DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK RENTAL AGREEMENT No. 732

This is to certify that:

RECEIVED
APR 03 2023
DEPARTMENT OF
WATER RESOURCES

JOEL S ANDERSEN
2791 N 3375 W
MOORE, ID 83255-8715

filed an application to rent water from the Water Supply Bank ("Bank"). The Idaho Water Resource Board ("Board"), being authorized to operate a Bank and to contract by and through the Director of the Idaho Department of Water Resources ("Director, Department") for rental of water from the Bank, agrees to rent water as follows:

Summary of Water Rights or Portions Rented from the Bank

Water Right No.	Priority Date	Source	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)	Rate Per Acre (CFS/AC)	Volume Per Acre (AF/AC)
34-7210A	11/8/1977	GROUND WATER	0.06	14.4	4.1	0.015	3.51
34-2397A	2/20/1961	GROUND WATER	0.06	10.1	2.9	0.021	3.48
34-299	6/1/1896	BIG LOST RIVER	0.06	10.1	2.9	0.021	3.48
Combined Limit Totals			**0.08**	**10.1**	**2.9**	**0.028**	**3.48**
Combined Rental Totals			**0.14**	**24.5**	**7.0**	**0.02**	**3.50**

Term of Rental: This rental agreement shall take effect when all parties have signed it and shall continue in effect until December 31, 2026. Use of rental water shall be authorized as of either the date this rental agreement takes effect or the first day of the rental season of use, in 2023, whichever occurs last.

Annual Rental Fee:

2023 - 2026: $56.35 annually

The full fee for the rental of the above-described right(s) is $56.35 per year for years 2023 - 2026. The rental fee includes an administrative fee of $56.35 per year for years 2023 - 2026. Note that the renter is obligated to pay only the administrative fees associated with the water right(s): 34-7210 A, 34-2397 A, 34-299.

An annual payment shall be received by the Department on or before December 31 each year preceding the use of the rented water rights. The agreement will be void if payment is not received by the due date in a given year. Rental fees are non-refundable. To voluntarily terminate the agreement early, notify the Department in writing prior to the rental fee due date.

Total Water Use Authorized Under Rental Agreement

Beneficial Use	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)	Rate/Acre (CFS/AC)	Volume/Acre (AF/AC)
IRRIGATION	0.12	20.6	5.9	0.020	3.5
Combined Total	**0.12**	**20.6**	**5.9**	0.020	3.5

**** The authorized water usage reflects a reduction from the water right elements rented, to account for combined limits and the duty of water of water rights at the rental place of use.***

Detailed water right conditions are attached.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK RENTAL AGREEMENT No. 732

The undersigned renter agrees to use the water rented under this agreement in accordance with the Water Supply Bank rules and in compliance with the limitations and conditions of use described in this agreement:

Signature of Renter _____ Date 3-15-23

Printed Name Joel S. Anderson _____ Title

*Title required if signing on behalf of a company or organization or with power of attorney

Having determined that this agreement satisfied the provisions of Idaho Code § 42-1763 and IDAPA 37.02.03.030 (Water Supply Bank Rule 30), for the rental and use of water under the terms and condition herein provided, and none other, I hereby execute this Rental Agreement on behalf of the Idaho Water Resource Board.

By _____ Date 4/4/23
BRIAN PATTON, Acting Administrator
Idaho Water Resource Board

RENTAL AGREEMENT CONDITIONS OF ACCEPTANCE

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
5. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
6. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
7. Renter acknowledges and agrees that the Director may terminate authorization for the use of a water right based on a water right's priority date.
8. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
9. Rights 34-299, 34-2397A, 34-7210, and the unleased portion of Right 34-14231 when combined shall not exceed a total diversion rate of 1.27 cfs, a total annual maximum diversion volume of 223 af at the field headgate, and the irrigation of 63.7 acres.
10. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the place of use.
11. This rental agreement does not authorize the construction of a well.

WATER SUPPLY BANK RENTAL AGREEMENT No. 732

12. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 34.
13. Prior to diversion of water under this right, the right holder shall install a lockable device, subject to the approval of the Department, in a manner that will provide the watermaster suitable control of the diversion.
14. When notified by the Department, the right holder shall install and maintain a measuring device of a type acceptable to the Department as part of the diverting works.

