application #2389 was received by the Department on June 6, 2022 from Kristin Moore (Rocky Mountain Environmental Assoc.) on behalf of The Church of Jesus Christ of Latter-day Saints. The application proposed to rent portions of ground water right 35-14650 and stacked surface water right 1-10687 for 2022-2023 to cover 2.5 acre. These acres are usually irrigated by water from the Progressive Irrigation District, however due to drought this water was expected to be unavailable. This rental is located within the ESPA GWMA, the Bonneville-Jefferson GWD, WD 01, and WD 120.

The application stated that when switching from surface water use to ground water use, the diversion would move from irrigation lines to a connection to the building. If this is the case, it appears that the diverted ground water will come from the general municipal supply, and thus a change in nature of use and appropriate reduction will need to occur. Review staff has confirmed this with the applicant.

Because the original rights requested were stacked surface water and groundwater, and because only the groundwater would need a change in nature of use, review staff decided to look for another right that could satisfy the rental that was not stacked. Right 29-13892 had enough water remaining and falls within the same aquifer as the rental location. Modeling showed that this right would be appropriate for the rental.

The applicant stated in later email correspondence (and confirmed via phone conversation on 11/15/2022) that the shape should be updated to remove the building which decreases the acreage needed from 2.5 acres to 2.0 acres (rounded).

AUTHORITY TO FILE: The original application was signed by Scott Clark who is a Project Manager in the Natural Resource Section of the Real Estate Division within the Meetinghouse Facilities Department. His title was listed in a letter of authority from Jonathan M. Clegg who was listed as the Natural Resources Services Manager in the letter. However, review staff was unable to find either Mr. Clark or Mr. Clegg listed on any official websites for the Church or on the Church's SOS filing, so additional authority to sign was requested. A new signature page was received signed by Joseph D. Lowe, accompanied by a Certificate of Authority for Mr. Lowe to act on behalf of the Church from Russell M. Nelson who is listed as President and Director on the SOS filing for 2022.
The parcel at the rental location is owned by the LDS Church. A letter authorizing the use of the requested PODs was included from Keri West who is the City Clerk for the City of Iona which owns the wells. No concerns with authority to file.

WATER RIGHT VALIDITY: The review of the validity of the rights requested to be rented during the 2022 lease application review found that right 29-13892 was leased to the Bank from 2012-2014 and was last irrigated in 2019. The portion of the right being used for rental was originally leased again in 2021 and amended in 2022. Review of imagery for 2021 and 2022 suggests that the lessor has been compliant in idling the lease POU. Some imagery in 2022 was

SCANNED

questionable as to whether the land was irrigated, however more of the imagery suggested that it had been idled than suggested it had been irrigated. No concerns with water right validity.

INJURY TO OTHER WATER RIGHTS: The ESPA model was run for 29-13892 for the proposed to (R73, C166) and from (R94, C118) grid cells. The consumptive use value for this location is 3.0 af/ac.
The historic consumptive use proportion calculates to 3.22 af/acre (379.8 af / 117.6 ac). The consumptive use per trimester for the requested 2.0 ac was calculated as follows:

$$(2.0\ ac * 3.22\ af/ac) \div\ 3\ trimesters = 2.15$$

This value was used along with the to and from grid cell locations. The output showed that no mitigation would be required for this rental.
Both the 29-13892 lease PODs and the rental PODs fall within the ESPA and in the basin-fill aquifer as opposed to the basaltic-rock aquifer.
No anticipated injury to other water rights.

ENLARGEMENT OF USE: The rental application stated that the ground water would likely be needed for the majority of its season. Right 29-13892 is the only right located at its POU and is not stacked with any other rights, indicating that it has historically has been used as a primary right during its season of use from 4/1 to 10/31. It has a priority date of 10/28/1953 which was not curtailed in 2022. The rental place of use is overlapped by rights owned by Progressive Irrigation District. The majority of these water rights have a duty of water of 0.02 cfs/acre, with some at 0.015 cfs/acre. The leased rights have a duty of 0.018 cfs/acre. The headgate requirement is 4.00 af/acre annually at both the lease and rental location.

Because it appears that the ground water will be diverted from a source that is mixed with the general municipal supply, the amount authorized for use will be reduced from the total amount rented. No historic consumptive use information was provided, so the standard (alfalfa) values were used to estimate the historic consumptive use. The closest station appeared to be Pocatello WB AP. From this information, it was calculated that the right consumptively used a historical average of 379.80 af of its decreed 470.4 af. Because the applicant requested to stay within a total volume of 10.0 af, and that only 2.0 acres were required, the total amount required to be rented calculates to 0.044 cfs, 2.50 acres, and 10.0 af. The amount authorized for use will be decreased proportionate to the historic consumptive use to 0.036 cfs, 2.0 acres, and 8.0 af.