APPLICATION TO RENT WATER FROM THE BOARD'S WATER SUPPLY BANK

Applicant Name: Joel Andersen

Is this application being submitted with a lease application as a lease/rental package? **Yes** ☑ **No** ☐
If yes, specify companion water rights in Section 4

This application must be completed according to the minimum requirement checklist below. This checklist is part of the rental application and must be included with the rental application. **Applications that do not meet the minimum requirements will not be placed in the processing queue and may be returned until all minimum requirements have been met.**

Rental applications should be submitted well in advance of the desired start date for the use of rental water. Rental applications may be processed as early as November 1 of the year prior to the intended use of rental water. Any rental application received on or before November 1 for use in the next year will be assigned a received date of November 1. Rental applications submitted more than one year in advance of the proposed start date for the use of rental water will not be accepted and will be returned to applicants. Rental applications may be returned to applicants if the desired start date for the use of rental water cannot be accommodated by the Water Supply Bank. Rental requests will not be accepted once the rental season of use period has concluded.

One rental application per beneficial use of water. For multiple beneficial uses of water, separate rental requests should be submitted for each unique beneficial use of water. One rental application can be submitted if you propose to rent water from multiple sources.

For additional instructions on completing a rental application, visit the Bank's website at http://idwr.idaho.gov/water_supply_bank.

MINIMUM REQUIREMENT CHECKLIST			
Check All Items as Either Attached (Yes) or Not Applicable (N/A)			
		Yes	
		☑	Completed *Application to Rent Water from the Board's Water Supply Bank*
		☑	Confirmation that this form has been printed single sided, per requirement of the Water Supply Bank
Attachment	**N/A**	**Yes**	
2		☑	A map showing the proposed point(s) of diversion, place(s) of use, and water diversion and distribution systems proposed to be used with your rental request
3A	☑	☐	Detailed information on a proposed use of rental water
3F	☑	☐	Authorization from the owner/operator of the rental point(s) of diversion
3H	☐	☑	Water modeling to account for the impacts of the rental request
3J	☑	☐	Documents justifying a rate of flow greater than 0.02 cfs/acre
3K	☑	☐	Authorization from the owner/operator of the property at the proposed rental place(s) of use
4B	☑	☐	Explanation of how the rental water will sufficiently accomplish your rental purposes
4C	☑	☐	Explanation of consumptive use amounts for water rights experiencing a change in nature of use

Application to Rent Water (Continued)

1. CONTACT INFORMATION

A. Applicant Joel Andersen

Mailing Address 2791 N 3375 W, Moore, ID 83255
Street City State Zip Code

Email Address _____ Phone Number 208-589-0019

B. Is this application being completed by an authorized representative on behalf of the applicant? Yes ☑ No ☐
If yes, representatives (includes company employees if the applicant is a corporation, as well as legal counsel or consultants) should provide their information below if they desire to be included on correspondence with the rental applicant.

Representative Kristin Moore Professional Title Senior Water Rights Analyst

Organization Rocky Mountain Environmental Assoc. Inc. Relationship to Applicant consultant

Mailing Address 482 Constitution Way, Ste 303, Idaho Falls, ID 83402

Email Address kristin.rmea@gmail.com Phone Number 208-524-2353

2. MAP

Create a map of the proposed point(s) of diversion, place(s) of use and water diversion, delivery and distribution systems. Make sure the rental place of use is outlined and annotated with legal land descriptions (Township, Range, Section and Quarter-Quarters) or with GPS coordinates. For irrigation purposes, mark the number of acres you desire to irrigate. Attach the map to this application and label it **Attachment 2**.

3. DESCRIPTION OF PROPOSED USE FOR RENTAL WATER

A. Describe why you desire to rent water and provide a detailed description of your proposed use. If the proposed use is not for irrigation, describe in detail how you determined the amount of rental water required. If the space below is insufficient, attach additional sheets as required and label them **Attachment 3A**:

Applicant desires to rent additional ground water rights to cover acres under a pivot that only have surface water rights. The ground water will be used when/if the surface rights are curtailed or not deliverable.

B. Enter the desired and/or minimum rates of flow, volume, or irrigable acres requested for your rental purposes:

Desired Rate (Cubic Feet/Second)	Desired Volume (Acre-Foot)	Minimum Rate* (Cubic Feet/Second)	Minimum Volume* (Acre-Foot)	Desired Acres (if applicable)
0.43 CFS	75.6 AF	32.4 CFS	54 AF	21.6 AC

* ***Sometimes water rights provide an exceptionally low rate per acre and/or low volume per acre. This section is meant to establish an acceptable range of water sufficient for your proposed water use. Please see question 4B and complete if necessary.***

C. This section must be completed in full. Enter the proposed start date and latest possible start date for using rental water as well as the number of years you would like to rent water. The latest possible start is the latest possible date by which you would be willing to pay for a rental and be able to benefit from utilizing rental water.