The rental is located in the ESPA GWMA, the Bonneville-Jefferson GWD, WD 01, and WD 120. The lease is located in the ESPA GWMA and WD 120.

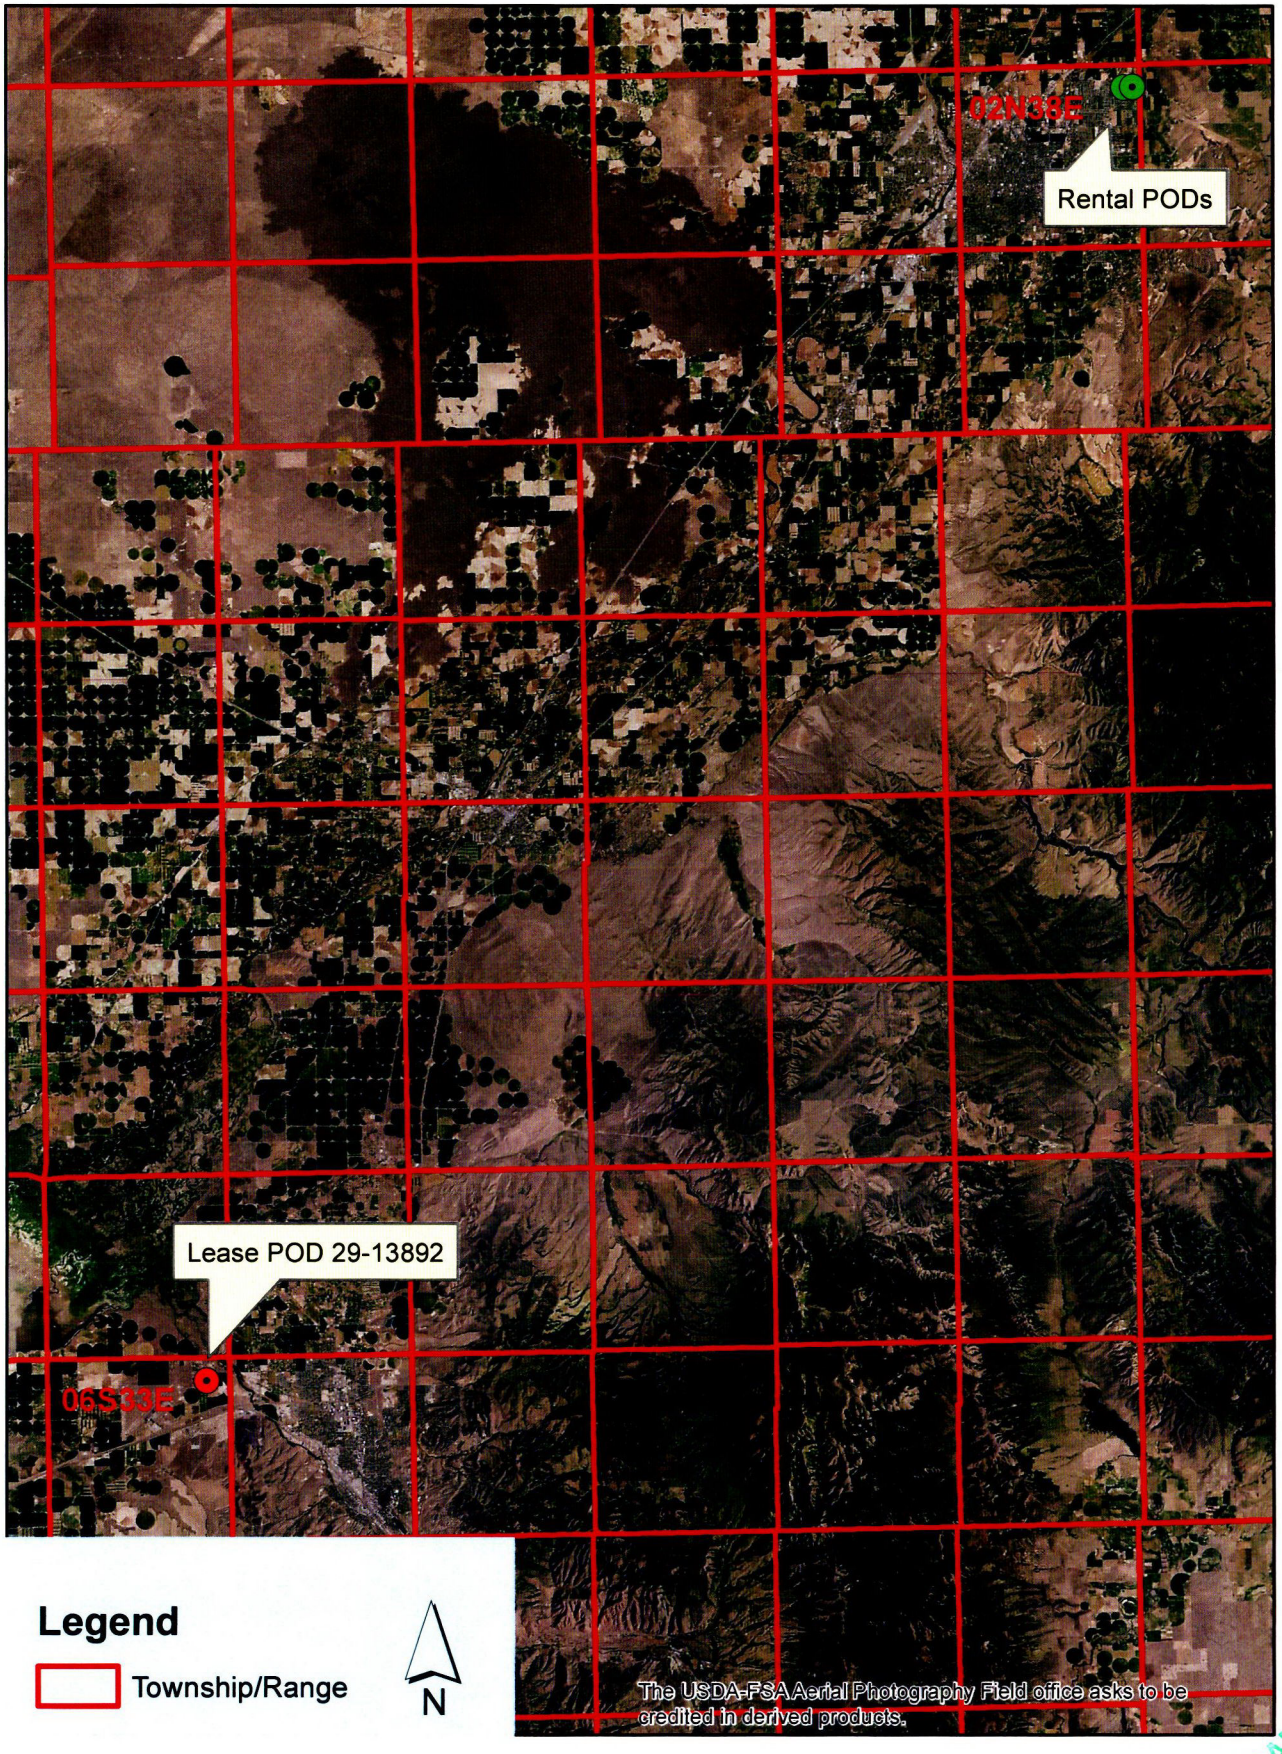

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The location for the rental PD is subject to Water District #120 and the Bonneville-Jefferson GWD. A request for comment was sent to watermasters and the Eastern Regional Office on 11/16/2022.

Hello,

Please see the attached, updated draft of the review for Water Supply Bank Rental Application #2389 for The Church of Jesus Christ of Latter-day Saints, and kindly respond with any comments within 10 days. Tony, I am cc'ing you on this email because of your questions regarding the previous draft. Recent guidance suggested that this needed to be a change in nature of use, so different rights were used to satisfy the rental. There is no longer any surface water being rented for this application.

Thank you,

Mackenzie Kienholz

Mackenzie,

Attached is a revised map of the irrigation at the Iona, Idaho meetinghouse. I have excluded the footprint of the meetinghouse building that appears to have been included as part of the irrigation in the original rental application map and came up with an acreage of 1.97 acres rather than 2.5 acres. Also you will note that much of the irrigated area is xeriscape with drip irrigation.

A couple of questions, how are xeriscape areas factored into actual total acreage irrigated? What acreage would we be limited to stay within the 10 AF applied for in the original application considering the conversion from irrigation to municipal? Does the 1.97 acres get us there?