Desired Start Date (month/day/year)	Latest Possible Start Date (month/day/year)	*Mark Desired Rental Duration (Calendar Years)					**Applicant's preference if rental application cannot be processed prior to the latest possible start?	
4/15/2022	6/01/2022	☐ 1	☐ 2	☐ 3	☐ 4	☑ 5	☑ Process application as soon as possible	☐ Return application to applicant

* ***The number of years permissible for a rental is subject to the lease contract duration for the water right(s) being rented.***
** ***Per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right. Water Supply Bank rental applicants are not authorized to utilize rental water prior to the execution of an approved rental agreement. Rental requests may be returned to applicants if no water is available from the Bank to fulfill a rental request.***

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

D. Describe your water distribution system and how rental water will be delivered from the point(s) of diversion (POD) to the proposed place of use (POU):
Existing well to pressurized mainline to center pivot

E. Describe the physical type (pump, headgate, etc.) and location of the POD from which rental water is proposed to be diverted:

POD Description	Water Source	Other Water Rights Diverted from this POD
SWSE Sec 08 04N 26E	Ground Water	None

If the POD(s) above are located where water is turned into a canal, lateral or ditch, or if they are located on your property but are serviced by water that is delivered via a canal, lateral or ditch, your rental request must include documented authorization from all relevant canal companies, irrigation districts and/or water delivery entities, confirming that they consent to your diversion of water from their system.

F. Has documented consent from all relevant water delivery entities been obtained? Yes ☐ N/A ☑
If yes, include documented consent as **Attachment 3F**.

G. Do any POD(s) identified in Question 3E divert from a water source that may require water modeling? Yes ☑ No ☐
Refer to the Water Modeling Requirements Information Sheet to determine if a rental POD may require water modeling.

H. Has water modeling been provided with your rental request? Yes ☑ N/A ☐
If yes, label modeling Attachment 3 H.
Rental applications that require modeling will be returned if modeling is not provided.

I. Specify the desired beneficial use of water and the requested season of use or number of acres required:
☑ Irrigation 21.6 (number of acres) Duration: Subject to IDWR standard seasons of use
☐ Commercial from: _____ (mm/dd) to: _____ (mm/dd)
☐ Stockwater from: _____ (mm/dd) to: _____ (mm/dd)
☐ Industrial from: _____ (mm/dd) to: _____ (mm/dd)
☐ Other: _____ from: _____ (mm/dd) to: _____ (mm/dd)

J. For irrigation uses, do you propose to divert water at a rate greater than 0.02 cfs/acre? N/A ☐ Yes ☐ No ☑
If yes, justify the rate of flow and attach any supporting documents as **Attachment 3J**. Justification may include information on soil composition, conveyance losses, crop type, irrigation systems, public access areas, etc. A rate of 0.03 cfs/acre is permissible for irrigation of 5 acres or less.

K. Do you own the land at the proposed rental place of use (POU)? Yes ☑ No ☐
If no, attach documentation from the POU owner/operator confirming your authorization to use the POU and label it **Attachment 3K**.

L. List all other water rights and sources of water at the rental place of use for the same purpose, including privately owned water rights and water received from a municipal supplier, an irrigation district, a canal company or any other water delivery entity. Explain why additional water is required:
WR 34-14231 is used at the proposed rental place of use for irrigation. Additional ground water is needed to supplement the existing surface water right.

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights? Yes ☑ No ☐

If yes, specify below the elements of the water rights you are requesting to rent. **If no,** continue to Question 4B.

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via IDWR's website.

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. **Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request**. For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

Water Right Elements Leased to Water Supply Bank					Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request		
Water Right Number (leave blank if sub-total of combined limits)	Nature of Use	Diversion Rate (CFS)	Volume (AF)	Acres (AC)		Diversion Rate (CFS)	Volume (AF)	Acres (AC)
34-2397A	Irrigation	0.30	52.5	15		0.30	52.5	15
34-7210A	Irrigation	0.06	14.4	4.1		0.06	14.4	4.1
34-2397B	Irrigation	0.05	8.7	2.5		0.05	8.7	2.5
Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre limits of water rights leased to the Water Supply Bank					**TOTAL**	0.41	75.6	21.6
						CFS	**AF**	**AC**

**Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.*

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:

C. Does your rental request propose to change the nature of use for any water right(s) being rented? Yes ☐ No ☑

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient, attach a separate page and label it **Attachment 4C**:

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

5. ADDITIONAL INFORMATION

A. Is this the first time that rental water is being requested for this purpose at the rental place of use? Yes ☑ No ☐
If no, list previous rental requests/agreements and explain why you have not secured a permanent water right for your needs:

B. Have you or do you intend to submit an application for permit or transfer proposing a similar use as this rental? Yes ☐ No ☑
If yes, describe:

C. Was this rental application submitted in response to a Notice of Violation (NOV) or a pending NOV? Yes ☐ No ☑
If yes, describe the date and location of the NOV.

D. Additional Information

DECLARATION

I hereby assert that the information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval. I understand that if this rental application is approved, it will be subject to the provisions of Section 42-1766, Idaho Code and all applicable state and federal laws. I understand that the submission of a rental application provides no guarantee for approval of a rental agreement. I also understand that, per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right and that I am not authorized to utilize water as proposed in this application prior to the execution of an approved rental agreement.

Application to Rent Water from the Water Supply Bank

The Applicant requires an additional 21.6 acres at the proposed place of use for irrigation of additional acres for the 2022-2026 irrigation seasons. This application proposes to rent water from the Water Supply Bank to cover the additional need.

Data Input Values

The TO Well location is the proposed point of diversion. The model cell is identified as R27 C109. The FROM1 Well location is identified as R28 C109. The FROM2 well location is identified as R26 C110. FROM3 Well is identified as R27 C110. Figure 1 shows the locations of the points of diversion used in the modeling scenario.

Figure 1. ESPA Model Grid

The standard consumptive use volume of 2.5 afa/acre was used to determine annual volume for each water right. A total of 18 af/trimester was used to represent depletions from all three FROM wells.

Results

Using ESPAM 2.2 to simulate the depletions of transferring 21.6 acres to the proposed place of use, the affects do not exceed the threshold of 2.0 af/trimester. No mitigation is required. Figures 2-4 include excerpts from the model simulation for this application.

RE: RENTAL OF WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO(S). 34-7210A, 34-2397A & 34-299, AGREEMENT 732

Dear Renter:

Please find enclosed a receipt in the amount of **$56.35** and a copy of a fully executed Water Supply Bank Rental Agreement in connection with the rental of 24.5 acre-feet of water for irrigation of 5.9 acres during 2023 - 2026. Upon receipt of this fully executed agreement, you are authorized to divert water in compliance with the conditions of water use described in the agreement.

Since you are both the lessor and the renter of the right(s), **you are only obligated to pay the 10% administrative fee or $56.35** for 2023.

If you have any questions, please contact this office at bank@idwr.idaho.gov or (208) 287-4800.

Sincerely,

Water Supply Bank

**RE: APPLICATION TO RENT WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO(S). 34-299, 34-2397A & 34-7210A, AGREEMENT 732**

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of **$563.50 per year** was calculated based on the current rental rate of $23.00 per acre-foot times a diversion volume of 24.5 acre-feet. Since you are both the lessor and the renter of the right(s), **you are only obligated to pay the 10% administrative fee or $56.35.** An annual payment shall be received by the Department prior to the execution of this agreement and prior to January 1 in all subsequent years for the duration of the rental period. The agreement will be void if payment is not received prior to the due date in a given year. If you would like to terminate the agreement prior to the end of the rental period, you must submit written notice of your intent to the Department at least 30 days prior to the rental fee due date.

Please send a check in the amount of $56.35 for 2023 made payable to the Idaho Department of Water Resources, **together with the signed rental agreement, within 14 days** so I can complete processing.

If you have any questions, please contact this office at (208) 287-4800.

Sincerely,

Jean Hersley

Bob,

The well is existing and is used quite frequently for this farm and nearby farms owned by the applicant or his son during periods of drought for temporary water right changes. It doesn't have any water rights appurtenant to it, but it is a valid and productive well that is capable of being used when a ground water right is obtained.

It used to be the point of diversion for water right 34-7223, which was transferred to another location later. The water right backfile shows this well location as the point of diversion when the right was licensed.

Here's the link to the well log.

https://research.idwr.idaho.gov/apps/Shared/LfRelatedDocs/Home/DownloadDoc?eid=1610147

Hope that helps.