Also, the two water rights 35-14650 and 01-10687 are for 20 acres of irrigation. We have requested rental of 2.5 acres or 10 AF. Are the remaining portions of these rights already rented out? Sorry for all the questions. I'm just trying to learn about the water bank process.

We would like to stay within the 10 AF of water under the original application if possible, but if we can't I think we will be willing to modify the application to the other water rights you identified. We just don't want to rent more water than is actually needed to maintain the existing landscape. As I mentioned on the phone, the Church has committed to the City of Iona to find an equivalent water right and permanently transfer it to the City. This rental application is to cover the use until a transfer is approved.

Let me know what you think. Thanks for your help.

[External Email]

Hello Scott,

We are trying to wrap up the review of the Church's Water Supply Bank application. We believe that a change in nature of use from irrigation to municipal is required due to a note on the application that ground water will be diverted by connecting to the church building. When we are moving water to be diverted from a source that is mixed with municipal supply, we need to consider the historic consumptive use. This causes an increased amount needed to be rented to apply the same 2.5 acres worth of water. I have identified a different water right than was requested that would better suit this change and have completed the associated calculations. It appears that a rental of about 14.24 acre-feet will be necessary to allow for the requested use of 10 acre-feet (2.5 acres). Could you share the contact information for the property manager, or can you confirm that the diversion will be from the general municipal supply? If you have any questions, I will be in 8-5 tomorrow and Thursday. Thank you again for your cooperation.

Best,

Mackenzie Kienholz

Hello Scott and Jonathan,

Earlier this week I confirmed that the request to rent water from the Idaho Water Supply Bank in regards to your location at 4707 E Iona Rd, Idaho Falls, ID 83401 was still desired for 2022. I have since began reviewing the application in full, and I believe that the only additional information I need at this time is authority to sign. We are only able to accept signatures from managing members listed on the Secretary of State Filing or on the organization's website. The SOS filing for the Church for 2022 listed Russell M. Nelson, Brook P. Hales, and R. David McMillan as authorized agents. I was unable to find any listed members on the Church's website. Is it possible to receive authorization for either of you from one of these members to act on behalf of the Church in this matter? I will continue processing the application, but we will need this authorization before finalizing any agreements. Please feel free to contact me by phone or email.

Thank you,

RE: Authorization for Scott Clark to sign Idaho Department of Water Resources Water Rights Applications on behalf of The Church of Jesus Christ of Latter-day Saints, a Utah sole corporation

Dear Mr. Spackman,

Scott Clark is currently employed by The Church of Jesus Christ of Latter-day Saints, a Utah sole corporation as a Project Manager in the Natural Resource Section (NRS) of the Real Estate Division, within the Meetinghouse Facilities Department. As such, Mr. Clark has the specific assignment, and is specifically approved by virtue of his employment, to make formal applications on behalf of the Church with the Idaho Department of Water Resources. You may rely upon his signature as representing the Church under all terms, representations, and other matters within the applications.

Please contact me if you have any more questions. I can be reached at 801-240-1824, or Jonathan.Clegg@ChurchofJesusChrist.org

With highest Regards,

Jonathan M. Clegg, P.E.
Natural Resources Services, Manager

RE: APPLICATION(S) 2389 TO RENT WATER FROM THE WATER SUPPLY BANK

Dear Applicant:

The Idaho Department of Water Resources (Department) acknowledges receipt of your application(s) to rent water from the Idaho Water Resource Board's Water Supply Bank (Bank) for the irrigation of 2.5 acres. Filing a Bank rental application does not automatically result in approval.

Before a rental application can be approved, the rental request must be reviewed, a rental agreement must be prepared, the agreement must be approved by the applicant and the Department, and the rental fee must be paid. To maximize the number of rental applications processed while managing competing priorities, the Department begins accepting rental applications on November 1 for use in the next calendar year, and it processes as many applications as it can before the start of the irrigation season in March or April. Once the irrigation season begins, Department staff members are reassigned to address field work and other duties. Consequently, few rental applications are processed after May 1.

Because your application was received near the beginning of the irrigation season, which is now underway, the Department may not be able to process your application prior to the latest possible start date on your application. Your application will remain in the order it was received for review, unless you request it be returned, or the irrigation season ends prior to finalization of a review.

In future years, we encourage you to file your rental applications as soon as possible after November 1 to improve the chances that they will be processed.

Water Supply Bank Processing for application status may be found on the Department's website at https://idwr.idaho.gov/iwrb/programs/water-supply-bank/reports/

If you have questions regarding this matter, please contact me at 287-4936.

Sincerely,

Mackenzie Kienholz