Subject: Well Information for: Joel Andersen Rental for WR 34-14231

Hi Kristin,
When the rental agreement was being reviewed by my supervisor, he found an issue. There is no data in WMIS or our records for the point of diversion (well) at the rental POU. Can you please provide additional information regarding the well? Is it a point of diversion for a different water right located elsewhere? Or do you have any additional identifying information? Since we know there is there is surface water at the rental POU we need to ensure that there is an existing well to divert ground water for the rental. Thank you for any additional information you can provide.

Sincerely,

Bob Howe

Subject: Joel Andersen Rental for WR 34-14231

Hi Kristin,
I am reviewing the rental request you submitted for Joel Andersen (Application # 2283), which was held over from 2022. The rental application requests **0.43cfs** and **75.6 AF** for the irrigation of **21.6** acres to be acquired from specific water rights. Of the requested water rights 34-2397A, 34-2397B, & 34-7210A, only **0.12cfs** and **24.5 AF** for the irrigation of **7 acres** currently remains available through the end of 2026. I did notice that the leased water rights are owned by the renter therefore only administrative fees apply to the requested rights that are still available. Would you prefer to rent only the remaining available elements of the requested water rights, or would you like us to seek out additional water from the supply bank to fulfill the entire requested rental? Please let me know how you would like to proceed in this matter.
Please feel free to reach out to me with any questions or concerns.

Sincerely,

Bob Howe

Subject: RE: Joel Andersen Rental

Cody,

Yes, Mr. Andersen wants to continue with the rental, but you can push it back to the 2023 season. For 2022, he filed a temporary transfer to cover the entire pivot.

I don't know if you got the information, but since we were told this rental wouldn't be approved, we requested to amend another pending rental application to include a portion of 34-2397A for the property located in NESW Section 27, T5N R26E (the Wheeler property). The rentals for the Wheeler property were consolidated to increase rate and therefore was short of acres. I emailed a request to Mackenzie requesting that we add a portion of 34-2397A to the rental for the Wheeler place to bring the acres up to cover the remainder of the pivot. I have not yet seen a rental contract for that one, but it was in process.

So, for the half pivot in Section 8, I anticipate that the rentable acres will be reduced to whatever is left after a portion is taken out to cover the Wheeler place. Mr. Andersen is also aware of this and agrees.

Thanks,

Kristin Moore

Subject: Joel Andersen Rental

Kristin,

Can you tell me if Joel Andersen still wants to pursue a rental of groundwater for the irrigated land in the NWSE and SWSE of Sec 8 T04N R26E? This is a five-year rental application which proposed to stack groundwater onto a half pivot for irrigation when the surface water was not available. I noticed that the lease agreements were perhaps still pending signature and thought that maybe Mr Andersen did not want to pursue the rental. That may be because we previously said we would deny this rental. However, I now believe we can move forward with it.

If he used groundwater on the land this year then we can still have the rental agreement cover the use for 2022-2026. Otherwise I can approve the rental agreement starting in 2023. Just let me know what you would like to do.

Thank you

Cody Parker

MEMORANDUM FOR AGREEMENT # 2283

To: Water Right 34-2379A, 34-2397B, & 34-7210A

From: Bob Howe

Date: 02/17/2023

Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank

---

PURPOSE/NARRATIVE:

The complete application for rental of a portion of water rights (WR) 34-2397A, 34-23797B, &34-7210A was received on January 18th, 2022. The application was submitted by Kristin Moore, Rocky Mountain Environmental Assoc., Inc., on behalf of Joel Andersen. The rental requests 0.43cfs and 75.6 AF for the irrigation of 21.6 acres to be acquired from specific water rights owned by the renter. The renter/lessor intends to idle acres for some of his water rights and lease the ground water to supplement the surface water right at the rental place of use (POU). The rental point of diversion (POD) is a well previously appurtenant to WR 34-7223, which was moved to a different location as part of transfer #81740. The representative emailed the drillers well log and the POD map from the backfile as evidence of the groundwater diversion for the pivot. The rental POD location was set at the location presented in the rental application, as this location is supported by the POD map in the backfile for WR 34-7223. The representative noted that the lease and rental are on a private agreement, therefore only administrative fees will apply.

Review of the requested leased water rights found that only 0.12cfs and 24.5 AF for the irrigation of 7 acres remains leased into the Water Supply Bank (WSB). I emailed the representative to inquire if the applicant would like to rent the only remaining available portions of the requested water rights, or if they would like us to seek other water rights to fulfill the remaining requested rental. On February 20th, 2023, Kristin Moore responded that the renter would like to proceed with the rental of the remaining 7 acres available.

AUTHORITY TO FILE:

The rental application was signed by Joel Andersen, authorizing Kristin Moore as named representative. Parcel data lists Joel Andersen as the owner of the parcel the rental place of use (POU) is located within. IDWR list Joel Andersen as the current owner of WR 34-14231 (parent right 34-93) the surface water rights appurtenant to the rental POU. The only other overlapping water rights are for surface water belonging to the Big Lost River Irrigation District. There are no concerns regarding the applicant's authority to file for the purposed rental.

WATER RIGHT VALIDITY:

Lease Contract 1565- WR 34-2397A & WR 34-299:

The lease memo for application 2282 states that: water rights 34-2397A & 34-299 have not been previously leased into the Bank. An email from Kristin Moore (representative) states that the corners proposed for this lease were irrigated in 2015. Aerial imagery suggest that sometime between 2015 and 2016 the irrigation system was switched to a pivot system. The acres proposed for this lease were also utilized in Temporary Change Orders for 2020 and 2021 (TC34-164 &TC-34-178) which verify that the acres under the initial water right 34-2397A (the pivot corners) were put to beneficial use at the temporary change order's POU. Water right validity is not an issue.

Lease Contract 1572- WR 34-7210A:

The lease memo for application 2299 states that: Water right 34-7210A has not been previously leased into the WSB. The acres offered to the WSB have been offered previously in Water Right

Temporary Changes in 2021 and 2022. These acres were found to be valid during the evaluation. Since the water for the water right was used at a different location in those years, the water right is considered having been used for both years. Water right validity is not an issue.

INJURY TO OTHER WATER RIGHTS:

The portion of the requested water rights still available for rent from the water supply bank is less than the requested 21.6 acres of irrigation. The leased and rental PODs are not within the ESPA but are within the ESPA modeling grid. The requested leases are within one grid section of the rental POU/ POD, so ESPA modeling was not necessary. The leased and rented water rights all divert within a relatively local area to one another. There are no injury concerns regarding the rented portion of water rights from the bank.

ENLARGEMENT OF USE:

Lease Contract 1565- WR 34-2397A & WR 34-299:

The memo for the lease of WR 34-2397A notes that WR 34-299 diverts surface water for the same place of use as WR 34-2397A. The combined limits for WR 34-2397A & WR 34-299 are 3.12cfs for the irrigation of 120 acres (no stated volume).The surface water diversion is thought to be supplemental to the ground water. The applicant stated that the corners idled for the lease will not be irrigated by the surface water during the term of the lease. I analyzed the Landsat Imagery for the 2022 growing season and confirmed the corners are remaining idled. The elements of the leased portion were adjusted to ensure that the duty of water at the rental place of use is matched by the adjusted leased elements. The rentable total for the remaining portion of WR 34-2397A is a calculated 0.058cfs and 10.15AF for the irrigation of approximately 2.9 Acres.

There are no enlargement concerns regarding the leased portions of WR 34-2397 & WR 34-299.

Lease Contract 1572- WR 34-7210A:

The memo for the lease of WR 34-7210A notes that temporary change (TC) 34-212 will authorize the unleased portion of the water right to be used for irrigation. The Eastern Regional Office reached out to the lessor to confirm that the portion being offered to the Water Supply Bank (WSB) will not cause enlargement.

The elements of the leased portion of WR 34-7210A were condensed to match the full duty of water at the rental place of use (as per the WR 34-14231 and the headgate requirements). The rentable total for the remaining portion of WR 34-7210A was a calculated 0.061cfs and 10.6AF for the irrigation of approximately 3.03 Acres (condensed from 4.1 acres). There are no enlargement concerns regarding the rented portion of WR 34-7210A.

The rate and volume elements calculated for the rental were based on the decreed water rights and their elements.The figures entered for the rented elements in the WSB were matched to the rounded totals to ensure the remaining rental would result in a zero sum. The elements rented on the rental agreement document were rounded as per administrative memo #6.

LOCAL PUBLIC INTEREST:

Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES:

The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The location for both leases and the rental PODs are subject to Water District # 34 (Big Lost River). Comments from Eastern Region and District 34 Watermaster will be solicited. If no response is received, it is assumed that there were no concerns with the lease as proposed.
